"(e) An officer who has the qualifications specified in subsection (d) and who has been considered but not recommended for continuation on the active list pursuant to section 1 of this Act shall be considered for the purpose of subsection (d) as being retired under this Act if the officer retires voluntarily prior to the date specified for his retirement under this Act.

"(f) An officer who is retired under this Act shall thereafter be considered as having retired voluntarily pursuant to section 6323 of title 10, United States Code.

"Sec. 3. [Election of annuity; effective date of change or revocation.] Notwithstanding section 1431 of title 10, United States Code, a change or revocation of an election made under that section by—

"(1) an officer who is retired under this Act; or

"(2) an officer who has been considered but not recommended for continuation on the active list under this Act and who retires voluntarily before the date specified for his retirement under this Act;

is effective if made at such a time that it would have been effective had he been retired on the date prescribed by section 6376 or 6377 of title 10, United States Code. However, an original election or a new election made after a revocation is not effective unless made before the convening date of the board that considered the officer for continuation.

"Sec. 4. [Zones of consideration for Marine Corps majors.] (a) Until December 31, 1964, the Secretary of the Navy may establish zones of consideration for male officers of the Marine Corps serving in the grade of major, in addition to or instead of the promotion zones authorized by sections 5765 (b) and (c) of title 10, United States Code. The zone of consideration for that grade shall include such number of officers who are eligible for consideration for promotion as the Secretary determines to best meet the needs of the Marine Corps. The senior officer and the junior officer in a zone of consideration shall be designated by the Secretary. All officers junior to the senior officer and senior to the junior officer in a zone of consideration shall be in the zone of consideration. The zone of consideration for officers designated for supply duty shall consist of those officers who are junior to the senior officer and senior to the junior officer in the corresponding zone of consideration for officers not restricted in the performance of duty. Only officers who are in a zone of consideration or who are senior thereto may be considered by the selection board. Notwithstanding any other provision of law except the second sentence of subsection (c) of this section, the selection board may recommend as best fitted for promotion, from among the officers who are in or senior to a zone of consideration, the number of officers serving in the grade of major that the board is authorized to recommend for promotion to the grade of lieutenant colonel. An officer who is included within a zone of consideration but is not within or senior to a promotion zone and who is not selected for promotion is not considered as having failed of selection for any purpose.

"(b) Whenever a zone of consideration is established for the grade of major pursuant to this section the term 'promotion zone' as used in section 5759(b) of title 10, United States Code, is synonymous with the term 'zone of consideration'.

"(c) Notwithstanding the last sentence of section 5765 (b) of title 10, United States Code, the Secretary shall, until December 31, 1964, determine the number of officers of the Marine Corps in a promotion zone for promotion to lieutenant colonel on the basis of a consideration of the number of vacancies estimated for the grade of lieutenant colonel in the next five years, the required number of vacancies in the grade of major, and the age and service characteristics of the officers in the grade of major. The Secretary may, until December 31, 1964, specify the maximum number of officers who may be

recommended for promotion to the grade of lieutenant colonel from within and above a promotion zone established under section 5765 of title 10, United States Code [section 5765 of this title]. That portion of section 5765(b) of title 10, United States Code, which reads 'in order to maintain a flow of promotion consistent with the terms of service set out in section 5768 of this title and' is suspended until December 31, 1964, for the grade of major.

"Sec. 5. [Suspension during war or national emergency.] The President may suspend any provision of section 1 or 4 of this Act during a war or national emergency hereafter declared. Such a suspension may not continue beyond June 30 of the fiscal year following that in which the war or national emergency ends.

"Sec. 7. [Applicability to Navy officers in the Medical Corps, Dental Corps, Medical Service Corps, or Nurse Corps.] No officer of the Navy in the Medical Corps, the Dental Corps, the Medical Service Corps, or the Nurse Corps is subject to the provisions of this Act during the effective period of the Act of June 27, 1957, Public Law 85–62 (71 Stat. 208) [see Effective and Termination Date note under section 454 of Appendix to Title 50, War and National Defense], as now or hereafter amended.

(a) At least once each year the Secretary of the Navy shall convene the following selection boards to recommend male officers of the Marine Corps for promotion and for continuation on the active list:

(1) A board to recommend brigadier generals for promotion to the grade of major general, consisting of nine officers holding permanent appointment in the grade of major general or above.

(4) A board to recommend captains for promotion to the grade of major and a board to recommend first lieutenants for promotion to the grade of captain, each consisting of nine officers serving in the grade of colonel or above.

(b) Except as provided in subsections (c), (d), and (e), selection boards convened under this section shall be composed of officers of the Regular Marine Corps on the active list or the retired list, not restricted in the performance of duty.

(c) If nine general officers are not available to comprise a selection board to recommend officers for promotion to the grade of major general, brigadier general, or colonel, the Secretary shall complete the prescribed membership by appointing as members of the board officers on the active list in

In subsection (a) the words "these boards shall be appointed by the Secretary of the Navy", the words "the composition of the boards to be determined by the Secretary of the Navy", and the words "and at such times as the Secretary of the Navy may direct" are omitted as surplusage.

The provisions in the second and third provisos of 34 U. S. C. 626-1 (f), relating to the substitution of rear admirals for general officers on selection boards, are combined in subsection (c). The words "without placing thereon general officers who served as members of the same corresponding board the preceding year" and the words "in order to comply with the provisions of section 305 (a) (2) [34 U. S. C. 306 (a) (2)] of this title" are omitted as unnecessary, since the provisions of 34 U. S. C. 306 (a) (2) are covered in subsection (f).

In subsection (d) the last sentence of 34 U. S. C. 626-1 (g) is omitted as surplusage. As to officers designated for supply duty it merely repeats the preceding sentence. As to officers designated for limited duty it is meaningless, since officers of that designation may not have the grade of colonel or above and are therefore ineligible to serve on selection boards.

Subsection (e) is added to reflect the effect on this section of § 254 of the Armed Forces Reserve Act of 1952 (50 U. S. C. 1005), which is codified in § 266 of this title.

AMENDMENTS

1961—Subsec. (a). Pub. L. 87-123, § 5(11)(A), redesignated former clauses (2), (3), (4), and (5) as (1), (2), (3), and (4), respectively, and eliminated former clause (1) which permitted convening of a board to recommend colonels designated for supply duty for continuation on the active list.

Subsec. (d). Pub. L. 87-123, § 5(11)(B), redesignated former subsec. (e) as (d), and eliminated former subsec. (d) which authorized appointment of supply officers as alternate members of selection board in cases when officers designated for supply duty are eligible for consideration.

Subsecs. (e) and (f). Pub. L. 87-123, § 5(11)(B) redesignated former subsecs. (e) and (f) as (d) and (e), respectively.

§ 5707. Officers to be recommended for promotion or continuation.

(a) Of the officers considered for promotion by a selection board convened under this chapter, the board shall recommend for promotion, as appropriate—

(1) those eligible male officers on the active list in the line of the Navy or on the active list of the Marine Corps whom the board considers best fitted for promotion;

(2) those eligible officers on the active list of the Navy, other than women officers appointed under section 5590 of this title, under consideration for—

(A) promotion to any grade in the Supply Corps or the Civil Engineer Corps; or

(B) promotion to the grade of commander or above in any other staff corps;

whom the board considers best fitted for promotion;

(3) those eligible officers other than women officers appointed under section 5590 of this title, on the active list of the Navy in any staff corps not otherwise provided for in this subsection, whom the board considers fitted for promotion;

(4) those eligible women officers, appointed under section 5590 of this title, on the active list of the Navy in the line or a staff corps or on the active list of the Marine Corps under consideration for promotion to the grade of captain (Navy), commander, lieutenant commander, colonel, lieutenant colonel, or major whom the board considers best fitted for promotion;

(5) those eligible women officers, appointed under section 5590 of this title, on the active list of the Navy in the line or a staff corps or on the active list of the Marine Corps under consideration for promotion to the grade of lieutenant in the Navy or captain in the Marine Corps whom the board considers qualified for promotion; or

(6) those eligible officers not on the active list of the Navy or the Marine Corps whom the board considers qualified for continued active duty.

(b) Each selection board convened under the preceding sections of this chapter to recommend officers for continuation on the active list shall recommend those officers under consideration whom it considers best fitted for continued service on the active list.

(c) From among those eligible officers on the active list of the Navy or on the active list of the Marine Corps who are junior in lineal rank to the junior officer in the appropriate promotion zone in any grade below that of captain in the Navy or colonel in the Marine Corps, the board may recommend as best fitted for promotion a number of officers that does not exceed 5 percent of the total number of officers that the board is authorized to recommend for promotion to the grade concerned, unless that number is less than one, in which case it may recommend one such officer.

(d) The recommendation of any selection board with respect to the promotion of officers of the Navy designated for engineering duty, aeronautical engineering duty, special duty, or limited duty, or officers of the Marine Corps designated for limited duty shall be based upon their comparative fitness within such categories, for the duties prescribed for them by law.

(e) The recommendation of a selection board with respect to any woman officer on the active list in the line of the Navy or the active list of the Marine Corps shall be based upon her comparative fitness for the duties to which she is assigned in the line of the Navy or in the Marine Corps. The recommendation of a selection board with respect to any woman officer on the active list in any staff corps, appointed under section 5590 of this title, shall be based upon her comparative fitness for the duties to which she is assigned in her staff corps.

(f) Administrative staff duty, duty in aviation, supply duty, or duty in any technical specialty performed by an officer of the Marine Corps shall be

given weight by the selection board in determining his fitness for promotion equal to that given to line duty equally well performed.

(g) The status of having once failed of selection for promotion to a grade shall not prejudice an officer with respect to his qualifications, his fitness for the naval service, or his eligibility for selection for promotion to that grade by the next succeeding selection board.

(h) The total number of officers that may be recommended for promotion in any grade may not exceed the number furnished the board concerned by the Secretary of the Navy under section 5706 of this title. The number of officers that may be recommended for continuation on the active list by a board convened under this chapter may not exceed the number furnished the board concerned by the Secretary under section 5706 of this title.

(i) No officer may be recommended for promotion or for continuation on the active list unless he receives the recommendation of at least two-thirds of the acting members of the board concerned. However, a board composed of five acting members or less may so recommend an officer upon the concurrence of a majority of its members. (Aug. 10, 1956, ch. 1041, 70A Stat. 341; Aug. 21, 1957, Pub. The words "other than women officers appointed under section 5590 of this title" are inserted in clauses (2) and (4) of subsection (a) to make these clauses inapplicable to women staff corps officers appointed under the Women's Armed Services Integration Act of 1948. The words "appointed under section 5590 of this title" are inserted in clauses (5) and (6) of subsection (a) to make those clauses applicable only to women officers appointed under the Women's Armed Services Integration Act of 1948.

Section 309 (b) (1) of the Officer Personnel Act of 1947 (34 U. S. C. 306d (b) (1)) provides for the promotion of limited duty staff corps officers on a best fitted basis and for the promotion of all officers in the Supply Corps and the Civil Engineer Corps on a similar basis. Since the appointment of officers designated for limited duty in staff corps is limited to the Supply Corps and the Civil Engineer Corps, this rule is stated only once as to all officers in these two corps. Section 309 (b) (1) after providing for the promotion of lieutenants and lieutenants (junior grade) in the Civil Engineer Corps on a best fitted basis also provides for their promotion on a fitted basis. Since § 308 (b) (3) of the Officer Personnel Act of 1947 (34 U. S. C. 306c (b) (3)) provides for a forced attrition among these officers for promotion to the next higher grade, it is obvious that this latter rule is in error.

In subsection (f) the words "under appointment or detail" referring to administrative duty performed by any officer of the Marine Corps are omitted as surplusage.

In subsection (g) the words "to a grade" and "for promotion to that grade" are inserted for clarity. The word "prejudice" is substituted for the words "be considered as prejudicial to."

AMENDMENTS

1967—Subsec. (a)(4). Pub. L. 90–130 added captain (Navy) and colonel to the list of grades whom the board considers best fitted for promotion.

1961—Subsec. (d). Pub. L. 87–123, § 5(13)(A), eliminated provisions which related to Marine Corps officers designated for supply duty.

Subsec. (f). Pub. L. 87–123, § 5(13)(B), inserted "supply duty," before "or duty in any technical specialty."

1957—Subsec. (a). Pub. L. 85–155 renumbered clauses (4)—(7) as clauses (3)—(6). Former clause (3), which related to recommendation for promotion of officers under consideration for promotion to the grade of commander or lieutenant commander in the Nurse Corps, was repealed by Pub. L. 85–155.

OFFICER PERSONNEL ACT OF 1947

Provisions relating to officers of the Navy, see note under section 5701 of this title.

CHAPTER REFERRED TO IN OTHER SECTIONS

This chapter is referred to in section 5902 of this title; title 37 section 904.

§ 5751. Navy, male line officers; Marine Corps, male officers: eligibility for consideration by selection board.

(a) Each officer who is serving in the grade of brigadier general in the Marine Corps is eligible for consideration for promotion to the grade of major general by a selection board that is convened under chapter 543 of this title in the fiscal year in which he completes three years of service in the grade of brigadier general.

(b) Each male officer in the line of the Navy and each male officer of the Marine Corps is eligible for consideration for promotion to the next higher grade by a selection board that is convened, under chapter 543 of this title, in the fiscal year in which he completes the following service in the grade in which he is serving:

(1) Three years in the grade of captain in the Navy or colonel in the Marine Corps.

[1] Section 5775 repealed and analysis was not amended to reflect such repeal.

(2) Five years in the grade of commander in the Navy or lieutenant colonel in the Marine Corps.

(3) Four years in the grade of lieutenant commander in the Navy or major in the Marine Corps.

(4) Four years in the grade of lieutenant in the Navy or captain in the Marine Corps.

(5) Two years in the grade of lieutenant (junior grade) in the Navy or first lieutenant in the Marine Corps.

(c) For the purpose of this section, service in a grade includes all service in that grade or a higher grade, under either a temporary or a permanent appointment. However, service under a temporary appointment which, by its own terms, is limited in duration is considered only as service in the grade that the officer concerned would have held if he had not been so appointed. An officer promoted after August 7, 1947, shall be credited with service in the grade to which promoted only from the date of his eligibility for promotion to that grade.

(d) Notwithstanding the provisions of subsections (a), (b), and (c), no officer who has not lost numbers or precedence may become eligible for consideration by a selection board until all officers of his grade senior to him in lineal position are so eligible.

(e) Of the officers in any grade designated for limited duty who would otherwise be eligible for consideration for promotion under this section, only the junior officer in the promotion zone for officers designated for limited duty and officers senior to him in the grade concerned are eligible for consideration. (Aug. 10, 1956, ch. 1041, 70A Stat. 346; Aug. 3, 1961, Pub. L. 87–123, § 5 (16), 75 Stat. 266.)

PROMOTION AND ALLOCATION OF REASSIGNED SUPPLY DUTY OFFICERS

Section 3 of Pub. L. 87–123 provided that:

"(a) Each officer serving in the grade of brigadier general or colonel who is reassigned as an officer not restricted in the performance of duty by this Act [amending sections 5001, 5204, 5409, 5443, 5448, 5589, 5703, 5706, 5707, 5709, 5751, 5765, 5769, 5775, 5776, 6374, 6376, 6377, and 6378 of this title, and repealing sections 5205, 5588, 5759, 6020, and 6375 of this title], and who is senior to the senior officer in the first promotion zone established for his grade after the enactment of this Act [Aug. 3, 1961], shall be considered for all purposes to be in that promotion zone.

"(b) Within the number of officers not restricted in the performance of duty that may be recommended for promotion to a grade below brigadier general, as determined under section 5756 of title 10, United States Code, the Secretary of the Navy shall allocate a portion thereof for officers on the active list of the Marine Corps who were formerly designated for supply duty and who were reassigned as officers not restricted in the performance of duty by this Act. The portion allocated shall afford at least the same opportunity for promotion to such officers as is afforded other officers not restricted in the performance of duty. That sentence relates to computation of service in grade in the case of women officers transferred from the Naval Reserve to the Regular Navy under the act of April 18, 1946, ch. 141 (34 U. S. Subsec. (a). Pub. L. 90–130, § 1(19) (B), (C), struck out requirement that eligible women officers in the line of the Navy and in the Marine Corps be on the active list in such services, added clause (1), and redesignated former clauses (1)—(3) as clauses (2)—(4) respectively.

1958—Subsec. (a) (3). Pub. L. 85–861 substituted "Such period of service" for "Three years", and inserted "as the Secretary of the Navy prescribes" after "Marine Corps".

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in title 37 section 904.

§ 5753. Navy; staff corps officers: eligibility for consideration by selection board.

(a) Except as provided in subsection (b), staff corps officers are eligible for consideration for promotion to the next higher grade by a selection board convened under chapter 543 of this title when their running mates become eligible for consideration.

(b) Officers in the Medical Corps, the Judge Advocate General's Corps, the Chaplain Corps, the Dental Corps, the Medical Service Corps, and the Nurse Corps, in the grades of lieutenant and lieutenant (junior grade), except officers in those corps appointed under section 5590 of this title, are eligible for consideration for promotion to the next higher grade by a selection board convened under chapter 543 of this title when they are in the promotion zone or are senior to the officers in the promotion zone in the grade in which they are serving. (Aug. 10, 1956, ch. 1041, 70A Stat. 347; Aug. 21, 1957, Pub. L. 85–155, title II, § 201(8), 71 Stat. 382; Nov. 8, 1967, Pub. L. 90–130, § 1(19) (D), 81 Stat. 378; Dec. 8, 1967, Pub. HISTORICAL AND REVISION NOTES

Revised section	Source (U. S. Code)	Source (Statutes at Large)
5753	34 U. S. C. 306b (b) (2) (1st sentence); 34 U. S. C. 306b (3); 34 U. S. C. 21e (less appointing authority and less provisos); 34 U. S. C. 307 (f); 34 U. S. C. 105k.	Aug. 7, 1947, ch. 512, § 307 (b) (2) (1st sentence), 61 Stat. 843. Aug. 7, 1947, ch. 512, § 307 (b) (3), 61 Stat. 844. June 24, 1952, ch. 457 (less appointing authority and less provisos), 66 Stat. 155. June 12, 1948, ch. 449, § 206 (f), 62 Stat. 364. June 12, 1948, ch. 449, § 217, 62 Stat. 370.

In subsection (a) the words "except captains in the Medical Service Corps and commanders in the Nurse Corps" are omitted as surplusage. Chapter 543 does not provide for the convening of selection boards to consider these officers for promotion. The rule set out in 34 U. S. C. 306b (b) (3), relating to staff corps officers designated for limited duty, is omitted since it is covered in subsection (a). Limited duty officers in the line are not eligible for consideration for promotion unless they are in the promotion zone or senior to officers in the zone for officers of their grade and designation. Limited duty staff corps officers have limited duty line officers as running mates. Therefore, to say that a staff corps limited duty officer is eligible for consideration when his running mate is eligible is the same as saying (as the omitted part says) that he is eligible when his running mate is the junior officer, or is senior to the junior officer, in the promotion zone for line officers designated for limited duty.

AMENDMENTS

1967—Subsec. (a). Pub. L. 90–130 struck out reference to subsec. (c) of this section.

Subsec. (b). Pub. L. 90–179 inserted the reference to the Judge Advocate General's Corps.

Subsec. (c). Pub. L. 90–130 struck out subsec. (c) which made women officers on the active list of the Navy in a staff corps appointed under section 5590 of this title eligible for consideration for promotion to the next higher grade under certain conditions.

1957—Subsec. (b). Pub. L. 85–155 included officers in the Nurse Corps in the grade of lieutenant.

SUSPENSION OF SECTION

Section as inoperative whenever the number of male officers serving on active duty in the grade of ensign or above in the line of the Navy does not exceed the number of male officers holding permanent appointments in the grade of ensign or above on the active list in the line of the Regular Navy, see subsecs. (a) and (b) of section 48 of act Aug. 10, 1956, set out as a note under section 5505 of this title.

(a) Each officer who becomes eligible for consideration for promotion under the preceding sections of this chapter remains so eligible while on active duty regardless of failures of selection for promotion.

(b) A selection board convened under chapter 543 of this title may not consider for promotion to the next higher grade any officer whose name is on the promotion list for that grade as a result of his selection by an earlier board convened under that chapter. June 12, 1948, ch. 449, § 206 (a), 62 Stat. 364.

In subsection (a) the words "active duty" are substituted for the words "the active list". The latter term, as defined in this subtitle, relates only to officers holding permanent appointments in grades above chief warrant officer, W–4, in the regular components, whereas in § 307 of the Officer Personnel Act of 1947, as amended (34 U. S. C. 306b), it is used to describe all officers to whom Title III of the act applies, i. e., all who are "officers" as defined in § 302 (34 U. S. C. 3c). This includes temporary officers and reserve officers on active duty as well as regular officers.

SUSPENSION OF SECTION

Section as inoperative whenever the number of male officers serving on active duty in the grade of ensign or above in the line of the Navy does not exceed the number of male officers holding permanent appointments in the grade of ensign or above on the active list in the line of the Regular Navy, see subsecs. (a) and (b) of section 48 of act Aug. 10, 1956, set out as a note under section 5505 of this title.

§ 5755. Communications with selection board.

Each officer eligible for consideration for promotion by a selection board convened under chapter 543 of this title has the right to send a communication through official channels at any time not later than ten days after the convening of that board inviting attention to any matter of record in the Department of the Navy concerning himself which he considers important in his case. The communication may not criticize any officer or reflect upon the character, conduct, or motive of any officer. (Aug. 10, 1956, ch. 1041, 70A Stat. 348.)

§ 5763. Regular Navy; women staff corps officers appointed under section 5590 of this title: number that may be recommended for promotion.[1]

The Secretary of the Navy shall furnish the appropriate selection board convened under chapter 543 of this title with the number of women officers of the Navy in a staff corps, other than officers of the Nurse Corps and women officers appointed under section 5574, 5578, 5579, or 5581 of this title, that may be recommended for promotion to the grade of captain, commander, or lieutenant commander. SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 5776 of this title; title 37 section 904.

§ 5767. Officers qualified for specific duties: promotion to flag or general officer grade.

(a) Whenever the Secretary of the Navy determines that there are not enough officers to meet the needs of the service in the grade of rear admiral in the Navy or in the grade of major general or brigadier general in the Marine Corps, who are specially qualified for a type of duty required of officers of the grade concerned, he may direct that, of the total number of officers that a selection board may recommend for promotion to that grade, a specified number shall be officers who are specially qualified for the required type of duty. If, solely as a result of this section, the selection board selects an officer who is junior to the junior officer in the promotion zone, the board shall so certify in its report.

(b) Each officer who is promoted solely by operation of subsection (a) and who is junior to the junior officer in the promotion zone shall, when one or more officers junior to the junior officer in that promotion zone are promoted pursuant to the report of the next selection board convened after the board which selected him, have his rank adjusted in the grade for which selected according to his relative rank with such other officers in the grade from which they were promoted, unless at the time of his selection there was another officer junior to him selected under provisions other than those of subsection (a). If an officer's rank is to be adjusted under this subsection, the President, when all officers concerned are promoted to the grade for which selected, shall assign to him a later date of rank that will insure the order of rank as provided in this subsection, and the officer shall take rank from the later date. If he is a staff corps officer, he shall have a new running mate assigned to him in accordance with his adjusted rank.

(c) Whenever the Secretary determines that there is a position of sufficient importance and responsibility to require an incumbent in the grade of rear admiral or brigadier general, and that there is a woman officer of the Navy or the Marine Corps who is best qualified to perform the duties of the position, he may designate that woman officer to hold that position. A woman officer so designated may be appointed by the President, by and with the advice and consent of the Senate, to the grade of rear admiral or brigadier general. Such an appointment is effective on the date the officer reports for the designated duty and terminates on the date she is detached. (Aug. 10, 1956, ch. 1041, 70A Stat. 355; Nov. 8, 1967, Pub. (b) Each staff corps officer whose name is placed on a promotion list under subsection (a) is eligible for promotion to the grade for which selected when the line officer who is to be his running mate in the higher grade becomes eligible for promotion to that grade. When promoted, each such staff corps officer shall be assigned the same date of rank as that of his running mate in the higher grade. (Aug. 10, 1956, ch. 1041, 70A Stat. 359; Aug. 21, 1957, Pub. AMENDMENTS

1967—Subsec. (a). Pub. L. 90–130, § 1(19)(Q), eliminated the category of women officers appointed under section 5590 of this title which had been excepted from the effect of the provision under which recommendations

for promotion are considered as selections for promotion upon the approval of the report by the President.

Subsec. (b). Pub. L. 90–130, § 1(19)(R), eliminated exception for persons affected under subsec. (c) of this section.

Subsec. (c). Pub. L. 90–130, § 1(19)(S), struck out subsec. (c) which provided that each commander and lieutenant commander in the Nurse Corps whose name was placed on a promotion list under subsec. (a), could be promoted to the grade for which selected when a vacancy occurred for her in that grade, and that, when promoted, each such officer should be assigned the same date of rank as that of his running mate in the higher grade.

1966—Subsec. (c). Pub. L. 89–609 substituted "the person" for "her" in the first sentence.

1957—Subsec. (c) Pub. L. 85–155 substituted "Each commander and lieutenant commander in the Nurse Corps" for "Each commander in the Medical Service, and each lieutenant commander and lieutenant in the Nurse Corps" and "her" for "him".

§ 5776. Failure of selection.

(a) Subject to subsection (b), an officer in the line of the Navy, or an officer of the Marine Corps, who is eligible for consideration for promotion by a selection board convened under chapter 543 of this title and is not selected for promotion is considered as having failed of selection for promotion if he is, or is senior to, the junior officer of his category in the promotion zone established in his grade under section 5764 or section 5765 of this title. Such an officer is not considered as having failed of selection if he is junior to the junior officer of his category in the promotion zone in his grade.

(b) A male officer in the line of the Navy restricted in the performance of duty serving in the grade of captain who is eligible for consideration for promotion by a selection board convened under chapter 543 of this title and who is not selected for promotion is not considered as having failed of selection. There are no promotion zones for such officers for promotion to the grade of rear admiral.

The words "failed of selection" are words of art. As this section shows, they do not describe all officers who have in fact been considered for promotion and have not been selected. On the other hand, they may also be used to describe officers who have not actually failed of selection. (See § 5777 and § 5865 of this title.) The fiction is employed, as indicated in §§ 5764 and 5765 of this title, to control the rate of attrition. The provisions of the Officer Personnel Act of 1947 relating to the retirement and discharge of officers who have twice "failed of selection" are codified in chapter 573 of this title.

In subsection (b), the second sentence is added in the interest of completeness and clarity.

The fourth proviso in 34 U. S. C. 306d (b) (1), source for subsections (c) and (d), excepts lieutenant commanders and lieutenants in the Nurse Corps from its provisions. It does not indicate when, if ever, these officers are considered as having failed of selection. The fact that they are never so considered is apparent, however, since the Officer Personnel Act of 1947 does not provide for their involuntary retirement or discharge for having failed. Subsection (d) is worded accordingly.

Subsection (e) is added in the interest of completeness and clarity. Section 207 (a) of the Women's Armed Services Integration Act of 1948 (34 U. S. C. 410r (a)) makes the provisions of the Officer Personnel Act of 1947 relating to the retirement and discharge of officers for failure of selection inapplicable to women officers appointed under the 1948 act. While it does not specifically state that there are no promotion zones for women officers and that they are never considered as having failed of selection, it has that effect because the zones and the concept of "having failed of selection" have no meaning apart from the provisions relating to forced attrition. The Women's Armed Services Integration Act of 1948 contains provisions relating to retirement and discharge, but these have nothing to do with failure of selection as defined in the Officer Personnel Act of 1947.

AMENDMENTS

1967—Subsec. (a). Pub. L. 90–130, § 1(19)(U), eliminated limitation restricting the subsec. to male officers.

Subsec. (c). Pub. L. 90–130, § 1(19)(V), struck out reference to subsecs. (d) and (e) of this section.

Subsec. (d). Pub. L. 90–130, § 1(19)(W), struck out subsec. (d) which provided that officers in the Nurse Corps eligible for promotion by a selection board convened under chapter 543 of this title and not selected for promotion should not be considered as having failed of selection for promotion.

Subsec. (e). Pub. L. 90–130, § 1(19)(W), struck out subsec. (e) which provided that women officers appointed under section 5590 of this title who were eligible for promotion by a selection board convened under chapter 543 of this title and not selected for promotion were not considered as having failed of selection for promotion.

1966—Subsec. (d). Pub. L. 89–609 substituted "the person" for "her" in the first sentence.

1961—Subsec. (b). Pub. L. 87–123 deleted ", or a male officer of the Marine Corps restricted in the performance of duty serving in the grade of colonel," which followed "grade of captain", and "or brigadier general" which followed "grade of rear admiral."

1957—Subsec. (d). Pub. L. 85–155 eliminated "in the grade of lieutenant commander or lieutenant" which preceded "in the Nurse Corps".

§ 5777. Removal from promotion list.

(a) The President may remove the name of any officer from a promotion list.

(b) If the Senate rejects an officer's appointment to the grade for which he has been recommended, the officer's name shall be removed from the promotion list.

(c) An officer whose name is removed from a promotion list under subsection (a) or (b) continues to be eligible for consideration for promotion. If he is recommended for promotion by the next selection board, and the report of the board is approved by the President, his name shall be placed on the promotion list without prejudice and, if he is promoted, he shall have the same lineal position and date of rank that he would have had if his name had not been removed. However, if the officer is not recommended for promotion in the approved report of the next selection board, or if he is so recommended but the President removes his name from the promotion list or the Senate rejects his appointment, he is considered for all purposes as having twice failed of selection for promotion. June 12, 1948, ch. 449, § 213 (a), 62 Stat. 369.

This section is applicable to women officers because titles I and II of the Officer Personnel Act of 1947 contain, in §§ 111 (c) and 211 (c), identical provisions. Failure of selection has no consequences in the case of women officers appointed under the Women's Armed Services Integration Act of 1948 or in the case of lieutenant commanders and lieutenants in the Nurse Corps, so that the last sentence of subsection (c) is meaningless as to them. There is no doubt, however, that they are entitled to the benefits of the remainder of the section.

In subsection (a), the words "of the line or of a staff corps" are omitted as surplusage and to avoid the necessity of adding "or an officer of the Marine Corps".

Subsection (b) is added for clarity. It is implicit in the law; otherwise, it would be impossible for an officer whose appointment to a grade was rejected by the Senate to be reconsidered for promotion to that grade. Section 307 (a) (3) of the Officer Personnel Act of 1947 provides that an officer whose name is on a promotion list for a grade on the date a board is convened to consider officers for promotion to that grade may not be considered by that board.

§ 5778. Promotions under preceding sections: temporary; permanent.

Promotions under the preceding sections of this chapter of women officers selected by boards convened under section 5704 of this title shall be made by permanent appointments. Promotions of all other officers under the preceding sections of this chapter shall be made by—

(1) temporary appointments when sections 5442, 5443, and 5444 of this title are applicable; and

(2) permanent appointments when sections 5442, 5443, and 5444 of this title are inapplicable. (Aug. 10, 1956, ch. 1041, 70A Stat. 362; Nov. 8, 1967, Pub. L. 90–130, § 1(19)(X), 81 Stat. 379.)

HISTORICAL AND REVISION NOTES

The first sentence of this section covers the promotion, under the Women's Armed Services Integration Act of 1948, of women officers appointed under that act. The act contains no provision for temporary promotions; all promotions under it are permanent. Title III of the Officer Personnel Act of 1947, as amended, which authorizes temporary promotions, was made inapplicable to women appointed under the Women's Armed Services Integration Act of 1948 by § 215 of the latter act (34 U. S. C. 105i).

The second sentence of this section relates to the promotion of officers other than women officers appointed under the Women's Armed Services Integration Act of 1948. Except for these women officers and a few others not on a lineal list, all officers on active duty in the Navy and the Marine Corps, are, unless the Officer Personnel Act of 1947 is suspended, promoted under that act. Both temporary and permanent promotions may be made under it.

Title III of the Officer Personnel Act of 1947, as amended, is operative whenever the number of male line officers on active duty in the Navy exceeds the number of male line officers on the active list of the Navy, i. e., whenever there are any reserve or temporary line officers on active duty. The distribution-in-grade provisions of title III, codified in §§ 5442, 5443, and 5444 of this title, are, by § 5446 of this title, made applicable under these same conditions. The provisions of titles I and II of the Officer Personnel Act of 1947 relating to the distribution of regular officers in permanent grades are codified in §§ 5447, 5448, and 5449 of this title. These provisions unlike the other provisions of titles I and II, are applicable at all times.

When title III of the Officer Personnel Act of 1947 is operative, an officer who is selected for promotion may be promoted either by means of a temporary appointment in the next higher grade or by means of a permanent appointment in that grade, depending on certain

other factors. For example, a male line officer on the active list, not restricted in the performance of duty, receives a permanent promotion if there occurs, while he is on the promotion list, a vacancy for him in the next higher grade as determined by computations under title I. If there is no such vacancy but there is a vacancy as determined by computations under title III, he receives a temporary promotion. When title III is inoperative, there are, of course, no computations under that title, and all promotions are permanent. (The unrestricted, active-list, male line officer is used as an example because his eligibility for promotion largely determines the eligibility of most other officers.)

Clause (1) of the second sentence of this section covers the situation in which "Title III conditions" prevail and officers, for whom no vacancies exist as determined by computations under title I, are temporarily promoted to fill vacancies as determined by computations under title III. The permanent promotion of officers who are on a promotion list or have been temporarily promoted while title III is operative is covered in later sections of this chapter. Clause (2) of the second sentence of this section covers the permanent promotion of selected officers at times when title III is inoperative.

AMENDMENTS

1967—Pub. L. 90–130 substituted "selected by boards convened under section 5704" for "appointed under section 5590".

§ 5782. Regular Navy; staff corps officers: permanent promotion to grades below rear admiral.

(a) Permanent appointments may be made in any grade below rear admiral in any staff corps of the Regular Navy from officers on the active list in the corps concerned who—

(1) have been temporarily promoted to the grade concerned under the preceding sections of this chapter; or

(2) are on the promotion list for promotion to that grade under the preceding sections of this chapter.

(b) A staff corps officer whose running mate is on the active list of the Navy may be permanently appointed in a grade under this section when his running mate is permanently appointed in that grade under section 5780 of this title. A staff corps officer so appointed is considered as appointed simultaneously with his running mate and he shall be given the same date of rank as his running mate. A staff corps officer whose running mate is not on the active list of the Navy may be permanently appointed in a grade under this section when the most senior of those male line officers on the active list who are junior to his running mate is permanently appointed in that grade under section 5780 of this title. A staff corps officer so appointed is considered as appointed simultaneously with that line officer and he shall be given the same date of rank as that line officer.

(c) If a staff corps officer is on a promotion list for promotion under the preceding sections of this chapter and his running mate in the grade in which he is serving is not on such a promotion list, the line officer who is to be the running mate of the staff corps officer in the next higher grade is considered to be his running mate for the purpose of subsection (b). In subsection (a) the words "and regularly commission therein" are omitted as surplusage.

In subsection (b) the words "shall be given the same date of rank as his running mate" are substituted for the words "their commissions shall bear date of rank accordingly" for clarity.

The source for subsection (c) states that when a staff corps officer is on a promotion list and his running mate is not on such a list the staff corps officer "shall be appointed to the grade for which selected and be assigned a running mate and date of rank therein, in the manner prescribed in this section for a temporary promotion." "This section" is § 311 of the Officer Personnel Act of 1947 (34 U. S. C. 306f). Section 311 (b) (1) (34 U. S. C. 306f (b) (1)) provides that a staff corps officer is eligible for temporary promotion when the line officer who is to be his running mate in the higher grade becomes eligible for temporary promotion, and § 311 (d) (8) (34 U. S. C. 306f (d) (8)) describes the procedure for determining who that running mate will be. The source text was required to make reference to these provisions in order to make applicable to permanent promotions two provisions that are stated in terms of temporary promotions. In subsection (c), however, the reference to § 311 (b) (1) of the act is executed and the reference to § 311 (d) (8) is unnecessary because the word "temporary" is omitted from the codification of that subsection in § 5657 of this title. The source text does not clearly cover the case in which the line officer who is to be the running mate of the staff corps officer in the higher grade is not on the active list, but the intent appears to be that the rule stated in subsection (b) is to be applied. Subsection (c) is worded so as to make this plain.

The source for subsection (d) states that "nothing contained in this subsection shall operate to increase the allowed number of captains in the Medical Service Corps or the allowed number of commanders or lieutenant commanders in the Nurse Corps * * *". In effect this provision prohibits appointments in the grades and corps concerned when there are no vacancies. Subsection (d) states this meaning positively instead of by indirection.

AMENDMENTS

1967—Subsec. (d). Pub. L. 90-130 struck out subsec. (d) which prohibited the appointment of officers to the grade of captain or commander in the Nurse Corps unless there was a vacancy for the person in the grade in that corps as determined by computations made under section 5449 of this title.

1966—Subsec. (d). Pub. L. 89-609 substituted "the person" for "her".

1957—Subsec. (d). Pub. L. 85-155 substituted "in grade of captain or commander in the Nurse Corps unless there is a vacancy for her in the grade in that corps" for "in the grade of captain in the Medical Service Corps or in the grade of commander or lieutenant commander in the Nurse Corps unless there is a vacancy for him in the grade and corps concerned", and "section 5449" for section 5449 (c) and (d)".

§ 5783. Naval Reserve and Marine Corps Reserve: permanent promotion.

(a) Permanent appointments may be made in any grade in the line of the Naval Reserve from officers holding permanent appointments in the grade of ensign or above in the line of the Naval Reserve who are on active duty and who—

(1) have been temporarily promoted to the grade concerned under the preceding sections of this chapter; or

(2) are on the promotion list for promotion to the grade concerned under the preceding sections of this chapter.

An officer in the line of the Naval Reserve may be permanently appointed in a grade in the Naval Reserve under this subsection when the most junior of those male line officers on the active list who are senior to him is permanently appointed in that grade in the Regular Navy. The reserve officer is considered for all purposes to have been appointed simultaneously with the regular officer and he shall be given the same date of rank as the regular officer.

(b) Permanent appointments may be made in any grade in the Marine Corps Reserve from officers holding permanent appointments in the grade of second lieutenant or above in the Marine Corps Reserve who are on active duty and who—

(1) have been temporarily promoted to the grade concerned under the preceding sections of this chapter; or

(2) are on the promotion list for promotion to the grade concerned under the preceding sections of this chapter.

An officer of the Marine Corps Reserve may be permanently appointed in a grade in the Marine Corps Reserve under this subsection when the most junior of the male officers on the active list of the Marine Corps who are senior to him is permanently appointed in that grade in the Regular Marine Corps. The reserve officer is considered for all purposes to have been appointed simultaneously with the regular officer and he shall be given the same date of rank as the regular officer.

(c) Permanent appointments may be made in any grade in the Naval Reserve in any staff corps from officers holding permanent appointments in the grade of ensign or above in the Naval Reserve in the corps concerned who are on active duty and who—

(1) have been temporarily promoted to the grade concerned under the preceding sections of this chapter; or

(2) are on the promotion list for promotion to the grade concerned under the preceding sections of this chapter.

A reserve staff corps officer whose running mate is on the active list of the Navy may be permanently appointed in a grade in the Naval Reserve under this subsection when his running mate is permanently appointed in that grade in the Regular Navy. A reserve staff corps officer whose running mate is not on the active list of the Navy may be permanently appointed in a grade in the Naval Reserve under this subsection when the most senior of those male line officers on the active list of the Navy who are junior to his running mate is permanently appointed in that grade in the Regular Navy. If a reserve staff corps officer is on a promotion list for promotion under the preceding sections of this chapter and his running mate in the grade in which he is serving is not on such a promotion list, the line officer who is to be the running mate of the staff corps officer in the next higher grade is considered to be his running mate for the purpose of this subsection. A reserve staff corps officer permanently appointed in a grade under this subsection is considered as appointed simultaneously with the line officer upon whom his eligibility for permanent appointment depends, and he shall be given the same date of rank as that line officer. This section is worded to conform as nearly as possible to the language used in §§ 5780 and 5782.

The source for subsection (c) lacks specific provisions for the permanent promotion of staff corps officers of the Naval Reserve who are on a promotion list for temporary promotion. Administratively the source is interpreted as authorizing the promotion of these officers in the manner provided in § 5782 for staff corps officers in the Regular Navy. Subsection (c) is worded accordingly.

Section 304 (p) of the Officer Personnel Act of 1947 (34 U. S. C. 211a (p)) provides that all temporary promotions to grades above lieutenant (junior grade) shall be only upon the recommendation of selection boards as prescribed in title III of that act. Hence the temporary promotion authority contained in § 302 (d) of the act (34 U. S. C. 3c (d)) is restricted to the promotion of ensigns to the grade of lieutenant (junior grade) and the promotion of second lieutenants to the grade of first lieutenant.

In subsection (e) the words "do not change the * * * status" are substituted for the words "appointments * * * shall not be vacated". The word "advancement", the words "in accordance with laws relating to the Regular Navy or Marine Corps", and the words "privileges and gratuities" are omitted as surplusage. The first proviso in 34 U. S. C. 3c (e) is omitted as unnecessary in view of the Career Compensation Act of 1949.

Women officers appointed under the Women's Armed Services Integration Act of 1948 are excluded by § 215 of that act (34 U. S. C. 105j), from promotions under title III of the Officer Personnel Act of 1947. Subsection (f) of this section reflects that exclusion of regular officers. Other categories of officers that must be excluded pursuant to the Women's Armed Services Integration Act of 1948 and § 302 (a) of the Officer Personnel Act of 1947 (34 U. S. C. 3c (a)) are excluded by § 5786 of this title.

Subsection (a) (7) excludes from promotions under the provisions of the preceding sections of this chapter a group of officers not specifically excluded by §§ 302 (a) and 304 (a) of the Officer Personnel Act of 1947 (34 U. S. C. 3c (a) and 211a (a)), namely, persons (1) who do not have a permanent appointment in a grade above chief warrant officer, W–4; (2) who have at least one temporary appointment, other than an appointment for a period of limited duration, in a grade above chief warrant officer, W–4; and (3) whose temporary appointments in such grade or grades have all been made under the act of July 24, 1941, ch. 320, as amended (34 U. S. C. 350 et seq.), *subsequent* to the establishment of the lineal lists under title III of the Officer Personnel Act. Officers in this category were not mentioned in the cited sections of the Officer Personnel Act because, when that act was under consideration, it was not expected that the temporary promotion system provided in Title III and the temporary promotion system authorized by the 1941 act would ever be simultaneously in operation. Title III as first enacted was temporary law, to become inoperative by January 1, 1957, at the latest, and § 304 (n) (34 U. S. C. 211a (n)) prohibited further use of the 1941 act until the occurrence of a new war or emergency. A new emergency occurred, however, and title III was amended by the act of June 30, 1951, ch. 196, 65 Stat. 108, so that it is permanent law, effective whenever any reserve or temporary line officers are on active duty. Section 304 (n) was also amended by the same law so as to authorize the President to suspend the prohibition against the use of the 1941 act. The President made the authorized suspension. Section 9 of the 1941 act (34 U. S. C. 350h) provides that temporary officers appointed under that act "shall not be counted in any computation to determine the authorized number of officers in any grade." The language of this section is broad enough to exclude such temporary officers from computations under title III of the Officer Personnel Act of 1947. That Congress intended it to be so understood is indicated by the fact that the section was not amended when, in 1951, the authority to make appointments under the 1941 act was revived.

In subsection (c) the words "or in a grade to which he was temporarily promoted under section 5787 of this title" are inserted for reasons similar to those stated above.

AMENDMENTS

1967—Subsec. (a). Pub. L. 90–130 struck out clause (1) which listed women reserve officers, other than reserve officers in the Nurse Corps and other than reserve officers appointed under section 5581 of this title as ineligible for promotion under the preceding sections of this chapter.

SUSPENSION OF SECTION

Section as inoperative whenever the number of male officers serving on active duty in the grade of ensign or above in the line of the Navy does not exceed the number of male officers holding permanent appointments in the grade of ensign or above on the active list in the line of the Regular Navy, see subsecs. (a) and (b) of section 48 of act Aug. 10, 1956, set out as a note under section 5505 of this title.

§ 5787. Temporary promotions in time of war or national emergency.

(a) Promotions may be made under this section only in time of war or during a national emergency declared by the President.

(b) The President may promote to a higher grade any member of the naval service serving on active duty in the Navy in the grade of ensign or above or serving on active duty in the Marine Corps in the grade of second lieutenant or above. Such promotions shall be made under such regulations as the President prescribes and in such numbers as he determines the needs of the service require.

(c) The Secretary of the Navy, under such regulations as he prescribes, may promote to the next higher warrant officer grade any member of the naval service serving on active duty in a warrant officer grade below chief warrant officer, W–4.

(d) The grade of commodore in the Navy is established for the purposes of this section.

(e) Promotions under this section shall be made by temporary appointments. Each such appointment to the grade of commodore or above in the Navy or to the grade of brigadier general or above in the Marine Corps shall be made by the President, by and with the advice and consent of the Senate. Each such appointment to a warrant officer grade shall be made by the Secretary, by commission. All other temporary appointments under this section shall be made by the President alone.

(f) Temporary promotions under this section to the grade of lieutenant or above in the Navy or to the grade of captain or above in the Marine Corps may be made only upon the recommendation of a board of officers convened for that purpose. In addition to recommending officers for promotion, a board so convened shall make the report required by section 6395 of this title.

(g) Each temporary appointment under this section, unless expressly declined, is, without formal acceptance, regarded as accepted on the date made.

(h) Temporary appointments under this section do not change the permanent, probationary, or acting status of members so appointed, prejudice them in regard to other promotion or appointment, or abridge their rights or benefits.

(i) Temporary appointments under this section are effective for such periods as the President determines. However, no such appointment may be effective later than—

(1) six months after the end of the war or national emergency; or

(2) the date the appointee is released from active duty;

whichever is earlier.

(j) When his temporary appointment under this section is terminated or expires, each member of the naval service on active duty shall have the grade he would hold if he had not received any such appointment. (Aug. 10, 1956, ch. 1041, 70A Stat. 366; Sept. 7, 1962, Pub. L. 87-649, §§ 5(b), 14c(30), 76 Stat. 493, 501.)

The act of July 24, 1941, ch. 320, as amended (34 U. S. C. 350 et seq.), is codified in this section only to the extent that it authorizes temporary promotions. The authority to make original temporary appointments under this Act is covered in § 5597 of this title in the chapter on appointments.

In subsection (a) the provisions of 34 U. S. C. 211a (n) are omitted for the reasons stated in the revision note on § 5597 of this title. See that note also for other departures from the source.

In subsection (g) the words "or oath of office" are omitted as unnecessary inasmuch as the act of May 22, 1950, ch. 193, § 2 (34 U. S. C. 593a) provides that officers are not required to subscribe to the oath of office on promotion to a higher grade.

AMENDMENTS

1962—Subsec. (g). Pub. L. 87-649, § 5(b), eliminated provisions which related to pay and allowances of members receiving temporary appointments. See section 905(h) of Title 37, Pay and Allowances of the Uniformed Services.

Subsec. (h). Pub. L. 87-649, § 14c(30), repealed last sentence which prohibited a member who receives a temporary appointment under this section from suffering any reduction in the pay and allowances to which he was entitled at the time of his appointment. In subsections (a) and (b) the phraseology of the Officer Personnel Act of 1947 and the Women's Armed Services Integration Act of 1948 is used instead of the somewhat ambiguous language of the Act of March 3, 1899.

In subsection (a) the words "after passing the examinations required by law" are omitted as surplusage. Examinations for promotion are covered in chapter 547 of this title.

In subsection (a) the words "who holds a permanent appointment in the grade of ensign" are substituted for "of the grade of ensign" and the word "permanent" is inserted before "promotion". In subsection (b) the words "holding a temporary appointment in the grade of ensign" are substituted for "of the grade of ensign" and the word "temporarily" is inserted before "promotion". These changes are made to preserve the effect of § 316 (c) of the Officer Personnel Act of 1947 (34 U. S. C. 306g) which provides in effect that temporary officers shall not receive permanent appointments as a result of promotions authorized by title III of that act.

The words "Marine Corps" and "second lieutenant" are inserted to make clear the application of these subsections to second lieutenants of the Marine Corps.

In subsection (c) the words "unless he is entitled to them from an earlier date under another provision of law" are added to preclude an interpretation that an officer, upon his permanent promotion under subsection (a), might be required to refund part of the pay he received pursuant to a prior temporary promotion.

AMENDMENTS

1962—Subsec. (c). Pub. L. 87-649 repealed subsec. (c) which provided that each officer promoted under this section is entitled to the pay and allowances of the higher grade from his date of rank in that grade unless he is entitled to them from an earlier date under another provision of law. Each grade in the Navy and in the Marine Corps is an office and officers of the naval service are "Officers of the United States" in the constitutional sense. (See 30 Op. Atty. Gen. 177, re Army.) Under Art. II, Sec. 2, Clause 2, of the Constitution promotions to higher grades in the armed services, as well as original appointments, must be made by the President, by and with the advice and consent of the Senate, unless Congress specifically authorizes them to be made in some other manner. Since title III of the Officer Personnel Act of 1947 is silent as to how temporary promotions under that title are to be effected, the presumption is that they must be effected by temporary appointments made by the President and confirmed by the Senate. The presumption is strengthened by § 311 (c) (1) of the act (34 U. S. C. 306f (c) (1)), which states the effect of the rejection of an appointment by the Senate. So far as regular officers (including temporary officers of the regular components) are concerned there is nothing to refute the presumption, but a consideration of title III as a whole raises a doubt as to its validity in the case of reserve officers.

Title III of the Officer Personnel Act of 1947, in the sections cited as source, specifically requires confirmation by the Senate of the permanent appointments of officers of the Regular Navy and the Regular Marine Corps, probably to avoid any doubt as to the necessity of Senate confirmation in the case of officers who, when nominated for permanent appointment in a given grade, are already serving in that grade under a temporary appointment confirmed by the Senate. The fact that there is no similar requirement as to the permanent appointments of reserve officers gives rise to the inference that confirmation of their permanent appointments is not required, and that inference in turn casts doubt on the necessity for the confirmation of their temporary appointments.

The uncertainties in the Officer Personnel Act of 1947 are resolved by the Armed Forces Reserve Act of 1952. Sections 218 and 219 of the latter act (50 U. S. C. 942, 943), requiring Senate confirmation of reserve appointments only when the appointments are to flag or general officer grades, govern temporary and permanent promotions of reserve officers under title III of the Officer Personnel Act as well as original appointments in reserve components.

The exception as to § 5790 of this title is inserted in subsection (b) to preserve the positive requirement that the advice and consent of the Senate must be obtained

before an officer advanced in numbers may be promoted. Prior to the establishment of the lineal lists under the Officer Personnel Act of 1947 an advancement in numbers could have little meaning to a reserve officer, but it could benefit him now, and there is no reason to believe that Congress intended to exclude reserve officers from the benefits of the provision codified in § 5790. On the other hand, if reserve officers are to be advanced in numbers and promoted under that section, the peculiar conditions attached to this extraordinary type of promotion must presumably be applied, notwithstanding the provisions of the Armed Forces Reserve Act of 1952.

SUSPENSION OF SECTION

Before an officer of the Regular Navy or the Regular Marine Corps may be promoted to a grade above ensign in the Navy or second lieutenant in the Marine Corps, he must qualify for promotion by passing such physical examination as the Secretary of the Navy may prescribe. However, such an officer may not be excluded from a promotion to which he would otherwise be entitled if in his case the Secretary, or the Chief of the Bureau of Medicine and Surgery when authorized by the Secretary, determines that—

(2) these wounds do not incapacitate him for the performance of useful service in the higher grade.

R. S. 1493 is interpreted as applying only to the permanent promotions of officers in the Regular Navy and Regular Marine Corps (opinion of the Judge Advocate General of the Navy, File 28687–22, June 14, 1917, citing *Taylor* v. *U. S.*, 38 Ct. Cls. 155). This section is drafted to reflect this interpretation and also to reflect the fact that, as to warrant officers, R. S. 1493 and R. S. 1494 are superseded by the Warrant Officer Act of 1954. The words "or before an officer of the Navy or the Marine Corps may be temporarily promoted under section 5769, 5772, 5773, or 5784 of this title" are substituted for 34 U. S. C. 306p as that section applies to physical examinations for temporary promotion. 34 U. S. C. 306p has no application to 34 U. S. C. 211d or to 34 U. S. C. 623b, since those latter sections apply to appointments to grades as distinguished from promotions to grades. The second sentence of subsection (a) is substituted for the words "naval surgeons" to conform to the current statutory designation of these officers. The word "certified" is substituted for the word "pronounced". The words "subject to the provisions of section 284 of this title" were inserted in 34 U. S. C. 271 to preserve an exception to the rule in the case of certain staff corps officers. Section 411 (c) of the Officer Personnel Act of 1947 amended the law on which 34 U. S. C. 284 was based, so that it now provides that all laws relating to the examination of officers of the Navy for promotion shall apply to staff corps officers on the active list of the Navy; therefore the inserted words are no longer applicable and have been omitted.

AMENDMENTS

1958—Pub. L. 85–861 inserted "Regular Navy and Regular Marine Corps:" in the catchline, and substituted provisions requiring the Secretary of the Navy to prescribe the type of physical examination for provisions which required an examination and certification by a board of officers composed of officers of the Medical Corps or Dental Corps.

§ 5862. Navy and Marine Corps: mental, moral, and professional examination; examining board; board members; procedure.

(a) Before an officer on the active list of the Navy or the Marine Corps may be promoted permanently to the grade of lieutenant (junior grade)

or first lieutenant, he must demonstrate to the satisfaction of an examining board such mental, moral, and professional qualifications as the Secretary of the Navy may prescribe.

(b) Before an officer serving on active duty in a grade above ensign and below captain in the Navy or in a grade above second lieutenant and below colonel in the Marine Corps may be promoted to the next higher grade, he must demonstrate to the satisfaction of an examining board such professional qualifications as the Secretary may prescribe.

(c) Examining boards for the examination of officers under this section shall be convened from time to time by the Secretary or, when authorized by the Secretary, by the senior officer present, or other commanding officer, on a foreign station. A board convened by a senior officer present, or other commanding officer, on a foreign station may examine only officers who are under the command of the convening authority and who are directed to appear before the board.

(d) Each examining board convened under this section shall be composed of commissioned officers of the naval service. At least three members must act in each case. A member may not act in the case of an officer senior to him.

(e) The Secretary shall prescribe regulations governing the procedures to be followed by examining boards, including regulations to insure a full and fair hearing to officers whose cases come before the boards and who demand a hearing.

(f) The Secretary may suspend the operation of any part of this section in connection with the promotion of officers under section 5787 of this title. (Aug. 10, 1956, ch. 1041, 70A Stat. 369; Sept. 2, 1958, Pub. L. 85–861, § 1 (131), 72 Stat. 1498.)

R. S. 1496 is interpreted as applying only to the permanent promotion of officers of the Regular Navy and Regular Marine Corps (opinion of the Judge Advocate General of the Navy, File 28687–22, June 14, 1917, citing *Taylor* v. *U. S.*, 38 Ct. Cls. 155). Subsection (a) is drafted to reflect this interpretation and to exclude warrant officers from the application of the subsection. Provisions relating to promotion examinations for warrant officers, based on the Warrant Officer Act of 1954, are codified in subtitle A of this title.

The words "subject to the provisions of section 284" are omitted because staff corps officers of the Navy on the active list are subject to the same examination requirements as line officers under § 411 (c) of the Officer Personnel Act of 1947 (34 U. S. C. 284). 34 U. S. C. 274 does not carry the words "below the grade of commodore", which appear in R. S. 1496. The purpose of the Revised Statute section was to require examination for promotion to all grades that are in the regular line of promotion. The subsection is reworded, therefore, to cover promotions in the Navy to grades through rear admiral and in the Marine Corps through major general.

In subsection (d) so much of 34 U. S. C. 233 as authorized the Secretary of the Navy to delegate the authority to convene boards of medical examiners and retiring boards to the senior officer present, and other commanding officers, on foreign stations is omitted. There is no statutory requirement for boards of medical examiners to be convened by the Secretary. Therefore, these boards are convened by regulation under the general administrative authority of the Secretary. Statutory authority to delegate power to convene such boards is unnecessary. In the case of retiring boards, section 413 of the Career Compensation Act of 1949 (37 U. S. C. 283) provides that the Secretary shall prescribe regulations for the administration of the physical disability retirement of officers of the Navy and the Marine Corps as set out in that act, which includes all the work of the old retiring boards. This section of the Career Compensation Act of 1949, therefore, repeals by implication the authority contained in 34 U. S. C. 233 to delegate his authority to convene retiring boards.

AMENDMENTS

1958—Pub. L. 85–861 inserted "Navy and Marine Corps:" and "procedure", and substituted "examining board" for "examining boards", in the catchline.

Subsec. (a). Pub. L. 85–861 restricted application of subsection to promotions to the grade of lieutenant (junior grade) in the Navy or to lieutenant in the Marine Corps, and substituted provisions requiring the officer to demonstrate to the satisfaction of an examining board such mental, moral, and professional qualifications as the Secretary of the Navy may prescribe, for provisions which required an examination and certification by an examining board.

Subsec. (b). Pub. L. 85–861 substituted provisions requiring officers below captain in the Navy and below colonel in the Marine Corps before promotion to the next higher grade to demonstrate to the satisfaction of an examining board such professional qualifications as the Secretary may prescribe, for provisions which related to temporary promotion of officers below the grade of rear admiral in the Navy and below the grade of major general in the Marine Corps.

Subsec. (c). Pub. L. 85–861 redesignated former subsec. (d) as (c), and eliminated provisions which required the boards to be convened by the President. Former subsec. (c), which prohibited reexamination of officers for permanent appointment to a grade who successfully passed the examination for temporary promotion to that grade, was omitted by Pub. L. 85–861.

Subsec. (e). Pub. L. 85–861 redesignated former subsec. (e) as (d). Former subsec. (d) redesignated (c).

Subsec. (e). Pub. L. 85–861 added subsec. (e). Former subsec. (e) redesignated (d).

Subsec. (f). Pub. L. 85–861 added subsec. (f).

§ 5864. Discharge of officer not morally qualified.

An officer who is found by an examining board convened under section 5862 of this title to be, from any cause arising from his own misconduct, not morally qualified to perform the duties of the grade for which he is being examined shall, if the finding is approved by the President, be discharged from the naval service with not more than one year's pay. HISTORICAL AND REVISION NOTES

Revised section	Source (U. S. Code)	Source (Statutes at Large)
5864	34 U. S. C. 3.86	Aug. 5, 1882, ch. 391, § 1 (proviso of 3d sentence of 4th par. on p. 286), 22 Stat. 286.

Before the enactment of the source statute, the law provided, as it still provides, that no officer of the Navy should be promoted until an examining board found him to be mentally, morally, and professionally qualified and a board of naval surgeons found him to be physically qualified to perform his duties in the next higher grade. There were also specific statutory provisions prescribing the action to be taken when an officer was found to be not mentally or professionally qualified or not physically qualified. There was, however, no law providing for the disposition of officers found not morally qualified. They could not be promoted nor could they be dismissed, yet their retention on the active list in the grades they then held not only blocked promotions all down the line but was also undesirable in all other respects. The Navy therefore adopted the procedure of retiring officers who failed of promotion because of moral disqualification.

R. S. 1456 provides that no officer may be retired because of misconduct, but that he shall be tried by court-martial for that misconduct. This provision has been held to mean that an officer who commits an offense for which he could be tried may not be permitted to escape trial by retiring. (See the revision note on § 6329 of this title.) It was not construed to prohibit the retirement of officers who were found by an examining board to be morally disqualified. Such a finding was usually based on the misconduct of the officer but not on any specific act for which he could be tried by court-martial. Ordinarily moral disqualification was the result of a series of matters, each perhaps trivial in itself, but which, taken together, evidenced a habit sufficiently serious to disqualify the officer for promotion. No officer could be tried for a "habit". On the contrary the Articles for the Government of the Navy not only provided a two-year statute of limitations for most offenses but also specifically prohibited the accumulation of offenses for the purpose of collecting enough to warrant trial.

Retirement, in the state of the law before 1882, was thus not only legal, but was the only method of removing from the active list officers who were found by an examining board to be not morally qualified. It was not a desirable method, however, since the retired list was not intended to be a refuge for officers who had destroyed their usefulness to the Navy through their own bad habits. Accordingly a bill "to promote the efficiency of the Navy" was introduced in Congress to enable the Navy to discharge morally disqualified officers. Later, by unanimous consent, the bill was attached to the naval appropriation bill which was enacted as the Act of August 5, 1882.

The cases collected in Melling, Laws Relating to the Navy, Annotated, 1921 ed., pp. 623—631, indicate that the most common grounds for findings of moral disqualification for promotion have been (1) habitual intemperance and (2) financial irresponsibility. Other grounds mentioned are gambling, improper use of drugs, and "transactions" described by the Secretary of the Navy as "disgraceful" and "scandalous". In an opinion dated June 29, 1911 (File 26260–1392), the Judge Advocate General of the Navy stated that a specific definition of what constitutes moral unfitness should not be attempted, but that the question should be determined in each case by a "board of experienced, intelligent, impartial military experts [i. e. by the examining board] * * * in the exercise of a sound discretion."

When an examining board finds that an officer is mentally and professionally but not morally qualified for promotion, it reports that he "has the mental and professional, but not the moral, qualifications, by reason of * * * to perform efficiently all the duties, both at sea and on shore, of the grade to which he is to be promoted, and [we] do not recommend him for promotion". The reason for the finding of moral disqualification is included in this sentence if it can be briefly stated; otherwise reference is made to the paragraph or page where the reason is set out.

When the source statute was enacted it was clear that (1) the inquiries to which this provision referred were the examinations conducted by examining boards under R. S. 1496; (2) the situation in which the provision was to operate was that in which an examining board found that an officer lacked the moral qualifications for promotion; (3) when an officer was not qualified to perform his duties at sea, the board must necessarily find that he was not qualified to perform "all the duties, both at sea and on shore" of the next higher grade; (4) the "place" to which it was proposed to promote the officer was the next higher grade; (5) the reference to a hearing on the "charges" was an acknowledgment of R. S. 1500, which gives officers the right to appear before examining boards, and R. S. 1503, which provides that a board may not recommend that an officer not be promoted without first conducting a public examination of the officer in person, unless he wilfully fails to appear; and (6) the prohibition against the retirement of morally disqualified officers was included to emphasize the fact that the source statute was intended to provide the sole means of disposing of these officers and was not to be construed as merely authorizing an alternative to the method previously used.

The intent and meaning of the source statute and its connection with examining board procedure have been obscured by the passage of time and the enactment of later laws relating to the promotion, discharge, and retirement of officers. For example, selection boards now make inquiries pursuant to law concerning officers' fitness for promotion, but their inquiries are not the ones to which the source statute refers, since there were no selection boards in 1882. In order to make the meaning of the source statute clear in the context of other currently effective law, the following changes are made in this section: The words "An officer who is found, by an examining board convened under section 5862 of this title" are substituted for the words "Whenever on an inquiry had pursuant to law, concerning the fitness of an officer of the Navy for promotion, it shall appear that such officer" in order to identify the body that makes the inquiry and draws conclusions from the information obtained. The words "not morally qualified" are substituted for the word "unfit" to make clear the relation between this section and § 5862 of this title. The words "to perform the duties of the grade for which he is being examined" are substituted for the words "to perform at sea the duties of the place to which it is proposed to promote him" to conform to the wording of § 5863 (d) of this title. The words "and having been informed of and heard upon the charges against him" are omitted, since they are unnecessary and misleading. An officer's right to be heard is covered in § 5863 (c) of this title; no additional hearing was intended. Further, an examining board is not a court and the source statute is not penal, so that the use of the word "charges" is inappropriate. The words "he shall not be placed on the retired list of the Navy" are omitted as surplusage, since, when the conditions described in this section are met, discharge is mandatory and no other action is possible.

The words "by reason of drunkenness" are omitted as included within the words "from any cause arising from his own misconduct".

§ 5865. Effect of failure to qualify professionally.

(a) An officer who is certified as not professionally qualified by an examining board convened under section 5862 of this title shall be suspended from promotion for six months from the date of approval of that certification. At the expiration of that period he shall be reexamined. If he is found professionally qualified and if he is otherwise qualified, he shall be promoted and assigned the date of rank in the higher grade and the lineal position to which he would have been entitled if he had not been suspended, and he is entitled to the pay and allowances of the higher grade from the date he first became eligible for promotion to that grade.

(b) An officer of the Navy in the grade of lieutenant (junior grade) or above or an officer of the Marine Corps in the grade of first lieutenant or above who is found not professionally qualified upon his reexamination is considered as having twice failed of selection for promotion.

(c) An officer of the Navy in the grade of ensign or an officer of the Marine Corps in the grade of second lieutenant who is found not professionally qualified upon his reexamination shall be honorably discharged with severance pay computed on the basis of two months' basic pay at the time of discharge multiplied by the number of years of his active commissioned service in the naval service, exclusive of training duty, but the payment may not be more than one year's basic pay. (Aug. 10, 1956, ch. 1041, 70A Stat. 370.)

CHAPTER REFERRED TO IN OTHER SECTIONS

This chapter is referred to in section 133 of this title.

§ 5891. Officers who may be promoted under this chapter.

(a) To be eligible for consideration for promotion by a selection board convened under this chapter, or for promotion under this chapter, an officer must be in an active status in the Naval Reserve or the Marine Corps Reserve.

(b) Except as provided in subsections (c), (d), and (e), a reserve officer who is on a lineal list maintained under section 5504 of this title is ineligible for promotion under this chapter and for

consideration by a selection board convened under this chapter.

(c) A reserve officer who was eligible for consideration for promotion by a selection board convened under chapter 543 of this title, but whose name was not furnished to that board, may be considered by the corresponding selection board convened under this chapter to consider officers of his grade for promotion to the next higher grade and may be promoted under this chapter even though he is on a lineal list at the time of his selection and promotion.

(d) A reserve officer who has been recommended for promotion in the approved report of a selection board convened under this chapter, and who is placed on a lineal list before he is promoted, may be promoted under this chapter, notwithstanding the fact that he is on a lineal list at the time of promotion.

(e) A reserve officer who has been recommended for promotion in the approved report of a selection board convened under chapter 543 of this title and who is removed from the lineal list before he is promoted may be promoted under this chapter, notwithstanding the fact that he was on a lineal list when selected for promotion.

(f) A reserve officer whose name was furnished to a selection board convened under chapter 543 of this title, and who is removed from the lineal list before the corresponding selection board is convened under this chapter to consider officers of his grade for promotion to the next higher grade, is ineligible for consideration by the latter board.

(g) For the purpose of this section, a woman officer who is eligible for consideration for promotion by a selection board convened under chapter 543 of this title shall be considered to be on a lineal list. (Added Pub. L. 85–861, § 1(133), Sept. 2, 1958, 72 Stat. 1499, and amended Pub. L. 90–130, § 1(20)(A), Nov. 8, 1967, 81 Stat. 379.)

5891	50: 1192 (a). 50: 1301 (a). 50: 1307.	Sept 3, 1954, ch. 1257, §§ 202 (a), 401 (a), 407, 68 Stat. 1150, 1166, 1169.

Senate and House of Representatives reports on the Reserve Officer Personnel Act of 1954 state, with reference to section 407 of the Act:

"Promotions under this title would include Reserve officers not on active duty but in an active status in the Reserve and Reserve officers on continuous active duty under the Reserve program, but Reserve officers on active duty and on the lineal list would be promoted under other law, as they are at the present time. Officers of the Naval and Marine Corps Reserve selected for promotion under any provision of law would not be penalized by virtue of a change in status with respect to active duty prior to their promotion." (Senate Report No. 2010, July 29, 1954, 83d Congress, 2d Session; House Report No. 1026, July 29, 1953, 83d Congress, 1st Session; both to accompany H. R. 6573).

For clarity, the general rule that this chapter does not cover the promotion of lineal list officers is set out in subsection (b), and the exceptions, to protect officers going on or coming off the lineal list shortly before they are due for consideration for promotion or for promotion. are covered in subsections (c), (d), and (e).

It should be noted that women officers of the Naval and Marine Corps Reserve (other than women reserve officers in the Nurse Corps and women reserve officers appointed under section 5581 of this title) may not be placed on lineal lists, considered for promotion, or promoted under title III of the Officer Personnel Act of 1947 because section 215 of the Women's Armed Services Integration Act of 1948 made title III of the Officer Personnel Act inapplicable to them. These women officers, therefore, whether or not they are on active duty, are considered for promotion and promoted under the provisions of the Reserve Officer Personnel Act of 1954, codified in this chapter. Women officers in these categories may also be promoted (but only if they are on active duty) under the act of July 24, 1941, ch. 320 (55 Stat. 603, as amended; 34 U. S. C. 350—350k) (codified in section 5787 of this title). The latter act authorizes temporary promotions during war or emergency of regular and reserve officers on active duty.

1967—Subsec. (g). Pub. L. 90–130 added subsec. (g).

PROMOTION OF OFFICERS OF THE NAVAL RESERVE AND MARINE CORPS RESERVE SELECTED FOR PROMOTION BEFORE JULY 1, 1955

Section 25 of Pub. L. 85–861 provided that: "Officers of the Naval Reserve and the Marine Corps Reserve who were selected for promotion before July 1, 1955, under regulations promulgated under section 216 (a) of the Armed Forces Reserve Act of 1952 may be promoted under chapter 549 of title 10 [this chapter], United States Code, with the date of rank and entitlement to pay and allowances prescribed by that chapter."

§ 5892. Numbers that may be promoted.

Each year the Secretary of the Navy shall prescribe the number of officers in each grade in the Naval Reserve and the Marine Corps Reserve that may be promoted in that year to the next higher grade under this chapter. He shall prescribe for each grade the number that he determines to be necessary to provide—

(1) equitable opportunity for promotion among succeeding groups of reserve officers; and

(2) an adequate continuing strength of reserve officers in an active status.

However, the Secretary may not prescribe numbers that will cause the number of reserve officers in an active status holding permanent appointments in any grade to exceed the number authorized for that grade in section 5457 or section 5458 of this title. With respect to the numbers of reserve officers in the staff corps that may be promoted, the Secretary shall prescribe numbers that will cause the relationship between line and staff corps officers in an active status in the Naval Reserve to conform to that prescribed for line and staff corps officers on the active list of the Navy. § 5893. Selection boards: composition.

(a) The Secretary of the Navy, or such other authority as he directs, shall appoint and convene selection boards, each consisting of at least five officers, to consider for promotion to the next higher grade—

(1) officers of the Naval Reserve in each grade above ensign and below rear admiral; and

(2) officers of the Marine Corps Reserve in each grade above second lieutenant and below major general.

(b) At least half the members of each selection board convened under this section must be reserve officers so far as practicable. All members of each board must be serving in a grade above the grade in which the officers that are to be considered by the board are serving. An officer may not serve on two consecutive boards to consider officers for promotion to the same grade if the second of the two is to consider any officer who was considered and not recommended for promotion to that grade by the first board. Selection boards convened under this section may serve for as long as the Secretary prescribes, but not longer than one year.

(c) Regardless of the number of officers appointed to a board under this section, five officers constitute a quorum. However, at least a majority of the total membership of the board must concur in each recommendation made by the board. (Added Pub. L. 85–861, § 1(133), Sept. 2, 1958, 72 Stat. 1500, and amended Pub. L. 91–199, § 2, Feb. 26, 1970, 84 Stat. 16.)

Section 403 of the Reserve Officer Personnel Act of 1954 (50 U. S. C. 1303) provides that the laws relating to the selection for promotion of officers in the regular components apply to Reserves, except as otherwise provided. Laws governing the promotion of ensigns and second lieutenants and officers in the grade of rear admiral or major general in the regular components do not provide for consideration of these officers by selection boards. Officers in these grades in the reserve components are therefore excepted from the groups to be considered by boards convened under subsection (a).

In subsection (a), the words "and other boards of officers appointed under this chapter", in 50: 1193 (a), are omitted as without application to the Navy or the Marine Corps. Boards to consider reserve officers for involuntary separation from an active status are the only other boards appointed under the Reserve Officer Personnel Act of 1954, and the convening of these boards is specifically provided for in section 411 (f) of that act. (See sections 6389, 6397, and 6403 of this title.)

AMENDMENTS

1970—Subsec. (b). Pub. L. 91–199 substituted provision that all members of each board be serving in a grade above the grade in which the officers that are to be considered by the board are serving, for provision that such members be senior in both permanent and temporary grade to all officers that are to be considered by the board.

(1) the number of officers that the board may recommend for promotion, as prescribed or determined by him under section 5901 of this title; and

(2) the names and records of all officers who are eligible for consideration for promotion by the board.

Section 403 of the Reserve Officer Personnel Act of 1954 (50 U. S. C. 1303) makes applicable to non-lineal list reserve officers provisions of law relating to the selection for promotion of regular officers. The House and Senate reports cited in the revision note on section 5891 of this title contain a detailed explanation of the effect of this section. Among other things, the reports state that the section prescribes "the information which shall be furnished selection boards, viz:

(1) The names and records of all officers eligible for consideration.

(2) The number of officers that may be recommended for promotion * * * ".

The provisions of law relating to regular officers incorporated by this section are codified in section 5706 of this title.

§ 5896. Selection boards: officers to be recommended for promotion.

(a) Of the officers considered for promotion by a selection board convened under this chapter, the board shall recommend for promotion, as appropriate—

(1) those eligible male officers in the line of the Naval Reserve or eligible male officers of the Marine Corps Reserve whom the board considers best fitted for promotion;

(2) those eligible male officers of the Naval Reserve in the Supply Corps or the Civil Engineer Corps whom the board considers best fitted for promotion;

(3) those eligible male officers of the Naval Reserve and eligible women officers appointed under section 5581 of this title, under consideration for promotion to the grade of commander or above in the Medical Corps, the Judge Advocate General's Corps, the Chaplain Corps, the Dental Corps, or the Medical Service Corps whom the board considers best fitted for promotion.

(4) those eligible male officers of the Naval Reserve and women officers appointed under section 5581 of this title, under consideration for promotion to the grade of lieutenant commander or below in the Medical Corps, the Judge Advocate General's Corps, the Chaplain Corps, the Dental Corps, or the Medical Service Corps whom the board considers fitted for promotion.

(5) those eligible officers of the Naval Reserve under consideration for promotion to the grade of captain or commander in the Nurse Corps whom the board considers best fitted for promotion;

(6) those eligible officers of the Naval Reserve under consideration for promotion to the grade of lieutenant commander or lieutenant in the Nurse Corps whom the board considers fitted for promotion;

(7) those eligible women officers of the Naval Reserve, other than officers in the Nurse Corps and officers appointed under section 5581 of this title, under consideration for promotion to the grade of captain, commander, or lieutenant commander, and those eligible women officers of the Marine Corps Reserve under consideration for promotion to the grade of colonel, lieutenant colonel, or major, whom the board considers best fitted for promotion; and

(8) those eligible women officers of the Naval Reserve, other than officers in the Nurse Corps and officers appointed under section 5581 of this title, under consideration for promotion to the grade of lieutenant, and those eligible women officers of the Marine Corps Reserve under consideration for promotion to the grade of captain, whom the board considers qualified for promotion.

(b) The recommendation of a selection board with respect to any woman line officer of the Naval Reserve or any woman officer of the Marine Corps Reserve shall be based on her comparative fitness for the duties to which women officers are normally assigned in the line of the Navy or in the Marine Corps. The recommendation of a selection board with respect to any woman officer of the Naval Reserve in a staff corps, other than an officer in the Nurse Corps or an officer appointed under section 5581 of this title, shall be based on her comparative fitness for the duties to which women officers are normally assigned in her staff corps.

(c) Administrative staff duty, duty in aviation, or duty in any technical specialty performed by an officer of the Marine Corps Reserve shall be given weight by the selection board in determining his fitness for promotion equal to that given line duty equally well performed.

(d) The status of having once failed of selection for promotion to a grade does not prejudice an officer with respect to his qualifications, his fitness for the naval service, or his eligibility for selection for promotion to that grade by the next succeeding selection board.

(e) The total number of officers that may be recommended for promotion to any grade may not exceed the number furnished the board concerned by the Secretary of the Navy.

(f) An officer may not be recommended for promotion unless he receives the recommendation of a majority of the total membership of the board concerned. (Added Pub. L. 85–861, § 1 (133), Sept. 2, 1958, 72 Stat. 1501, and amended Pub. L. 90–130, § 1(20)(B), Nov. 8, 1967, 81 Stat. 379; Pub. L. 90–179, § 12, Dec. 8, 1967, 81 Stat. 549.)

5896	50: 1303 (1st sentence).	Sept. 3, 1954, ch. 1257, § 403 (1st sentence), 68 Stat. 1167.

The House and Senate reports cited in the revision note on section 5891 of this title state that section 403 of the Reserve Officer Personnel Act of 1954 (50 U. S. C. 1303), "by making applicable to Naval and Marine Corps Reserve officers those provisions of law * * * which relate to the selection for promotion of officers of the Regular components, would * * * prescribe the duties of selection boards, viz.:" within the numbers furnished it, to select officers in certain specified categories as best fitted, those in certain other categories as fitted, and those in two other categories as qualified for promotion. The provisions of law relating to regular officers incorporated by this section are codified in section 5707 of this title.

Subsection (f) of this section differs from subsection (i) of section 5707 because section 203 (d) of the Reserve Officer Personnel Act of 1954 (50 U. S. C. 1193 (d)) requires that a majority of the total membership of a board concur in each recommendation, whereas section 309 (c) (1) of the Officer Personnel Act of 1947 (34 U. S. C. 306d (c) (1)) requires concurrence of two-thirds of the acting members, or of a majority if there are five or less acting members.

AMENDMENTS

1967—Subsec. (a)(3), (4). Pub. L. 90–179 inserted the references to the Judge Advocate General's Corps.

Subsec. (a)(7). Pub. L. 90–130 added captain to the enumeration of grades to which eligible women officers of the Naval Reserve are being considered for promotion and colonel to the enumeration of grades to which eligible women officers of the Marine Corps Reserve are being considered for promotion.

(a) The report of a board convened under this chapter shall be submitted to the President for his approval or disapproval. If any officer recommended by the board is not acceptable to the President, the board shall be informed of the name of that officer and shall, except as provided in subsection (b) of this section, recommend another eligible officer for promotion.

(b) If any woman officer, other than an officer in the Nurse Corps or an officer appointed under section 5581 of this title, who is recommended for promotion to the grade of lieutenant in the Naval Reserve or to the grade of captain in the Marine Corps Reserve, is not acceptable to the President, the board shall be informed, the name of that officer shall be removed from the report of the board, and no additional recommendation may be made. The House and Senate reports cited in the revision note on section 5891 of this title state that section 403 of the Reserve Officer Personnel Act of 1954 (50 U. S. C. 1303), "by making applicable to Naval and Marine Corps

Reserve officers those provisions of law * * * which relate to the selection for promotion of officers of the Regular components, would * * * prescribe the reports of selection boards". Submission of the reports to the President is not specifically mentioned. However, this is an integral part of the law relating to the reports of boards convened to consider regular officers for promotion and it was presumably the intent of Congress that reports of reserve boards should be handled in the same way. The Judge Advocate General of the Navy has so held in a letter to the Chief of Naval Personnel, JAG II: 1: CPV:mac, August 20, 1955.

The provisions of law relating to regular officers incorporated by this section are codified in section 5710 (b) and (c) of this title.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 123 of this title.

§ 5899. Eligibility for consideration by selection board: promotion zones.

(a) A male officer of the Naval Reserve, or a woman officer appointed under section 5581 of this title, is in the promotion zone and is eligible for consideration for promotion to the next higher grade by a selection board convened under this chapter when his running mate is in or above the promotion zone established for his grade under section 5764 of this title. However, an officer in the grade of captain is eligible for consideration for promotion when his running mate is eligible for consideration for promotion. When more than one officer in the grade of captain is to be selected for promotion from among line officers or from among officers in any one staff corps, at least one-half of the officers selected in the category concerned must be officers who are in the promotion zone or senior to such officers.

(b) A male officer of the Marine Corps Reserve is in the promotion zone and is eligible for consideration for promotion to the next higher grade by a selection board convened under this chapter when any male officer of the Marine Corps Reserve on the lineal list who is junior to him is in or above the promotion zone established for his grade under section 5765 of this title or when his running mate is in or above that zone. However, an officer in the grade of colonel is eligible for consideration for promotion when his running mate is elible for consideration for promotion. When more than one officer in the grade of colonel is to be selected for promotion, at least one-half of the officers selected must be officers who are in the promotion zone or senior to such officers.

(c) A woman officer of the Naval Reserve, other than an officer in the Nurse Corps or an officer appointed under section 5581 of this title, is in the promotion zone and is eligible for consideration for promotion to the next higher grade by a selection board convened under this chapter when any woman officer of the Naval Reserve who is junior to her is in or above the promotion zone established for her grade under section 5764 of this title or when her running mate is in or above that zone.

(d) A woman officer of the Marine Corps Reserve is in the promotion zone and is eligible for consideration for promotion to the next higher grade by a selection board convened under this chapter when any woman officer of the Marine Corps Reserve who is junior to her is in or above the promotion zone established for her grade under section 5765 of this title or when her running mate is in or above that zone.

(e) An officer of the Naval Reserve in the Nurse Corps is eligible for consideration for promotion to the next higher grade by a selection board convened under this chapter when the person is senior to the junior officer on the lineal list of the Nurse Corps who has been selected for promotion to that grade by a selection board convened under section 5702 of this title.

(f) An officer who becomes eligible for consideration for promotion under this section remains so eligible while he is in an active status, regardless of failures of selection for promotion. However, a selection board convened under this chapter may not consider for promotion to the next higher grade an officer whose name is on the promotion list for that grade as a result of his selection by an earlier board convened under this chapter or by a board convened under chapter 543 of this title.

(g) The Secretary of the Navy may withhold from consideration by a selection board the name of an officer who is otherwise eligible for consideration for promotion under this section but who has failed to meet the requirements for eligibility prescribed by the Secretary.

(h) Notwithstanding any other provision of this title, a reserve commissioned officer in a permanent grade above chief warrant officer, W-4, who has been in an inactive status may not be considered for promotion until at least one year after the date he is returned to an active status. (Added Pub. L. 85-861, § 1(133), Sept. 2, 1958, 72 Stat. 1503, and amended Pub. L. 86-559, § 1(42), June 30, 1960, 74 Stat. 274; Pub. L. 89-275; §§ 1, 2, Oct. 20, 1965, 79 Stat. 1010; Pub. Women officers "appointed under section 5581 of this title" are included in subsection (a) and excluded from subsection (c) for the reasons stated in the revision note on section 5665 of this title.

Reference to grades above ensign and second lieutenant is omitted as unnecessary. Section 5893 of this title provides for selection boards to be convened only for officers in higher grades. Also, reserve officers do not have running mates until they attain a grade higher than ensign or second lieutenant, so that this section could not apply to them while they remain in those grades.

In subsection (d), the words "or any woman Reserve officer junior to that woman Reserve officer", in 50: 1305 (b), are omitted as surplusage. Similar language is needed with respect to male officers of the Marine Corps Reserve because there are male reserve officers on the lineal list. Women officers of the Marine Corps Reserve cannot be placed on the lineal list because the Women's Armed Services Integration Act of 1948 made title III of the Officer Personnel Act of 1947 inapplicable to them.

The provision relating to the continuation of a woman officer's eligibility for consideration for promotion is omitted from subsection (c) and is stated in subsection (f) as applicable to all officers. The corresponding provision relating to regular officers and other officers on the lineal lists is codified in section 5754 of this title. It is considered that section 403 of the Reserve Officer Personnel Act of 1954 (50 U. S. C. 1303), by making laws relating to regular officers applicable to reserve officers, provides for the continuation of reserve officers' eligibility for consideration for promotion as stated in subsection (f).

AMENDMENTS

1967—Subsec. (c). Pub. L. 90-130 inserted reference to a promotion zone and substituted the point at which a junior woman officer of the Naval Reserve is in or above the promotion zone established for a grade under section 5764 of this title or when a running mate is in or above that zone for the point when a running mate is eligible for consideration for promotion under section 5752 of this title as the point at which women officers of the Naval Reserve are eligible for consideration for promotion to the next higher grade.

Subsec. (d). Pub. L. 90-130 inserted reference to a promotion zone and substituted the point at which a junior woman officer of the Marine Corps Reserve is in or above the promotion zone established for her grade under section 5765 of this title or when a running mate is in or above that zone for the point when a running mate is eligible for consideration for promotion under section 5752 of this title as the point at which women officers of the Marine Corps Reserve are eligible for consideration for promotion to the next higher grade.

1966—Subsec. (e). Pub. L. 89-609 substituted "the person" for "she".

1965—Subsec. (a). Pub. L. 89-275, § 1, deleted "until July 1, 1961" following "However", and added sentence requiring at least one-half of the officers selected in the category concerned to be officers who are in the promotion zone or senior to those officers when more than one officer in the grade of captain is to be selected for promotion from among line officers or from among officers in any one staff corps.

Subsec. (b). Pub. L. 89-275, § 2, added sentences making an officer in the grade of colonel eligible for consideration for promotion when his running mate is eligible for consideration for promotion, and requiring at least one-half of the officers selected to be officers who are in the promotion zone or senior to those officers when more than one officer in the grade of colonel is to be selected for promotion.

1960—Subsec. (a). Pub. L. 86-559, § 1(42)(A), inserted sentence making an officer in the grade of captain eligible, until July 1, 1961, for consideration for promotion when his running mate is eligible for consideration for promotion.

Subsec. (h). Pub. L. 86-559, § 1(42)(B), added subsec. (h).

EFFECTIVE DATE OF 1965 AMENDMENT

Section 3 of Pub. L. 89-275 provided that: "The last sentence of section 5899(a) and the last sentence of section 5899(b) of title 10, United States Code, added by this Act become effective July 1, 1967."

§ 5902. Promotion lists; eligibility for promotion; date of rank.

(a) Officers of the Naval Reserve and the Marine Corps Reserve who are recommended for promotion in the report of a selection board convened under this chapter are considered as selected for promotion upon approval of the report by the President. The names of these officers shall be placed on the promotion list for officers of their grade.

(b) An officer of the Naval Reserve whose name is on a promotion list established under this section is eligible for promotion to the grade for which selected when the officer who is to be his running mate in the higher grade becomes eligible for promotion under chapter 545 of this title. When promoted, he shall be given the same date of rank as that given to his running mate in the grade to which promoted.

(c) An officer of the Marine Corps Reserve whose name is on a promotion list established under this chapter is eligible for promotion to the grade for which selected when the officer who is to be his running mate in the higher grade becomes eligible for promotion under chapter 545 of this title. When promoted, he shall be given the same date of rank as that given to his running mate in the grade to which promoted.

(d) The promotion of an officer of the Naval Reserve or the Marine Corps Reserve who is under investigation or against whom proceedings of a court-martial or a board of officers are pending may be delayed by the Secretary of the Navy until the investigation or proceedings are completed. However, the promotion of an officer may not be delayed under this subsection for more than one year after the date he is selected for promotion unless the Secretary determines that a further delay is necessary in the public interest. HISTORICAL AND REVISION NOTES

Revised section	Source (U. S. Code)	Source (Statutes at Large)
5902	50: 1306 (less applicability to pay and allowances).	Sept. 3, 1954, ch. 1257, § 406 (less applicability to pay and allowances), 68 Stat. 1168.

Section 406 of the Reserve Officer Personnel Act of 1954 (50 U. S. C. 1306) makes applicable to reserve officers on a promotion list the laws relating to promotion and eligibility for promotion of regular officers on a promotion list, except that non-lineal-list officers in the line of the Naval Reserve and non-lineal-list officers of the Marine Corps Reserve, instead of being promoted to fill vacancies in the higher grade, are promoted when their lineal-list contemporaries are promoted. Staff corps officers, both in the Regular Navy and in the Naval Reserve, are promoted with their running mates. Provisions relating to the eligibility for promotion of regular and lineal-list staff corps officers are codified in sections 5773 and 5774 of this title.

Officers of the Marine Corps Reserve not on a lineal list have regular officers as running mates. It is possible for a number of lineal-list reserve officers to rank below a non-lineal-list Reserve and above his running mate. In such a case, the non-lineal-list Reserve's eligibility for consideration for promotion and for promotion is made to depend not on his running mate, but on the lineal-list Reserve next junior to him (sections 405 and 406 of the Reserve Officer Personnel Act of 1954 (50 U. S. C. 1305, 1306)). The result is the same as that produced in the Navy by assigning lineal-list officers as running mates of non-lineal-list Reserves, but differences in phraseology are required to describe the process.

Women officers of the Naval Reserve and the Marine Corps Reserve (except officers in the Nurse Corps and officers appointed under section 5581 of this title) have women regular officers as running mates. However, there are no women line officers of the Naval Reserve and no women officers of the Marine Corps Reserve on the lineal lists, since section 215 of the Women's Armed Services Integration Act of 1948 (34 U. S. C. 105j) made Title III of the Officer Personnel Act of 1947 inapplicable to such women officers. The problem of tying a woman reserve officer's eligibility for promotion to someone other than her running mate does not, therefore, exist either in the Navy or in the Marine Corps.

AMENDMENTS

1966—Subsec. (c). Pub. L. 89–731, § 3, substituted provision incorporating the substance of former subsec. (d) as adapted for application to both male and female officers of the Marine Corps Reserve for provisions establishing seperate procedures for male officers based upon placement of the officer's running mate or selected officer on the lineal list junior to his running mate in or above the promotional zone.

Subsec. (d). Pub. L. 89–731, §§ 4, 5 redesignated former subsec. (e) as (d) and repealed former subsec. (d), which, as adapted for application to both male and female officers of the Marine Corps Reserve, is now found in subsec. (c).

Subsec. (e). Pub. L. 89–731, § 5, redesignated former subsec. (e) as subsec. (d).

1960—Subsec. (e). Pub. L. 86–559 added subsec. (e).

§ 5903. Failure of selection.

(a) An officer of the Naval Reserve or the Marine Corps Reserve is considered as having failed of selection for promotion if—

(1) he is in a promotion zone established under this chapter;

(2) his name is furnished to the appropriate selection board; and

(3) he is not selected for promotion.

(b) An officer of the Naval Reserve or the Marine Corps Reserve whose name is withheld by the Secretary of the Navy, under section 5899(g) of this title, from consideration by two selection boards for promotion to the same higher grade is considered as having twice failed of selection for promotion to that grade. HISTORICAL AND REVISION NOTES

Revised section	Source (U. S. Code)	Source (Statutes at Large)
5903 (a)	50: 1303 (1st sentence).	Sept. 3, 1954, ch. 1257, § 403 (1st sentence), 68 Stat. 1167.
5903 (b)	50: 1305 (d) (2d sentence).	Sept. 3, 1954, ch. 1257, § 405 (d) (2d sentence); added June 30, 1955, ch. 247, § 3 (d), 69 Stat. 219.

The House and Senate reports cited in the revision note on section 5891 of this title state that section 403 of the Reserve Officer Personnel Act of 1954 (50 U. S. C. 1303), "by making applicable to Naval and Marine Corps Reserve officers those provisions of law * * * which relate to the selection for promotion of officers of the Regular components, would * * * provide a definition of failure of selection". The definition of "failure of selection" for regular officers and lineal-list Reserves is codified in section 5776 of this title. Differences between that section and this section are due to differences between the Officer Personnel Act of 1947 and the Reserve Officer Personnel Act of 1954. (1) Under the former Act, officers who are eligible for consideration for promotion include officers above the promotion zone, in the zone, and below the zone, whereas under the latter Act, the zone of eligibility and the promotion zone are identical, because no one is above the zone and no one below the zone is eligible for consideration. (2) There are no reserve officers who are restricted in the performance of duty. Therefore, this section has no counterpart for section 5776 (b). (3) In section 5776, subsection (a) covers male line officers, subsection (c) covers staff corps officers except certain officers in the Nurse Corps and women officers appointed under section 5590 of this title, and subsections (d) and (e) cover the officers excepted from subsection (c). This breakdown is not necessary in the present section. The Reserve Officer Personnel Act of 1954 provides for promotion zones for male line and staff corps officers of the Naval Reserve and male officers of the Marine Corps Reserve, but none for "women officers" or officers in the Nurse Corps Reserve. The latter two classes cannot be considered as having failed of selection, since promotion zones are essential to that concept. The others can, and the rule is the same as to all of them.

The source for subsection (b) has no counterpart in the laws relating to regular and lineal-list reserve officers.

The words "a woman officer appointed under section 5581 of this title" are inserted in this section as required by the act of June 24, 1952, ch. 457, 66 Stat. 155 (34 U. S. C. 21e). These officers are not "women officers" within the meaning of the Reserve Officer Personnel Act of 1954, but are required to be promoted and retired as if they were men. See the revision note on section 5665 of this title.

AMENDMENTS

1967—Pub. L. 90–130 eliminated provisions which had excepted women officers of the Naval Reserve and Marine Corps Reserve other than women officers appointed under section 5581 of this title from the effect of this section.

§ 5904. Effect of erroneous omission of name from list furnished to selection board.

An officer of the Naval Reserve or the Marine Corps Reserve who has met the requirements for eligibility for consideration for promotion but whose name is omitted by administrative error from the list of officers furnished a selection board is not considered as having failed of selection for promotion by that board. If he is selected for promotion by the next selection board to consider officers of the same grade, he is entitled to the same date of rank and to the pay and allowances of the higher grade for duty performed from the same date as if he had been selected by the board from which his name was erroneously withheld. (Added Pub. L. 85–861, § 1(133), Sept. 2, 1958, 72 Stat. 1505.)

5904	50: 1305 (d) (last sentence).	Sept. 3, 1954, ch. 1257, § 405 (d) (last sentence); added June 30, 1955, ch. 247, § 3 (d), 69 Stat. 219.

Although officers in categories for which promotion zones are established are the only ones that may be considered as "having failed of selection", this section is not limited to officers in these categories. The source was clearly intended, not only to protect those officers from the consequences of failure of selection but also to protect them and all other reserve officers, including "women officers" and officers in the Nurse Corps, from loss of precedence, pay, and allowances through administrative error.

§ 5905. Removal from promotion list.

(a) The President may remove the name of any reserve officer from a promotion list established under this chapter.

(b) The name of a reserve officer selected under this chapter for promotion to a grade above captain in the Navy or above colonel in the Marine Corps shall be removed from the promotion list if the Senate rejects his appointment to the grade for which he has been recommended.

(c) An officer whose name is removed from a promotion list under subsection (a) or (b) continues to be eligible for consideration for promotion. If he is recommended for promotion by the next selection board, and the report of the board is approved by the President, his name shall be placed on the promotion list without prejudice and, if he is promoted, he shall have the same lineal rank and date of rank that he would have had if his name had not been removed. However, if the officer is not recommended for promotion in the approved report of the next selection board, or if he is so recommended but the President removes his name from the promotion list or the Senate rejects his appointment, he is considered for all purposes as having twice failed of selection for promotion. (Added Pub. L. 85–861, § 1 (133), Sept. 2, 1958, 72 Stat. 1505.)

The corresponding provision applicable to regular officers and lineal-list reserve officers is codified in section 5777 of this title. The reason for the difference in language in subsection (b) of this section and section 5777 (b) is that Senate confirmation is required for appointments of regular officers in all grades but is not required for appointments of reserve officers in grades below flag and general officer grades.

If he is later returned to an active status, his name may not be placed on a promotion list for promotion to the next higher grade until he is considered by another selection board and is recommended for promotion in the approved report of that board. The provision of § 7 of the act of March 3, 1899 (supra), relating to relative rank is omitted as executed. The provision that the rank conferred upon staff corps officers shall not change their titles is omitted because these titles were abolished by § 405 of the Officer Personnel Act of 1947 (34 U. S. C. 10a) and the corresponding line grades substituted. The cited proviso in the act of June 24, 1910 (34 U. S. C. 253 (proviso)) is omitted as obsolete because the officers referred to were officers of the Construction Corps which has been abolished.

The first sentence of this section is phrased so as to reflect the accepted meaning of the cited provision. 34 U. S. C. 253, as worded, if interpreted literally, could be held to prohibit, for example, the assignment of members of the Medical Service Corps, Nurse Corps, and Hospital Corps to duty under officers of the Medical Corps, despite the fact that all of these corps were established by law within the Medical Department of the Navy. The provision is not so interpreted. It is understood to restrict only the types of activities that staff corps officers may command, and not to restrict to a single corps the personnel who may be assigned to an activity commanded by a staff corps officer.

AMENDMENTS

1967—Pub. L. 90-130 struck out provision that an officer in the Nurse Corps may not exercise command.

§ 5946. Precedence accorded commanding officers.

The commanding officer of a vessel or of a naval station takes precedence over all officers under his command. (Aug. 10, 1956, ch. 1041, 70A Stat. 372.)

The word "placed" is omitted as surplusage. The words "of war" are omitted to avoid an erroneous implication that the section does not apply to the commanding officers of noncombatant ships of the Navy. As of the date of enactment of R. S. 1468, all vessels of the Navy were "vessels of war"; the elimination of the words, therefore, preserves the purpose of the statute.

§ 5947. Requirement of exemplary conduct.

All commanding officers and others in authority in the naval service are required to show in themselves a good example of virtue, honor, patriotism, and subordination; to be vigilant in inspecting the conduct of all persons who are placed under their command; to guard against and suppress all dissolute and immoral practices, and to correct, according to the laws and regulations of the Navy, all persons who are guilty of them; and to take all necessary and proper measures, under the laws, regulations, and customs of the naval service, to promote and safeguard the morale, the physical

well-being, and the general welfare of the officers and enlisted persons under their command or charge. (Aug. 10, 1956, ch. 1041, 70A Stat. 372.)

5951	34 U. S. C. 264.	May 5, 1950, ch. 169, § 7 (a), 64 Stat. 145.

The word "officers" is substituted for the word "officer" since the cited subsection of the act of May 5, 1950, was intended to reenact the substance of Article 21 of the Articles for the Government of the Navy) R. S. 1624; 34 U. S. C. 1200), in which the word "officers" was used. The words "regularly" and "by competent authority" are omitted as surplusage.

§ 5952. Marine Corps organizations on vessels: authority of officers.

When an organization of the Marine Corps is embarked in any vessel, not as part of the authorized complement of the vessel, the authority of the officers of that organization is the same as though the organization were serving at a naval station. However, this section does not impair the paramount authority of the commanding officer of a vessel over the vessel and all persons embarked in it. (Aug. 10, 1956, ch. 1041, 70A Stat. 372.)

The words "except in the case provided in sections fourteen hundred and sixty-three and fourteen hundred and sixty-four," which appear in R. S. 1459 but not in 34 U. S. C. 401, are omitted as surplusage, since R. S. 1459 can not be construed as prohibiting the exercise of the authority granted in R. S. 1463 and R. S. 1464. The words "and from the line of promotion on the active list" are omitted as unnecessary, because the various laws relating to promotions all contain provisions specifically excluding or specifically including retired officers.

The act of March 4, 1911, ch. 265, 36 Stat. 1353, as amended, referred to in the text, was classified to sections 1121—1123 of former Title 34, Navy. § 5986. Technical institutions: detail of naval officers to promote knowledge of naval engineering and naval architecture.

Section 1 of the act of March 3, 1899, ch. 413, 30 Stat. 1004, transferred officers of the Engineer Corps of the Navy to the line of the Navy; therefore, in subsection (a) the words "qualified officer" are substituted for the words "engineer officer" to preserve the meaning of the section and to include any officer possessing adequate background and training in engineering duties.

In subsection (b) the word "regulations" is substituted for the word "rules," and the words "public interest" are substituted for the words "public service" to conform to current terminology.

The authority to transfer Navy personnel to the Hospital Corps and personnel of that Corps to other branches or designations in the Navy is omitted as unnecessary because transfers within the Navy are permitted under provisions which authorize the Secretary of the Navy to establish grades and ratings (34 U. The saving provision of 34 U. S. C. 34a which provided that no person would suffer any reduction in grade, rating, or pay, is omitted as executed. It pertained to personnel who, when the Hospital Corps was reorganized under the act of August 4, 1947, ch. 459, §§ 301, 302, 61 Stat. 738, were in grades and ratings prescribed by prior laws.

6023	34 U. S. C. 735 (par. 1); 34 U. S. C. 1020d (as applicable to designation as naval aviators).	June 24, 1926, ch. 668, § 3 (par. 1), 44 Stat. 766; Aug. 27, 1940, ch. 694, § 9, 54 Stat. 566; June 5, 1942, ch. 330, 56 Stat. 309. Aug. 13, 1946, ch. 962, § 5 (as applicable to designation as naval aviators), 60 Stat. 1059; May 16, 1947, ch. 77, § 1 (e), 61 Stat. 100.

The definition form of 34 U. S. C. 735 is not followed in this section. The provision is worded to set forth (1) the categories of persons eligible for the designation and (2) qualifications required of designees.

In subsection (a), clause (3), the words "warrant officers, W-1, classed as of the line" are substituted for the words "warrant line officers". The Warrant Officer Act of 1954 established the grade of warrant officer, W-1, in lieu of all the old warrant officer (as distinguished from the commissioned warrant officer) grades. There is not now, nor has there been in the past, a statutory designation of warrant officers as "line" or "staff" officers; however, warrant officers are grouped administratively as warrant officers "classed as of the line" or "classed as of the staff" according to the nature of their duties. The substituted phrase, therefore, conforms to current law and usage.

In subsection (b) the words "lighter-than-air craft" are substituted for the word "airships" for uniformity.

AMENDMENTS

1964—Subsec. (a) Pub. L. 88-647 redesignated former clause (3) as (2), and eliminated former clause (2) which related to midshipmen appointed under section 6906 of this title.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 6913 of this title; title 14 section 373.

§ 6024. Aviation designations: naval flight officers.

Any officer of the naval service may be designated a naval flight officer if he has successfully completed the course prescribed for naval flight officers. (Aug. 10, 1956, ch. 1041, 70A Stat. 377; Feb. 26, 1970, Pub. L. 91-198, § 1(2), 84 Stat. 15.)

The phrase "by competent authority" is omitted as surplusage. The definition form of 34 U. S. C. 735 is not followed.

AMENDMENTS

1970—Pub. L. 91-198 substituted "naval flight officer" for "naval aviation observer" and "naval flight officers" for "naval aviation observers," and struck out requirement that such officer have been in the air at least 100 hours.

Any enlisted member of the naval service may be designated an aviation pilot if he has successfully completed the course prescribed for aviation pilots and—

(1) has flown in heavier-than-air craft a total of 200 hours at least 75 of which were flown alone or as first pilot of a dual-control aircraft; or

(2) has flown in lighter-than-air craft a total of 200 hours at least 150 of which were under training.

The phrase "by competent authority in the Navy" is omitted as surplusage. The last sentence is omitted as unnecessary because the term "pilot" is not used in the subtitle in the defined sense. The definition form of 34 U. S. C. 735 is not followed and the wording is conformed to that of the preceding two sections.

§ 6026. Supply Corps officers: bonds.

(a) Each officer in the Supply Corps, before entering upon the duties of his office, shall give a good and sufficient bond to the United States, approved by the Secretary of the Navy, to account for all public money and property that he receives. The bond shall be in an amount prescribed by the Secretary. The Secretary may waive the requirement of a bond for any officer who is not accountable for public funds or public property.

(b) When required by the Secretary, an officer in the Supply Corps shall post a new bond with sufficient surety.

(c) The promotion or appointment to a new office in the Supply Corps of an officer who is bonded under this section does not affect his existing bond. The bond remains in force and continuous to cover the officer in his new office. (Aug. 10, 1956, ch. 1041, 70A Stat. 377.)

In subsection (a) the word "faithfully" is omitted as surplusage.

In subsection (c) the words "promotion or appointment to a new office in the Supply Corps of" are substituted for the words "issuing of a new appointment and commission to" to cover transfers between the Naval Reserve and the Regular Navy specifically and not merely by implication. The words "does not affect" are substituted for the words "shall not offset or annul".

There is no provision of law specifically stating that the Medical Corps is in the Medical Department. It was the first corps to have duties relating to medical and sanitary matters and so long as it was the only corps having such duties there was no need for the departmental concept. The subsequent establishment of other corps with related duties "in the Medical Department" indicates clearly that the Medical Corps is in that Department.

The words "effective August 4, 1947" and the words "establishing the Medical Service Corps" in 34 U. S. C. 30a are omitted as executed. The words "is created and established as a Staff Corps of the United States Navy" in 34 U. S. C. 43 are omitted as executed.

§ 6028. Medical Service Corps: composition.

The following sections, and such other sections as the Secretary of the Navy considers necessary, are in the Medical Service Corps:

(1) Pharmacy, Supply, and Administration Section.

(2) Medical Allied Sciences Section.

(3) Optometry Section.

§ 6081. Navy ration: persons entitled to.

(a) Except when entitled to a basic allowance for subsistence or to a per diem in place of subsistence, each enlisted member of the naval service is entitled to a Navy ration for each day that he is on active duty, including each day that he is on leave.

(b) Each midshipman is entitled to a Navy ration for each day that he is on active duty, including each day that he is on leave.

(c) The Secretary of the Navy may prescribe regulations stating the conditions under which the ration shall be allowed under subsection (b). (Aug. 10, 1956, ch. 1041, 70A Stat. 379; Sept. 7, 1962, Pub. L. 87–649, § 5(c), 76 Stat. 494.)

6081	34 U. S. C. 901a (1st 2 sentences); 5 U. S. C. 421g (b).	Aug. 2, 1946, ch. 756, § 17 (a) (1st 2 sentences), 60 Stat. 855. Aug. 2, 1946, ch. 756, § 40 (b), 60 Stat. 858.

So much of 34 U. S. C. 901a as authorizes a commuted ration for enlisted members of the naval service under conditions and at rates prescribed by the Secretary of the Navy is superseded by § 301 of the Career Compensation Act of 1949 (37 U. S. C. 251). That section established a basic allowance for subsistence for enlisted members entitled to basic pay who are not subsisting at Government expense and prescribes the conditions under which the basic allowance for subsistence shall be paid and the amount of the allowance. Pursuant to Executive Order No. 10119, March 30, 1950, 15 F. R. 1757, the Secretary of Defense is authorized to make supplemental regulations to carry out the provisions of § 301. The words "or to a per diem in place of subsistence" are inserted to reflect the subsistence allowance authorized by § 303 (a) of the Career Compensation Act of 1949 (37 U. S. C. 253a) to members in travel status.

In subsection (a) reference to the Coast and Geodetic Survey is omitted since there are no enlisted personnel in that service, and reference to the Coast Guard is omitted as covered by 14 U. S. C. 478.

In subsections (a) and (b) the words "or furlough therefrom" are omitted as surplusage, and the words "for each day" are inserted to make clear the fact that a ration is a daily allowance of food and that, in subsection (b), the commuted ration is credited on a daily basis. The words "and cadets" are omitted as there are no cadets in the Navy or Marine Corps entitled to a Navy ration. Aviation cadets are entitled to the basic allowance for subsistence prescribed for officers (34 U.S.C. 850c).

In subsection (c) the words "prescribed by law" and "in accordance with law" are omitted as surplusage.

AMENDMENTS

1962—Subsec. (b). Pub. L. 87–649 eliminated provisions which permitted payment of the commuted value of the ration in money. See section 422(b) of Title 37, Pay and Allowances of the Uniformed Services.

Subsec. (c). Pub. L. 87–649 eliminated provisions which permitted the Secretary to prescribe regulations for the allowance of the commuted value of the ration. See section 422(b) of Title 37, Pay and Allowances of the Uniformed Services.

EFFECTIVE DATE OF 1962 AMENDMENT

Amendment of section by Pub. L. 87–649 effective on Nov. 1, 1962, see section 15 of Pub. L. 87–649, set out as a note preceding section 101 of Title 37, Pay and Allowances of the Uniformed Services.

§ 6083. Fixing cost on certain vessels and stations.

If the Secretary of the Navy considers that it is undesirable to administer the mess on any ship or at any station under the quantity allowance prescribed in section 6082 of this title, he may fix the cost of each ration for that mess. (Aug. 10, 1956, ch. 1041, 70A Stat. 380.)

The words "the cost of each ration for that mess" are substituted for the words "the monetary limit of the cost of ration aboard such ships and at such stations" to make it clear that the figure fixed by the Secretary of the Navy under this section is the amount the mess may spend per day for food for each man subsisting at the mess.

§ 6084. Enlisted members assigned to mess: basic allowance for subsistence paid to mess.

Under such regulations as the Secretary of the Navy prescribes, the basic allowance for subsistence of enlisted members of the naval service assigned to duty with and subsisting in an officers' or other mess, afloat or ashore, may be paid to the mess to which they are assigned. The words "basic allowance for subsistence" are substituted for the words "money accruing from the commuted rations" to conform to the terminology of § 301

of the Career Compensation Act of 1949 (37 U. S. C. 251). Section 301 of the Career Compensation Act of 1949 supersedes the authority of the Secretary of the Navy to commute the rations of enlisted members and authorizes in lieu thereof a basic allowance for subsistence. The words "enlisted members of the naval service" are substituted for the words "enlisted men" for uniformity of expression and for clarity. The word "legally" is omitted as surplusage. The words "and subsisting in" are inserted to make it clear that the mess must actually subsist the enlisted members assigned before the basic allowance of the members may be paid to the mess. The words "to which they are assigned" are inserted for clarity.

However, the flight ration may not be furnished without charge to any person in a travel status or to any person to whom a per diem allowance is granted in place of subsistence. When subsistence is furnished under this subsection, the appropriation chargeable with the maintenance of the hospital mess shall be credited at the rate prescribed by the Secretary of the Navy as the value of the hospital ration.

(b) Under such regulations as the Secretary prescribes, officers in the Nurse Corps may be subsisted in hospital messes. Each officer so subsisted shall pay for her subsistence at the rate fixed by the regulations. (Aug. 10, 1956, ch. 1041, 70A Stat. 380.)

In subsection (a) the words "active duty" before the words "enlisted personnel" are omitted as surplusage since there is no authority to hospitalize an enlisted member in a naval hospital under conditions where he would not be entitled to a hospital ration. The words "active and inactive" before the words "retired enlisted personnel" are omitted as surplusage. The word "members" is substituted for the word "personnel" for uniformity. The words "the Fleet Marine Corps Reserve" are inserted for clarity since the term "Fleet Reserve" in the source statute is used in a generic sense and includes members of the Fleet Marine Corps Reserve.

In subsection (b) the words "that nothing contained in this section shall deprive such nurses of allowances for subsistence now or after August 2, 1946, provided by law" are omitted as surplusage. Section 301 of the Career Compensation Act of 1949 (37 U. S. C. 251) authorizes a basic allowance for subsistence for all officers entitled to basic pay.

6113	34 U. S. C. 67.	R. S. 1389.

The words "paymaster, passed assistant paymaster, or assistant paymaster" are omitted because those titles no longer exist, and the words "officer in the Supply Corps" are substituted therefor.

The words "except as otherwise provided by law" are added because the act of Oct. 5, 1949, ch. 600 (34 U. S. C. 875a), authorizes advances of pay to personnel upon permanent changes of station or where such personnel are on distant duty stations where disbursements of pay and allowances cannot be regularly made, and § 303 (a) of the Career Compensation Act of 1949 (37 U. S. C. 253) authorizes advance payments of travel and transportation allowances. The words "on active duty" are supplied since the section has application to officers accountable for public funds or property. Officers not on active duty are not accountable officers.

§ 6114. Repealed. Pub. L. 90–235, § 6(a)(7), Jan. 2, 1968, 81 Stat. 762.

Section, act Aug. 10, 1956, ch. 1041, 70A Stat. 381, set forth restrictions on civilian employment for enlisted members of the naval service on active duty. See section 974 of this title.

§ 6115. Repealed. Pub. L. 85–861, § 36B (17), Sept. 2, 1958, 72 Stat. 1571.

Section, act Aug. 10, 1956, ch. 1041, 70A Stat. 382, prescribed a time limit for filing claims for drill pay and for the uniform gratuity. Section was also amended by Pub. L. 85–861, § 33 (a) (31), which amended catchline by substituting "uniform gratuity" for "unform gratuity".

§ 6116. Repealed. Pub. L. 90–235, 6(a)(2), Jan. 2, 1968, 81 Stat. 761.

Section, act Aug. 10, 1956, ch. 1041, 70A Stat. 382, provided that in computing length of service, no officer of the Navy or Marine Corps could be credited with service as a midshipman at the Naval Academy or as a cadet at the Military Academy, if he was appointed as a midshipman or cadet after March 4, 1913. See section 971 of this title.

§ 6148. Disability and death benefits: Naval Reserve and Marine Corps Reserve.

(a) A Member of the Naval Reserve, the Fleet Reserve, the Marine Corps Reserve, or the Fleet Marine Corps Reserve who is ordered to active duty,

or to perform inactive-duty training, for any period of time, and is disabled in line of duty from injury while so employed, or the beneficiary of such a member who dies from such an injury, is entitled to the same pension, compensation, death gratuity, and hospital benefits as are provided by law or regulation in the case of a member of the Regular Navy or the Regular Marine Corps of the same grade and length of service. For the purpose of this subsection, a member who is not in a pay status shall be treated as though he were receiving the pay and allowances to which he would be entitled if serving on active duty.

(b) A member of the Naval Reserve, the Fleet Reserve, the Marine Corps Reserve, or the Fleet Marine Corps Reserve who is ordered to active duty, other than active duty for training under section 270(b) of this title, for a period of more than 30 days, and is disabled in line of duty from disease while so employed, or the beneficiary of such a member who dies from such a disease, is entitled to the same pension, compensation, death gratuity, and hospital benefits as are provided by law or regulation in the case of a member of the Regular Navy or the Regular Marine Corps of the same grade and length of service.

(c) Subsections (a) and (b) do not authorize the hospitalization of dependents of members of the Naval Reserve, the Fleet Reserve, the Marine Corps Reserve, or the Fleet Marine Corps Reserve.

(d) A member of the Naval Reserve or the Marine Corps Reserve who, in time of peace, becomes ill or contracts disease in line of duty while he is on active duty or performing inactive-duty training is entitled to receive at Government expense medical, hospital, and other treatment appropriate for that illness or disease. The treatment shall be continued until the disability resulting from the illness or disease cannot be materially improved by further treatment. Such a member is also entitled to necessary transportation and subsistence incident to treatment and return to his home upon discharge from treatment. The treatment may not extend beyond ten weeks after the member is released from active duty, except—

(1) upon an approved recommendation of a board of medical survey consisting of one or more officers in the Medical Corps; or

(2) upon authorization of the Surgeon General, based on the certificate of a reputable physician that the illness or disease is a continuation of the illness or disease for which the member was initially treated and that benefit will result from further treatment.

(e) If a person is entitled to benefits under subsection (a) or (b) and under—

(1) section 6327 of this title; or

(2) section 331 of title 38;

he must elect the provision that is to be applied to him. (Aug. 10, 1956, ch. 1041, 70A Stat. 383; Sept. 2, 1958, Pub. L. 85-861, §§ 1(137), 36B(18), 72 Stat. 1507, 1571; Sept. 7, 1962, Pub. L. 87-649, § 6(e), 76 Stat. 494; Sept. 7, 1962, Pub. L. 87-651, title I, § 123(a), 76 Stat. 514.)

In subsections (a) and (b) the words "A member of the Naval Reserve, the Fleet Reserve, the Marine Corps Reserve, or the Fleet Marine Corps Reserve" are substituted for the words "All officers, nurses, warrant officers, and enlisted men of the United States Naval Reserve or United States Marine Corps Reserve" for brevity and accuracy. Insertion of the words "Fleet Reserve and Fleet Marine Corps Reserve" is made necessary by the Armed Forces Reserve Act of 1952. When 34 U. S. C. 855c-1 was enacted in 1949, members of these components were members of the Naval Reserve and Marine Corps Reserve and were consequently eligible for benefits under that section. Since enactment of the Armed Forces Reserve Act of 1952, these members are no longer members of a reserve component, but there is nothing in the 1952 act or its legislative history that indicates an attempt to narrow the meaning of 34 U. S. C. 855c-1 or to deny its benefits to these members. The revised section also covers midshipmen of the Naval Reserve although they are not covered by the specific wording of 34 U. S. C. 855c-1. The Comptroller General, in 21 Comp. Gen. 121, held that 34 U. S. C. 855, before amendment, was applicable to midshipmen in the Naval Reserve, and the wording of that section was similar to the wording of 34 U. S. C. 855c-1. The Judge Advocate General of the Navy, in CMO 5, 1951, 149, held that reserve midshipmen are covered by 34 U. S. C. 855c-1. The words "called or" and the words "by the federal government" are omitted as surplusage. In subsection (a) the words "who is ordered to active duty, or to perform inactive-duty training" are substituted for the words "ordered * * * to active naval service or to perform inactive duty for training or inactive-duty training" and in subsection (b) the words "who is ordered to active duty, other than active duty for training, for a period of more than 30 days" are substituted for the words "ordered * * * for extended naval or military service in excess of thirty days" in accordance with the uniform interpretation of these provisions. The last sentence of subsection (a) is substituted for the words "shall be deemed to be in the active naval service during such period". In subsection (b) these words are omitted as surplusage since that subsection relates only to members who are on extended active duty. The words "in all respects" are omitted as surplusage. The words "retirement pay" are omitted

in view of 30 Comp. Gen. 409, 414 which holds that Title IV of the Career Compensation Act of 1949 supersedes these and other prior provisions as they relate to retired pay for physical disability. The words "are now or may hereafter" are omitted as surplusage. The words "a member of the Regular Navy or the Regular Marine Corps of the same grade and length of service" are substituted for the words "officers, warrant officers, nurses, and enlisted men of corresponding grades and length of service of the Regular Navy or the Marine Corps" for uniformity.

Subsection (c) is made applicable to members of the Marine Corps Reserve as required by § 803 of the Armed Forces Reserve Act of 1952. In the subsection the word "physically" is omitted as surplusage. The words "on active duty or performing inactive-duty training, or while on authorized travel to or from such duty or training" are substituted for the words "while performing active military or naval service", as that service is defined in the first proviso. The words "administered by the Secretary of Labor" are inserted in the first sentence for clarity. The last sentence of the revised subsection is substituted for the words "the Secretary of Labor shall have jurisdiction in such cases". The words "and shall perform the same duties with reference thereto as in the cases of civil employees of the United States so disabled" are omitted as surplusage. Although § 304 of the Naval Reserve Act of 1938, as amended, states that the United States Employees' Compensation Commission administers the benefits concerned, 34 U. S. C. 855c and this subsection reflect section 3 of Reorganization Plan No. 2 of 1946, 60 Stat. 1095, and section 1 of Reorganization Plan No. 19 of 1950, 64 Stat. 1271, which placed the functions in the Secretary of Labor. The second sentence of the revised subsection is substituted for the 6th proviso of 34 U. S. C. 855c, and the third sentence of the revised subsection is substituted for the 2d proviso of 34 U. S. C. 855c. The 5th proviso of 34 U. S. C. 855c is omitted as executed, since the treaty of peace with Japan, effective 28 April 1952, terminated the last existing state of war designated as World War II. 34 U. S. C. 855c does not apply to members of the Fleet Reserve or Fleet Marine Corps Reserve because of its enactment in Title III of the Naval Reserve Act of 1938, entitled "Provisions Applicable Only to the Organized Reserve, Merchant Marine Reserve, and Voluntary Reserve", and the subsection is therefore not expanded to cover Fleet Reservists.

Subsection (d) is made applicable to members of the Marine Corps Reserve as required by the third sentence of § 803 of the Armed Forces Reserve Act of 1952. Subsection (d) is not extended to cover members of the Fleet Reserve or Fleet Marine Corps Reserve for the reasons stated as to subsection (c). The words "while he is on active duty or performing inactive-duty training" are substituted for the words "during the performance of active duty or training duty with or without pay" to provide the same coverage but to conform the terminology to other sections of this title. Both "active duty" and "inactive-duty training" are defined in § 101 of this title. The words "for which the member was initially treated" are substituted in clause (2) for the words "which was sustained or contracted during the period of active or training duty".

Subsection (e) combines the election provisions of 34 U. S. C. 855c and 855c–1. In the case of benefits involved in the election that are in this title, the reference is to those sections, and references to provisions outside this title are preserved.

In subsection (f) the words "with or without pay" are omitted as surplusage. The words "inactive-duty training" are substituted for the words "drills, equivalent instruction or duty, appropriate duty, or other prescribed duty" for uniformity.

Subsec. (e). Pub. L. 85–861, § 1(137)(C) substituted "under subsection (a) or (b) and under" for "under more than one of the preceding subsections, or if he is entitled to benefits under any of the preceding subsections and under".

Subsec. (f). Pub. L. 85–861, § 36B(18), repealed subsec. (f) which prescribed the manner of determining entitlement to benefits under the act of June 23, 1937, ch. 376 (50 Stat. 305).

EFFECTIVE DATE OF REPEAL

Section 9(b) of Pub. L. 86–155 provided that the repeal of this section shall become effective on November 1, 1959.

§ 6151. Higher retired grade and pay for members who serve satisfactorily under temporary appointments.

(a) Unless otherwise entitled to a higher retired grade, each member, other than a retired member, of the Navy or the Marine Corps shall, when retired, be advanced on the retired list to the highest officer grade in which he served satisfactorily under a temporary appointment as determined by the Secretary of the Navy.

(b) Each member, other than a former member of the Fleet Reserve or the Fleet Marine Corps Reserve, who is advanced on the retired list under this section is, unless otherwise entitled to higher retired pay, entitled to retired pay at the rate of 2½ percent of the basic pay of the grade to which advanced multiplied by the number of years of service that may be credited to him under section 1405 of this title, but the retired pay may not be more than 75 percent of the basic pay upon which the computations of retired pay is based. In determining the number of years to be used as a multiplier under this subsection, a part of a year that is six months or more is counted as a whole year and a part of a year that is less than six months is disregarded.

(c) Each former member of the Fleet Reserve or the Fleet Marine Corps Reserve who is advanced on the retired list under this section is entitled to retired pay based upon the grade to which advanced. Such retired pay shall be at the rate of 2½ percent of the basic pay of the grade to which advanced, determined by the same period of service used to determine the basic pay of the grade upon which his retainer pay is based, multiplied by the number of years of service creditable for his retainer pay at the time of retirement, but the retired pay may not be more than 75 percent of the basic pay upon which the computation of retired pay is based.

(d) A member who is advanced on the retired list under this section from the grade of warrant officer, W-1, or from an enlisted grade to a commissioned grade, and who applies to the Secretary within three months after his advancement, shall, if the Secretary approves, be restored on the retired list to his former warrant officer or enlisted grade, as the case may be. A member who is restored to his former grade under this subsection is thereafter considered for all purposes as a warrant officer, W-1, or an enlisted member, as the case may be. Subsections (b) and (c) are worded to conform to the terminology of the Career Compensation Act of 1949 (37 U. S. C. 231 et seq.). The second and third provisos in 34 U. S. C. 410c (a), relating to the computation of retired pay for officers whose pay on the active list was not based on years of service, are omitted as obsolete, since under the Career Compensation Act of 1949, the active-duty pay of all officers is based on years of service.

In subsection (d) the words "A retired member who is advanced * * * from the grade of warrant officer, W-1, or from an enlisted grade" are substituted for the words "Enlisted men and warrant officers * * * advanced" and the words "as a warrant officer, W-1, or an enlisted member" are substituted for the words "to be enlisted or warrant officer personnel" because the Warrant Officer Act of 1954 established the grade of warrant officer, W-1, in lieu of the old warrant officer (as distinguished from commissioned warrant officer) grades. The words "rank or" are omitted as unnecessary. The words "within three months of the date of the approval of this Act" and "whichever is the later" are omitted as executed.

AMENDMENTS

1963—Subsec. (b). Pub. L. 88-132 substituted "of" for "to which he would be entitled if serving on active duty in" following "2½ percent of the basic pay."

1958—Pub. L. 85-861, § 1 (139) (A), substituted "who serve satisfactorily under temporary appointments" for "temporarily appointed or promoted during World War II" in the catchline.

Subsec. (a). Pub. L. 85-861, § 1 (138), eliminated provisions which restricted application of section to members of the Navy or the Marine Corps who were appointed or promoted under the act of July 24, 1941, ch. 320, 55 Stat. 603.

Subsec. (b). Pub. L. 85-422 substituted "that may be credited to him under section 1405 of this title" for "creditable for basic pay".

PENSION CONTINUATION PROVISION

Section 3 of Pub. L. 91-482 provided that: "Notwithstanding the first section of this Act [repealing this section and sections 4539, 4623, 5981, and 6406 of this title and section 208 of Title 37], a person who is entitled to a pension under section 6159 of title 10, United States Code [this section], on the day before the date of enactment of this Act [which was approved Oct. 21, 1970] shall continue to be entitled to that pension on and after that date of enactment."

§ 6160. Pension to persons serving ten years.

(a) Every disabled person who has served in the Navy or Marine Corps as an enlisted man or petty officer, or both, for ten or more years, and has not been discharged for misconduct, may apply to the Secretary of the Navy for aid.

(b) Upon receipt of an application under subsection (a), the Secretary of the Navy may convene a board of not less than three naval officers (one of whom shall be a surgeon) to examine into the condition of the applicant, and to recommend a suitable amount for his relief, and for a specified time. If the Secretary of the Navy approves the recommendation, he shall so certify to the Administrator of Veterans' Affairs, who shall pay a pension in such amount monthly to the applicant.

(c) No naval pension under this section shall be paid at a rate in excess of the rate payable to a veteran of World War I for permanent and total non-service-connected disability, unless the applicant's disability is service-connected, in which case the naval pension payable to him shall not exceed the rate of disability compensation payable for total disability to a veteran of any war, or of peacetime service, as the case may be. In the case of any initial award of naval pension granted before July 14, 1943, where the person granted the naval pension is also entitled to pension or compensation under laws administered by the Veterans' Administration, such naval pension shall not exceed one-fourth of such

AMENDMENTS

1958—Pub. L. 85–857 limited naval pensions granted before July 14, 1943 to not more than one-fourth of any pension or compensation which the person is entitled to receive under laws administered by the Veterans' Administration.

EFFECTIVE DATE OF 1958 AMENDMENT

Section 13 (v) (4) of Pub. L. 85–857 provided in part that the amendment of this section by Pub. L. 85–857 shall be effective as of Jan. 1, 1958.

Section effective January 1, 1958, see section 2301 of Pub. L. 85–56, 71 Stat. 172.

§ 6161. Remission of indebtedness of enlisted members upon discharge.

If he considers it in the best interest of the United States, the Secretary of the Navy may have remitted or canceled any part of an enlisted member's indebtedness to the United States or any of its instrumentalities remaining unpaid before, or at the time of that member's honorable discharge. (Added Pub. L. 86–511, § 1(a), June 11, 1960, 74 Stat. 207.)

Chapter 563.—HOSPITALIZATION AND MEDICAL CARE

Sec.
6201. Members of the naval service in other United States hospitals.
6202. Insane members of the naval service.
6203. Emergency medical treatment: reimbursement for expense.

§ 6201. Members of the naval service in other United States hospitals.

(a) When appropriate naval hospital facilities are unavailable, the Secretary of the Navy may provide for the care and treatment of members of the naval service, entitled to treatment in naval hospitals, in other United States hospitals, if the agencies controlling the other hospitals consent. Expenses incident to such care and treatment are chargeable to the same appropriation as would be chargeable for care and treatment in a naval hospital.

(b) The deduction authorized by section 16 of title 24 shall be made from accounts of members hospitalized under this section. (Aug. 10, 1956, ch. 1041, 70A Stat. 387; Sept. 2, 1958, Pub. L. 85–861, § 36B(19), 72 Stat. 1571.)

HISTORICAL AND REVISION NOTES

Revised section	Source (U. S. Code)	Source (Statutes at Large)
6201 (a), (b), (c).	24 U. S. C. 31. 34 U. S. C. 854f; 34 U. S. C. 854 (note).	Jan. 19, 1929, ch. 85, 45 Stat. 1090. June 25, 1938, ch. 690, § 207, 52 Stat. 1180. July 9, 1952, ch. 608, § 803 (3d sentence), 66 Stat. 505.

In subsection (a) the words "members of the naval service" are substituted for the words "naval patients on the active or retired list and members of the Naval Reserve or Marine Corps Reserve". The definition of "member of the naval service" makes the terms coextensive. Reference to St. Elizabeths Hospital is omitted in view of Reorganization Plan No. 3 of 1946, § 201, 60 Stat. 1098, which transferred the functions of that hospital pertaining to members of the naval service to the Secretary of the Navy. For the purposes of this section, St. Elizabeths is now in the same category as other United States hospitals.

In subsection (b) reference to R. S. 4813 (24 U. S. C. 6) is omitted because the Administrator of Veterans' Affairs held in Decision Number 571 (July 27, 1944) that R. S. 4813 was repealed by implication. Since this decision is binding on the Secretary of the Navy (see 38 U. S. C. 11a–2), the deductions from pension accounts authorized by R. S. 4813 may not be made.

In subsection (c) the words "each retired enlisted member of the naval service" are substituted for the words "retired enlisted men" and the words "is entitled to" are substituted for the words "shall receive" to conform to terminology used throughout this title. The words "equal in value to the hospital ration" are substituted for the words "prescribed by law for enlisted men of the Regular Navy" to show that the amount of the allowance is the value of the hospital ration. The words "for each day" are inserted to make it clear that the ration allowance is credited on a daily basis. The words "under this section" are substituted for the words "in a Federal hospital in accordance with law" because this section is the only authority for the hospitalization of members of the Fleet Reserve and Fleet Marine Corps Reserve and retired enlisted members of the naval service in Federal hospitals, other than naval hospitals, under conditions entitling the members to a ration allowance. The subsistence of a member of the Fleet Reserve or Fleet Marine Corps Reserve or a retired enlisted member of the naval service while hospitalized in naval hospitals is covered by § 6086 of this title.

AMENDMENTS

1958—Pub. L. 85–861 repealed former subsec. (c), which related to a ration allowance for members of the Fleet Reserve of the Fleet Marine Corps Reserve and retired enlisted members of the naval service.

§ 6202. Insane members of the naval service.

A member of the naval service who becomes insane may be placed in the hospital for the insane that, in the opinion of the Secretary of the Navy, is most convenient and will provide the most beneficial treatment. (Aug. 10, 1956, ch. 1041, 70A Stat. 387.)

6202	34 U. S. C. 595.	R. S. 1551; July 1, 1916, ch. 209, § 1, 39 Stat. 309.

The words "that * * * will provide the most beneficial treatment" are substituted for the words "best calculated to promise a restoration of reason" for clarity. The second sentence of 34 U. S. C. 595 is omitted as superseded. It provided a method by which the Secretary of the Navy, in his discretion, could compensate other agencies for expenses involved in hospitalizing insane naval patients. Other provisions of law, principally 24 U. S. C. 31, 31 U. S. C. 686, and 37 U. S. C. 284, and regulations, principally Executive Order 10122, of April 14, 1950, establish the method currently used.

§ 6203. Emergency medical treatment: reimbursement for expense.

The Secretary of the Navy shall prescribe regulations for reimbursing members of the naval service for expenses of emergency or necessary medical service, including hospitalization and medicines, when the member was in a duty status at the time he received the service and the service was not available from a Federal source. For the purpose of this section, a member on leave or liberty is in a duty status. (Aug. 10, 1956, ch. 1041, 70A Stat. 387.)

The word "shall" is substituted for the words "authorized and directed to". The word "members" is substituted for the word "persons". The words "from civilian sources" are omitted as surplusage. The word "hospitalization" is substituted for the words "hospital service". In the second sentence, the word "authorized" is omitted as surplusage.

Subsection (a) is set forth to preserve the legal authority for the title of the band, but the first 30 words of the act of March 4, 1925, ch. 536, § 17, 43 Stat. 1275, are omitted as executed. To conform to the Career Compensation Act of 1949 (37 U. S. § 6241. Medal of honor.

The President may award, and present in the name of Congress, a medal of honor of appropriate design, with ribbons and appurtenances, to a person who, while a member of the naval service, distinguishes himself conspicuously by gallantry and intrepidity at the risk of his life above and beyond the call of duty—

(1) while engaged in an action against an enemy of the United States;

(2) while engaged in military operations involving conflict with an opposing foreign force;

(3) while serving with friendly foreign forces engaged in an armed conflict against an opposing armed force in which the United States is not a belligerent party.

(Aug. 10, 1956, ch. 1041, 70A Stat. 389; July 25, 1963, Pub. L. 88–77, § 2(1), 77 Stat. 93.)

6241	34 U. S. C. 354.	Feb. 4, 1919, ch. 14, § 1, 40 Stat. 1056; Aug. 7, 1942, ch. 551 § 1, 56 Stat. 743.

In subsection (a) the word "award" is added for clarity since the President determines the recipient, in addition to presenting the medal in the name of Congress. The words "a member of the naval service" are substituted for the words "in the naval service of the United States" for uniformity. The word "distinguishes" is substituted for the words "shall * * * distinguish" for uniformity.

In subsection (b) the words "of the medal of honor authorized on August 8, 1942" are substituted for the words "adopted pursuant to the Act approved December 21, 1861 (12 Stat. 330)" for the reason that the 1861 Act does not establish the design, and the date of formal adoption of the design of the medal is obscure. The effect of the subsection is to continue the design recognized by 34 U. S. C. 354.

AMENDMENTS

1963—Pub. L. 88–77 enlarged the authority to award the medal of honor, which was limited to those cases in

which persons distinguish themselves in action involving actual conflict with an enemy, or in the line of his profession, and without detriment to the mission of his command or to the command to which attached, to permit its award for distinguished service while engaged in an action against an enemy of the United States, while engaged in military operations involving conflict with an opposing foreign force, or while serving with friendly foreign forces engaged in an armed conflict against an opposing armed force in which the United States is not a belligerent party, and substituted the requirement that it be of appropriate design, with ribbons and appurtenances, for the requirement that it be the same as that authorized on August 8, 1942.

The President may award a Navy cross of appropriate design, with ribbons and appurtenances, to a person who, while serving in any capacity with the Navy or Marine Corps, distinguishes himself by extraordinary heroism not justifying the award of a medal of honor—

(1) while engaged in an action against an enemy of the United States;

(2) while engaged in military operations involving conflict with an opposing foreign force; or

(3) while serving with friendly foreign forces engaged in an armed conflict against an opposing armed force in which the United States is not a belligerent party.

The word "award" is substituted for the word "present" to cover the determination of the recipient as well as the actual presenting of the decoration. The words "but not in the name of Congress" are omitted, since a decoration is presented in the name of Congress only if the law so directs. The words "Navy or the Marine Corps" are substituted for the words "naval service of the United States" for clarity. AMENDMENTS

1963—Pub. § 6243. Distinguished-service medal.

The President may award a distinguished-service medal of appropriate design and a ribbon, together with a rosette or other device to be worn in place thereof, to any person who, while serving in any capacity with the Navy or the Marine Corps, distinguishes himself by exceptionally meritorious service to the United States in a duty of great responsibility. 6292 (b)	34 U. S. C. 900a (note).	Sept. 24, 1945, ch. 385, § 3, 59 Stat. 537.

The word "member" is substituted for the word "person" and the words "naval service" are substituted for the words "Navy, Marine Corps, and the Reserve components thereof". The words "form of" are added for clarity. Reference to the date "September 24, 1945" is omitted as unnecessary. The words "is entitled to" are substituted for the words "shall be furnished" for uniformity. The decision of the Comptroller General of December 23, 1949 (B–91297), has not been overlooked. That decision, without passing on a case in which the point was involved, indicated that the transportation entitlement in 34 U. S. C. 900a might be impliedly repealed by the Career Compensation Act of 1949. The editors of the United States Code Annotated, apparently on the basis of this decision, have omitted 34 U. S. C. A. 900a from the 1954 pocket part. A conclusion that the section is repealed, however, defeats the specific purpose of the provision, which, as indicated in the legislative hearings, was to insure that underage dischargees would be transported home and not simply released at the place of discharge.

Section, act Aug. 10, 1956, ch. 1041, 70A Stat. 392, provided for discharges for minors enlisted in the naval service or in the Regular Navy as seamen, seamen apprentices or seamen recruits. See section 1170 of this title.

§ 6294. Women in the Regular Navy and Regular Marine Corps: termination of enlistment.

The Secretary of the Navy, under regulations prescribed by him, may terminate the enlistment of and discharge any enlisted woman in the Regular Navy or the Regular Marine Corps. (Aug. 10, 1956, ch. 1041, 70A Stat. 392.)

In subsection (a) the words "Regular" and "holding a permanent appointment in the grade of warrant officer, W-1, or above" are inserted for clarity. The word "shall" is substituted for the word "may" because the Attorney General has construed R. S. 1443 as conferring a right to retirement upon officers who apply for it after 40 years of service (30 Op. Atty. Gen. 406). The words "from active service" are omitted as surplusage. The words "after completing 40 or more years of active service" are substituted for the words "has been forty years in the service of the United States" for clarity.

In subsection (b) the accepted meaning of the words "service of the United States" is spelled out for clarity. They have been consistently interpreted to include active service in the armed forces as defined in this title.

(b) For the purpose of this section, an officer's years of active service are computed by adding all his active service in the armed forces.

(c) Each officer who is retired under this section is entitled to retired pay at the rate of 75 percent of the highest basic pay of the grade in which retired. (Aug. 10, 1956, ch. 1041, 70A Stat. 394.)

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 6325 of this title.

§ 6323. Officers: 20 years.

(a) An officer of the Navy or the Marine Corps who applies for retirement after completing more than 20 years of active service, of which at least 10 years was service as a commissioned officer, may, in the discretion of the President, be retired on the first day of any month designated by the President.

(b) For the purposes of this section—

(1) an officer's years of active service are computed by adding all his active service in the armed forces; and

(2) his years of service as a commissioned officer are computed by adding all his active service in the armed forces under permanent or temporary appointments in grades above warrant officer, W-1.

(c) Unless otherwise entitled to a higher grade, each officer retired under this section shall be retired—

(1) in the highest grade, permanent or temporary, in which he served satisfactorily on active duty as determined by the Secretary of the Navy; or

(2) if the Secretary determines that he did not serve satisfactorily in his highest temporary grade, in the next lower grade in which he has served, but not lower than his permanent grade.

(d) A warrant officer who retires under this section may elect to be placed on the retired list in the highest grade and with the highest retired pay to which he is entitled under any provision of this title. If the pay of that highest grade is less than the pay of any warrant grade satisfactorily held by him on active duty, his retired pay shall be based on the higher pay.

(e) Unless otherwise entitled to higher pay, an officer retired under this section is entitled to retired pay at the rate of 2½ percent of the basic pay of the grade in which retired multiplied by the number of years of service that may be credited to him under section 1405 of this title, but the retired pay may not be more than 75 percent of the basic pay upon which the computation of retired pay is based.

(f) Officers of the Naval Reserve and the Marine Corps Reserve who were transferred to the Retired Reserve from an honorary retired list under section 213 (b) of the Armed Forces Reserve Act of 1952 (66 Stat. 485), or are transferred to the Retired Reserve under section 6327 of this title, may be retired under this section, notwithstanding their retired status, if they are otherwise eligible. (Aug. 10, 1956, ch. 1041, 70A Stat. 394; Sept. 2, 1958, Pub. L. 85-861, § 1 (142), 72 Stat. 1509; Oct. 2, 1963, Pub. L. 88-132, § 5 (h) (4), 77 Stat. 214.)

In subsection (b) the words "or the Reserve Components thereof" are omitted because the terms "Navy", "Marine Corps", and "Coast Guard" include the reserve components. The words "including active duty for training" are omitted because the term "active duty" is defined in this title as including training duty.

The act of April 14, 1949 (34 U. S. C. 410b-1), extending the benefits of 34 U. S. C. 410b to officers on the honorary retired lists, was enacted because the Comptroller General had held that these officers, being already in a retired status, could not be retired under 34 U. S. C. 410b (U. S. Code Congressional Service, 1949, p. 1179). The provisions of the Naval Reserve Act of 1938 relating to the honorary retired lists were repealed by § 803 of the Armed Forces Reserve Act of 1952, but insofar as they provided for retirement and retired pay they were reenacted, for a period of 20 years, in § 413 of that act (50 U. S. C. 1052). Persons on the honorary retired lists when the Armed Forces Reserve Act of 1952 was passed were transferred to the appropriate Retired Reserve under § 213 of the act. Persons qualifying for retirement under § 413 are likewise placed in the Retired Reserve. The purpose of Congress in enacting § 413 was to preserve the accrued rights of persons who were members of reserve components on January 1, 1953, the effective date of the act (U. S. Code Congressional and Administrative News, 1952, p. 3584). One of their rights was the right to apply for retirement under 34 U. S. C. 410b upon completion of the required service, notwithstanding the fact that, before qualifying for retirement under that section, they had already acquired a retired status. Subsection (c) is worded accordingly.

(1) unless otherwise entitled to a higher grade, shall be retired in the grade he would hold if he had not received such an appointment; and

(2) unless otherwise entitled to higher pay, is entitled to retired pay at the rate of 2½ percent of the basic pay of the grade he would hold if he had not received such an appointment multiplied by the number of years of service that may be credited to him under section 1405 of this title, but the retired pay may not be more than 75 percent of the basic pay upon which the computation of retired pay is based.

(c) A warrant officer who retires under section 6321, 6322, or 6323 of this title may elect to be placed on the retired list in the highest grade and with the highest retired pay to which he is entitled under any provision of this title. Title III of the Officer Personnel Act of 1947 authorizes temporary promotions to the grades of lieutenant through rear admiral. The purpose of § 316 (j) of that act (34 U. S. C. 410m) was to insure that each officer who is temporarily promoted under that title, and who retires before he receives a permanent appointment in the grade in which he is serving, will be considered, for the purposes of the laws relating to retired grade and pay, to be serving in the grade he holds pursuant to his temporary appointment. Since § 5001 of this title provides that an officer who holds a permanent appointment in one grade and a temporary appointment in a higher grade is considered as serving in the higher grade, a restatement of the substance of § 316 (j) is unnecessary and is omitted from subsection (a). The words "retired other than by reason of physical disability incurred in line of duty", in 34 U. S. C. 43g (d) and (f) and 34 U. S. C. 410r (g), are omitted as unnecessary, since this section relates only to officers who are voluntarily retired under this chapter. The words "basic pay to which he would be entitled if serving on active duty in the grade in which retired" are substituted for the words "active-duty pay with longevity credit of the rank with which retired" in 34 U. S. C. 410c (a), for the words "active-duty pay to which entitled at the time of retirement" in 34 U. S. C. 43g (d), and for the words "active-duty pay to which she would be entitled if serving, at the time of retirement, on active duty in the rank in which placed upon the retired list" in 34 U. S. C. 43g (f) and 34 U. S. C. 410r (g), to make clear the fact that the amount of retired pay is not permanently fixed at the time of retirement but is subject to change when rates of basic pay are changed, as provided in 34 U. S. C. 410q. The words "basic pay" are substituted for the words "active-duty pay" and the words "creditable for basic pay" are substituted for the words "for which entitled to credit in the computation of her active-duty pay", and for the words "for which entitled to credit in the computation of their pay while on active duty" to conform to the terminology used in the Career Compensation Act of 1949 (37 U. S. C. 231 et seq.)

Unlike provisions of law authorizing retirement on various other grounds, R. S. 1443, which provides for the retirement of officers on their own application after 40 years of service, contains no provisions as to retired pay.

R. S. 1588 provided, inter alia, that officers so retired should received retired pay at the rate of 75 percent of the sea pay of their respective grades, but that section was expressly repealed by § 531 (a) (7) of the Career Compensation Act of 1949, leaving no specific provision for the retired pay of officers retired under R. S. 1443. It would be absurd to assume, however, that Congress intended that an officer having 40 years of service should be retired without pay, when he could have been retired with pay at any time within the preceding 20 years. By the repeal of R. S. 1588 Congress intended merely to remove obsolete and superseded provisions as to retirement at age 62 and retirement after 45 years of service, references to sea pay, and provisions, inconsistent with later law, for half pay for officers retired for other reasons. Congress intended the retired pay of officers retired after 40 years of service to be computed according to the formula prescribed generally for retired officers, other than for officers retired by reason of physical disability, and this section is worded accordingly.

Subsection (b) is added for clarity. With respect to officers appointed under §§ 5231 or 5232 of this title it represents a necessary inference from 34 U. S. C. 410o and 623b (e), codified in § 5233 of this title.

AMENDMENTS

1963—Subsecs. (a)(2), (b)(2). Pub. L. 88-132 substituted "of" for "to which he would be entitled if serving on active duty in" following "2½ percent of the basic pay."

1958—Subsec. (a). Pub. L. 85-861 substituted "or 6322" for ", 6322, or 6323".

Subsec. (a)(2). Pub. L. 85-422 substituted "that may be credited to him under section 1405 of this title" for "creditable for basic pay".

Subsec. (b)(2). Pub. L. 85-422 substituted "that may be credited to him under section 1405 of this title" for "creditable for basic pay".

In subsection (a) the word "Regular" is inserted before the words "Navy" and "Marine Corps" to reflect the longstanding interpretation that 34 U. S. C. 431 applies only to members of the Regular Navy and Regular Marine Corps. So much of the act of March 2, 1907, ch. 2515, § 1, (34 U. S. C. 431), as pertains to allowances and rations was expressly repealed by the act of June 16, 1942, ch. 413, 56 Stat. 369. The words "active service in the armed forces" are substituted for 34 U. S. C. 432 for brevity. The reference to the former Revenue Cutter Service in 34 U. S. C. 432 is omitted as obsolete, inasmuch as that Service was absorbed by the Coast Guard in 1915. If there are any enlisted men not yet retired who served in the Revenue Cutter Service, their right to count that service for the purpose of this section is protected by the saving provisions accompanying this title. The reference to active service in the Civil or Spanish-American war in 34 U. S. C. 432 is omitted as obsolete.

Subsection (b) is inserted to cover into the section permanent enlisted members who are temporarily appointed to commissioned or warrant grades.

In subsection (c) the word "grade" is substituted for the words "rating or rank" and the words "is entitled to retired pay at the rate of 75 percent of the basic pay, to which he would be entitled if serving on active duty in the grade in which retired" are substituted for the words "and with 75 per centum of the pay of the said rating or rank" to conform to the terminology of the Career Compensation Act of 1949 (37 U. S. C. 231 et seq.).

Subsection (d) is substituted for 34 U. S. C. 350i (e) as that section pertains to voluntary retirement of enlisted members with 30 years of active service.

AMENDMENTS

1967—Subsec. (c)(2). Pub. L. 90–207 inserted ", or if he has served as senior enlisted advisor of the Navy or as sergeant major of the Marine Corps, he shall be entitled to retired pay at the rate of 75 percent of the highest basic pay to which he was entitled while so serving, if that rate is higher" following "retirement".

1963—Subsec. (c)(2). Pub. L. 88–132 substituted "of" for "to which he would be entitled is serving on active duty in" following "75 percent of the basic pay."

1958—Subsec. (c)(2). Pub. L. 85–422 substituted "pay grade in which he was serving on the day before retirement" for "grade in which retired".

Subsec. (d). Pub. L. 85–861 repealed subsec. (d) which related to grade of members serving in a grade to which they were appointed under section 5597 or promoted under section 5787 of this title.

EFFECTIVE DATE OF 1967 AMENDMENT

Amendment by Pub. L. 90–207 effective Oct. 1, 1967, see section 7 of Pub. L. 90–207, set out as a note under section 203 of Title 37, Pay and Allowances of the Uniformed Services.

EFFECTIVE DATE OF 1958 AMENDMENT

Amendment of section by Pub. L. 85–422 effective on June 1, 1958.

APPLICATION OF 1958 AMENDMENT TO RETIRED PERSONS

Amendment by Pub. L. 85–422 inapplicable to retired persons or to persons to whom retired pay is granted before May 31, 1958, see note under section 3991 of this title.

§ 6327. Officers and enlisted members of the Naval Reserve and Marine Corps Reserve: 30 years; 20 years; retired pay.

(a) A member of the Naval Reserve or the Marine Corps Reserve may be transferred to the Retired Reserve upon his request if he has completed—

(1) at least 30 years of active service in the armed forces, other than active duty for training; or

(2) at least 20 years of active service in the armed forces other than active duty for training, the last 10 of which he served in the 11-year period immediately preceding his transfer to the Retired Reserve.

(b) Each member who is transferred to the Retired Reserve under subsection (a) is entitled, when not on active duty, to retired pay at the rate of 50 percent of the basic pay of the grade in which retired.

(c) This section applies only to persons who were members of the Naval Reserve or the Marine Corps Reserve on January 1, 1953.

(d) This section terminates on January 1, 1973. However, its termination will not affect any accrued rights to retired pay.

(e) A member who is eligible for retirement under this section, and who is also eligible for retirement under another provision or for transfer to the Fleet Reserve or the Fleet Marine Corps Reserve under section 6330 of this title, is entitled to elect which of these benefits he is to receive. (Aug. 10, 1956, ch. 1041, 70A Stat. 395; Aug. 1, 1958, Pub. L. 85–583, § 1 (1), 72 Stat. 480; Oct. 2, 1963, Pub. L. 88–132, § 5 (h)(5), 77 Stat. 214.)

HISTORICAL AND REVISION NOTES

6327	50 U. S. C. 1052 (a), (b), (d), (e), (f).	July 9, 1952, ch. 608, § 413 (a), (b), (d), (e), (f), 66 Stat. 499.

In subsection (a) the word "Federal" is omitted and the words "in the armed forces, other than active duty for training" are inserted. The words "active Federal service" are not defined in 50 U. S. C. 1052. Section 310 of the Naval Reserve Act of 1938, which 50 U. S. C. 1052 replaced, specifies active service in the "Army, Navy, Marine Corps, Coast Guard, Naval Auxiliary Service, Naval Reserve Force, Naval Militia in Federal status, National Naval Volunteers, Naval Reserve, Marine Corps Reserve Force, and Marine Corps Reserve." 50 U. S. C. 1052 was intended to preserve the rights of persons who, on January 1, 1953, were members of reserve components, so that they would not be prejudiced by the repeal of § 310 of the Naval Reserve Act of 1938 (U. S. Code Congressional and Administrative News, 1952, p. 3584). To effect that purpose, the service that was creditable under the 1938 act must be creditable under 50 U. S. C. 1052. The words "active service in the armed forces, other than active duty for training" cover all creditable service. The Judge Advocate General of the Navy, in an opinion dated August 27, 1954 (JAG II: 2: WGA: CA: mk), held that active duty for training was not creditable under the 1938 act and is, therefore, not creditable under the 1952 act.

AMENDMENTS

1963—Subsec. (b). Pub. L. 88–132 substituted "of the grade in which retired" for "to which he would be entitled if on active duty" following "50 percent of the basic pay."

1958—Subsec. (e). Pub. L. 85–583 entitled eligible members of Naval Reserve or Marine Corps Reserve to elect to transfer to Fleet Reserve or Fleet Marine Corps Reserve.

EFFECTIVE DATE OF 1963 AMENDMENT

Amendment of section by Pub. L. 88–132 effective Oct. 1, 1963, see section 14 of Pub. L. 88–132, set out as a note under section 201 of Title 37, Pay and Allowances of the Uniformed Services.

§ 6328. Treatment of fractions of years of service in computing retired pay.

In determining the total number of years of service to be used as a multiplier in computing the retired pay of officers retired under this chapter, a part of a year that is six months or more is counted as a whole year and a part of a year that is less than six months is disregarded. (Aug. 10, 1956, ch. 1041, 70A Stat. 396.)

The words "and a part of a year that is less than six months is disregarded" are added for clarity. The legislative history of the Career Compensation Act of 1949, which contains a provision identical to those codified in this section, indicates that all of these provisions are construed as requiring a fractional year of less than six months to be disregarded (hearings before the Committee on Armed Services of the Senate on H. R. 5007, 81st Cong., 1st sess., p. 313, July 6, 1949).

§ 6329. Officers not to be retired for misconduct.

No officer of the Navy or the Marine Corps may be retired because of misconduct for which trial by court-martial would be appropriate. (Aug. 10, 1956, ch. 1041, 70A Stat. 396.)

The words "for which trial by court-martial would be appropriate" are substituted for the words "but he shall be brought to trial by court-martial for such misconduct." The peremptory command in the source text is at variance with the theory of the Uniform Code of Military Justice and conflicts with the provisions of articles 30, 32, and 34. The substituted words are in accord with the interpretation placed on R. S. 1456 in *Denby* v. *Berry*, 263 U. S. 29, 36 (Nov. 12, 1923).

§ 6330. Enlisted members: transfer to Fleet Reserve and Fleet Marine Corps Reserve; retainer pay.

(a) The Fleet Reserve and the Fleet Marine Corps Reserve are composed of members of the naval service transferred thereto under—

(1) Title II of the Naval Reserve Act of 1938 (52 Stat. 1178), as amended; or

(2) this section.

(b) An enlisted member of the Regular Navy or the Naval Reserve who has completed 20 or more years of active service in the armed forces may, at his request, be transferred to the Fleet Reserve. An enlisted member of the Regular Marine Corps or the Marine Corps Reserve who has completed 20 or more years of active service in the armed forces may, at his request, be transferred to the Fleet Marine Corps Reserve.

(c) Each member who is transferred to the Fleet Reserve or the Fleet Marine Corps Reserve under this section is entitled when not on active duty, to retainer pay at the rate of 2½ percent of the basic pay that he received at the time of transfer multiplied by the number of years of active service in the armed forces, except that in the case of a member who has served as senior enlisted advisor of the Navy or sergeant major of the Marine Corps, retainer pay shall be computed on the basis of the highest basic pay to which he was entitled while so serving, if that basic pay is higher than the basic pay received at the time of transfer. A member may recompute his retainer pay under section 1402 of this title to reflect active duty after transfer. If the member has been credited by the Secretary of the Navy with extraordinary heroism in the line of duty, which determination by the Secretary is final and conclusive for all purposes, his retainer pay shall be increased by 10 percent. However, in no case may a member's retainer pay be more than 75 percent of the basic pay upon which the computation of retainer pay is based.

(d) For the purposes of subsections (b) and (c), a part of a year that is six months or more is counted as a whole year and a part of a year that is less than six months is disregarded. A completed minority enlistment is counted as four years of active service, and an enlistment terminated within three months before the end of the term of enlistment is counted as active service for the full term. (Aug. 10, 1956, ch. 1041, 70A Stat. 396; Aug. 1, 1958, Pub. L. 85-583, § 1 (2, 3), 72 Stat. 480; Dec. 16, 1967, Pub. L. 90-207, § 3(4), 81 Stat. 653.)

June 25, 1938, ch, 690, § 201 (less proviso), 52 Stat. 1178. July 9, 1952, ch. 608, § 803 (2d sentence of 1st par.), 66 Stat. 505. June 25, 1938, ch. 690, § 204 (less 4th, 5th, 6th (as applicable to § 203 of the Naval Reserve Act of 1938), and 7th provisos) 52 Stat. 1170; Aug. 10, 1946, ch. 952, § 2, 60 Stat. 993. June 25, 1938, ch. 690, § 202 (less provisos), 52 Stat. 1178.

In subsection (a) the words "officers" and "assigned" are omitted, since they are applicable only to the proviso in 34 U. S. C. 854, which is recommended for repeal as obsolete. (See Table 2A.) The words "including (a) those former members of the Fleet Reserve who were transferred * * * but before the expiration of three months following discharge", appearing in § 803 of the Armed Forces Reserve Act of 1952, 66 Stat. 505 (34 U. S. C. 854 (note) are omitted as surplusage. These words merely illustrate the class of persons transferred to the Fleet Reserve under the Naval Reserve Act of 1938, 52 Stat. 1178, as referred to in the section from which these words were taken, and in no way limit that class or impose a citizenship requirement for membership in it. (See the opinion of the Judge Advocate General of the Navy, JAG: II: 1: JFG: imz of February 17, 1953.)

In subsection (b) reference to the date July 1, 1925, is omitted, since members who were in the naval service on or before that date may, if they are qualified and so elect, be transferred to the Fleet Reserve or to the Fleet Marine Corps Reserve under 34 U. S. C. 854c instead of under 34 U. S. C. 854b, as provided in the fifth proviso of 34 U. S. C. 854c. That proviso and the provisions of 34 U. S. C. 854b, which are applicable only to persons who were in the naval service in 1925, are not codified because they relate to a small closed class and are therefore of limited interest. They are not repealed, however. (See Table 2D.)

In subsections (b) and (c) the term "active service in the armed forces" is substituted for the term "active Federal service" to execute the definition in the last sentence of 34 U. S. C. 854c.

In subsection (c) the words "is entitled, when not on active duty, to retainer pay at the rate of 2½ percent of the basic pay that he received at the time of transfer" are substituted for the words "except when on active duty, shall be paid at the annual rate of 2½ per centum of the annual base and longevity pay they are receiving at the time of transfer" to conform to the terminology of the Career Compensation Act of 1949 (37 U. S. C. 231 et seq.).

Subsection (d) states the rule as to the method of counting minority and short-term enlistments, in connection with determining active service, in accordance with *White* v. *United States*, 97 F. Supp. 698.

(2) to the appropriate Retired Reserve, if he was a member of the Naval Reserve or the Marine Corps Reserve at the time of his transfer to the Fleet Reserve or the Fleet Marine Corps Reserve.

(b) For the purpose of subsection (a), a member's years of service are computed by adding—

(1) the years of service credited to him upon his transfer to the Fleet Reserve or the Fleet Marine Corps Reserve;

(2) his years of active and inactive service in the armed forces before his transfer to the Fleet Reserve or the Fleet Marine Corps Reserve not credited to him upon that transfer; and

(3) his years of service, active and inactive, in the Fleet Reserve or the Fleet Marine Corps Reserve.

In subsection (a) the words "transferred * * * in accordance with the provisions of this section and of sections 853 and 854b of this title", in the fourth proviso of 34 U. S. C. 854c, and the words "transferred after sixteen years' or more service in the Regular Navy", and "men coming under the cognizance of sections 853 and 854b of this title", in the second proviso of 34 U. S. C. 854e, are omitted as surplusage since the classes designated by these phrases comprise all members of the Fleet Reserve and Fleet Marine Corps Reserve.

Subsection (b) is worded so as to cover all members of the Fleet Reserve and the Fleet Marine Corps Reserve regardless of the law under which they attained that status. A member transferring under 34 U. S. C. 854b may count only active naval service in computing the service required for that transfer, but in determining his eligibility for retirement he may add to his active naval service all previous active or inactive service in the Army, Navy, Marine Corps, Air Force, or Coast Guard, and his time in the Fleet Reserve. A member transferring to the Fleet Reserve under 34 U. S. C. 854c may count active service in any armed force toward that transfer, and he determines his eligibility for retirement by adding to the service credited to him at the time of transfer any previous inactive service in the armed forces and his time in the Fleet Reserve. As to the latter member the words "active service" in clause (2) are superfluous, since such service would have been credited to him upon his transfer to the Fleet Reserve, but they are

needed in the case of a member transferred under 34 U. S. C. 854b.

In subsection (c) references to the "allowances to which enlisted men of the Navy are entitled on retirement after thirty years' service", in the second and fourth provisos of 34 U. S. C. 854e, are omitted because of the repeal, by § 19 of the Pay Readjustment Act of 1942, 56 Stat. 369, of the laws authorizing such allowances.

AMENDMENTS

1958—Subsec. (a). Pub. L. 85-583, § 1(4), provided for the transfer to the appropriate Retired Reserve of those members of the Fleet Reserve or the Fleet Marine Corps Reserve who had transferred thereto from the Naval Reserve or the Marine Corps Reserve.

Subsec. (b). Pub. L. 85-583, § 1 (5), struck out the words "of clause (2)".

Subsec. (c). Pub. L. 85-583, § 1 (6), inserted "or the Retired Reserve" after "retired list" wherever appearing.

§ 6332. Conclusiveness of transfers.

When a member of the naval service is transferred by the Secretary of the Navy—

(1) to the Fleet Reserve;

(2) to the Fleet Marine Corps Reserve;

(3) from the Fleet Reserve to the retired list of the Regular Navy or the Retired Reserve; or

(4) From the Fleet Marine Corps Reserve to the retired list of the Regular Marine Corps or the Retired Reserve;

the transfer is conclusive for all purposes. Each member so transferred is entitled, when not on active duty, to retainer pay or retired pay from the date of transfer in accordance with his grade and number of years of creditable service as determined by the Secretary. The Secretary may correct any error or omission in his determination as to a member's grade and years of creditable service. When such a correction is made, the member is entitled, when not on active duty, to retainer pay or retired pay in accordance with his grade and number of years of creditable service, as corrected, from the date of transfer. (Aug. 10, 1956, ch. 1041, 70A Stat. 397; Aug. 1, 1958, Pub. L. 85-583, § 1 (7), 72 Stat. 480; Sept. 2, 1958, Pub. L. 85-861, § 33 (a) (33), 72 Stat. 1566.)

HISTORICAL AND REVISION NOTES

Revised section	Source (U. S. Code)	Source (Statutes at Large)
6332	34 U. S. C. 854a (provisos); 34 U. S. C. 854 (note).	June 25, 1938, ch. 690, § 202 (provisos), 52 Stat. 1178. July 9, 1952, ch. 608, § 803 (3d sentence), 66 Stat. 505.

The words "when not on active duty, to retainer pay or retired pay" are substituted for the words "pay and allowances". The pay and allowances of a member on active duty are covered by the Career Compensation Act of 1949 (37 U. S. C. 231 et seq.). When not on active duty a member of the Fleet Reserve receives retainer pay and a retired member receives retired pay without allowances, the provision for allowances for retired members having been repealed as pointed out in the note on the preceding section. In the last sentence the words "from the date of transfer" are added to make it clear that a correction is retroactive to that date. The Court of Claims has so held (*Dugan* v. *United States* (1943), 100 Ct. Cl. 7).

AMENDMENTS

1958—Pub. L. 85-861 substituted "to retainer pay or retired pay in accordance" for "to retain pay or retired pay in accordance".

Pub. L. 85-583 inserted "or the Retired Reserve" after "Navy" in clause (3) and after "Marine Corps" in clause (4).

EFFECTIVE DATE OF 1958 AMENDMENT

Amendment of section by Pub. L. 85-861 effective Aug. 10, 1956, see section 33 (g) of Pub. L. 85-861, set out as a note under section 101 of this title.

CHAPTER REFERRED TO IN OTHER SECTIONS

This chapter is referred to in sections 133, 1005, 1006, 1007 of this title.

§ 6371. Regular Navy; line rear admirals not restricted in performance of duty: continuation on active list; retirement.

(a) Each officer not restricted in the performance of duty serving in the grade of rear admiral on the active list in the line of the Navy is eligible for consideration for continuation on the active list by a selection board convened in the fiscal year in which he first completes—

(1) at least five years of service in the grade of rear admiral; and

(2) at least 35 years of total commissioned service as computed under section 6387 of this title.

However, an officer who will become 62 years of age in the fiscal year in which he would otherwise be eligible for consideration for continuation on the active list under this section is not eligible for such consideration.

(b) The Secretary of the Navy shall determine, as of the date of the convening of the appropriate selection board, the number of officers not restricted in the performance of duty serving in the grade of rear admiral on the active list in the line of the Navy that the board may recommend for continuation on the active list. The number may not be less than 50 percent or more than 75 percent of the number of officers who are eligible for consideration for continuation under this section. In determining the number that the board may recommend, the Secretary shall consider the number of existing vacancies for rear admirals in the line of the Navy not restricted in the performance of duty and the number of vacancies that he estimates must occur during each of the next five years in order that captains will be best assured of a flow of promotion to the grade of rear admiral and that rear admirals who will become eligible for consideration in succeeding years will be best assured of equality of opportunity for continuation on the active list.

(c) An officer who is recommended for continuation on the active list in the approved report of a selection board under this section may not be retired under this section.

(d) Each officer who is considered by a selection board for continuation on the active list under this section, and who is not recommended for continuation in the approved report of the board, shall, unless retired under another provision of law, be retired on June 30 of the current fiscal year.

(e) For the purpose of this section, an officer is credited with service in the grade of rear admiral from the date of his eligibility for promotion to that grade. (Aug. 10, 1956, ch. 1041, 70A Stat. 399.)

6371 (e)	34 U. S. C. 306q.	Aug. 7, 1947, ch. 512, § 421, 61 Stat. 878.

In subsection (a) the words "on the active list" are inserted after the words "rear admiral" for clarity. The words "is eligible for consideration * * * by a selection board convened in the fiscal year in which he first completes * * *" are substituted for the words "who attains a status of having completed * * * shall be eligible for consideration for recommendation * * * by a selection board convened in the fiscal year in which they first attain such status" for brevity. The first proviso in 34 U. S. C. 306b (a) (1) is omitted as executed.

In subsection (b) the words "the number * * * that the board may recommend for continuation" are substituted for the words "the number to be furnished the board" for clarity. The words "who will become eligible for consideration" are inserted before the words "in succeeding years" for clarity.

The source for subsection (c) states that line rear admirals not restricted in the performance of duty, upon completion of 35 years of total commissioned service and five years of service in grade, may be continued on the active list only if recommended for continuation by a selection board. The converse of this statement is that such an officer, if recommended, is not retired. Subsection (c) is worded accordingly. The proviso in 34 U. S. C. 211a (r) is omitted as executed. The words describing the officers to whom 34 U. S. C. 211a (r) applies are omitted, since they are covered in subsection (a).

In subsection (e) only the first proviso of 34 U. S. C. 306q is codified, and reference to the date of enactment of the Officer Personnel Act of 1947 is omitted. The remainder of 34 U. S. C. 306q, including the second proviso, is applicable only to officers who are still serving in the grade they held prior to August 7, 1947. Since all rear admirals who were promoted to that grade before August 7, 1947, have now been considered for continuation, reference to them is unnecessary.

SUSPENSION OF SECTION

Section as inoperative whenever the number of male officers serving on active duty in the grade of ensign or above in the line of the Navy does not exceed the number of male officers holding permanent appointments in the grade of ensign or above on the active list in the line of the Regular Navy, see subsecs. (a) and (b) of section 48 of act Aug. 10, 1956, set out as a note under section 5505 of this title.

By virtue of the authority vested in me by Sections 5711(b) and 6386(c) of Title 10 of the United States Code, I hereby suspend the provisions of Sections 5701(a)(1) and 6371 of Title 10 of the United States Code.

§ 6372. Regular Navy; line rear admirals restricted in performance of duty and staff corps rear admirals: retention on active list; retirement.

(a) Except as provided in subsection (b), each officer restricted in the performance of duty serving in the grade of rear admiral on the active list in the line of the Navy, and each officer serving in the grade of rear admiral on the active list of the Navy in any staff corps, shall be retired on June 30 of the fiscal year in which he first completes—

(1) at least seven years of service in the grade of rear admiral; and

(2) at least 35 years of total commission service as computed under section 6387 or 6388 of this title.

(b) Each officer who would otherwise be retired under this section shall be retained on the active list if recommended for retention in the approved report of a board convened under section 5709 of this title. An officer so retained, if not retired under another provision of law, shall continue on the active list until June 30 of any succeeding fiscal year in which—

(1) he is not again recommended for retention in the approved report of such a board; or

(2) no such board is convened.

(c) The number of officers that may be recommended by a board for retention on the active list under this section may not exceed the number that the Secretary of the Navy determines is required to meet the needs of the service.

(d) For the purpose of this section, an officer's service in the grade of rear admiral is computed from the date of the occurrence of the vacancy that he was promoted to fill. However, service in grade of an officer promoted to the grade of rear admiral before August 7, 1947, and for any officer whose lineal position was adjusted in the grade of rear admiral or who was assigned a new running mate in that grade is computed from his date of rank in the grade of rear admiral. In subsection (a) the words "on the active list of the Navy" are inserted for clarity. The words "restricted in the performance of duty" are substituted for the words "designated for engineering duty, aeronautical engineering duty, and special duty", and the words "any staff corps" are substituted for the words "the Medical Corps, Supply Corps, Chaplain Corps, Civil Engineer Corps, and Dental Corps" for brevity. No inaccuracy results, since officers designated for limited duty and officers in the Medical Service Corps and the Nurse Corps may not attain the grade of rear admiral except by temporary wartime appointment under the act of July 24, 1941, ch. 320 (34 U. S. C. 350 et seq.), codified in § 5787 of this title, and that type of appointment is disregarded for the purpose of this section, as provided in § 6385 of this title. The words "who is not retired or separated from the active list at an earlier date under other provisions of law" are omitted as surplusage. The words "he first completes at least seven * * * and at least 35 * * *" are substituted for the words "he completes seven * * * or thirty-five * * * whichever is later" to conform to the style used in the preceding section.

In subsection (d) the rule for computing service in grade applicable to rear admirals promoted to that grade on or after August 7, 1947, is stated first and without reference to the date because it is the rule of most general application. Within a year or two the rule as to rear admirals promoted before that date will become obsolete. It is preserved in this section, but only as an exception to the principal rule. The words "in accordance with the provisions of this Act" are omitted as surplusage.

SUSPENSION OF SECTION

(1) he is not again recommended for retention in the approved report of such a board; or

(2) no such board is convened.

(d) The number of officers that may be recommended by a board for retention on the active list under this section may not exceed the number that the Secretary of the Navy determines to be necessary to meet the requirements of the Marine Corps. In any year in which the number of officers subject to retirement under this section is three or more, the Secretary shall fix the maximum number that may be recommended for retention at not less than the number of officers subject to such retirement minus two.

(e) For the purpose of this section, an officer's service in the grade of major general is computed from the date of the occurrence of the vacancy that he was promoted to fill. § 6375. Repealed. Pub. L. 87-123, § 5(26), Aug. 3, 1961, 75 Stat. 266.

Section, act Aug. 10, 1956, ch. 1041, 70A Stat. 401, provided for the retirement of Marine Corps brigadier generals designated for supply duty after specified years of service, their retention on the active list with board approval and the computation of their years of service in grade.

§ 6376. Regular Navy, line captains not restricted in performance of duty; Regular Marine Corps, colonels: retirement for length of service.

(a) Each officer not restricted in the performance of duty serving in the grade of captain on the active list in the line of the Navy and each officer serving in the grade of colonel on the active list of the Marine Corps shall, subject to section 5777 of this title, be retired on June 30 of the fiscal year in which he completes—

(1) 30 years of total commissioned service as computed under section 6387 of this title, if he is not on a promotion list and is considered as having twice failed of selection for promotion to the grade of rear admiral or brigadier general; or

(2) 31 years of total commissioned service as computed under section 6387 of this title, if he is not on a promotion list.

However, an officer who has lost numbers or precedence may not be retired because of completing 31 years of total commissioned service until June 30 of the fiscal year in which he completes five years of service in the grade of captain in the Navy or colonel in the Marine Corps. For the purpose of this section, an officer promoted to the grade of captain in the Navy or colonel in the Marine Corps after August 6, 1947, is credited with service in that grade from the date of his eligibility for promotion to the grade of captain or colonel.

(b) This section does not apply to women officers appointed under section 5590 of this title. (Aug. 10, 1956, ch. 1041, 70A Stat. 402; Aug. 3, 1961, Pub. L. 87-123, § 5(27), 75 Stat. 266; Nov. 8, 1967, Pub. L. 90-130, § 1(24)(A), 81 Stat. 380.)

(a) and (b) of section 48 of act Aug. 10, 1956, set out as a note under section 5505 of this title.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 6378 of this title.

§ 6378. Regular Navy, line captains restricted in performance of duty, staff corps captains, and Nurse Corps commanders: continuation on active list; retirement.

(a) Each officer restricted in the performance of duty serving in the grade of captain on the active list in the line of the Navy, each officer serving in the grade of captain on the active list of the Navy in any staff corps, and each officer serving in the grade of commander on the active list of the Navy in the Nurse Corps is eligible for consideration for continuation on the active list by an appropriate selection board convened under section 5701, 5702, or 5703 of this title in the fiscal year in which he would be subject to retirement under section 6377 of this title and in each fiscal year thereafter while

on the active list and not on a promotion list. However, any such captain or commander who will complete 35 years of total commissioned service as computed under section 6387 or 6388 of this title or who will become 62 years of age in the fiscal year in which the selection board is convened is ineligible for consideration for continuation on the active list.

(b) Not more than the following numbers of officers recommended for continuation on the active list may be so continued until the report of the next succeeding selection board is approved;

(1) 10 captains designated for engineering duty.

(2) 5 captains designated for aeronautical engineering duty.

(3) 10 captains designated for special duty.

(4) 22 captains in the Supply Corps.

(5) 25 captains in the Chaplain Corps.

(6) 7 captains in the Civil Engineer Corps.

(7) The number of captains in the Medical Corps, the Judge Advocate General's Corps, the Dental Corps, the Medical Service Corps and the Nurse Corps, and the number of commanders in the Nurse Corps, that the Secretary of the Navy determines to be necessary to meet the needs of the service.

(c) If an officer continued on the active list under this section is not again recommended for continuation in the approved report of the next succeeding selection board, he shall be carried in excess of the number authorized to be so continued until June 30 of the then current fiscal year and shall be placed on the retired list on that date. (Aug. 10, 1956, ch. 1041, 70A Stat. 403; Aug. 21, 1957, Pub. L. 85–155, title II, § 201 (16), 71 Stat. 384; Aug. 3, 1961, Pub. L. 87–123, § 5(29), 75 Stat. 267; Dec. 8, 1967, Pub. 6378 (a) (b) (c).	34 U. S. C. 626–1 (p); 34 U. S. C. 626–1 (s) (less applicability to information to be furnished selection board).	Aug. 7, 1947 ch. 512, § 314 (s) (less applicability to information to be furnished selection board). 61 Stat. 866; renumbered June 23, 1950, ch 344, § 1 (p) (less last 10 words), 64 Stat. 253.

In subsection (a) the words "restricted in the performance of duty" are substituted for the words "designated for engineering duty, aeronautical engineering duty, or special duty" for brevity. Although limited duty officers are also "restricted in the performance of duty", they cannot be promoted to the grade of captain except by temporary appointment under § 5787 of this title, and such appointments are disregarded for the purpose of this section as provided in § 6385 of this title. For the same reason, it is unnecessary to except the Nurse Corps. Officers in the Medical Service Corps are specifically excepted, however, because they may hold the grade of captain but may not be continued on the active list after completing 31 years of service. The words "convened under section 5701, 5702, or 5703 of this title in the fiscal year in which he would be subject to retirement under section 6377 of this title and in each fiscal year thereafter while on the active list and not on a promotion list" are substituted for the words "(1) Those who have twice failed of selection for temporary promotion to the grade of rear admiral, and (2) those who have failed of selection for temporary promotion to the grade of rear admiral in the immediately preceding year and who are not recommended for temporary promotion by the selection board concerned" for brevity and clarity. Since there are no promotion zones for line captains restricted in the performance of duty, they are not "considered as having failed of selection" under section 5776 of this title. The fourth proviso in 34 U. S. C. 306d (a) (1) states that such an officer, if not on a promotion list, is considered as having once failed of selection when he has completed 30 years of total commissioned service and as having twice failed when he has completed 31 years. That proviso is not codified because it is not needed; its provisions are executed in this section and the preceding section of this title.

AMENDMENTS

1967—Subsec. (b) (7). Pub. L. 90–179 inserted the reference to the Judge Advocate General's Corps.

1961—Pub. L. 87–123, § 5(29) (A), deleted references to Marine Corps Colonels designated for supply duty from the catchline.

Subsec. (a). Pub. L. 87–123, § 5(29) (B), (C), deleted references to Marine Corps colonels on the active list designated for supply duty.

Subsec. (b). Pub L. 87–123, § 5(29) (D), deleted clause (8) which restricted the number of Marine Corps colonels designated for supply duty who could be continued on the active list by recommendation to two.

1957—Pub. L. 85–155, § 201(16) (A), included Nurse Corps commanders in the catchline.

Subsec. (a). Pub. L. 85–155, § 201(16) (B), (C), substituted ", each officer serving in the grade of commander on the active list of the Navy in the Nurse Corps" for "except the Medical Service Corps", and "captain, colonel, or commander" for "captain or colonel".

Subsec. (b) (7). Pub. L. 85–155, § 201(16) (D), included captains in the Medical Service Corps and the Nurse Corps, and commanders in the Nurse Corps.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 6377 of this title.

§ 6379. Regular Navy, commanders; Regular Marine Corps, lieutenant colonels: retirement for length of service and failures of selection for promotion.

(a) Each officer on the active list of the Navy or the Marine Corps serving in the grade of commander or lieutenant colonel, except an officer designated for limited duty, shall, subject to the provisions of section 5777 of this title, be retired on June 30, of the fiscal year in which—

(1) he is not on a promotion list;

(2) he is considered as having twice failed of selection for promotion to the grade of captain in the Navy or colonel in the Marine Corps; and

(3) he has completed at least 26 years of total commissioned service as computed under section 6387 or 6388 of this title.

(b) This section does not apply to woman officers appointed under section 5590 of this title or officers in the Nurse Corps. (Aug. 10, 1956, ch. 1041, 70A Stat. 404; Aug. 21, 1957, Pub. L. 85–155, title II, § 201(17), 71 Stat. 384; Nov. 8, 1967, Pub. L. 90–130, § 1(24) (D), 81 Stat. 380.)

The first and second sentences of 34 U. S. C. 410j (c) are consolidated for brevity and clarity. Since all three conditions must be met before an officer is retired under this section, the insertion of the words "at least" before the words "26 years" makes the single statement cover both of the situations stated in the two sentences of the source. The words "if not otherwise retired pursuant to law" are omitted as surplusage.

AMENDMENTS

1967—Subsec. (b). Pub. L. 90–130 inserted reference to women officers appointed under section 5590 of this title.

1957—Subsec. (a). Pub. L. 85–155, § 201(17) (A), eliminated "or an officer in the Medical Service Corps" which followed "limited duty".

Subsec. (b). Pub. L. 85–155, § 201(17) (B), substituted provisions making this section inapplicable to officers in the Nurse Corps for provisions which related to retirement of officers in the Medical Service Corps serving in the grade of commander.

In subsection (a) the words "retired under the preceding sections of this chapter" are substituted for the words "serving in the grade of rear admiral or below under authority of this title by virtue of a temporary appointment therein * * * retired while so serving" for brevity and clarity. Section 6385 of this title provides that appointments to grades above rear admiral are disregarded for the purposes of this chapter. The words "if they had been serving in the grade of captain" in 34 U. S. C. 410*l* (a) and the words "had they been serving in the grade of colonel" in 34 U. S. C. 626-1 (n) are omitted as obsolete. Prior to the enactment of the Career Compensation Act of 1949 (37 U. S. C. 231 et seq.), flag and general officers did not receive increases in pay for additional years of service. Pursuant to that Act, however, all officers receive such increases.

In subsection (a) (2) the words "basic pay to which he would be entitled if serving on active duty in the grade in which retired" are substituted for the words "active-duty pay in the grade in which serving at the time of retirement" (34 U. S. C. 410*l* (a) and (b) (3); 34 U. S. C. 626-1 (n); 34 U. S. C. 626-1 (q) (2)), for the words "their active-duty pay at the time of retirement" (34 U. S. C. 410j (g)), and for the words "the active-duty pay to which entitled at the time of retirement" (34 U. S. C. 410m). The words "creditable for basic pay" are substituted for the words "for which they would be (or he is) entitled to credit in the computation of pay on the active list." These substitutions are made to conform to the terminology of the Career Compensation Act of 1949.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 1405 of this title.

§ 6382. Regular Navy, lieutenants and lieutenants (junior grade); Regular Marine Corps, captains and first lieutenants: discharge for failures of selection for promotion; severance pay.

(a) Each officer on the active list of the Navy serving in the grade of lieutenant, except an officer in the Nurse Corps, and each officer on the active list of the Marine Corps serving in the grade of captain shall be honorably discharged on June 30 of the fiscal year in which he is considered as having failed of selection for promotion to the grade of lieutenant commander or major for the second time. However, if he so requests, he may be honorably discharged at any time during that fiscal year.

(b) Each officer on the active list of the Navy serving in the grade of lieutenant (junior grade), except an officer of the Nurse Corps, and each officer on the active list of the Marine Corps serving in the grade of first lieutenant shall be honorably discharged on June 30 of the fiscal year in which he is considered as having failed of selection for promotion to the grade of lieutenant or captain for the second time. The acceptance of a lump-sum payment under this section does not deprive a person of any retirement benefits from the United States. However, there shall be deducted from each of his retirement payments so much thereof as is based on the service for which he has received payment under this section until the total deducted equals the amount of lump-sum payment. However, no person is entitled to a lump-sum payment under this section that is more than $15,000.

(a) Each officer designated for limited duty on the active list of the Navy or the Marine Corps shall be retired on the last day of the month following the month in which he completes 30 years of active naval service, exclusive of active duty for training in a reserve component.

(b) Each officer designated for limited duty on the active list of the Navy serving in the grade of lieutenant commander and each officer designated for limited duty on the active list of the Marine Corps serving in the grade of major shall be retired on June 30 of the fiscal year in which he is considered as having failed of selection for promotion to the grade of commander or lieutenant colonel for the second time.

(c) Each officer retired under subsection (a) or (b)—

(1) unless otherwise entitled to a higher grade, shall be retired in the grade in which he was serving at the time of retirement; and

(2) is entitled to retired pay at the rate of 2½ percent of the basic pay to which he would be entitled if serving on active duty in the grade in which retired multiplied by the number of years of service that may be credited to him under section 1405 of this title, but the retired pay may not be more than 75 percent of the basic pay upon which the computation of retired pay is based.

(d) Each officer designated for limited duty on the active list of the Navy serving in the grade of lieutenant and each officer designated for limited duty on the active list of the Marine Corps serving in the grade of captain shall be honorably discharged on June 30 of the fiscal year in which he is considered as having failed of selection for promotion to the grade of lieutenant commander or major for the second time. However, if he so requests, he may be honorably discharged at any time during that fiscal year.

The acceptance of a lump-sum payment under this section does not deprive a person of any retirement benefits from the United States. However, no person is entitled to a lump-sum payment under this section that is more than $15,000.

(g) If any officer subject to retirement or discharge under subsections (b), (d), or (e) had the permanent status of a warrant officer when first appointed as an officer designated for limited duty, he has the option, instead of being retired or discharged, of reverting to the grade and status he would hold if he had not been so appointed. In subsection (a) the words "if not otherwise retired pursuant to law" are omitted as surplusage.

In subsection (c) the pay provisions are worded so as to conform to the terminology of the Career Compensation Act of 1949 (37 U. S. C. 231 et seq.).

The second proviso in § 312 (g) of the Officer Personnel Act of 1947 (34 U. S. C. 410j (g)), relating to the retired pay of officers commissioned in the Regular Navy under the act of April 18, 1946, ch. 141, as amended (34 U. S. C. 15), and officers commissioned in the Regular Navy while serving on active duty as officers of the Naval Reserve, is not codified in this section because it is inapplicable to officers designated for limited duty. The only authority to appoint limited duty officers is § 404 (a) of the Officer Personnel Act of 1947 (34 U. S. C. 211c (a)). Naval Reserve officers are not eligible for such appointments. Hence there can be no limited duty officers in the categories mentioned in the proviso.

In subsection (f) the words "to which he would otherwise become entitled" are omitted as surplusage and the words "based on the service for which he has received payment" are substituted for the words "attributable to the active service in respect of which lump-sum payment shall have been made to him".

The second proviso in § 312 (f) of the Officer Personnel Act of 1947 (34 U. S. C. 410j (f)), which provides that officers who exercise their option to revert to a warrant officer grade shall be retired upon completing 30 years of active naval service, is omitted as superseded by § 14 (b) (2) of the Warrant Officer Act of 1954 (34 U. S. C. 430 (b) (2)), codified in § 1305 of this title.

AMENDMENTS

1963—Subsec. (c) (2). Pub. L. 88-132 substituted "of" for "to which he would be entitled if serving on active duty in" following "2½ percent of the basic pay."

1962—Subsec. (f). Pub. L. 87-509 limited the lump-sum payment to not more than $15,000.

1960—Subsec. (d). Pub. L. 86-616 permits an officer, if he so requests, to be honorably discharged at any time during the fiscal year in which he is considered as having failed of selection for promotion to the grade of lieutenant commander or major for the second time.

Subsec. (e). Pub. L. 86-616 permits an officer, if he so requests, to be honorably discharged at any time during the fiscal year in which he is considered as having failed of selection for promotion to the grade of lieutenant or captain for the second time.

1958—Subsec. (c) (2). Pub. 85-422 substituted "that may be credited to him under section 1405 of this title" for "creditable for basic pay".

§ 6384. Regular Navy and Regular Marine Corps; officers having less than 20 years of service: discharge for unsatisfactory performance of duty; severance pay; reversion of limited duty officers to prior status.

(a) Each selection board convened under chapter 543 of this title to recommend officers for promotion shall report, from among those officers eligible for consideration, the name of each officer with less than 20 years of service whose record, in the opinion of the board, indicates his unsatisfactory performance of duty in his present grade, and, in the opinion of the board, indicates that he would not satisfactorily perform the duties of a higher grade.

(b) Each officer on the active list of the Navy or the Marine Corps whose name is reported under this section shall, subject to subsection (d), be honorably discharged from the naval service on June 30 of the fiscal year in which his name is so reported, or, in the discretion of the Secretary of the Navy, on any earlier date if the officer so requests, with a lump-sum payment computed on the basis of two months' basic pay received at the time of discharge multiplied by the number of years of service, but the payment may not be more than two years' basic pay. The acceptance of a lump-sum payment under this section does not deprive a person of any retirement benefits from the United States. However, there shall be deducted from each of his retirement payments so much thereof as is

based on the service for which he has received payment under this section, unless the total deductions equal the amount of the lump-sum payments. However, no person is entitled to a lump-sum payment under this section that is more than $15,000.

(c) The years of service that are counted under subsection (b) are—

(1) for a male line officer of the Navy or a male officer of the Marine Corps, his years of total commissioned service as computed under section 6387 of this title;

(2) for a staff corps officer, other than a woman officer appointed under section 5590 of this title and other than an officer in the Nurse Corps, his years of total commissioned service as computed under section 6388 of this title;

(3) for an officer serving in the grade of lieutenant (junior grade) in the Nurse Corps, the person's years of total commissioned service as computed under section 6388 of this title;

(4) for an officer serving in a grade above lieutenant (junior grade) in the Nurse Corps, the person's years of active service as computed under section 6396 of this title; and

(5) for a woman officer appointed under section 5590 of this title, her years of active commissioned service in the Navy or the Marine Corps.

(d) Each officer designated for limited duty whose name is reported under this section has the option of reverting to a lower grade instead of being discharged. Any such officer who had the permanent status of a warrant officer when first appointed as an officer designated for limited duty may revert to the grade and status he would hold if he had not been so appointed. Any such officer who had a permanent grade below the grade of warrant officer, W-1, when first appointed as an officer designated for limited duty may revert to the grade and status he would hold if he had not been so appointed but had instead been appointed a warrant officer, W-1.

(e) In any computation to determine the grade and status to which an officer may revert under subsection (d), all active service as an officer designated for limited duty or as a temporary or reserve officer is included. Aug. 7, 1947, ch. 512, § 312 (m); added June 18, 1954, ch. 311 (b) (less applicability to persons discharged under § 312 (*l*)), 68 Stat. 257.

The section is phrased so as to apply to all officers including women officers appointed under the Women's Armed Services Integration Act of 1948 (34 U. S. C. 105, 105c). Although § 215 of that act (34 U. S. C. 105j) provides that title III of the Officer Personnel Act of 1947 shall not apply to such women officers, it also provides that the provisions of titles I and II are immediately operative as to them insofar as these provisions do not conflict with the 1948 act. The parts of title III that are cited as source for this section have counterparts in titles I and II as follows:

Title III	*Title I*	*Title II*
§ 309 (c) (2)	§ 109 (f)	§ 209 (e)
§ 312 (h)	§ 112 (g)	§ 212 (g)

These provisions of titles I and II are consistent with the Women's Armed Services Integration Act of 1948 except as to the method of computing officers' years of service. Their effect is reflected by making the revised section applicable to women appointed under the 1948 Act so far as cause of discharge is concerned, with the substitution of an appropriate method of computing years of service for these women officers. The method supplied is derived from the sections of the Women's Armed Services Act of 1948 relating to involuntary retirement and discharge.

In subsection (b) the words "to which he would otherwise become entitled" are omitted as surplusage and the words "based on the service for which he has received payment" are substituted for the words "attributable to the active service in respect of which lump-sum payment shall have been made to him".

In subsection (c) (4) a method of computing the years of service of officers in grades above lieutenant (junior grade) in the Nurse Corps, based on the retirement provisions of the Army-Navy Nurses Act of 1947 (34 U. S. C. 43—43o), is supplied. The Officer Personnel Act of 1947 contains no provisions relating to the retirement of officers in the Nurse Corps, and the only section specifically referring to the discharge of such officers is that which states that lieutenants (junior grade) in the Nurse Corps are subject to discharge after twice failing of selection for promotion. A method of computing years of service for lieutenants (junior grade) in the Nurse Corps, consistent with the Army-Navy Nurses Act of 1947, is set out in § 202 (d) (2) (34 U. S. C. 3b (d) (2)), but the act is silent as to the method to be used for officers in higher grades in that corps. Although officers of the Nurse Corps are not specifically excluded from the provisions of § 202 (d) (1) (34 U. S. C. 3b (d) (1)), relating to years of service of staff corps officers generally, that subsection is not consistent with the Army-Navy Nurses Act, and it is not believed that it was intended to be applied to Nurse Corps officers.

Subsections (d) and (e) execute the cross reference in the 2d proviso of § 312 (h) of the Officer Personnel Act of 1947 (34 U. S. C. 410j (h) (2d proviso)). The provision relating to the retirement, after 30 years of active service, of former limited duty officers who exercise their option to revert to a warrant officer grade is omitted as superseded by § 14 (b) (2) of the Warrant Officer Act of 1954 (34 U. S. C. 430 (b) (2)), codified in § 1305 of this title.

AMENDMENTS

1966—Subsec. (c) (3), (4). Pub. L. 89-609 substituted "the Person's" and "the person's" for "her", respectively.

1962—Subsec. (b). Pub. L. 87-509 limited the lump-sum payment to not more than $15,000.

1960—Subsec. (b). Pub. L. 86-616 inserted words "or, in the discretion of the Secretary of the Navy, on any earlier date if the officer so requests" following "his name is so reported."

SUSPENSION OF SECTION

(a) and (b) of section 48 of act Aug. 10, 1956, set out as a note under section 5505 of this title.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 5708 of this title.

§ 6385. Officers appointed under sections 5231, 5232, and 5787 of this title: grade for purpose of preceding sections.

For the purpose of the preceding sections of this chapter, an officer serving in a grade in which he was appointed under section 5231, 5232, or 5787 of this title is considered as serving in the grade he would hold if he had not been so appointed. (Aug. 10, 1956, ch. 1041, 70A Stat. 408.)

The reference to appointments under § 5787 of this title covers not only appointments for periods of limited duration but also all other appointments made under the wartime temporary promotion law (act of July 24, 1941, ch. 320, as amended (34 U. S. C. 350 et. seq.)). The source text for this section does not mention the latter class of appointments, presumably because, when the Officer Personnel Act of 1947 was enacted, it was expected that the temporary promotion authority contained in title III of that act would expire before any further use was made of the 1941 Act. During the Korean emergency, however, both title III and the 1941 act were used. Inasmuch as the promotion, retirement, and separation system prescribed in title III was intended to operate without regard to temporary promotions made under other authority, it appears necessary, in order to carry out the intent of Congess, to exclude from consideration all promotions made under the 1941 Act.

§ 6386. Suspension: preceding sections.

(a) The President may suspend any provision of the preceding sections of this chapter relating to officers serving in the grades of lieutenant and lieutenant (junior grade) in the Navy, other than women officers appointed under section 5590 of this title, or relating to male officers serving in the grades of captain and first lieutenant in the Marine Corps during any period when—

(1) the number of male officers serving on active duty in the grade of ensign and above in the line of the Navy exceeds the number of male officers on the active list in the line of the Navy; and

(2) he determines that the needs of the service so require.

(b) Officers in the following categories are not counted as officers serving on active duty for the purpose of clause (1) of subsection (a):

(1) Retired officers.

(2) Officers of the Naval Reserve assigned to active duty for training.

(3) Officers of the Naval Reserve ordered to active duty in connection with organizing, administering, recruiting, instructing, training, or drilling the Naval Reserve.

(4) Officers of the Naval Reserve ordered to temporary active duty to prosecute special work.

(c) During a war or national emergency, the President may suspend any provision of the preceding sections of this chapter. Such a suspension may not continue beyond June 30 of the fiscal year following that in which the war or national emergency ends. (Aug. 10, 1956, ch. 1041, 70A Stat. 408.)

In subsection (a) the words "other than women officers appointed under section 5590 of this title" are inserted because § 215 of the Women's Armed Services Integration Act of 1948 (34 U. S. C. 105j) makes title III of the Officer Personnel Act of 1947 inapplicable to women officers appointed under the 1948 act. Of the preceding sections only § 6384 is applicable to these women officers, and it is so applicable because the provision in title III on which it is based has identical counterparts in titles I and II. The latter are not subject to suspension under 34 U. S. C. 3d. They may, however, be suspended under 34 U. S. C. 3e; hence there is no exception as to women in subsection (c).

SUSPENSION OF SECTION

Section is inoperative whenever the number of male officers serving on active duty in the grade of ensign or above in the line of the Navy does not exceed the number of male officers holding permanent appointments in the grade of ensign or above on the active list in the line of the Regular Navy, see subsecs. (a) and (b) of section 48 of act Aug. 10, 1956, set out as a note under section 5505 of this title.

§ 6387. Regular Navy, male line officers; Regular Marine Corps, male officers: computation of total commissioned service.

(a) For the purpose of the preceding sections of this chapter, the total commissioned service of a male officer on the active list in the line of the Navy or of a male officer on the active list of the Marine Corps who has served continuously on the active list since his appointment in the grade of ensign or second lieutenant, either upon graduation from the Naval Academy or under section 2106, 2107, or 6909 of this title, is computed from June 30 of the fiscal year in which he accepted that appointment.

(b) Each other male commissioned officer on the active list in the line of the Navy or on the active list of the Marine Corps is considered to have the same total commissioned service, for the purpose of the preceeding sections of this chapter, as the officer described in subsection (a) with the maximum total commissioned service who—

(1) has not lost numbers or precedence; and

(2) is, or at any time has been, junior to the other officer for the purposes of eligibility for promotion and selection for promotion during that other officer's latest period of continuous service on the active list.

The word "male" is inserted to make clear the fact that this section does not apply to women officers. Section 215 of the Women's Armed Services Integration Act of 1948 (34 U. S. C. 105j) states that the provisions of Title I of the Officer Personnel Act of 1947 which are not inconsistent with the Women's Act apply to women officers. However, § 102 (d) (34 U. S. C. 3a (d)) of the Officer Personnel Act of 1947 is inconsistent with the provisions of the Women's Armed Services Integration Act of 1948 relating to the computation of service of women officers.

In subsection (b) the words "with the maximum total commissioned service" are inserted, and in clause (2) the words "during that other officer's latest period of continuous service on the active list" are substituted for the words "since the date of the latter's first appointment to permanent commissioned rank in the Regular Navy above the grade of commissioned warrant officer, following which he shall have served continuously on the active list of the Regular Navy" for clarity.

AMENDMENTS

1960—Subsec. (b)(2). Pub. L. 86–558 substituted "is, or at any time has been," for "has been continuously."

1959—Subsec. (b). Pub. L. 86–155 substituted "has been continuously junior" for "is, or at any time has been, junior" in cl. (2).

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 5780, 6371, 6372, 6373, 6376, 6377, 6378, 6379, 6380, 6382, 6383, 6395 of this title.

§ 6388. Regular Navy; certain staff corps officers: computation of total commissioned service.

(a) For the purpose of the preceding sections of this chapter, the total commissioned service of each officer on the active list of the Navy in the Supply Corps or the Civil Engineer Corps who was initially appointed as a Regular or as a Reserve in the grade of ensign in the line or any staff corps or in the grade of lieutenant (junior grade) in the Civil Engineer Corps and who has served continuously on active duty since that appointment shall be computed from June 30, of the fiscal year in which he accepted that appointment. The provisions of this sub-section are effective as of August 7, 1947.

(b) For the purpose of the preceding sections of this chapter, the total commissioned service of each officer initially appointed in the grade of lieutenant (junior grade) or ensign in any staff corps of the Navy except the Supply Corps and the Civil Engineer Corps, who has since that appointment served continuously on the active list of the Navy, is computed from June 30 of the fiscal year in which he accepted that appointment. However, this subsection does not apply to officers appointed under the Act of April 18, 1946, ch. 141 (60 Stat. 92).

(c) Each other commissioned officer on the active list of the Navy in any staff corps is considered to have the same total commissioned service for the purpose of the preceding sections of this chapter as the officer in his corps described in subsection (a) or (b) having the maximum total commissioned service who—

(1) has not lost numbers or precedence; and

(2) is, or at any time has been, junior to the other officer for the purposes of eligibility for promotion and selection for promotion during that other officer's latest period of continuous service on the active list.

(d) Notwithstanding subsection (c), each officer on the active list of the Navy in the Medical Service Corps appointed under the Act of April 18, 1946, ch. 141 (60 Stat. 92), is considered to have, for the purpose of the preceding sections of this chapter, total commissioned service equivalent to that of his running mate.

(e) For the purpose of this chapter, the years of service to be credited to each officer on the active list of the Navy in the Nurse Corps is based on—

(1) the person's active service in the Nurse Corps and the Nurse Corps Reserve; and

(2) the person's active service in the Nurse Corps and the Nurse Corps Reserve abolished by the Army-Navy Nurses Act of 1947 (61 Stat. 41).

All such active service is considered commissioned service for the purpose of this chapter.

(f) Except as provided in subsection (d), this section does not apply to officers in the Nurse Corps or to women officers appointed under section 5590 of this title. (Aug. 10, 1956, ch. 1041, 70A Stat. 409; Aug. 21, 1957, Pub. L. 85–155, title II, § 201(20), 71 Stat. 385; Sept. 30, 1966, Pub. L. 89–609, § 1 (20), (21), 80 Stat. 853; Sept. 20, 1968, Pub. HISTORICAL AND REVISION NOTES

Revised section	Source (U. S. Code)	Source (Statutes at Large)
6388	34 U. S. C. 3b (d).	Aug. 7, 1947, ch. 512, § 202 (d), 61 Stat. 816.

Subsection (e) is supplied to make clear the fact that subsections (a) and (b) do not apply to officers in the Nurse Corps and that the entire section is inapplicable to women officers appointed under the Women's Armed Services Integration Act of 1948 (34 U. S. C. 105, 105c).

The source text for subsections (a) and (b) (34 U. S. C. 3b (d) (1)) does not specifically exclude officers in the Nurse Corps. These provisions, however, are inconsistent with the provisions of the Army-Navy Nurses Act of 1947 (34 U. S. C. 43—43o) relating to the retirement of officers in that corps, and it is believed that they were not intended to apply to such officers. Specific provision, consistent with the Army-Navy Nurses Act, is made in § 202 (d) (2) (34 U. S. C. 3b (d) (2)) for lieutenants (junior grade) in the Nurse Corps (codified in subsection (d)). The absence of specific provisions for nurses in higher grades is doubtless due to the fact that such officers are not retired under the Officer Personnel Act. Section 215 of the Women's Armed Services Integration Act of 1948 (34 U. S. C. 105j) states that the provisions of title II of the Officer Personnel Act of 1947 which are not inconsistent with the Women's Act apply to women officers. However, § 202 (d) (34 U. S. C. 3b (d)) of the Officer Personnel Act is inconsistent with the corresponding provisions of the Women's Armed Services Integration Act of 1948 relating to the computation of service of women officers appointed under the latter act.

Subsection (b) is worded to conform to § 6387 (b). The revision note on that section is applicable to this subsection also.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 6372, 6377, 6378, 6379, 6380, 6382, 6383, 6384, 6395, 6396 of this title.

§ 6389. Naval Reserve and Marine Corps Reserve; officers: elimination from active status; computation of total commissioned service.

(a) Subject to section 1005 of this title, an officer in an active status in the Naval Reserve in the permanent grade of lieutenant or lieutenant (junior grade), and an officer in an active status in the Marine Corps Reserve in the permanent grade of captain or first lieutenant, who is considered as having twice failed of selection for promotion to the next higher grade may, in the discretion of the Secretary of the Navy, be eliminated from an active status.

(b) An officer who is to be eliminated from an active status under subsection (a) shall, if qualified, be given an opportunity to request transfer to the appropriate Retired Reserve and, if he requests it, shall be so transferred. If he is not so transferred, he shall, in the discretion of the Secretary, be transferred to the appropriate inactive status list or be discharged from the Naval Reserve or the Marine Corps Reserve.

(c) An officer in an active status in the Naval Reserve in the permanent grade of lieutenant commander or above, and an officer in an active status in the Marine Corps Reserve in the permanent grade of major or above, who is considered as having twice failed of selection for promotion to the next higher grade shall, if qualified, be given an opportunity to request transfer to the appropriate Retired Reserve. If he is not so transferred, he shall be discharged from the Naval Reserve or the Marine Corps Reserve if he has completed a period of total commissioned service equal to that specified below for the permanent grade in which he is serving:

Grade		Total commissioned service
Navy	Marine Corps	
Captain	Colonel	30 years.
Commander	Lieutenant colonel	26 years.
Lieutenant commander	Major	20 years.

Notwithstanding the first sentence of this subsection, the Secretary may defer the retirement or discharge of such number of officers serving in the grade of lieutenant commander as are necessary to maintain the authorized officer strength of the Ready Reserve, but the duration of such deferment for any individual officer may not be in excess of five years. Notwithstanding the first two sentences of this subsection, the Secretary may defer the retirement or discharge under this subsection of an officer serving in the permanent grade of lieutenant commander or above in the Naval Reserve or in the permanent grade of major or above in the Marine Corps Reserve for a period of time which does not exceed the amount of service in an active status which was credited to the officer at the time of his original appointment or thereafter under any provision of law, if the officer can complete at least 20 years of service as computed under section 1332 of this title during the period of such deferment. Notwithstanding the first two sentences of this subsection, the Secretary may defer the retirement or discharge under this subsection of such number of officers serving in the permanent grade of captain or commander in the Medical Corps, Chaplain Corps, or Dental Corps in the Naval Reserve as are necessary to provide for mobilization requirements.

(d) For the purposes of subsection (c), the total commissioned service of an officer who has served continuously in the Naval Reserve or the Marine Corps Reserve following appointment therein in the permanent grade of ensign or second lieutenant, as the case may be, shall be computed from June 30 of the fiscal year in which he accepted the appointment. Each other officer is considered to have for this purpose as much total commissioned service as any officer in the line on the active list of the Navy, not restricted in the performance of duty, or any officer

on the active list of the Marine Corps, not restricted in the performance of duty, as appropriate, who has served continuously since original appointment as ensign on the active list of the Navy or as second lieutenant on the active list of the Marine Corps, has not lost numbers or precedence, and is, or has been after September 6, 1947, junior to that other officer. However, the total commissioned service that the other officer is considered to have may not be less than the actual number of years he has served as a commissioned officer in a grade above chief warrant officer, W–4.

(e) This section applies to women officers appointed under section 5581 of this title, but not to other women reserve officers or to reserve officers in the Nurse Corps. (Added Pub. L. 85–861, § 1 (144) (A), Sept. 2, 1958, 72 Stat. 1509, and amended Pub. L. 86–559, § 1 (46), June 30, 1960, 74 Stat. 274.)

In subsection (a), the words "who is considered as having twice failed of selection for promotion" are substituted for the words "after failing of selection for promotion * * * a second time" to conform to similar statements in this title. (See the revision note on section 5776.) The words "may be retained in" are omitted as surplusage, since the authority to eliminate such officers from an active status is discretionary with the Secretary.

Subsection (e) is added to avoid conflict with 50: 1311 (d) and (e), codified in sections 6397 and 6403 of this title. 50: 1311 (d) and (e) contain special provisions for "women officers" and officers in the Nurse Corps, respectively, so that officers in these categories must be excepted from this section. Women officers appointed under the act of June 24, 1952, ch. 457 (66 Stat. 155; 34 U. S. C. 21e) (codified in section 5581 of this title), are not "women officers" within the meaning of 50: 1311 (d), however, but are required to be promoted, retired, or eliminated from active status as if they were men. (See the revision note on section 5665 of this title.) The application of this section to these officers is therefore made explicit.

Both men and women are eligible for appointment as reserve officers in the Nurse Corps and are subject to the special provisions relating to that corps.

AMENDMENTS

1960—Subsec. (c). Pub. L. 86–559 empowered the Secretary to defer the retirement or discharge of officers serving in the grade of lieutenant commander in the Ready Reserve, in the permanent grade of lieutenant commander or above in the Naval Reserve, in the permanent grade of major or above in the Marine Corps Reserve, and in the permanent grade of captain or commander in the Medical Corps, Chaplain Corps, or Dental Corps in the Naval Reserve.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 1006 of this title.

§ 6390. Regular Navy and Regular Marine Corps; officers: retirement at age 62.

(a) Each officer on the active list of the Navy or the Marine Corps serving in a grade below fleet admiral shall be retired by the President when he becomes 62 years of age unless the President defers his retirement. The President may defer the retirement of any such officer for as long as he considers advisable, subject to the following conditions:

(1) The retirement of any such officer may not be deferred beyond the date on which he becomes 64 years of age.

(2) Not more than ten officers whose retirement is so deferred may be on active duty at any one time.

(b) Each officer retired under this section is entitled—

(1) to the highest grade, permanent or temporary, held by him on active duty; and

(2) to retired pay at the rate of 2½ percent of the basic pay of the grade in which retired multiplied by the number of years of service that may be credited to him under section 1405 of this title, but the retired pay may not be more than 75 percent of the basic pay upon which the computation of retired pay is based.

The words "on the active list" are inserted in subsection (a) to confine the operation of the section to permanent regular officers above the grade of chief warrant officer, W–4. So far as 34 U. S. C. 410d applied to warrant officers, it was superseded by § 14 (b) of the Warrant Officer Act of 1954 (34 U. S. C. 430 (b)). See § 1263 of this title.

The second and third provisos in 34 U. S. C. 410d, relating to the computation of retired pay for officers whose pay on the active list was not based on years of service, are omitted as obsolete, since under the Career Compensation Act of 1949 (37 U. S. C. 231 et seq.) the active-duty pay of all officers is based on years of service. The fifth proviso, prohibiting retirements under this section until August 1, 1946, is omitted, since it was temporary and its termination date has passed.

In subsection (a) (2) the words "active duty" are substituted for the words "the active list" to indicate correctly the meaning of this provision and to avoid using the term "active list" in other than the defined sense.

Subsection (b) (2) is worded so as to conform to the terminology of the Career Compensation Act of 1949.

AMENDMENTS

1963—Subsec. (b) (2). Pub. L. 88–132 substituted "of" for "to which he would be entitled if serving on active duty in" following "2½ percent of the basic pay."

1958—Subsec. (b) (2). Pub. L. 85–422 substituted "that may be credited to him under section 1405 of this title" for "creditable for basic pay".

Amendment of section by Pub. L. 88–132 effective Oct. 1, 1963, see section 14 of Pub. L. 88–132, set out as a note under section 201 of Title 37, Pay and Allowances of the Uniformed Services.

EFFECTIVE DATE OF 1958 AMENDMENT

DELEGATION OF FUNCTIONS

For delegation to the Secretary of Defense of authority vested in the President by section 410d of former Title 34, see Ex. Ord. No. 10621, July 1, 1955, 20 F. R. 4759, set out as a note under section 301 of Title 3, The President.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 1405 of this title.

§ 6391. Naval Reserve and Marine Corps Reserve; officers: retirement at age 62.

(a) An officer in an active status or on the inactive status list in the Naval Reserve or the Marine Corps Reserve in a grade above chief warrant officer, W–4, shall, except as provided in subsections (b) and (c), be transferred to the Retired Reserve when he becomes 62 years of age.

(b) The Secretary of the Navy may defer the retirement under this section of any officer of the Naval Reserve in a grade above captain or any officer of the Marine Corps Reserve in a grade above colonel and retain him in an active status until he becomes 64 years of age. However, not more than ten officers may be so deferred at any one time, distributed between the Naval Reserve and the Marine Corps Reserve as the Secretary determines.

(c) An officer who was initially appointed in the Naval Reserve or the Marine Corps Reserve before January 1, 1953, and who cannot complete 20 years of service computed under section 1332 of this title before he becomes 62 years of age, but can complete this service by the time he becomes 64 years of age, may be retained in an active status not later than the date he becomes 64 years of age. (Added Pub. L. 85–861, § 1 (144) (B), Sept. 2, 1958, 72 Stat. 1510, and amended Pub. L. 86–559, § 1 (47), June 30, 1960, 74 Stat. 275.)

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 123 of this title.

§ 6392. Regular Navy and Regular Marine Corps, officers having less than three years of service: revocation of appointments; reversion of certain officers to prior status.

(a) The Secretary of the Navy, under regulations prescribed by him, may revoke the appointment of any officer on the active list of the Navy or the Marine Corps who has less than three years of continuous service as an officer on the active list of the Navy or the Marine Corps.

(b) Each officer whose appointment is revoked under this section shall be discharged from the service without advance pay or allowances.

(c) Any officer appointed in the Medical Service Corps under section 5579 of this title who had the permanent status of a warrant officer at the time of that appointment, and whose appointment is revoked under subsection (a), may be reappointed, without examination, to his former permanent status with the same lineal position and all other rights and benefits he would have had, or would have attained in due course, if he had not been appointed in the Medical Service Corps. In subsections (a) and (b) the word "appointment" is substituted for the word "commission" (used in 34 U. S. C. 405a and 34 U. S. C. 30g) since the intent of these provisions is to permit the Secretary to revoke the authority of a person to be an officer and not merely to revoke the written indicia of authority.

In subsection (c) the words "by the President" are omitted. Sections 3 (a) and 5 (a) of the Warrant Officer Act of 1954 (34 U. S. C. 135a (a) and 135c (a)), codified in § 555 of this title, provide that permanent appointments in the Navy and Marine Corps in the grades of chief warrant officer, W–2, W–3, and W–4, shall be made by the President, by and with the advice and consent of the Senate, and appointments in the grade of warrant officer, W–1, shall be made by the Secretary. That provision governs appointments under this section.

§ 6393. Regular Navy and Regular Marine Corps; women officers: termination of appointments.

The Secretary of the Navy, under regulations prescribed by the President, may terminate the appointment of any woman officer in the Regular Navy or the Regular Marine Corps. (Aug. 10, 1956, ch. 1041, 70A Stat. 410.)

Provisions relating to the discharge of reserve officers are codified in subtitle A of this title.

SEPARATION FROM SERVICE

Regulations governing separation from service, see Ex. Ord. No. 10240, Apr. 27, 1951, 16 F. R. 3689, set out as a note under section 3818 of this title.

§ 6394. Regular Navy, rear admirals and commodores; Regular Marine Corps, major generals and brigadier generals: retirement on recommendation of board.

(a) The Secretary of the Navy may convene boards of officers to consider and recommend for retirement officers on the active list of the Navy serving in the grades of rear admiral and commodore and officers on the active list of the Marine Corps serving in the grades of major general and brigadier general.

(b) Each board convened under this section to consider and recommend rear admirals and commodores for retirement shall be composed of not less than five officers on the active list of the Navy serving in grades above rear admiral. However, rear admirals on the active list in any staff corps may be detailed as members of any such board to consider and recommend officers of the staff corps for retirement.

(c) Each board convened under this section to consider and recommend major generals for retirement shall be composed, as far as practicable, of three officers on the active list of the Marine Corps serving in grades above major general. If there is an insufficient number of such officers available, officers on the active list in the line of the Navy serving in grades above rear admiral may be detailed to complete the prescribed membership.

(d) Each board convened under this section to consider and recommend brigadier generals for retirement shall be composed, as far as practicable, of five officers on the active list of the Marine Corps serving in grades above brigadier general. If there is an insufficient number of such officers available, officers on the active list in the line of the Navy serving in the grade of rear admiral or above may be detailed to complete the prescribed membership.

(e) The recommendation of each board convened under this section shall be submitted by the Secretary with his recommendation to the President for approval or disapproval, in whole or in part.

(f) Each officer recommended for retirement by a board convened under this section, shall, if the recommendation is approved by the President, be retired on the first day of any month set by the Secretary, but not later than the first day of the seventh month after the date of the approval by the President.

(g) Unless otherwise entitled to a higher grade, each officer retired under this section shall be retired in—

(1) the highest grade, permanent or temporary, in which he served satisfactorily on active duty as determined by the Secretary; or

(2) if the Secretary determines that he did not serve satisfactorily in his highest grade, the next lower grade in which he has served, but not lower than his permanent grade.

(h) Unless otherwise entitled to higher pay, an officer retired under this section is entitled to retired pay at the rate of 2½ percent of the basic pay of the grade in which retired multiplied by the number of years of service that may be credited to him under section 1405 of this title, but the retired pay may not be more than 75 percent of the basic pay upon which the computation of retired pay is based. In subsection (a) the words "may convene" are substituted for the words "shall, whenever he deems it advisable, appoint" for clarity and uniformity. The words "of the line and staff corps" are omitted as surplusage.

In subsections (a) through (d) the words "on the active list of the Navy" and "on the active list of the Marine Corps" are substituted for the words "the Regular Navy" and "the Regular Marine Corps" in view of the definition of "active list" in this title. The word "grades" is substituted for the word "ranks" for uniformity of expression. The word "line", in the phrase "line officers of the Marine Corps", is omitted as surplusage since all officers of the Marine Corps are line officers.

Subsection (g) states the basic rule that officers retire in the grade in which serving at the time of retirement. Section 7 of the act of February 21, 1946, ch. 34 (34 U. S. C. 410c), authorized an exception to this rule in the case of any officer, retired under that act, who at the time of retirement is serving in a grade lower than a grade he held during World War II. The section provided that such an officer, unless otherwise entitled to a higher grade, should be placed on the retired list in the highest grade satisfactorily held by him prior to July 1, 1946. This provision is codified in § 6381 of this title, and the words "unless otherwise entitled to a higher grade" are included in subsection (g) of this section to cover all exceptions to the general rule as to retired grade.

AMENDMENTS

1963—Subsec. (h). Pub. L. 88-132 substituted "of" for "to which he would be entitled if serving on active duty in" following "2½ percent of the basic pay."

1958—Subsec. (g). Pub. L. 85-861 substituted provisions requiring retirement in the highest grade, temporary or permanent, in which an officer served satisfactorily on active duty, or if the Secretary determines that he did not serve satisfactorily in his highest grade, in the next lower grade in which he served, but not lower than his permanent grade, for provisions which required retirement in the grade in which he served at the time of retirement, and eliminated provisions which prescribed the

amount of retired pay to which an officer retired under this section was entitled.

Subsec. (g) (2). Pub. L. 85–422 substituted "that may be credited to him under section 1405 of this title" for "creditable for basic pay". The provisions of subsec. (g) (2) are now contained in subsec. (h).

Subsec. (h). Pub. L. 85–861 added subsec. (h). Similar provisions were formerly contained in subsec. (g) (2) of this section.

EFFECTIVE DATE OF 1963 AMENDMENT

Amendment of section by Pub. L. 88–132 effective Oct. 1, 1963, see section 14 of Pub. L. 88–132, set out as a note under section 201 of Title 37, Pay and Allowances of the Uniformed Services.

EFFECTIVE DATE OF 1958 AMENDMENT

Amendment of section by Pub. L. 85–422 effective on June 1, 1958.

DELEGATION OF FUNCTIONS

Functions of the President under subsec. (e) of this section delegated to the Secretary of Defense, see section 1(9) of Ex. Ord. No. 11390, Jan. 22, 1968, 33 F.R. 841, set out as a note under section 301 of Title 3, The President.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 1405 of this title.

§ 6395. Regular Navy and Regular Marine Corps; officers having less than 20 years of service: discharge during war or emergency for unsatisfactory performance of duty.

(a) Each board of officers convened under section 5787 of this title to recommend officers for promotion shall report, from among the officers whose names are presented to it for consideration, the name of each officer on active duty with less than 20 years of service whose record, in the opinion of the board, indicates his unsatisfactory performance of duty in his present grade and, in the opinion of the board, indicates that he would not satisfactorily perform the duties of a higher grade.

(b) Each officer in the Regular Navy or the Regular Marine Corps not on a retired list holding a permanent appointment in the grade of warrant officer, W–1, or above, whose name is reported under this section, shall, except as otherwise provided in this section, be honorably discharged on the first day of the fourth month following that in which his name is so reported.

(c) An officer who is under consideration for or undergoing disciplinary action of any kind may not be discharged under this section before the final disposition of his case. Thereafter, such an officer shall be separated from the naval service either under this section or under another provision of law, in the discretion of the Secretary of the Navy.

(d) Each officer holding a permanent appointment as a warrant officer and temporarily appointed to a higher grade, whose name is reported under this section, has the option, instead of being discharged under this section, of reverting to the grade and status he would hold if he had not been so temporarily appointed.

(e) Each officer designated for limited duty who, when first appointed as an officer designated for limited duty, had the permanent status of a warrant officer, and whose name is reported under this section, has the option, instead of being discharged under this section, of reverting to the grade and status he would hold if he had not been so appointed. Each officer designated for limited duty who, when first appointed as an officer designated for limited duty, had a permanent grade below the grade of warrant officer, W–1, and whose name is reported under this section, has the option, instead of being discharged under this section, of reverting to the grade and status he would hold if he had not been so appointed but had instead been appointed a warrant officer, W–1.

(f) In any computation to determine the grade and status to which an officer may revert under this section, all active service as an officer designated for limited duty or as a temporary or reserve officer is included.

(g) Each officer discharged under this section is entitled to a lump-sum payment equal to two months' basic pay at the time of discharge multiplied by the number of years of service, but such payment may not be more than one year's basic pay.

(h) The years of service that are counted under subsection (g) are—

(1) for a male line officer of the Navy or a male officer of the Marine Corps, his years of total commissioned service as computed under section 6387 of this title;

(2) for a staff corps officer, other than a woman officer appointed under section 5590 of this title and other than an officer in the Nurse Corps, his years of total commissioned service as computed under section 6388 of this title;

(3) for an officer in the Nurse Corps, the person's years of total commissioned service as computed under section 6388 of this title:

(4) for a woman officer appointed under section 5590 of this title, her years of active commissioned service in the Navy or the Marine Corps.

6395	34 U. S. C. 350d (b).	July 24, 1941, ch. 320, § 5 (b), 55 Stat. 604; added June 30, 1951, ch. 196, § 2 (b), 65 Stat. 109.

The provisions codified in this section were added to the 1941 temporary promotion law (34 U. S. C. 350 et seq.) in 1951 in order that, when title III of the Officer Personnel Act of 1947 is suspended and promotions are being made under the 1941 act, the process of weeding out unsatisfactory officers may be continued. Accordingly these provisions were made very similar to the provisions of § 312 (h) of the Officer Personnel Act of 1947 (codified in § 6384 of this title). They are identical in the requirement that, for pay purposes, years of service shall be computed as provided in §§ 102 (d) and 202 (d) of the Officer Personnel Act of 1947 (34 U. S. C. 3a (d) and 3b (d)). As stated in the revision note on § 6384 of this title, these methods of computation are inappropriate in the case of women officers appointed under the Women's Armed Services Integration Act of 1948 (34 U. S. C. 105, 105c) and in the case of officers in grades above lieutenant (junior grade) in the Nurse Corps. Hence, in this section as in § 6384 appropriate methods are supplied.

AMENDMENTS

1966—Subsec. (h) (3). Pub. L. 89–609 substituted "the person's" for "her".

1957—Subsec. (h) (3). Pub. L. 85–155, § 201 (21) (A), eliminated the words "serving in the grade of lieutenant (junior grade)" which preceded "in the Nurse Corps".

Subsec. (h) (4). Pub. L. 85–155, § 201 (21) (B), redesignated former subsec. (h) (5) as (h)(4). Former subsec. (h) (4), which related to years of service for officers serving in a grade above lieutenant (junior grade) in the Nurse Corps, was repealed by Pub. L. 85–155, § 201 (21) (B).

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 5787 of this title.

§ 6396. Regular Navy; officers in Nurse Corps in grades below commander: retirement or discharge.

(a) An officer on the active list of the Navy serving in the grade of lieutenant commander in the Nurse Corps shall, subject to the provisions of section 5777 of this title, be retired on June 30 of the fiscal year in which the officer

(1) is not on a promotion list:

(2) is considered as having twice failed of selection for promotion to the grade of commander: and

(3) has completed at least twenty years of active commissioned service as computed under section 6388 of this title.

(b) An officer retired under this section shall be retired—

(2) with retired pay at the rate of 2½ per centum of the basic pay of the grade in which retired multipled by the number of years of service that may be credited to her under section 1405 of this title, but the retired pay may not be more than 75 per centum or less than 50 per centum of the basic pay upon which the computation of retired pay is based.

(c) An officer on the active list of the Navy serving in the grade of lieutenant in the Nurse Corps shall be honorably discharged on June 30 of the fiscal year in which the officer

(1) is not on a promotion list; and

(2) has completed thirteen years of active commissioned service as computed under section 6388 of this title.

(e) Each officer discharged under this section is entitled to a lump-sum payment equal to two months' basic pay at the time of discharge multiplied by the number of years of active commissioned service as computed under section 6388 of this title, but the payment may not be more than two years' basic pay or more than $15,000. In subsection (a) the words "An officer * * * serving in the grade of commander or lieutenant commander" are substituted for the words "Each commander and lieutenant commander" and in subsection (b) the words "An officer * * * serving in a grade below lieutenant commander" are substituted for the words "each lieutenant or officer of lower grade" for clarity and to conform to the terminology used in the earlier sections of this chapter in which the retirement provisions of title III of the Officer Personnel Act of 1947 are codified. Title III does not provide for the retirement of officers in the Nurse Corps, that subject having been previously covered in the Army-Navy Nurses Act of 1947 (34 U. S. C. 43g), but it does provide for their temporary promotion. Section 316 (j) of the Officer Personnel Act of 1947 (34 U. S. C. 410m) provides that officers retired while serving in grades to which they were temporarily promoted under title III are entitled to retire in those grades.

In subsection (d) the provisions of § 207 (d) and 207 (f) of the Army-Navy Nurses Act of 1947, as amended (34 U. S. C. 43g) (d) and (f) are consolidated inasmuch as the retired pay formula used is the same, whether the officer is placed on the retired list in her permanent grade or in a higher temporary grade. The multiplicand used in each case is 2½ percent of the basic pay of the grade in which placed on the retired list. The phrase "other than by reason of physical disability" is eliminated as surplusage inasmuch as the section deals only with retirement for age and length of service. The words "basic pay to which she would be entitled if serving on active duty in the grade in which retired" are substituted for the words "active-duty pay to which entitled at the time of retirement" in 34 U. S. C. 43g (d) and for the words "active-duty pay to which she would be entitled if serving, at the time of retirement, on active duty in the rank in which placed on the retired list", since § 431 of the Officer Personnel Act of 1947 (34 U. S. C. 410q) provides that retired pay shall be based on rates of pay "now or hereafter provided by law for officers on the active list." The words "basic pay" are substituted for the words "active-duty pay" to conform to the terminology used in the Career Compensation Act of 1949 (37 U. S. C. 231 et seq.).

AMENDMENTS

1967—Subsec. (a). Pub. L. 90–130 substituted failure to appear on a promotion list, being considered as having twice failed of selection for promotion to the grade of commander, and completion of at least 20 years of active commissioned service as computed under section 6388 of this title for attainment of age 55 or completion of 30 years of service computed under section 6388 of this title as the conditions for determining whether lieutenant commanders in the Nurse Corps shall be retired on June 30 of any fiscal year.

Former subsec. (c) redesignated as subsec. (b).

Subsec. (d). Pub. L. 90–130 redesignated as subsec. (d) that portion of the substance of former subsec. (b) relating to officers serving in the grade of lieutenant (junior grade) and amended such provisions by substituting discharge for retirement as the personnel action to be taken, striking out reference to section 5777 of this title, substituting failure to appear on a promotion list and completion of 7 years of active commissioned service for attainment of age 50 or completion of 20 years of service as the conditions determining the timing of discharge, and inserting provision for honorable discharge on request of the officer involved.

Subsec. (e). Pub. L. 90–130 added subsec. (e).

1966—Subsecs. (a), (b). Pub. L. 89–609, § 1(23), (24), substituted "the person" for "she".

Subsec. (c)(1). Pub. L. 89–609, § 1(25), struck out "by her" following "held" and substituted "the person's" for "her".

1963—Subsec. (c)(2). Pub. L. 88–132 substituted "of" for "to which she would be entitled if serving on active duty in" following "2½ percent of the basic pay."

1958—Subsec. (c)(2). Pub. L. 85–422 substituted "that may be credited to him under section 1405 of this title" for "creditable for basic pay".

1957—Subsec. (a). Pub. L. 85–155, § 201 (22) (A), substituted "lieutenant commander in the Nurse Corps shall, subject to the provisions of section 5777 of this title, be retired on June 30 of the fiscal year in which she becomes 55 years of age or completes 30 years of service computed under section 6388 of this title, whichever is earlier" for "commander or lieutenant commander in the Nurse Corps may be retired by the Secretary of the Navy on the first day of any month following that in which she becomes 55 years of age or completes 20 years of service, whichever is later".

Subsec. (b). Pub. L. 85–155, § 201 (22) (B), substituted "shall, subject to section 5777 of this title, be retired on June 30 of the fiscal year in which she becomes 50 years of age or completes 20 years of service computed under section 6388 of this title, whichever is later" for "may be retired by the Secretary on the first day of any month following that in which she becomes 50 years of age or completes 20 years of service, whichever is later".

Subsec. (c). Pub. L. 85–155, § 201 (22) (C) redesignated former subsec. (d) as (c), and Pub. L. 85–155, § 201 (22) (D), substituted "more than 75 percent or less than 50 percent" for "more than 75 percent" in clause (2). Former subsec. (c), which related to computation of years of service for the purpose of determining the eligibility of an officer for retirement under this section, was repealed by Pub. L. 85–155, § 202 (22) (C).

EFFECTIVE DATE OF 1967 AMENDMENT

Section 4(b) of Pub. L. 90–130 provided that: "The amendments made by this Act to section 6396 of title 10, United States Code [this section], do not become effective with respect to officers of the Regular Navy in the Nurse Corps serving in the grade of lieutenant commander until June 30 of the second fiscal year following the fiscal year in which this Act is approved."

EFFECTIVE DATE OF 1963 AMENDMENT

Amendment of section by Pub. L. 88–132 effective Oct. 1, 1963, see section 14 of Pub. L. 88–132, set out as a note under section 201 of Title 37, Pay and allowances of the Uniformed Services.

EFFECTIVE DATE OF 1958 AMENDMENT

Amendment of section by Pub. L. 85–422 effective on June 1, 1958.

DISCHARGE OF REGULAR NAVY OFFICERS SERVING AS LIEUTENANTS (JUNIOR GRADE) IN NURSE CORPS ON NOV. 8, 1967

Section 4(c) of Pub. L. 90–130 provided that: "Notwithstanding section 6396 of title 10, United States Code, as amended by this Act [this section], an officer of the Regular Navy in the Nurse Corps who is serving in the grade of lieutenant (junior grade) on the effective date of this Act [Nov. 8, 1967] may not be discharged under that section until June 30 of the second fiscal year following the fiscal year in which this Act is approved."

RETIREMENT OF REGULAR NAVY OFFICERS WITH OVER 13 YEARS OF COMMISSIONED SERVICE SERVING AS LIEUTENANTS IN NURSE CORPS ON NOV. 8, 1967

Section 4(d) of Pub. L. 90–130 provided that: "Notwithstanding any other provision of law, an officer of the Regular Navy in the Nurse Corps who is serving in the grade of lieutenant on the effective date of this Act [Nov. 8, 1967] and who on that date has completed more than thirteen years of active commissioned service may not be involuntarily discharged under section 6396 of title 10, United States Code, as amended by this Act [this section] but shall, unless sooner selected for promotion to the grade of lieutenant commander, be retired on June 30 of the fiscal year in which she completes at least twenty years of active commissioned service. Each officer retired under this subsection shall be retired with the retired grade and pay prescribed in section 6396(c) of title 10, United States Code, as it existed before the enactment of this Act."

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 1405, 6384 of this title.

§ 6397. Naval Reserve; officers in the Nurse Corps; elimination from active status.

(a) An officer of the Naval Reserve in any grade in the Nurse Corps may be eliminated from an active status under the conditions prescribed by this chapter for the separation from the active list of an officer on the active list of the Navy in the same grade in the Nurse Corps.

(b) An officer who is to be eliminated from an active status under this section shall, if qualified, be given an opportunity to request transfer to the Retired Reserve and, if the person requests it, shall be so transferred. If the person is not transferred to the Retired Reserve, the person shall, in the discretion of the Secretary of the Navy, be transferred to the inactive status list or be discharged from the Naval Reserve.

(c) An officer may be eliminated from an active status under this section, only upon the recommendation of board appointed by the Secretary and convened at such times as he directs. (Added Pub. L. 85–861, § 1 (144) (D), Sept. 2, 1958, 72 Stat. 1511, and amended Pub. L. 89–609, § 1(27), Sept. 30, 1966, 80 Stat. 854.)

The act of August 9, 1955, ch. 654, section 1 (69 Stat. 579) authorized the appointment of men as commissioned officers in the Nurse Corps of the Naval Reserve. Even though it is assumed that men will be a small minority in the corps, the masculine pronoun is used throughout since under 1 U. S. C. 1 words importing the masculine gender include the feminine. The converse is not true.

AMENDMENTS

1966—Subsec. (b). Pub. L. 89-609 substituted "the person" for "he" in three instances.

§ 6398. Regular Navy; women captains and commanders; Regular Marine Corps, women colonels and lieutenant colonels: retirement for length of service; retired grade and pay.

(a) Each woman officer on the active list of the Navy, appointed under section 5590 of this title, who holds a permanent appointment in the grade of captain and each woman officer on the active list of the Marine Corps who holds a permanent appointment in the grade of colonel shall be retired by the President on the first day of the month following the month in which she completes thirty years of active commissioned service in the Navy or the Marine Corps.

(b) Each woman officer on the active list of the Navy, appointed under section 5590 of this title, who holds a permanent appointment in the grade of commander and is not on a promotion list for a higher permanent grade and each woman officer on the active list of the Marine Corps who holds a permanent appointment in the grade of lieutenant colonel and is not on a promotion list for a higher permanent grade shall be retired by the President on the first day of the month following the month in which she completes twenty-six years of active commissioned service in the Navy or the Marine Corps.

(c) Each officer retired under this section—

(1) unless otherwise entitled to a higher grade shall be retired in the permanent grade held by her at the time of retirement; and

(2) is entitled to retired pay at the rate of 2½ per centum of the basic pay of the grade in which retired multiplied by the number of years of service that may be credited to her under section 1405 of this title, but the retired pay may not be more than 75 per centum or less than 50 per centum of the basic pay upon which the computation of retired pay is based.

6398	34 U. S. C. 410r (b) (less applicability to assistant to ChNavPers), (e), (k); 34 U. S. C. 625h (a).	June 12, 1948, ch. 449, § 207 (b) (less applicability to assistant to ChNavPers), (e), (k), 62 Stat. 366. June 12, 1948, ch. 449, § 213 (a), 62 Stat. 369.

In subsection (a) the words "appointed under section 5590 of this title" are inserted to make clear the fact that this section is not applicable to women officers appointed under other law. The words "who holds a permanent appointment in the grade of commander" are substituted for the words "of the grade of commander" for clarity. The application of the section to women lieutenant colonels in the Marine Corps is spelled out. The words "the Navy" are substituted for the words "the Navy and the Naval Reserve" since, by definition, "the Navy" includes both regular and reserve components.

In subsection (b) the words "basic pay to which she would be entitled if serving on active duty in the grade in which retired" are substituted for the words "active-duty pay to which entitled at the time of retirement" for clarity and accuracy. The amount of retired pay is subject to variations when the rates of basic pay are changed, as provided in § 431 of the Officer Personnel Act of 1947 (34 U. S. C. 410q). The words "basic pay" are substituted for the words "active-duty pay" to conform to the terminology of the Career Compensation Act of 1949 (37 U. S. C. 231 et seq.). In connection with the minimum rate of retired pay, reference to the act of April 18, 1946, ch. 141 (34 U. S. C. 15) is omitted as unnecessary. Section 204 of the Women's Armed Services Integration Act of 1948 (34 U. S. C. 105c) provides that women appointed in the Regular Navy shall be between 21 and 30 years of age, except those transferred from the Naval Reserve under the act of April 18, 1946, supra. A woman who is under 30 when commissioned will complete at least 25 years of service before reaching 55 and, when retired under this section, will have sufficient service to qualify for retired pay at a rate higher than 50 percent of basic pay. Stating a 50 percent minimum for all officers retired under this section, rather than solely for those who might not otherwise qualify for it, does not change the law.

AMENDMENTS

1967—Subsec. (a). Pub. L. 90-130 substituted "captain" for "commander" in the reference to the woman officer on the active list of the Navy and "colonel" for "lieutenant colonel" in the reference to the woman officer in the Marine Corps and struck out attainment of age 55 as an alternative condition requiring retirement.

Subsec. (b). Pub. L. 90-130 added subsec. (b). Former subsec. (b) redesignated as subsec. (c).

Subsec. (c). Pub. L. 90-130 redesignated former subsec. (b) as subsec. (c).

1963—Subsec. (b)(2). Pub. L. 88-132 substituted "of" for "to which she would be entitled if serving on active duty in" following "2½ percent of the basic pay."

1958—Subsec. (b) (2). Pub. L. 85-422 substituted "that may be credited to him under section 1405 of this title" for "creditable for basic pay".

EFFECTIVE DATE OF 1963 AMENDMENT

Amendment of section by Pub. L. 88-132 effective Oct. 1, 1963, see section 14 of Pub. L. 88-132, set out as a note under section 201 of Title 37, Pay and Allowances of the Uniformed Services.

In subsection (a) the words "appointed under section 5590 of this title" are inserted to make clear the fact that this section is not applicable to women officers appointed under other law. The words "who holds a permanent appointment in the grade of lieutenant commander" are substituted for the words "of the grade of lieutenant commander" for clarity. The words "in the Navy" are substituted for the words "in the Regular Navy and the Naval Reserve" since, by definition, "the Navy" includes both regular and reserve components.

The Women's Armed Services Integration Act of 1948 is silent as to the retired pay of women officers retired in the grade of lieutenant commander or major under § 207 (i) of the act (34 U. S. C. 410r (i)). Section 207 (a) (34 U. S. C. 410r (a)) makes applicable to women retired officers all provisions of law relating to male retired officers except those relating to the same subject matter provided for in the Women's Act. Section 215 of the Women's Act (34 U. S. C. 105j) provides that title III of the Officer Personnel Act of 1947 does not apply to women officers but that the provision of titles I and II which are not inconsistent with the Women's Act do apply to them. Section 112 (f) in title I and § 212 (f) in title II, 34 U. S. C. 410 (f), 410h (f), provide for the retired pay of male officers retired in grades above lieutenant. These provisions are applicable to women since they are consistent with the provisions of § 207 (e) (34 U. S. C. 410r (e)) of the Women's Act. Their application to women officers retired under this section is stated in clause (2) of subsection (b).

[1] So in original. Probably should be "her".

AMENDMENTS

1963—Subsec. (b) (2). Pub. L. 88–132 substituted "of" for "to which she would be entitled if serving on active duty in" following "2½ percent of the basic pay."

1958—Subsec. (b) (2). Pub. L. 85–422 substituted "that may be credited to him under section 1405 of this title" for "creditable for basic pay".

EFFECTIVE DATE OF 1963 AMENDMENT

Amendment of section by Pub. L. 88–132 effective Oct. 1, 1963, see section 14 of Pub. L. 88–132, set out as a note under section 201 of Title 37, Pay and Allowances of the Uniformed Services.

EFFECTIVE DATE OF 1958 AMENDMENT

Amendment of section by Pub. L. 85–422 effective on June 1, 1958.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 1405 of this title.

§ 6401. Regular Navy, women lieutenants; Regular Marine Corps, women captains: discharge for length of service; severance pay.

(a) Each woman officer on the active list of the Navy, appointed under section 5590 of this title, who holds a permanent appointment in the grade of lieutenant and each woman officer on the active list of the Marine Corps who holds a permanent appointment in the grade of captain shall be honorably discharged on June 30 of the fiscal year in which—

(1) she is not on a promotion list; and

(2) she has completed 13 years of active commissioned service in the Navy or in the Marine Corps.

However, if she so requests, she may be honorably discharged at any time during that fiscal year.

(b) Each officer discharged under this section is entitled to a lump-sum payment equal to 24 times the monthly basic pay to which she was entitled at the time of discharge. However, no person is entitled to a lump-sum payment under this section that is more than $15,000. (Aug. 10, 1956, ch. 1041, 70A Stat. 415; July 12, 1960, Pub. L. 86–616, § 5(4), 74 Stat. 390; June 28, 1962, Pub. L. 87–509, § 4(b), 76 Stat. 121.)

In subsection (a) the words "appointed under section 5590 of this title" are inserted to make it clear that this section does not apply to women officers appointed under other law. The words "who holds a permanent appointment in the grade of lieutenant" are substituted for the words "of the grade(s) of lieutenant" for clarity. The words "in the Navy" are substituted for the words "in the Regular Navy and the Naval Reserve" since, by definition, the Navy includes both regular and reserve components.

In subsection (b) the words "equal to 24 times the monthly basic pay to which she was entitled" are substituted for the words "computed on the basis of two months active-duty pay * * * for each year of commissioned service, but not to exceed a total of two years' pay" for brevity and clarity. Application of the formula in the case of an officer having 13 years of service could not result in a payment of less than the maximum, i. e., 2 years' pay. The amount is stated as 24 times the monthly pay instead of 2 years' pay because the Career Compensation Act of 1949 (37 U. S. C. 231 et seq.) fixes

pay scales on a monthly rather than a yearly basis. The phrase "basic pay" is substituted for "active-duty pay" to conform to the terminology of the Career Compensation Act of 1949.

AMENDMENTS

1962—Subsec. (b). Pub. L. 87–509 limited the lump-sum payment to not more than $15,000.

1960—Subsec. (a). Pub L. 86–616 permits an officer, if she so requests, to be honorably discharged at any time during the fiscal year.

RETENTION OF WOMEN LIEUTENANTS ON THE ACTIVE LIST AFTER 13 YEARS OF ACTIVE COMMISSIONED SERVICE

Section 23 of Pub. L. 85–861, Sept. 2, 1958, 72 Stat. 1561, provided that:

"(a) Until June 15, 1960, the Secretary of the Navy, when he determines that the needs of the service so require, shall furnish to each selection board convened under section 5704 (a) or (b) of title 10, United States Code, the number of women officers in the grade of lieutenant who will complete 13 years of active commissioned service in the Navy in the current fiscal year and who, if not selected for promotion to the next higher grade, may be recommended to be retained on the active list until June 30 of the fiscal year in which they complete 15 years of active commissioned service in the Navy.

"(b) A woman officer who is recommended by a selection board for retention on the active list under subsection (a) may not be discharged under section 6401 of title 10, United States Code [this section].

"(c) Each woman officer on the active list of the Navy in the grade of lieutenant who is recommended by a selection board for retention on the active list under subsection (a) shall, if not sooner selected for promotion to the next higher grade, be honorably discharged on June 30 of the fiscal year in which she completes 15 years of active commissioned service in the Navy. Each officer discharged under this section is entitled to a lump-sum payment equal to 24 times the monthly basic pay to which she was entitled at the time of discharge."

§ 6402. Regular Navy, women lieutenants (junior grade); Regular Marine Corps, women first lieutenants: discharge for length of service; severance pay.

(a) Each woman officer on the active list of the Navy, appointed under section 5590 of this title, who holds a permanent appointment in the grade of lieutenant (junior grade) and each woman officer on the active list of the Marine Corps who holds a permanent appointment in the grade of first lieutenant shall be honorably discharged on June 30 of the fiscal year in which—

(1) she is not on a promotion list; and

(2) she has completed seven years of active commissioned service in the Navy or in the Marine Corps.

However, if she so requests, she may be honorably discharged at any time during that fiscal year.

(b) Each officer discharged under this section is entitled to a lump-sum payment equal to two months' basic pay at the time of discharge multiplied by the number of years of commissioned service in the Navy or the Marine Corps. (Aug. 10, 1956, ch. 1041, 70A Stat. 415; July 12, 1960, Pub. L. 86–616, § 5(5), 74 Stat. 390.)

In subsection (a) the words "appointed under section 5590 of this title" are inserted to make clear the fact that the section is not applicable to women officers appointed under other law. The words "who holds a permanent appointment in the grade of lieutenant (junior grade)" are substituted for the words "of the grade(s) of * * * lieutenant (junior grade)" for clarity. The words "in the Navy" are substituted for the words "in the Regular Navy and the Naval Reserve" since, by definition, "the Navy" includes both regular and reserve components.

In subsection (b) the words "but not to exceed a total of two years' pay" are omitted as unnecessary, since application of the formula in the case of an officer having only 7 years of commissioned service could not result in a payment of as much as 2 years' pay. The phrase "basic pay" is substituted for "active-duty pay" to conform to the terminology of the Career Compensation Act of 1949 (37 U. S. C. 231 et seq.).

AMENDMENTS

1960—Subsec. (a). Pub. L. 86–616 permits an officer, if she so requests, to be honorably discharged at any time during the fiscal year.

§ 6403. Naval Reserve and Marine Corps Reserve; women officers: elimination from active status.

(a) A women officer in any grade in the Naval Reserve, other than an officer in the Nurse Corps or an officer appointed under section 5581 of this title, may, in the discretion of the Secretary of the Navy, be eliminated from an active status under the conditions prescribed by this chapter for the retirement or discharge of a woman line officer in the same grade on the active list of the Navy, or at any time after those conditions are met.

(b) A woman officer in any grade in the Marine Corps Reserve may, in the discretion of the Secretary, be eliminated from an active status under the conditions prescribed by this chapter for the retirement or discharge of a woman officer in the same grade on the active list of the Marine Corps, or at any time after those conditions are met.

(c) For the purposes of subsections (a) and (b) all commissioned service is considered active commissioned service.

(d) An officer who is to be eliminated from an active status under this section shall, if qualified, be given an opportunity to request transfer to the appropriate Retired Reserve and, if she requests it, shall be so transferred. If she is not transferred to the Retired Reserve, she shall, in the discretion of the Secretary, be transferred to the appropriate inactive status list or be discharged from the Naval Reserve or the Marine Corps Reserve.

(e) An officer may be eliminated from an active status under this section, only upon the recommendation of a board appointed by the Secretary and convened at such times as he directs. (Added Pub. L. 85–861, § 1 (144) (E), Sept. 2, 1958, 72 Stat. 1511.)

In subsection (a), the words "other than an officer in the Nurse Corps" are substituted for the words "Except

as otherwise provided in this chapter". The words "or an officer appointed under section 5581 of this title" are inserted to except from the operation of this section women appointed in the Medical, Dental, and Medical Service Corps under the Act of June 24, 1952, ch. 457 (66 Stat. 155; 34 U. S. C. 21e). These women are not "women officers" within the meaning of the Reserve Officer Personnel Act of 1954 (see the revision note on section 5665 of this title), and are therefore subject to elimination from an active status under section 6389, rather than under this section.

In subsections (a) and (b), the words "retained in or" are omitted as surplusage, since the Secretary has discretion as to whether officers are to be eliminated from an active status. The word "discharge" is substituted for the words "separation from the active list" to conform to the language used in sections 6401 and 6402 of this title. The words "under the conditions prescribed by this chapter for the retirement * * * of a woman line [the word "line" is omitted in subsection (b)] officer in the same grade on the active list" are substituted for the words "at the times prescribed by law for the retirement * * * of the woman line officer * * * next junior to her" for clarity. The source is ambiguous and subject to misinterpretation as is shown by testimony before the Committee on Armed Services, United States Senate, on May 5, 1955.

Bills to amend the Reserve Officer Personnel Act of 1954, introduced in the 84th Congress, 1st Session, contained a proposed amendment to section 411 (d) that would have provided that women reserve officers could be eliminated from an active status under the same relative conditions as would require the retirement or discharge of a contemporary male officer on the active list. The proposed amendment was rejected by the Committee on Armed Services, United States Senate, and was not incorporated in the bill as sent to the House and enacted (act of June 30, 1955, ch. 247, 69 Stat. 218). During the hearings, however, it was brought out that certain reserve officers and others had interpreted section 411 (d) as authorizing the elimination of a woman reserve officer from active status upon the happening of some event to the woman regular officer who chanced to be her running mate at the moment, regardless of the reserve officer's own age, length of service, or promotion status. That this is not the intended meaning is shown by the provision that all commissioned service is considered active commissioned service for the purpose of this subsection, a provision that would be meaningless if the reserve officer's status were dependent on that of her running mate. The interpretation placed on the subsection by the Department of the Navy was explained by the Assistant Secretary of the Navy (Personnel and Reserve Forces) as follows: "Under the present language of this section, women Reserve officers may be retained in or eliminated from active status, in the discretion of the Secretary, under conditions similar to those prescribed for the separation or retirement of a woman Regular officer." In addition, information furnished to the Committee by the Department of the Navy contained the following comments on specific questions:

"2. 'Under section 411 (d) as now contained in Public Law 773, 83d Congress, could a woman officer of the Naval or Marine Corps Reserve become ineligible to earn credit toward retirement as provided by title III of Public Law 810, 80th Congress, at the time that the female Regular officer next junior to her is separated for statutory reason—or at any time thereafter?'

"*Comment.*—No; unless by sheer coincidence the rules which prescribe the time of separation of the woman Regular officer would produce exactly the same date when applied to the facts pertaining to the woman Reserve officer. This provision assimilates the rules applying to contemporary women regulars, rather than the mere fact of separation for any statutory reason.

"3. 'Would the loss of retirement opportunities by a Naval or Marine Corps Reserve officer under the provision of section 411 (d) * * * as now contained in Public Law 773 be for any reason related to her own age, performance, qualifications, or availability?'

"*Comment.*—Yes; under section 411 (d) as contained in Public Law 773, the facts of the woman Reserve officer's own situation would determine liability for elimination from active status." (Hearings on S. 1718 before the Committee on Armed Services, United States Senate, May 5, 1955, pp. 5, 9.)

The revised section is accordingly worded so as to make this meaning clear.

The words "and a part of a year that is less than six months is disregarded" are added for clarity. The legislative history of the Career Compensation Act of 1949, which contains a provision identical to those codified in this section, indicates that all of these provisions are construed as requiring a fractional year of less than six months to be disregarded (hearing before the Committee on Armed Services of the Senate on H. § 6407. Communication with selection board.

Each officer eligible for consideration for continuation on the active list by a selection board con-

vened under chapter 543 of this title has the right to send a communication through official channels at any time not later than ten days after the convening of that board inviting attention to any matter of record in the Department of the Navy concerning himself which he considers important in his case. The communication may not criticize any officer or reflect upon the character, conduct, or motive of any officer. (Aug. 10, 1956, ch. 1041, 70A Stat. 416.)

The words "for continuation on the active list" are inserted, since the rule stated in 34 U. S. C. 306c (c) (1) is stated here only as it applies to boards considering officers for continuation on the active list. The same rule as it applies to boards considering officers for promotion is set out in § 5755 of this title. The words "written" and "the consideration of" are omitted as surplusage.

SUSPENSION OF SECTION

Section as inoperative whenever the number of male officers serving on active duty in the grade of ensign or above in the line of the Navy does not exceed the number of male officers holding permanent appointments in the grade of ensign or above on the active list in the line of the Regular Navy, see subsecs. (a) and (b) of section 48 of act Aug. 10, 1956, set out as a note under section 5505 of this title.

§ 6408. Navy and Marine Corps; warrant officers, W-1: limitation on dismissal.

(a) No officer who holds the grade of warrant officer, W-1, may be dismissed from the Navy or the Marine Corps except in time of war, by order of the President.

(b) The President may drop from the rolls of the Navy or the Marine Corps any officer who holds the grade of warrant officer, W-1, who—

(1) has been absent without authority for at least three months; or

(2) is sentenced to confinement in a Federal or State penitentiary or correctional institution after having been found guilty of an offense by a court other than a court-martial or other military court, and whose sentence has become final.

This section reflects the opinion of the Judge Advocate General of the Navy (JAG: I: 2: ERS: cmr, dtd. 13 April 1954) that 50 U. S. C. 739 applies to warrant officers (now warrant officers, W-1), of the Navy and the Marine Corps. The Warrant Officer Act of 1954 established the grade of warrant officer, W-1, in lieu of the former warrant officer (as distinguished from commissioned warrant officer) grades. 50 U. S. C. 739, as applicable to officers above the grade of warrant officer, W-1, is codified in § 1161 of this title.

In subsection (a) the words "by sentence of a general court-martial, or in commutation thereof" are omitted since the separation from the service of a warrant officer, W-1, by sentence of court-martial is effected by dishonorable discharge.

In subsection (b) the words "from his place of duty" are omitted as surplusage. The words "at least" are substituted for the words "or more". The words "by a court other than a court-martial or other military court" are substituted for the words "by the civil authorities".

Section, act Aug. 10, 1956, ch. 1041, 70A Stat. 416, provided for the suspension of laws for mandatory retirement or separation during war or emergency of temporary warrant officers of the Navy and Marine Corps.

§ 6410. Naval Reserve and Marine Corps Reserve; officers: elimination from active status to provide a flow of promotion.

(a) Whenever he determines that such action is necessary to provide a steady flow of promotion for officers in an active status in the Naval Reserve or the Marine Corps Reserve, the Secretary of the Navy may convene a board to recommend an appropriate number of these officers for elimination from an active status. Subject to section 1005 of this title, officers so recommended may be eliminated from an active status as provided in subsection (b).

(b) An officer who is to be eliminated from an active status under this section shall, if qualified, be given an opportunity to request transfer to the appropriate Retired Reserve and, if he requests it, shall be so transferred. If he is not transferred to the Retired Reserve, he shall, in the discretion of the Secretary, be transferred to the appropriate inactive status list or be discharged from the Naval Reserve or the Marine Corps Reserve. The word "Regular" is inserted before the word "Navy" and the words "Marine Corps" since the section is applicable only to retired officers of the Regular Navy and the Regular Marine Corps. The recall to active duty of retired officers of the Naval Reserve and the Marine Corps Reserve is covered by §§ 672 and 675 of this title. The provisions of 34 U. S. C. 423 after the first 55 words are omitted for the reasons stated in the following paragraphs.

The act of July 1, 1918, ch. 114, 40 Stat. 717 (3d and 4th pars.), as originally enacted, provided that during any war or national emergency the Secretary of the Navy could order any retired commissioned officer or warrant officer of the Navy, Marine Corps, or Coast Guard to active duty and that any officer so ordered could be promoted on the retired list to the grade or rank, not above that of lieutenant commander or major, which his total active service as an officer both prior and subsequent to retirement would have enabled him to attain in due course of promotion had such service been rendered continuously on the active list. This act further provided that any such officer could be temporarily promoted to a higher grade on the retired list, not above that of lieutenant commander or major, but that upon his relief from active duty he should revert to the grade on the retired list he would have held had he not been so temporarily advanced, with retired pay based on the latter grade.

The act of July 24, 1941, ch. 320, 55 Stat. 603, impliedly repealed the temporary promotional authority contained in the act of July 1, 1918. The act of July 24, 1941, established a uniform system for the temporary promotion during war or national emergency of all officers of the Navy, Marine Corps, or Coast Guard on active duty. It specifically provided for the promotion of retired officers, placed no limitation on the grades to which they could be promoted, and authorized such officers, when returned to an inactive status, to have on the retired list the highest grade satisfactorily held on active duty. The 1946 edition of the U. S. Code, in 34 U. S. C. 423, carries only so much of the 1918 act as authorizes the recall of retired officers to active duty. A note on that section states that the provisions relating to the promotion of retired officers were superseded by the act of July 24, 1941, ch. 320 (34 U. S. C. 350 et seq.).

The act of August 4, 1949, ch. 393, 63 Stat. 495, enacted Title 14 of the United States Code. Section 8 of that act amended the act of July 1, 1918, ch. 114 (34 U. S. C. 423), by reenacting so much of the act as provided for the recall of retired officers to active duty during war or national emergency and as provided for their promotion and subsequent return to inactive duty except that all reference to officers of the Coast Guard was deleted. However, in so doing it is clear that there was no intent on the part of Congress to repeal those parts of the 1941 act that provided for the promotion during war or national emergency of retired officers on active duty, but that it was merely the intent of Congress to restate the applicable provisions of the act of July 1, 1918 with the meaning they had on August 4, 1949, less any application to the Coast Guard.

The report of the Committee on the Judiciary of the House of Representatives which accompanied the act of August 4, 1949, clearly supports this view. It states that the purpose of § 8 of the act of August 4, 1949, was to amend the act of July 1, 1918, to "eliminate references to the Coast Guard", and clearly indicates that there was no intent to change existing laws relating to the Navy. The report in speaking of substantive changes in existing law brought about by the revision of Title 14 states as follows: "Throughout this revision an effort has been made to make only those substantive changes which are noncontroversial, which seem to be necessary due to changes in the Coast Guard, its functions, or its relationship to other departments of the Government; which are necessary in order to reconcile inconsistent provisions and remove obsolete and redundant language; and which seem desirable in order to parallel similar provisions having application to the Navy". The only provision from the act of July 1, 1918, codified in Title 14 was the authority for the involuntary recall to active duty of commissioned officers and warrant officers on the retired list during war or national emergency, similar to the authority in this section.

TERMINATION OF WAR AND EMERGENCIES

Joint Res. July 25, 1947, ch. 327, § 3, 61 Stat. 451, provided that in the interpretation of section 421 of former Title 34, the date July 25, 1947, should be deemed to be the date of termination of any state of war theretofore declared by Congress and of the national emergencies proclaimed by the President on Sept. 8, 1939 and May 27, 1941.

The state of war with Japan actually ended on Apr. 28, 1952, by the coming into effect of the Treaty of Peace with Japan on that date. The state of war with Germany had ended on Oct. 19, 1951. See notes preceding section 1 of Appendix to Title 50, War and National Defense.

§ 6482. Retired enlisted members of the Regular Navy and Regular Marine Corps: authority to recall.

In time of war or national emergency the Secretary of the Navy may order to active duty any retired enlisted member of the Regular Navy or the Regular Marine Corps. (Aug. 10, 1956, ch. 1041, 70A Stat. 417.)

The words "for such service as he may be able to perform" are omitted as surplusage. The words "of the Regular Navy or the Regular Marine Corps" are inserted for clarity, since this section is applicable only to retired enlisted members of the Regular Navy and the Regular Marine Corps. The recall to active duty of retired enlisted members of the Naval Reserve and the Marine Corps Reserve is covered by §§ 672 and 675 of this title. Reference to pay and allowances is omitted as superseded by § 201 of the Career Compensation Act of 1949 (37 U. S. C. 232).

TERMINATION OF WAR AND EMERGENCIES

Joint Res. July 25, 1947, ch. 327, § 3, 61 Stat. 451, provided that in the interpretation of section 433 of former Title 34, authorizing the Secretary of the Navy to call retired enlisted men into active service, the date July

25, 1947, should be demed to be the date of termination of any state of war theretofore declared by Congress and of the national emergencies proclaimed by the President on Sept. 8, 1939, and May 27, 1941.

The state of war with Japan actually ended Apr. 28, 1952, by the coming into effect of the Treaty of Peace with Japan on that date. The state of war with Germany had ended on Oct. 19, 1951. See notes preceding section 1 of Appendix to Title 50, War and National Defense.

§ 6483. Retired members: grade.

(a) Except as provided in subsection (b), each retired member of the naval service, when recalled to active duty, shall be recalled in the grade held by him on the retired list.

(b) An officer who has been advanced on the retired list or in the Retired Reserve under former section 6150 of this title to a grade above captain in the Navy or above colonel in the Marine Corps, when recalled to active duty, may, in the discretion of the Secretary of the Navy, be recalled either in the grade he holds on the retired list or in the Retired Reserve or in the grade from which he was advanced. HISTORICAL AND REVISION NOTES

Revised section	Source (U. S. Code)	Source (Statutes at Large)
6483	34 U. S. C. 410n (1st proviso); 50 U. S. C. 1052 (c) (2d sentence).	Aug. 7, 1947, ch. 512, § 412 (a) (1st proviso), 61 Stat. 874; Oct. 12, 1949, ch. 681, § 522 (a), 63 Stat. 835. July 9, 1952, ch. 608, § 413 (c) (2d sentence), 66 Stat. 500.

Subsection (a) states the general rule that a retired officer, when recalled to active duty, shall be recalled in the grade he holds on the retired list. The rule is derived, not from a specific provision of law, but from the fact that special legislative authority is required to recall a retired officer in any other grade.

The desirability of including a positive statement of the rule is pointed up by the legislative history of the act of February 21, 1946, ch. 34, § 8 (a), 60 Stat. 28, amending the act of July 24, 1941, ch. 320, § 10 (d), 55 Stat. 605 (34 U. S. C. 350i (d)). The 1946 amendment states the rule, but only as to a limited class of retired personnel, namely persons temporarily appointed or promoted under the 1941 act while on the retired list. The amendment provided that such persons, when released to inactive duty, should be given the highest grade in which they had served satisfactorily and, if subsequently recalled to active duty, should be recalled in the grade so accorded them. The legislative history shows that the bill (S. 1405, 79th Cong., 1st sess.), originally was written so as to provide that retired personnel should be recalled in their prior permanent grades or ratings instead of in the higher grades accorded them on the retired list while on inactive duty. When a member of the Naval Affairs Committee of the House of Representatives suggested an amendment to allow retired personnel to be recalled in the higher grades, the Navy spokesman pointed out that no law was required to permit this; in fact, retired personnel would be *required* to be recalled in the grades they hold on the retired list in the absence of any law to the contrary. Thus the result desired by the committee member could be achieved simply by deleting the provision instead of amending it. After some discussion, however, it was decided to adopt the suggested amendment in order not to "leave things to inference" (H. Rept. No. 158, December 6, 1945, pp. 2290–2292).

Section 412 (a) of the Officer Personnel Act of 1947 (34 U. S. C. 410n) (codified, except for the first proviso, in § 6150 of this title), supplies a further reason why a positive statement of the rule is desirable. That section provides that an officer who has been specially commended for the performance of duty in actual combat shall, when retired, be placed on the retired list in the grade next higher than that in which serving at the time of retirement. The first proviso, codified in subsection (b) of this section, provided further that an officer advanced under § 412 (a) to a flag or general officer grade could be recalled either in the advanced grade or in the grade from which advanced. The law was silent as to the grade in which other officers advanced under § 412 (a) should be recalled. It was understood that they would be recalled in the advanced grade accorded them on the retired list, because there was no authority to recall them in any other grade. However, the Comptroller General raised a question as to their right to the pay of the higher grade when recalled. Although the final decision of the Comptroller General was in favor of the higher pay (30 Comp. Gen. 242, December 20, 1950), the fact that the question was raised indicates the confusion that results from leaving the rule to inference.

It appears that the rule was never in doubt until after the enactment of the two recent laws cited above, one applying the rule to a limited class, and one stating a discretionary exception without stating the rule itself. These two laws make it more difficult than it was formerly to derive the correct conclusion by inference alone.

AMENDMENTS

1968—Subsec. (b). Pub. L. 90–623 inserted "former" before "section 6150".

1963—Subsec. (c). Pub. L. 88–132 repealed subsec. (c) which provided for recomputation of retired pay of retired members of the naval service, recalled to active duty in the higher grade for officers specially commended and released from such duty, on basis of the then monthly basic pay of the grade held on the retired list after continuous 2-year period of service. See section 1402 of this title.

1958—Subsec. (c). Pub. L. 85–422 added subsec. (c).

§ 6484. Promotion of retired members to higher enlisted grades: retention of grade upon release from active duty.

When on active duty, retired enlisted members of the Navy or the Marine Corps are eligible for promotion to higher enlisted grades or ratings. When released from active duty, they shall, unless entitled to a higher grade under another provision of law, retain the grades or ratings they hold at the time of their release. 6484	34 U. S. C. 434.	July 1, 1918, ch. 114, 40 Stat. 719 (1st 9 lines of 2d par.).

The words "who has been ordered into active service since April 6, 1917" are omitted as executed. The words "to higher enlisted grades or ratings" are inserted for clarity. The eligibility of retired enlisted men for appointments to warrant and commissioned grades is covered by chapter 539 of this title where the requirements for these appointments are set forth. The words "unless entitled to a higher grade under another provision of law" are inserted to make it clear that retired enlisted members are not precluded by this section from obtaining the benefits of other provisions of law that may give a higher grade to them on their release from active duty.

The provision relating to pay, allowances, and benefits is omitted because it was superseded by §§ 514 and 516 of the Career Compensation Act of 1949 (37 U. S. C. 314 and 316).

§ 6485. Members of the Fleet Reserve and Fleet Marine Corps Reserve: authority to recall.

(a) A member of the Fleet Reserve or the Fleet Marine Corps Reserve may be ordered by competent authority to active duty without his consent—

(1) in time of war or national emergency declared by Congress, for the duration of the war or national emergency and for six months thereafter;

(2) in time of national emergency declared by the President; or

(3) when otherwise authorized by law.

(b) In time of peace any member of the Fleet Reserve or the Fleet Marine Corps Reserve may be required to perform not more than two months' active duty for training in each four-year period and shall be physically examined at least once during each four-year period. If any member fails to report for the physical examination, the Secretary may order any pay due that member forfeited. (Aug. 10, 1956, ch. 1041, 70A Stat. 417.)

In subsection (a) the words "A member of the Fleet Reserve or the Fleet Marine Corps Reserve" are substituted for the words "That men so transferred to the Fleet Reserve * * * or other provision of law" for clarity. It is clear from the legislative history of the Armed Forces Reserve Act of 1952 that the amendment to the second proviso of 34 U. S. C. 854d made by that Act was intended to cover all members of the Fleet Reserve and Fleet Marine Corps Reserve.

In subsection (b) the word "enlisted" is omitted as surplusage since only enlisted members may transfer to the Fleet Reserve and Fleet Marine Corps Reserve. The words "after 16 years' or more service" are omitted as surplusage since all the members of the Fleet Reserve and Fleet Marine Corps Reserve are in that category. The words "If any member fails to report for the physical examination" are substituted for the words "upon failure * * * of such member to report for inspection" to reflect the true meaning of the section. The words "Under such conditions as may be prescribed by the Secretary of the Navy" are omitted as unnecessary since the authority to order a forfeiture is entirely within the Secretary's discretion.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 6331 of this title.

§ 6486. Members of the Fleet Reserve and Fleet Marine Corps Reserve: release from active duty.

(a) Except as provided in subsection (b), the Secretary of the Navy may, at any time, release any member of the Fleet Reserve or the Fleet Marine Corps Reserve from active duty.

(b) In time of war or national emergency declared by Congress or by the President after January 1, 1953, a member of the Fleet Reserve or the Fleet Marine Corps Reserve, without his consent, may be released from active duty other than from active duty for training only if—

(1) a board of officers convened at his request by an authority designated by the Secretary recommends the release and the recommendation is approved;

(2) the member does not request that a board be convened; or

(3) his release is otherwise authorized by law.

This subsection does not apply during a period of demobilization or reduction in strength of the Navy or the Marine Corps. (Aug. 10, 1956, ch. 1041, 70A Stat. 417.)

In subsection (a) the words "or active duty for training" are omitted as covered by the term "active duty" as used in this revised title.

In subsection (b) the words "other than from active duty for training" are inserted since the term "active duty" as used in 34 U. S. C. 854d (3d proviso) does not include active duty for training. Clause (3) is inserted, since other provisions of law are necessarily exceptions to the general rule here stated. The words "or the Marine Corps" are inserted in the last sentence of subsection (b) to reflect the applicability of the section to the Fleet Marine Corps Reserve.

§ 6487. Retired rear admirals: retired pay after two years of active duty.

Each officer holding a permanent appointment in the grade of rear admiral on the retired list who is entitled to the pay of the lower half of that grade, and who, in time of war or national emergency, serves satisfactorily on active duty for two years in that grade or in a higher grade, is thereafter entitled, when on inactive duty, to retired pay equal to 75 percent of the basic pay of a rear admiral in the upper half of that grade. The words "and who is, has been, or may be recalled to active duty" are omitted as surplusage. The words "unless he is entitled under other provisions of law to higher retired pay or allowances" are omitted since there is no law that authorizes retired pay, for persons who could benefit from this section, higher than 75 percent of the pay of a rear admiral of the upper half. The proviso of 34 U. S. C. 428 is omitted as executed.

§ 6488. Wartime appointments or promotions: retention of grade upon release from active duty.

(1) the Naval Reserve;

(2) the Marine Corps Reserve;

(3) the Fleet Reserve; or

(4) the Fleet Marine Corps Reserve;

who, while on active duty, is promoted under section 5787 of this title or appointed under section 5597 of this title, is entitled, upon release from that duty, to the highest grade satisfactorily held under such a promotion or appointment as determined by the Secretary of the Navy.

(b) If a member covered by subsection (a) is later recalled to active duty, he shall, unless otherwise entitled to a higher grade, be recalled in the grade given him under that subsection. (Aug. 10, 1956, ch. 1041, 70A Stat. 418.)

§ 6909. Direct procurement: qualifications; retention or transfer to Reserve.

(a) Appointments to the active list of the Navy in the grade of ensign in the line, the Supply Corps, the Civil Engineer Corps, and the Medical Service Corps and to the active list of the Marine Corps in the grade of second lieutenant may be made from male citizens who are under 25 years of age on June 30 of the calendar year in which appointed and who—

(1) have satisfactorily completed a four-year course at an accredited college or university; or

(2) are enlisted members of the Regular Navy or the Regular Marine Corps who demonstrate in a test that they have attained an educational level equivalent to that of a person who has satisfactorily completed a four-year course at an accredited college or university.

(b) The date of rank of officers appointed under this section in any year is the date of graduation of midshipmen from the Naval Academy in that year. Selection for appointment in a staff corps under this section shall be made by a board of commissioned officers in the staff corps concerned.

(c) When any officer appointed under this section has at least two years of satisfactory service as a commissioned officer, he may, on his application, have his appointment on the active list of the Navy or the active list of the Marine Corps terminated and may be appointed in the Naval Reserve or the Marine Corps Reserve, as appropriate, in the same grade and with the same date of rank that he had as a regular officer. (d) During the second quarter of each calendar year, the Secretary shall examine the record of each officer on the active list of the Navy or on the active list of the Marine Corps appointed under this section who—

(1) in that year will have the third anniversary of the acceptance of his appointment; and

(2) applies for retention as a permanent officer before that anniversary, but not later than March 31 of that year.

(e) From among the officers whose records are so examined the Secretary shall select for retention as many as he considers necessary. The appointment of each officer not selected shall be terminated before July 1 of the calendar year of the third anniversary of the acceptance of his appointment, or not later than that anniversary if it occurs after June 30.

(f) The appointment of each officer on the active list of the Navy or on the active list of the Marine Corps appointed under this section who does not apply for retention under this section shall be terminated not later than the third anniversary of the acceptance of his appointment.

(g) Upon the termination of his appointment under subsection (e) or (f), a person may be appointed a lieutenant (junior grade) in the line or in a staff corps of the Naval Reserve or a first lieutenant in the Marine Corps Reserve, as appropriate, with a date of rank three years after the date of rank of his original commission. In subsection (a) the words "the Supply Corps, the Civil Engineer Corps, and the Medical Service Corps" are substituted for the words "in the appropriate commissioned grade in such staff corps of the Navy in which the rank of ensign was on August 13, 1946, or may after August 13, 1946, be authorized" to correct the implication that the section authorizes appointments in the Nurse Corps. Such appointments are excluded by the requirement that the appointees must be male citizens. This subsection is made applicable to the Supply Corps notwithstanding the opinion of The Judge Advocate General of the Navy (JAG:II:KES:eo) dated December 22, 1949. In that opinion it is stated that the upper limit of 25 years does not apply to appointments in the Supply Corps. The effect of this opinion, that is, to authorize appointment in the Supply Corps of officers over 25, is preserved by § 5575 of this title, which contains basic authority to make appointments in the Supply Corps. As stated in the note on that section, the earlier provisions upon which it is based were considered as positive authority to appoint and, in fact, originally constituted the only authority to appoint officers in the Supply Corps. The effect of the dual statement of authority to appoint is to except appointees under § 5575 from the provisions in this section relating to selection for and retention as permanent officers.

In subsection (d) the words "whichever is earlier" are omitted and the rule is spelled out.

In subsection (e) the words "whichever is the later date" are omitted and the rule is spelled out.

Section, act Aug. 10, 1956, ch. 1041, 70A Stat. 426, authorized the payment of expenses of the officer procurement program.

§ 6911. Aviation cadets: grade; procurement; transfer.

(a) The grade of aviation cadet is a special enlisted grade in the naval service. Under such regulations as the Secretary of the Navy prescribes, male citizens in civil life may be enlisted as, and male enlisted members of the naval service with their consent may be designated as, aviation cadets.

(b) Except in time of war or emergency declared by Congress, 20 percent of the aviation cadets procured in each fiscal year shall be procured from qualified enlisted members of the Regular Navy and the Regular Marine Corps.

(c) No person may be enlisted or designated as an aviation cadet unless—

(1) he agrees in writing that, upon his successful completion of the course of training as an aviation cadet, he will accept a commission as an ensign in the Naval Reserve or a second lieutenant in the Marine Corps Reserve, and will serve on active duty as such for at least three years, unless sooner released; and

(2) if under 21 years of age, he has the consent of his parent or guardian to his agreement.

(d) Under such regulations as the Secretary prescribes, an aviation cadet may be transferred to another enlisted grade or rating in the naval service, released from active duty, or discharged. (Aug. 10, 1956, ch. 1041, 70A Stat. 426; July 31, 1958, Pub. L. 85-578, 72 Stat. 456.)

HISTORICAL AND REVISION NOTES

6911 (a), (c), and (d).	34 U. S. C. 850a, 850b.	Aug. 4, 1942, ch. 547, §§ 2, 3. 56 Stat. 737.
6911 (b)	34 U. S. C. 735b.	June 13, 1949, ch. 199, § 3, 63 Stat. 175.

In subsection (a) the words "in civil life" are added to indicate that regular enlisted members, to be eligible, must be discharged as is required by subsection (b).

In subsection (b) the words before the first proviso are omitted as executed. The words "after June 13, 1949" in the first proviso, relating to a declaration of emergency by Congress, are omitted as executed. The emergencies existing on June 13, 1949, have expired, as indicated in the act of July 3, 1952, ch. 570, 66 Stat. 333. The word "Regular" is inserted before "Navy" and "Marine Corps" to preserve the meaning of this provision which distinguishes members of the reserve components from members of the Navy and the Marine Corps. The words "who are discharged for the purpose of enlisting as aviation cadets" are added. Since discharge from a regular component must precede enlistment in a reserve component, the designation language of 34 U. S. C. 735b, although appropriate to the Air Force counterpart to which it also applies, is inappropriate to this section.

Subsection (c) is written as a condition precedent to enlistment or transfer, and not as a requirement, to conform with interpretation of the provision.

AMENDMENTS

1958—Subsec. (a). Pub. L. 85-578 substituted "naval service" for "Naval Reserve and the Marine Corps Reserve", made changes in phraseology including the substitution of "designated" for "transferred", and specified consent as requisite for designation as aviation cadet.

Subsec. (b). Pub. L. 85-578 deleted "at least" preceding "20 percent" and "who, with their consent, are discharged for the purpose of enlisting as aviation cadets" following "Regular Marine Corps".

Subsec. (c). Pub. L. 85-578 designated existing provisions as clauses (1) and (2), made phraseological changes including the substitution of "designated" for "transferred", and prescribed consent for one under 21 years of age instead of one described as minor and active duty service with commissioned status for minimum three year period instead of maximum four year period in unspecified grade.

Subsec. (d). Pub. L. 85-578 substituted "naval service" for "Naval Reserve or the Marine Corps Reserve" and deleted "as appropriate" following such term.

§ 6912. Aviation cadets: benefits.

Except as provided in section 402 (a) and (b) of title 37, aviation cadets or their beneficiaries are entitled to the same allowances, pensions, gratuities, and other benefits as are provided for enlisted members in pay grade E-4. While on active duty, an aviation cadet is entitled to uniforms, clothing, and equipment at the expense of the United States. (Aug. 10, 1956, ch. 1041, 70A Stat. 426; Sept. 2, 1958, Pub. L. 85-861, § 1(147)(A), 72 Stat. 1513; Sept. 7, 1962, Pub. L. 87-649, § 6(f)(6), 76 Stat. 494.)

The words "and the premiums on their life insurance" are omitted as impliedly repealed by § 10 of the Insurance Act of 1951, 65 Stat. 37, which provided that such premium payments shall not be made by the Government.

AMENDMENTS

1962—Pub. L. 87-649 substituted "section 402 (a) and (b) of title 37" for "section 251(a) of title 37."

1958—Pub. L. 85-861 substituted "benefits" for "pay and allowances" in the catchline, and eliminated provisions which prescribed the rate of pay of cadets, which authorized them to receive the same allowances for subsistence as prescribed for officers, which related to the furnishing of quarters, medical care and hospitalization, and which authorized transportation and expenses while traveling under orders.

EFFECTIVE DATE OF 1962 AMENDMENT

Amendment of section by Pub. L. 87-649 effective on Nov. 1, 1962, see section 15 of Pub. L. 87-649, set out as a note preceding section 101 of Title 37, Pay and Allowances of the Uniformed Services.

6913 (b)	34 U. S. C. 850g.	Aug. 4, 1942, ch. 547, § 8, 56 Stat. 738.

In subsection (a) the proviso is omitted as unnecessary. Section 1 of the act of April 28, 1950, ch. 120, 64 Stat. 90, terminated service credit for lump-sum payments granted under § 12 of the act of August 4, 1942, ch. 574, 56 Stat. 738, and thereby removed the only consequences of the proviso. The words "section 6023 (b) of this title" are substituted for the words "law for designation or appointment as naval aviators" to provide specific reference to those requirements. The words "and designated a naval aviator" are added for clarity and to authorize specifically the designation, which is implied in 34 U. S. C. 850f.

§ 6914. Reserve naval aviators: appointment in Regular Navy and Regular Marine Corps; eligibility; grade; rank.

(a) The President, by and with the advice and consent of the Senate, may appoint to the active list in the line of the Navy as many officers of the Naval Reserve, and may appoint to the active list of the Marine Corps as many officers of the Marine Corps Reserve, as he considers necessary. To be eligible for an appointment under this section an officer must—

(1) be a naval aviator;

(2) have successfully completed aviation cadet training when he was under 25 years of age;

(3) establish his mental, moral, professional, and physical qualifications under such regulations as the Secretary of the Navy prescribes; and

(4) have completed, on June 30 of the calendar year in which appointed, at least 18 months of continuous active service after he completes his aviation cadet training.

(b) Each officer appointed under this section shall be appointed in the same grade that he holds in the Naval Reserve or the Marine Corps Reserve. An officer appointed in the grade of ensign or second lieutenant ranks from the date he reported for continuous active duty as an officer of the Naval Reserve or the Marine Corps Reserve. An officer appointed in a grade above ensign or above second lieutenant ranks according to his date of rank in that grade in the Naval Reserve or the Marine Corps Reserve, as the case may be.

(c) While an officer is serving in the grade in which appointed under subsection (a), the requirement of sea service under section 5770 of this title does not apply. (Aug. 10, 1956, ch. 1041, 70A Stat. 427.)

In subsections (a) and (b) the third and fourth provisos of 34 U. S. C. 737 are omitted as executed; the fifth proviso is omitted as surplusage in view of paragraph (1) of subsection (a) of § 202 of the Career Compensation Act of 1949 (37 U. S. C. 233), which covers the subject of longevity credit for pay purposes.

Subsection (a) preserves the effect of the act of June 30, 1942, ch. 462 (34 U. S. C. 737a), by authorizing the appointment in the Regular Navy or the Regular Marine Corps at any time of an officer who met the age limitation at the time he completed training as an aviation cadet. The first proviso of 34 U. S. C. 737 is in part superseded by this later provision. The words "ranks from" are substituted for the words "take precedence according to" in 34 U. S. C. 737a.

In subsection (c) the sea service requirement referred to is derived from 34 U. S. C. 306f (a) (3), which supersedes 34 U. S. C. 311.

§ 6915. Reserve student aviation pilots; reserve aviation pilots: appointments in commissioned grade.

(a) Under such regulations as the Secretary of the Navy prescribes, enlisted members of the Naval Reserve and the Marine Corps Reserve may be designated as student aviation pilots.

(b) A member who is not a qualified civilian aviator may not be designated as a student aviation pilot unless he agrees in writing, with the consent of his parent or guardian if he is a minor, to serve on active duty for a period of two years after successfully completing flight training, unless sooner released. Such a student aviation pilot may be released from active duty or discharged at any time by any administrative authority prescribed by the Secretary.

(c) If he is a qualified civilian aviator, a student aviation pilot may be given a brief refresher course in flight training.

(d) While he is in flight training, a student aviation pilot shall have uniforms and equipment issued to him at Government expense.

(e) Under regulations prescribed by the Secretary, a student aviation pilot of the Naval Reserve or the Marine Corps Reserve may be designated an aviation pilot upon successfully completing flight training.

(f) Repealed. Pub. L. 87-649, § 14c(51), Sept. 7, 1962, 76 Stat. 501.

(g) In time of peace, an aviation pilot who is obligated under subsection (b) to serve on active duty for a period of two years may serve, with his consent, for an additional period of not more than two years.

(h) An aviation pilot of the Naval Reserve or the Marine Corps Reserve may be released from active duty or discharged at any time by any administrative authority prescribed by the Secretary.

(i) An aviation pilot of the Naval Reserve or the Marine Corps Reserve may, if qualified under regulations prescribed by the Secretary, be appointed an ensign in the Naval Reserve or a second lieutenant

in the Marine Corps Reserve, as appropriate. (Aug. 10, 1956, ch. 1041, 70A Stat. 427; Sept. 7, 1962, Pub. L. 87-649, § 14c(51), 76 Stat. 501.)

In subsection (a) the authority to designate student aviation pilots is expressly set forth.

The portion of 34 U. S. C. 841h that provides that student aviation pilots who are qualified civilian aviators shall be given a brief refresher course in flight training is contained in subsection (c). The remainder of 34 U. S. C. 841h, which provides that such pilots shall not be considered as having been designated pursuant to 34 U. S. C. 841a—841h, is reflected in subsection (b) by making that subsection applicable only to student aviation pilots who are not qualified civilian aviators. No other consequences attach to designation as student aviation pilots under the particular provisions. In subsection (b) the word "continuous" is omitted as covered by the word "period", and the subsection is written as a condition precedent to designation, because it is so interpreted.

In subsection (c) the words "enlisted in or transferred to pilot ratings" are omitted as surplusage.

Subsection (e) states expressly the authority to designate aviation pilots, which is implied in 34 U. S. C. 841a, 841b, and 841d.

In subsection (f) the words "pay grade E-5" are substituted for the words "third grade" in 34 U. S. C. 841b to conform to the terminology of the Career Compensation Act of 1949 (37 U. S. C. 231 et seq.).

In subsection (h) the words "of the Naval Reserve or the Marine Corps Reserve" are substituted for the words "designated as such in accordance with sections 841a and 841b of this title" for uniformity.

AMENDMENTS

1962—Subsec. (f). Pub. L. 87-649 repealed subsec. (f) which provided that while on active duty, an aviation pilot of the Naval Reserve or the Marine Corps Reserve is entitled to the pay of an enlisted member in pay grade E-5 or that of his grade, whichever is greater. See section 201 of Title 37, Pay and Allowances of the Uniformed Services.

§ 6953. Midshipmen: appointment.

Midshipmen at the Naval Academy shall be appointed by the President alone. (Aug. 10, 1956, ch. 1041, 70A Stat. 429.)

HISTORICAL AND REVISION NOTES

This section is included in this chapter without specific reference to statutory source to resolve the ambiguities and conflicts existing in the statutes relating to the appointment of midshipmen at the Naval Academy. The word "appoint" has been used in various statutes when

the intent of Congress was to provide authority in the persons named to "choose," "select," or "nominate" for the office of midshipman. These statutes have been collected and codified in § 6954 of this title, which reflects the various sources of nominees for "appointment" as midshipmen and the persons who may so "nominate" them. The actual appointing power resides in the President and this implied authority is herein expressed for clarity and for the purpose of uniformity of expression.

§ 6954. Midshipmen: number.

(a) There may be at the Naval Academy at any one time midshipmen as follows:

The determination of the Veterans' Administration as to service connection of the cause of death or disability is rated, is binding upon the Secretary of the Navy.

(2) Five nominated at large by the Vice President or, if there is no Vice President, by the President pro tempore of the Senate.

(3) Ten from each State, five of whom are nominated by each Senator from that State.

(4) Five nominated by each Representative in Congress.

(5) Five from the District of Columbia, nominated by the Delegate to the House of Representatives from the District of Columbia.

(6) Five from each Territory, nominated by the Delegate in Congress from that Territory.

(7) Six from Puerto Rico, five of whom are nominated by the Resident Commissioner from Puerto Rico and one who is a native of Puerto Rico nominated by the Governor of Puerto Rico.

Each Senator, Representative, and Delegate in Congress, including the Resident Commissioner from Puerto Rico, is entitled to nominate a principal candidate and nine alternates for each vacancy that is available under this section.

(b) In addition there may be appointed each year at the Academy midshipmen as follows:

(1) one hundred selected by the President from the sons of members of an armed force who—

(A) are on active duty (other than for training) and who have served continuously on active duty for at least eight years;

(B) are, or who died while they were, retired with pay or granted retired or retainer pay, other than those granted retired pay under section 1331 of this title;

(c) The President may also appoint as midshipmen at the Academy sons of persons who have been awarded the medal of honor for acts performed while in the armed forces.

(d) The Secretary of the Navy may limit the number of midshipmen appointed under subsection (b)(5). When he does so, if the total number of midshipmen, upon admission of a new class at the Academy, will be more than 3,737, no appointments may be made under subsection (b) (2) or (3) of this section or section 6956 of this title.

(e) Effective beginning with the nominations for appointment to the Academy in the calendar year 1964, the Secretary of the Navy shall furnish to any Member of Congress, upon the written request of such Member, the name of the Congressman or other nominating authority responsible for the nomination of any named or identified person for appointment to the Academy. All provisions of law authorizing appointments to the Naval Academy from various sources are collected in this section. The language is extensively changed to meet the needs of this organization of the source material. In those provisions that now authorize "appointments" by other than the President, the language is changed to indicate that the process is one of selection where the law requires selection by competitive examination, and to show that other candidates are nominated. The manner of appointing the selectees and nominees, in all cases, is covered in § 6953 of this title. In the case of nominees from States, the District of Columbia, Ter-

ritories, and from Puerto Rico, the qualification that the nominees must be from the political subdivisions from which nominated is indicated. The requirement that the nominees be actual residents of the political subdivisions is contained in § 6958 (b) of this title.

In subsection (a) (1) the words "armed forces" are substituted for the description of the land and naval forces. The words "including male and female members of" and "of all components thereof" are omitted as surplusage.

In subsection (a) (1) (B), the date February 1, 1955, fixed by Proclamation No. 3080 (Jan. 7, 1955; 20 F. R. 173), is substituted for the words "such date as shall thereafter be determined by Presidential proclamation or concurrent resolution of the Congress under section 745 of title 38".

In subsection (b) (1) the qualification that appointees must be from the sons of members of the various "regular" components of the armed forces is added, as "Army, Navy, Air Force, Marine Corps, and Coast Guard" are so interpreted in this statute.

In subsection (c) the proviso "That all such appointees are otherwise qualified for admission" is omitted as covered by § 6958 of this title setting forth qualifications of all candidates.

The applicability to the United States Military Academy in the act of June 8, 1926, ch. 492, as amended (34 U. S. C. 1036a; 10 U. S. C. 1091a), was repealed by section 6 (c) of the act of June 30, 1950, ch. 421, 64 Stat. 305.

Subsec. (a) (2). Pub. L. 89–650, § 1(2), provided for nominations to the Naval Academy by the President pro tempore of the Senate if there is no Vice President.

Subsec. (b) (1). Pub. L. 89–650, § 1(3), increased the number of Presidential appointments to the Naval Academy from 75 to 100, provided for selection of eligible persons as stated in items (A) and (B), previously chosen from sons of members of regular components, and declared persons eligible under subsec. (a) (1) ineligible under subsec. (b) (1) of this section.

1964—Subsec. (a). Pub. L. 88–276, § 2(1), inserted "Each Senator, Representative, and Delegate in Congress, including the Resident Commissioner from Puerto Rico, is entitled to nominate a principal candidate and five alternates for each vacancy that is available to him under this section."

Subsec. (b) (2), (3), (5). Pub. L. 88–276, § 2(2), reduced the number of nominees in clauses (2) and (3) from 160 to 85 and added clause (5).

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 6956, 6958 of this title.

§ 6955. Midshipmen: allotment upon redistricting of Congressional Districts

If as a result of redistricting a State the domicile of a midshipman, or a nominee, nominated by a Representative falls within a congressional district other than that from which he was nominated, he is charged to the district in which his domicile so falls. For this purpose, the number of midshipmen otherwise authorized for that district is increased to include him. However, the number as so increased is reduced by one if he fails to become a midshipman or when he is finally separated from the Naval Academy. (Aug. 10, 1956, ch. 1041, 70A Stat. 430.)

6955	34 U. S. C. 1032–1.	July 7, 1943, ch. 193, 57 Stat. 383.

The word "domicile" is substituted for the words "place of residence" to conform to the long-standing interpretation of this section (see also opinions of the Judge Advocate General of the Army R. 29, 83; J. A. G. 351.11, Feb. 10, 1925). The words "a congressional district other than that from which he was nominated" are substituted for the word "another". The words "were appointed with respect to", "of the former district", "as additional numbers", "at such academy for the Representative", "temporarily", and "in attendance at either academy under an appointment from such former district" are omitted as surplusage. The words "the district in which his domicile so falls" are substituted for the words "of the latter district". The words "to include him" are substituted for 34 U. S. C. 1032–1 (18 words before proviso). The words "However, the number as so increased" are substituted for 34 U. S. C. 1032–1 (1st 13 words of proviso). The words "if he fails to become a midshipman" are inserted for clarity.

§ 6956. Midshipmen: nomination and selection to fill vacancies.

(a) The Secretary of the Navy shall, as soon as possible after the first of June of each year, notify in writing each Senator, Representative, and delegate in Congress of any vacancy that will exist at the Naval Academy because of graduation in the following year, or that may occur for other reasons, for which the member or delegate is entitled to nominate a candidate and nine alternates.

(b) A nomination following notification under subsection (a) shall be made by the fourth of March of the year following that in which notice of the vacancy is given. However, if the candidate dies or declines the nomination, or if the nomination cannot be made by reason of a vacancy in the membership of the Senate or the House of Representatives, the nomination may be made, as determined by the Secretary, not later than the date of the final entrance examination for that year.

(c) Nomination of candidates to fill vacancies for the District of Columbia, and selection of all candidates at large, shall be made by the fourth of March

of the year in which the candidates are to enter the Academy.

(d) If the annual quota of midshipmen from—

(1) enlisted men of the Regular Navy and the Regular Marine Corps;

(2) enlisted men of the Naval Reserve and the Marine Corps Reserve; or

(3) at large by the President;

is not filled, the Secretary may fill the vacancies by nominating for appointment other candidates from any of these sources who were found best qualified on examination for admission and not otherwise nominated.

(e) If it is determined that, upon the admission of a new class to the Academy, the number of midshipmen at the Academy will be below the authorized number, the Secretary may fill the vacancies by nominating additional midshipmen from qualified candidates designated as alternates and from other qualified candidates who competed for nomination and are recommended and found qualified by the Academic Board. At least three-fourths of those nominated under this subsection shall be from qualified alternates under clauses (2)—(8) of section 6954(a) of this title, and the remainder shall be from qualified candidates who competed for appointment under any other provision of law. An appointment of a nominee under this subsection is an additional appointment and is not in place of an appointment otherwise authorized by law.

(f) The failure of a member of a graduating class to complete the course with his class does not delay the appointment of his successor. (Aug. 10, 1956, ch. 1041, 70A Stat. 430; Mar. 3, 1964, Pub. L. 88–276, § 3, 78 Stat. 151; July 5, 1968, Pub. L. 90–374, 82 Stat. 283.)

6956 (f)	34 U. S. C. 1047 (1st proviso).	June 30, 1950, ch. 421, § 2 (1st proviso), 64 Stat. 304

The section is worded to indicate that all appointments are made by the President, and that, before appointment, prospective midshipmen are "nominees" or "candidates," as appropriate.

In subsection (b) the provision authorizing the Secretary of the Navy to nominate candidates in the event nominations to fill vacancies under subsection (a) are not made by March fourth is omitted as covered by subsection (e), the purpose of which was to assure the entrance of a full class each year.

Reference in subsection (e) to the strength of the "brigade of midshipmen" is dropped, since there is no statutory requirement that the midshipmen at the Academy be so organized, and the term is a recognition of current organization only. The language authorizing the Secretary, in his discretion, to nominate additional midshipmen to meet the needs of the armed services but not to exceed the authorized strength of the Academy is changed to authorize the Secretary to "fill the vacancies by nominating additional midshipmen". In exercising his discretion under this subsection, these factors are necessarily considered by the Secretary, irrespective of a specific provision so instructing him.

In subsection (f) the word "admission" is changed to the word "appointment", since the admission of a person is a consequence of, and follows automatically from, his appointment. The statement of reasons for failure to complete the course is omitted as unnecessary.

AMENDMENTS

1968—Subsec. (a). Pub. L. 90–374 substituted "nine alternates" for "five alternates".

1964—Subsec. (a). Pub. L. 88–276, § 3(1), substituted "five alternates" for "one or more alternates."

Subsec. (e). Pub. L. 88–276, § 3(2), substituted "three-fourths of those nominated" for "two-thirds of those nominated."

NUMBER OF ALTERNATE-APPOINTEES FROM CONGRESSIONAL SOURCES NOT TO BE REDUCED BECAUSE OF ADDITIONAL PRESIDENTIAL APPOINTMENTS

Nonreduction of number of appointees from congressional sources under this section because of additional presidential appointments under section 6954(b)(1) of this title, see note set out under section 4343 of this title.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 6554 of this title.

§ 6957. Admission of foreigners for instruction: restrictions; conditions.

(a) No person from a foreign country may be permitted to receive instruction at the Naval Academy except as authorized by this section.

(b) The Secretary of the Navy may permit persons designated by the President to receive instruction at the Academy as follows:

(1) Not more than 20 at a time from Canada and the American Republics other than the United States.

(2) Not more than four at a time from the Republic of the Philippines.

Of the 20 persons permitted under clause (1) to receive instruction at the Academy at any one time, not more than three may be from the same country.

(c) A person receiving instruction under this section is entitled to the same pay and allowances, to be paid from the same appropriations, as midshipmen.

(d) Except as the Secretary determines, a person receiving instruction under this section is subject to the same regulations governing admission, attendance, discipline, resignation, discharge, dismissal, and graduation, as a midshipman. However, a person receiving instruction under this section is not entitled to an appointment in the Navy or the Marine Corps by reason of his graduation from the Academy. (Aug. 10, 1956, ch. 1041, 70A Stat. 431.)

In subsections (a) and (b) the location of the Academy is omitted as surplusage.

In subsection (b) the words "from the Republic of the Philippines" are substituted for the word "Filipinos" to indicate the proper designation of that country.

In subsection (c) reference to "emoluments" is omitted, as that term has no present significance with reference to midshipmen.

In subsection (d) the words "rules and" and "any office or position" are omitted as surplusage and the provision is

extended to cover specifically the Marine Corps, since "Navy" in this context is so interpreted.

DELEGATION OF FUNCTIONS

(b) Each candidate for admission nominated under clauses (3)—(7) and (9) of section 6954(a) of this title must be domiciled in the State or Territory, or in the congressional district, from which he is nominated, or in the District of Columbia, Puerto Rico, American Samoa, Guam, or the Virgin Islands, if nominated from one of those places.

(c) Each candidate nominated under clause (2) or (3) of section 6954 (b) of this title—

(2) must have served at least one year as an enlisted member on the date of entrance;

§ 6960. Midshipmen: clothing and equipment; uniform allowance.

The Secretary of the Navy may prescribe the amount to be credited to a midshipman, upon original admission to the Naval Academy, for the cost of his initial issue of clothing and equipment. That amount shall be deducted from his pay. If a midshipman is discharged before graduation while owing the United States for pay advanced for the purchase of required clothing and equipment, he shall turn in as much of his clothing and equipment of a distinctively military nature as is necessary to repay the amount advanced. If the value of the clothing and equipment turned in does not cover the amount owed, the indebtedness shall be canceled. (Aug. 10, 1956, ch. 1041, 70A Stat. 432.)

§ 6961. Midshipmen: dismissal for best interests of the service.

(a) Whenever the Superintendent of the Naval Academy believes that the continued presence of any midshipman at the Academy is contrary to the best interest of the service, he shall report in writing to the Secretary of the Navy a full statement of the facts upon which his belief is based. If the Secretary determines from the report that the Superintendent's belief is well founded, the Secretary shall serve a copy of the report on the midshipman. Within such time as the Secretary considers reasonable, the midshipman shall show cause in writing why he should not be dismissed from the Academy. The Secretary, after consideration of any cause so shown, and with the written approval of the President, may dismiss the midshipman from the Academy and from the naval service.

(b) The truth of any issue of fact raised under subsection (a), except as to the record of demerits, shall be determined by a court of inquiry convened by the Secretary. (Aug. 10, 1956, ch. 1041, 70A Stat. 432.)

DELEGATION OF FUNCTIONS

For delegation to the Secretary of Defense of authority vested in the President by section 1062 of former Title 34, see Ex. Ord. No. 10621, July 1, 1955, 20 F. R. 4759, set out as a note under section 301 of Title 3, The President.

§ 6962. Midshipmen: discharge for unsatisfactory conduct or inaptitude.

(a) The Superintendent of the Naval Academy shall submit to the Secretary of the Navy in writing a full report of the facts—

(1) whenever the Superintendent determines that the conduct of a midshipman is unsatisfactory; or

(2) whenever the Academic Board unanimously determines that a midshipman possesses insufficient aptitude to become a commissioned officer in the naval service.

(b) A midshipman upon whom a report is made under subsection (a) shall be given an opportunity to examine the report and submit a written statement thereon. If the Secretary believes, on the basis of the report and statement, that the determination of the Superintendent or of the Academic Board is reasonable and well founded, he may discharge the midshipman from the Naval Academy and from the naval service. (a) In this chapter "hazing" means any unauthorized assumption of authority by a midshipman whereby another midshipman suffers or is exposed to any cruelty, indignity, humiliation, hardship, or oppression, or the deprivation or abridgement of any right.

(b) The Superintendent of the Naval Academy shall prescribe regulations, to be approved by the Secretary of the Navy, to prevent hazing.

(c) Hazing is an offense that may be dealt with as an offense against good order and discipline or as a violation of the regulations of the Naval Academy. However, no midshipman may be dismissed for a single act of hazing except by sentence of a court-martial.

(d) The finding and sentence of a court-martial of a midshipman for hazing shall be reviewed in the manner prescribed for general court-martial cases.

(e) A midshipman who is sentenced to imprisonment for hazing may not be confined with men who have been convicted of crimes or misdemeanors.

(f) A midshipman who is dismissed from the Academy for hazing may not be reappointed as a midshipman or be appointed as a commissioned officer in the Army, Navy, Air Force, or Marine Corps until two years after the graduation of the class of which he was a member. Mar. 3, 1903, ch. 1010, 32 Stat 1198 (last 43 words of 1st proviso).

In subsection (a) the words "privilege, or advantage to which he shall legally be entitled" are omitted as surplusage, since they are covered by the word "right". The definition in this subsection is made applicable throughout the chapter to cover § 6965 of this title, since the reference in that section to hazing was also derived from the act which is the source for this subsection.

In subsection (b) the words "prescribe regulations * * * to prevent hazing" are substituted for the words "make such rules * * * as will effectually prevent the practice of hazing".

In subsection (c) the words "dealt with" are substituted for the words "proceeded against, dealt with, and punished". The word "regulations" is substituted for the word "rules" for uniformity and the words "and breaches" are omitted as surplusage. The words "except by sentence of a court-martial" are substituted for the words "except under the provisions of section three of this Act" because § 3 of the source statute provided for a Naval Academy court-martial with special provisions for handling cases involving hazing. The enactment of the Uniform Code of Military Justice made midshipmen at the Naval Academy subject to the same military law which applies generally to the naval service, thereby superseding the special type of court-martial for midshipmen. A court-martial under the Uniform Code of Military Justice has the power to sentence anyone convicted by it to dismissal if authorized by the Table of Maximum Punishments.

In subsections (d) and (e) all that part of the source text preceding the proviso is omitted as superseded by the Uniform Code of Military Justice. The words "in a military or naval prison or elsewhere" are omitted as surplusage.

(b) An officer of the naval service who fails to make a report required by subsection (a) shall be tried by court-martial and if convicted shall be dismissed from the naval service.

(c) A civilian member of the teaching staff of the Academy who fails to make a report required by subsection (a) shall, with the approval of the Secretary of the Navy, be dismissed by the Superintendent. (Aug. 10, 1956, ch. 1041, 70A Stat. 433.)

§ 6968. Board of Visitors.

(a) A Board of Visitors to the Naval Academy is constituted annually of—

(1) the chairman of the Committee on Armed Services of the Senate, or his designee;

(2) three other members of the Senate designated by the Vice President or the President pro tempore of the Senate, two of whom are members of the Committee on Appropriations of the Senate;

(3) the chairman of the Committee on Armed Services of the House of Representatives, or his designee;

(4) four other members of the House of Representatives designated by the Speaker of the House of Representatives, two of whom are members of the Committee on Appropriations of the House of Representatives; and

(5) six persons designated by the President.

(b) The persons designated by the President serve for three years. Two persons shall be designated by him each year to succeed the members whose terms expire that year.

(c) If a member of the Board dies or resigns, a successor shall be designated for the unexpired portion of the term by the official who designated the member.

(d) The Board shall visit the Academy annually. With the approval of the Secretary of the Navy, the Board or its members may make other visits to the Academy in connection with the duties of the Board or to consult with the Superintendent of the Academy.

(e) The Board shall inquire into the state of morale and discipline, the curriculum, instruction, physical equipment, fiscal affairs, academic methods, and other matters relating to the Academy that the Board decides to consider.

(f) Within 60 days after its annual visit, the Board shall submit a written report to the President of its action and of its views and recommendations pertaining to the Academy. Any report of a visit, other than the annual visit, shall, if approved by a majority of the members of the Board, be submitted to the President within 60 days after the approval.

(h) While performing his duties, each member of the Board and each adviser is entitled to not more than $5 a day and shall be reimbursed under Government travel regulations for his travel expenses. (Aug. 10, 1956, ch. 1041, 70A Stat. 434.)

In subsection (a) the words "A Board of Visitors to the Naval Academy is constituted annually" are substituted for the words "There shall be appointed * * * every year a Board of Visitors", since appointments, in the strict sense, are not involved.

In subsection (b) the language establishing staggered terms is eliminated as executed, and the existence of such terms is recognized by the use of the words "two persons shall be designated by him each year to succeed the members whose terms expire that year". No effect is given to the language "the nine Presidential appointees". The hearings indicate that one of the bills considered provided for nine such "appointees", and it appears that the number nine was inadvertently retained. The provision specifically authorizes only six Presidential designees.

In subsection (a) the words "of the Navy" are supplied since the requirement that the distribution in ratings be similar to that in the United States Navy Band indicates that the Naval Academy Band should not include members of the Marine Corps, and it is so interpreted.

In subsection (b) the words "an officer in the grade of warrant officer, W-1," are substituted for the words

"a warrant officer" because the Warrant Officer Act of 1954 established the grade of warrant officer, W-1, in lieu of all the former warrant officer (as distinguished from commissioned warrant officer) grades. The second sentence covers that part of the second proviso which relates to pay and makes reference to the Career Compensation Act of 1949, since it is that act which governs entitlement to basic pay and the computation of cumulative years of creditable service. Retirement rights and reenlistment bonuses referred to in the second proviso are covered in the third sentence of this subsection, giving recognition to the fact that the status of the members who are assigned as leader and second leader of the band remains unchanged in these respects.

AMENDMENTS

1962—Subsec. (b). Pub. L. 87-649 repealed the first and second sentence which related to pay and allowances for the leader and second leader of the Naval Academy Band, and to crediting of service for pay purposes. See sections 207 and 424 of Title 37, Pay and Allowances of the Uniformed Services.

Section 4 of the act of January 16, 1936, ch. 3, 49 Stat. 1092, provided that persons who were then members of the teaching staff should have the right to participate in benefits under the act if they requested such participation within 60 days. Members who were then under the civil-service retirement system were required to choose whether they would remain under it or would participate in the system established by the 1936 act. They could not come under both. The section also authorized the Secretary of the Navy to supplement the retired income of members who elected to come under the 1936 act and whose age in 1936 was such that they could not purchase adequate annuities before retiring. The provisions whereby members could elect to participate were temporary and are executed. The provisions relating to retired income are superseded by § 4A, added by the act of November 28, 1943, ch. 331, 57 Stat. 594. The only remaining effect of § 4 and the second proviso of § 4A is to exclude from the benefits and requirements of the 1936 act persons who were members of the teaching staff in 1936 and did not elect to participate.

Section 30 of Pub. L. 85-861, Sept. 2, 1958, 72 Stat. 1563, provided that:

"(b) A retired civilian member whose annuity, when increased by $300 under subsection (a), is less than $1,860 is entitled to be paid an additional $300 a year out of applicable current appropriations.

"(c) Additions to the annuities of retired civilian members under subsection (b) do not increase the annuities payable to the survivors of those members."

INCREASE OF ANNUITIES—1957

Pub. L. 85-40, May 31, 1957, 71 Stat. 42, provided:

"That the annuities, payable under chapter 607 of title 10, United States Code [this chapter], to civilian members of the teaching staff of the United States Naval Academy or the United States Naval Postgraduate School are increased as follows: That portion of an annuity which is not in excess of $1,500 is increased by 12 per centum, and that portion of an annuity which is in excess of $1,500 is increased by 8 per centum. These increases

"SEC. 2. If annuity commences between—	Portion of annuity not in excess of $1,500 shall be increased by—	Portion of annuity in excess of $1,500 shall be increased by—

S. C. 691 et seq.) [now covered by section 8331 et seq. 30 of Title 5], shall be applicable in like manner and to the same extent to civilian members of the teaching staff of the United States Naval Academy and of the United States Naval Postgraduate School and their survivors who are entitled to annuities under chapter 607 of title 10, United States Code [this chapter]."

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 7086, 7087 of this title.

§ 7086. Physical disability retirement.

(a) Each civilian member who has served not less than five years, and who, before reaching the age of 65, becomes totally disabled for useful and efficient service in his position, by reason of disease or injury not due to his own vicious habits, intemperance, or willful misconduct shall, upon his application or upon the request of the Secretary of the Navy, be retired with a life annuity computed under section 7085 of this title.

(b) The amount that the Secretary shall pay annually under this section is the difference between the total amount to which the retired member is entitled under subsection (a) and the immediate life annuity to which he is entitled at the time of his disability retirement under the annuity policy required by section 7082 of this title.

(c) Each civilian member retired under this section, unless the disability for which he was retired is permanent in character, shall be examined by a board of medical officers designated by the Superintendent of the Naval Academy or of the Postgraduate School, as appropriate, one year after his retirement and annually thereafter, until he becomes 65 years of age.

(d) Payments by the Secretary under this section shall be terminated if the retired civilian member is found to be sufficiently recovered for useful and efficient service in his former position and is offered reemployment in that position by the Superintendent.

(e) If a civilian member retired under this section is later reemployed by the United States, the payments by the Secretary shall be terminated.

(f) Each civilian member retired under this section who is reemployed as a civilian member of the teaching staff of the Naval Academy or the Naval Postgraduate School shall, upon his later retirement, be paid annually by the Secretary the difference between the total annual amount computed under section 7085 of this title and the immediate life annuity which the total premiums paid on his annuity contracts would buy.

(g) No person may receive payments from the Secretary of the Navy under this chapter and, for the same period of time, compensation under chapter 81 of title 5. (Aug. 10, 1956, ch. 1041, 70A Stat. 439; Nov. 2, 1966, Pub. L. 89–718, § 40, 80 Stat. 1120.)

In subsection (a) the words "reaching the age of 65" are substituted for the words "becoming eligible for retirement under the conditions defined in the preceding sections hereof", since a civilian member's 65th birthday is the date on which he becomes eligible for retirement under this chapter.

In subsection (c) the words "or the Postgraduate School, as appropriate" are inserted because the Postgraduate School and the Naval Academy are now two separate institutions.

In subsection (f) the words "or the Naval Postgraduate School" are inserted for the same reason.

In subsection (g) the words "but this provision shall not bar the right of any claimant to the greater benefit conferred by either Act for any part of the same period" are omitted as unnecessary.

AMENDMENTS

1966—Subsec. (g). Pub. L. 89–718 substituted "chapter 81 of title 5" for "sections 751—756, 757—791, and 793 of title 5".

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 7087 of this title.

§ 7087. Election of annuity for self and beneficiary.

(a) At the time of his retirement, a civilian member retiring under this chapter may elect to receive instead of the amount payable annually by the Secretary of the Navy under section 7085 or 7086 of this title a reduced annuity for his life and an annuity payable after his death to his beneficiary in either—

(1) an amount equal to his reduced annuity; or

(2) an amount equal to 50 percent of his reduced annuity.

The annuities payable to principal and beneficiary, under either election, shall be in amounts that have, on the date of the retirement of the civilian member, a combined actuarial value equal to the actuarial value of the annuity payable by the Secretary under section 7085 or 7086 of this title, as determined under actuarial tables prepared by the Civil Service Commission.

(b) If the civilian member elects to take a reduced annuity under this section, he shall, at the

time of his retirement, designate the beneficiary in writing and file the designation with the Secretary.

(c) The annuity payable under this section to the beneficiary of a deceased civilian member shall be terminated upon the death of the beneficiary. (Aug. 10, 1956, ch. 1041, 70A Stat. 440.)

In subsection (a) the words "under actuarial tables prepared by the Civil Service Commission" are substituted for the words "under the provisions of the Civil Service Retirement Act" because that act, as amended in 1948, no longer provides for the computation of actuarial values. The Secretary of the Navy, in administering the provisions of law codified in this section, uses tables prepared by the Civil Service Commission prior to the 1948 amendment.

(a) The Secretary of the Navy, under such regulations as he prescribes, may authorize any United States naval vessel or activity to furnish any of the following supplies or services, when in the best interests of the United States, on a reimbursable basis without an advance of funds if similar supplies and services are furnished on a like basis to naval vessels and military aircraft of the United States by the friendly foreign country concerned:

(1) routine port services in territorial waters of the United States or in waters under United States control, including pilotage, tugs, garbage removal, line-handling, and utilities, to naval vessels of friendly foreign countries;

(2) routine airport services, including landing and takeoff assistance, use of runways, parking and servicing, to military aircraft of friendly foreign countries;

(c) Payments for supplies and services furnished under this section may be credited to current appropriations so as to be available for the same purpose as the appropriation initially charged. (Aug. 10, 1956, ch. 1041, 70A Stat. 447; June 23, 1959, Pub. L. 86-55, § 1, 73 Stat. 89.)

AMENDMENTS

1959—Pub. L. 86-55 authorized supplies and services to be furnished by any United States naval vessel or activity, and the furnishing of supplies and services to aircraft, eliminated provisions which limited the furnishing of supplies on a reimbursable basis to ships of foreign countries that had entered into a prior reciprocal agreement, and which permitted services, including overhauling, repairs, alterations and installation of equipment, to be furnished only if funds to cover the estimated cost thereof were advanced, and permitted the furnishing of routine port and airport services at no cost where such services are without direct cost to the Navy.

§ 7228. Merchant vessels: supplies.

(a) The Secretary of the Navy, under such regulations as he prescribes, may sell to a merchant ship such fuel and other supplies as may be required to meet its necessities if the ship is unable—

(1) to procure the supplies from other sources at its present location; and

(2) to proceed to the nearest port where they may be obtained without endangering the safety of the ship, the health and comfort of its personnel, or the safe condition of the property carried on it.

(b) Sales under this section shall be at such prices as the Secretary considers reasonable. Payment shall be made on a cash basis or on such other basis as will reasonably assure prompt payment. Amounts received from such a sale shall, unless otherwise directed by another provision of law, be credited to the current appropriation concerned

and are available for the same purposes as that appropriation. (Aug. 10, 1956, ch. 1041, 70A Stat. 448.)

The words "with funds from any appropriation available for such purposes" are omitted as surplusage.

In citing the act of June 30, 1936, in the act of June 14, 1940 (supra), Congress used the Public Law number rather than the chapter, volume, and page of the Statutes at Large, notwithstanding the fact that nearly four years had passed since the enactment of the cited law. It is therefore, concluded that Congress intended ship contracts to be subject to the 1936 Public Law as originally enacted, and not as modified by subsequent amendments. The words "before amendment" are inserted to preserve this meaning.

It shall state the total contract price, the cost of performing the contract, the net profit or loss, and the percentage of the contract price that is net profit or loss. A copy shall be sent to the Secretary of the Treasury to be considered with the Federal income tax returns of the contractor.

(c) For the purposes of this section, "excess profit" means so much of the profits as the Secretary of the Treasury determines to be greater than 10 percent of the total contract price for contracts covered by this section and completed by a contractor or a subcontractor within the taxable year. The method of computing excess profits shall be determined by the Secretary of the Treasury in agreement with the Secretary of the Navy. It shall be made available to the public.

(d) When an excess profit is found owing, the Secretary of the Treasury shall allow credit for any Federal income taxes paid or to be paid on the excess profit. If a contractor or subcontractor has a net loss on the aggregate of contracts or subcontracts covered by this section and completed in a taxable year, the deficiency shall be allowed as a credit against any excess profit for the next taxable year.

(e) When paid into the Treasury, an excess profit becomes the property of the United States. The surety under the contract is not liable for its payment.

(f) This section applies to any division of a contract or subcontract covered by this section.

(g) This section does not apply to—

(1) a contract or subcontract for scientific equipment for communications, target detection, navigation, or fire control if the Secretary of the Navy designates the contract or subcontract for exemption; or

(2) a contract or subcontract, or division thereof, if the amount involved is $10,000 or less.

7300	34 U. S. C. 496 (less applicability to aircraft).	Mar. 27, 1934, ch. 95, § 3 (less applicability to aircraft), 48 Stat. 505; June 25, 1936, ch. 812, 49 Stat. 1926; Apr. 3, 1939, ch. 35, § 14, 53 Stat. 560; Aug. 7, 1946, ch. 770 (par. 18), 60 Stat. 867.

The revised section exhausts 34 U. S. C. 496 (as applicable to naval vessels).

In subsection (a), the first 26 words, last 23 words of second proviso, and sixth proviso of the 1st sentence are omitted as executed. The 27th through 53rd words of the 1st sentence are omitted as surplusage, since the matter of budget estimates is now covered by Title IV of the National Security Act, as amended (5 U. S. C. 172–172j). The words "herein, heretofore, or hereafter authorized" are omitted as surplusage. The third and fourth provisos of the 1st sentence are omitted as superseded by sections 650 and 651 of the Internal Revenue Code (26 U. S. C. 650, 651).

In subsection (a) (2), the word "excess" is added for clarity.

In subsection (a) (3), the words "evading this section" are substituted for the words "evading the provisions of sections 494, 495, 496, 497 of this title", since sections 494, 495, and 497 are executed.

In subsection (a) (5), "agrees to the conditions set forth in this subsection" are substituted for the words "agrees to the foregoing conditions" to reflect the accepted interpretation of 34 U. S. C. 496 that the section, except as modified by other law, applies to any person furnishing materials or service, worth $10,000 or more, for intended and designated use in naval construction. (See *Commissioner of Internal Revenue* v. *Aluminum Co. of America*, C. C. A. 3, 1944, 142 F. 2d 663, certiorari denied 65 S. Ct. 64, 323 U. S. 728, 89 L. Ed. 585).

In subsection (b) the words "for the taxable year or years concerned" are omitted as surplusage. The words "net profit or loss" are substituted for the words "net income" in both instances where the latter words appear, for clarity. Under subsection (d), it is clear that either a profit or loss is included within the meaning of "net income" as used in the source statute.

In subsection (c) the words "Secretary of the Treasury" are substituted for the words "Treasury Department". The words "contracts covered by this section and completed by a contractor or subcontractor within the taxable year" are substituted for the words "construction and/or manufacture of any complete naval vessel or portion thereof of such contracts within the scope of the section as are completed by the particular contracting party within the taxable year". The words "to be paid into the Treasury" are omitted as surplusage. The words "The method initially fixed upon shall be so determined on or before June 30, 1934" are omitted as executed.

In subsection (d) the words "particular", "That in any case", and "to the United States in consequence hereof", are omitted as surplusage. The words "on the aggregate of contracts or subcontracts covered by this section" are substituted for the words "as aforesaid on all such contracts or subcontracts for the construction and/or manufacture of any complete naval vessel or portion thereof" for clarity and brevity.

Subsection (f) is substituted for the last 23 words of the second sentence of 34 U. S. C. 496, less the words "involving an amount in excess of $10,000". The words "covered by this section" are inserted for clarity.

Subsection (g) (2) is substituted for the last sentence of 34 U. S. C. 496, and for the words "involving an amount in excess of $10,000" appearing in the last 23 words of the 2d sentence of 34 U. S. C. 496.

§ 7301. Bids on construction: estimates required.

(a) When advertising for bids for the construction of any naval vessel, the Secretary of the Navy shall require each bidder to file with his bid the estimates on which the bid is based.

(b) The Secretary, to the extent he considers proper, may delegate the authority conferred by this section to any person in the Department of the Navy, with or without the authority to make successive redelegations. (Aug. 10, 1956, ch. 1041, 70A Stat. 450.)

7301 (b)	5 U. S. C. 412a.	Aug. 2, 1946, ch. 756, § 39, 60 Stat. 857.

In subsection (a) the words "when advertising for" are substituted for the words "in requesting competitive" to make it clear that the subsection applies only to formal bids secured through advertising and not to informal proposals made in response to letters or circulars.

In subsection (b) the words "except the authority to prescribe regulations" are omitted, since 34 U. S. C. 488 does not contain any authority for the Secretary to prescribe regulations.

§ 7302. Construction on Pacific Coast.

The Department of the Navy shall have constructed on the Pacific Coast of the United States such vessels as the President determines necessary to maintain shipyard facilities there adequate to meet the requirements of national defense. (Aug. 10, 1956, ch. 1041, 70A Stat. 451.)

§ 7303. Model Basin; investigation of hull designs.

(a) An office or agency in the Department of the Navy designated by the Secretary of the Navy shall conduct at the David W. Taylor Model Basin, Carderock, Maryland, investigations to determine the most suitable shapes and forms for United States vessels and aircraft and investigations of other problems of their design.

(b) The Secretary of the Navy may authorize experiments to be made at the Model Basin for private persons. The costs of experiments made for private persons shall be paid by those persons under regulations prescribed by the Secretary. The results of private experiments are confidential and may not be divulged without the consent of the persons for whom they are made. § 7304. Examination by board; unfit vessels stricken from Naval Vessel Register.

(a) The Secretary of the Navy shall designate boards of naval officers to examine vessels of the Navy. Each vessel shall be examined by a board at least once every three years, if practicable.

(b) When a board, in conducting an examination under this section, finds that any vessel is unfit for service or that an unfinished vessel in any naval shipyard cannot be finished without disproportionate expense, it shall submit a written report to the Secretary stating fully the reasons for its opinion. If the Secretary concurs, he shall strike the name of that vessel from the Naval Vessel Register. (Aug. 10, 1956, ch. 1041, 70A Stat. 451.)

In subsection (a) the provision as to the examination of "all vessels on their return from foreign stations" is omitted as obsolete because ships are no longer assigned to foreign stations, but to fleet commands. No distinction is made in inspection procedures between vessels in fleets operating abroad and those in other fleets.

Pub. L. 85-438, May 29, 1958, 72 Stat. 154, authorized the Secretary of the Navy to strike from the Naval Vessel Register and to dispose of the following uncompleted naval vessels: U. S. SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 7305, 7306, 7307 of this title; title 50 App. section 1878gg.

§ 7305. Sale of vessel stricken from Naval Vessel Register.

(a) This section does not apply to a vessel the disposal of which is authorized by the Federal Property and Administrative Services Act of 1949, as amended (40 U. S. C. 471 et. seq.), if it is to be disposed of under that Act.

(b) The Secretary of the Navy shall appraise each vessel stricken from the Naval Vessel Register under section 7304 of this title. If he considers that the sale of the vessel is in the best interest of the United States, he shall advertise it for sale.

(c) The advertisement shall ask for sealed bids for the purchase of the vessel and shall be published for at least three months in newspapers used by the Department of the Navy for other advertisements. It shall—

(1) state the name, location, and appraised value of the vessel to be sold;

(2) state the day, hour, and place for the opening of the bids;

(3) state that the sale will be for cash to the bidder submitting the highest bid above the appraised value of the vessel; and

(4) specify the period of time, after the opening of the bids, within which the successful bidder will be required to pay the remaining 90 percent of the amount bid by him.

(d) The Secretary shall—

(1) require that each bid be accompanied by a cash deposit of not less than 10 percent of the amount of the bid; and

(2) require that each bid be accompanied by a bond, with two or more sureties to be approved by him, conditioned on the payment of the remaining 90 percent within the time specified in the advertisement.

(e) The bids shall be opened at the time and place stated in the advertisement, and a record shall be made of them.

(f) If the bidder whose bid is accepted defaults in the payment of all or part of the remaining 90 percent of the amount of his bid within the time specified, his cash deposit of 10 percent of that amount shall be forfeited to the United States and the Secretary shall advertise the vessel again and resell it in the manner prescribed in this section.

(g) The cash deposit forfeited by a defaulting bidder shall be applied, first, to the payment of the expenses of the advertisement and resale of the vessel and, second, to the payment of the difference, if any, between the amount bid by the defaulting bidder and the amount for which the vessel is resold. Any balance remaining shall be covered into the Treasury.

(h) This section does not prevent a suit for breach of any condition of a bond furnished by a bidder.

(i) Each vessel sold as prescribed in this section shall be delivered to the purchaser upon full payment to the Secretary of the amount bid.

(j) The net proceeds of each sale under this section shall be covered into the Treasury.

(k) A sale under this section of a vessel the disposal of which is authorized by the Federal Property and Administrative Services Act of 1949, as amended (40 U. S. C. 471 et seq.), is subject to regulations under section 205 of that Act (40 U. S. C. 486).

(*l*) Except as otherwise provided by law, no vessel of the Navy may be sold in any other manner than that provided by this section, or for less than its appraised value, unless the President so directs in writing. (Aug. 10, 1956, ch. 1041, 70A Stat. 451.)

Subsections (a) and (k) are substituted for the first 17 words of 34 U. S. C. 492 to make it clear that these words have a dual purpose. In the case of a surplus vessel the disposal of which is covered by the Federal Property and Administrative Services Act of 1949, as amended (40 U. S. C. 471 et seq.), these words authorize the vessel to be sold either (1) by the Administrator of General Services under that act, or (2) by the Secretary of the Navy under 34 U. S. C. 492, subject to regulations issued by the Administrator of General Services under Section 205 of the Federal Property Act.

In subsection (b) the name "Navy Register" is changed to "Naval Vessel Register", the present name of the publication, to avoid confusion with another official document known as the "Navy Register".

In subsection (h) the words "This section does not prevent" are substituted for the words "nothing herein contained shall be construed to prevent".

USE OF NAVAL VESSELS TO DETERMINE EFFECT OF NEWLY DEVELOPED WEAPONS

Pub. L. 85-436, May 29, 1958, 72 Stat. 153, authorized the Secretary of the Navy to employ certain ships of the Navy as targets for the purpose of tests and experimentation in determining the effect of newly developed weapons on such vessels. This authorization terminated two years after May 29, 1958, by the provisions of section 4 of Pub. L. 85-436.

§ 7307. Restriction on disposal.

(a) Notwithstanding any other provision of law, no battleship, aircraft carrier, cruiser, destroyer, or submarine of the Navy may be sold, transferred, or otherwise disposed of, unless the Chief of Naval Operations certifies that it is not essential to the defense of the United States.

(b) Without authority from Congress granted after March 10, 1951, no battleship, aircraft carrier, cruiser, destroyer, or submarine that has not been stricken from the Naval Vessel Register under section 7304 of this title, nor any interest of the United States in such a vessel, may be sold, transferred, or otherwise disposed of under any law. For this reason the words "No battleship, aircraft carrier, cruiser, destroyer, or submarine" are substituted for the words "no naval weapon, ship, * * * or which have been contracted for".

However, if in the judgment of the Secretary of the Navy the number of airplanes authorized in this section is insufficient to meet the needs of the national defense, the Secretary may, with the approval of the President, make such plans for procurement as the situation demands.

(b) The President may acquire, construct, or manufacture lighter-than-air craft, spare parts, and equipment necessary to provide and maintain 200 useful lighter-than-air craft.

(c) In this section "useful naval airplanes" or "useful lighter-than-air craft" means those airplanes or lighter-than-air craft, as the case may be, on the Navy list that are, or after reasonable repair can be made, in all respects safe to fly and fitted to take part in active military operations in time of war. The terms exclude those airplanes or aircraft classified as experimental or, with the approval of the Secretary, declared obsolete. (Aug. 10, 1956, ch. 1041, 70A Stat. 453.)

In subsections (a) and (b) the words "and factories" are omitted as surplusage.

In subsection (a) the words "the procurement of which is authorized by this section and undertaken after March 27, 1934" are omitted. The act of March 27, 1934, ch. 95, 48 Stat. 503 authorized the President to procure naval aircraft "in numbers commensurate with a treaty Navy" (referring to the Washington and London Naval Treaties of 1922 and 1930, respectively). The provision of law on which this section is based, as enacted, referred only to aircraft procured pursuant to this authorization. Although this authorization is superseded by the aircraft authorization contained in the act of July 19, 1940, ch. 644, § 8, 54 Stat. 780, the provision codified in subsection (a) was considered by Congress to be applicable to the procurement of aircraft under the later act. If it had not been so considered, section 6 of the 1940 act (codified in subsection (b)) would have been unnecessary.

§ 7343. Manufacture in United States plants under certain circumstances.

The President may construct or manufacture at any plant owned and operated by the United States any naval aircraft, or the engines, spare parts, or equipment for any such aircraft, if it reasonably appears that the persons, firms, or corporations, or the agents thereof, who are bidding on the construction or manufacture of any of these items—

(1) have entered into a combination, agreement, or understanding, the effect or purpose of which is to deprive the United States of fair, open, and unrestricted competition in letting contracts for the construction or manufacture of any of the aircraft, engines, spare parts, or equipment; or

(2) being solely or peculiarly in position to construct, manufacture, or furnish the particular type or design of aircraft, engines, spare parts, or equipment required by the Department of the Navy, have named a price in excess of cost of production plus a reasonable profit as provided in section 2382 of this title.

Clause (1) and the last paragraph of 34 U. S. C. 495 are omitted as executed.

The act of March 27, 1934, ch. 95, 48 Stat. 503 authorized the President to procure naval aircraft "in numbers commensurate with a treaty Navy" (referring to the Washington and London Naval Treaties of 1922 and 1930). The provision of law on which this section is based, as enacted, referred only to aircraft procured pursuant to this authorization. Although this authorization is superseded by the aircraft authorization contained in the act of July 19, 1940, ch. 644, § 8, 54 Stat. 780, the provision covered in this section has been interpreted to cover aircraft procured under later acts. In clause (1) the word "object" is omitted as surplusage.

§ 7344. Suspension of construction in case of treaty.

In case of a treaty for the limitation of naval armament to which the United States is a signatory, the President may suspend so much of the authorized naval construction as is necessary to bring the naval aircraft of the United States within the limitations agreed upon. Such a suspension does not apply to aircraft under construction at the time the suspension is made. (Aug. 10, 1956, ch. 1041, 70A Stat. 454.)

FEDERAL RULES OF CIVIL PROCEDURE

Condemnation, see rule 71A, Title 28, Appendix, Judiciary and Judicial Procedure.

§ 7426. Cooperative or unit plans affecting naval petroleum reserve numbered 1.

(a) The Secretary of the Navy may contract for joint, unit, or other cooperative plans of exploration, prospecting, conservation, development, use, and operation of lands owned or controlled by the United States inside naval petroleum reserve numbered 1 and lands owned or leased by private interests—

(1) inside naval petroleum reserve numbered 1; or

(2) outside naval petroleum reserve numbered 1 on the same geologic structure.

(b) Each contract under this section shall require that the United States will be assured of receiving currently its share of the total production from each of the commercially productive zones underlying all lands covered by the contract, as determined from time to time on the basis of estimates of its original share of the quantities of recoverable oil, gas, natural gasoline, and associated hydrocarbons in those zones on the date fixed in the contract.

(c) Any party to such a contract, other than the United States, may be permitted by the contract to

produce and to receive, and shall have charged to its share in the total production from any zone, petroleum in such quantities as are necessary to compensate that party—

(1) for its share of the current expenses of protecting, conserving, testing, and maintaining in good oil-field condition the lands, wells, and improvements thereon, and its real and personal taxes levied or assessed thereon; and

(2) for surrendering control of the rate of production from its lands.

The quantity of petroleum permitted to be produced as compensation for surrendering control of the rate of production may, in the discretion of the Secretary, be reduced or eliminated at any time on reasonable notice if the Secretary is not then having petroleum produced for national defense under section 7422 of this title.

(d) In no event may the quantity of petroleum produced under subsection (c) from any zone for any private contracting party exceed one-third of its share of the recoverable petroleum in that zone as estimated on the date fixed in the contract.

(e) No contract may be made under this section until the Committees on Armed Services of the Senate and the House of Representatives have been consulted as to all its details. (Aug. 10, 1956, ch. 1041, 70A Stat. 459.)

§ 7429. Re-lease of certain lands: lessee's preferential right.

The Secretary of the Navy, on terms prescribed by him, may re-lease lands in the naval petroleum reserves that were covered by leases made before July 1, 1936, and terminated by law at the expiration of their initial twenty-year periods. If any such land is to be re-leased, the Secretary shall give to the former lessee preferential rights to the new lease. (Aug. 10, 1956, ch. 1041, 70A Stat. 460.)

HISTORICAL AND REVISION NOTES

7429	34 U. S. C. 524 (6th par., less proviso).	June 4, 1920, ch. 228 (6th par., less proviso, of amended 3d and 4th provisos), 41 Stat. 813; June 30, 1938, ch. 851, § 1, 52 Stat. 1253; June 17, 1944, ch. 262, 58 Stat. 282.

The source law provided that leases of lands of the United States within the naval petroleum reserves in existence before July 1, 1936, except leases that had become part of an approved unit or cooperative plan and agreement, should terminate at the end of their initial 20-year period, and that the lands covered by these leases could then be re-released by the Secretary of the Navy.

All of the leases covered by this provision have terminated as provided therein. Thus the provision for the termination of the leases is executed and the only remaining effect of the source is to authorize the re-lease of the lands formerly covered by the terminated leases. This section is worded accordingly. Reference to the classes of leases that were excepted from the termination is omitted as unnecessary because these leases were, of course, not terminated. They are not affected, since this section refers only to leases that were "terminated by law". The word "conditions" is omitted as included in the word "terms".

§ 7430. Disposition of products.

(a) The Secretary of the Navy in administering the naval petroleum and oil shale reserves under this chapter shall use, store, sell, or exchange for other petroleum or refined products, the oil and gas products, including royalty products, oil shale and products therefrom produced, from lands in the naval petroleum and oil shale reserves, including gas products from lands in the South Barrow gas field of naval petroleum reserve numbered 4, and lands outside petroleum reserve numbered 1 covered by joint, unit, or other cooperative plans for the benefit of the United States.

(b) Each sale of petroleum, gas, other hydrocarbons, oil shale, or products therefrom, under this section shall be made by the Secretary at public sale to the highest qualified bidder at such time, in such amounts, and after such advertising as the Secretary considers proper. (Aug. 10, 1956, ch. 1041, 70A Stat. 460; Aug. 24, 1962, Pub. L. 87-599, § 2, 76 Stat. 401; Oct. 11, 1962, Pub. L. 87-796, § 1(6), 76 Stat. 905.)

In subsection (a) the words "subject to the applicable limitations and restrictions of this Act" are omitted as surplusage and the words "in administering" are inserted.

In subsection (b) the words "under this section" are substituted for the words "from the naval reserves" to make it clear that the requirements of this subsection apply to sales of petroleum, gas, and other hydrocarbons from lands outside petroleum reserve numbered 1 covered by joint, unit, or other cooperative plans as well as the sale of those products from the naval reserves proper. Subsection (a) is the only authority for the sale of petroleum, gas, and other hydrocarbons from the naval petroleum reserves.

AMENDMENTS

1962—Subsec. (a). Pub L. 87-796 empowered the Secretary to use, store, sell or exchange for other petroleum or refined products, oil shale and products therefrom produced, from lands in the oil shale reserves.

Pub. L. 87-599 inserted ", including gas products from lands in the South Barrow gas field of naval petroleum reserve numbered 4,".

Subsec. (b). Pub. L. 87-796 included sale of oil shale, or products therefrom.

§ 7431. Requirements as to consultation and approval.

The Committee on Armed Services of the Senate and the House of Representatives must be consulted and the President's approval must be obtained before any condemnation proceedings may be started under this chapter and before any of the following transactions authorized by this chapter may be effective:

(1) A lease of any part of the naval petroleum or oil shale reserves.

(2) A contract to alienate from the United States the use, control, or possession of any part of the naval petroleum or oil shale reserve (except that consultation and Presidential approval are not required in connection with the issuance of permits, licenses, easements, grazing and agricultural leases, rights-of-way, and similar contracts pertaining to use of the surface area of the naval petroleum and oil shale reserves).

(3) A contract to sell the oil and gas (other than royalty oil and gas), oil shale, and products therefrom produced from any part of the naval petroleum and oil shale reserves.

(4) A contract for conservation or for compensation for estimated drainage.

1958—Pub. L. 85-861, § 1 (155), Sept. 2, 1958, 72 Stat. 1513, struck out item 7578.

§ 7571. Quarters or other accommodations: to whom furnished.

(a) Under such regulations as the Secretary of the Navy prescribes, public quarters including heat, light, water, and refrigeration may be furnished for personnel in the following categories who are on active duty:

(1) Members of the naval service.

(2) Members of the Coast Guard when it is operating as a service in the Navy.

If public quarters are not available for any such member, the Secretary may provide lodging accommodations for him. Lodging accommodations so provided may not be occupied by the member's dependents.

In subsection (a) the words "including members of the Nurse Corps" are omitted as surplusage, and the definition of "naval personnel" in 5 U. S. C. 421g, which is applicable to this subsection, is executed.

In subsection (b) the words "in any case whether public quarters are available" are substituted for the words "where and when there are no public quarters". The words "for persons in the Navy and Marine Corps, or serving therewith" are omitted, since these classes of personnel for whom the Secretary makes the determination of availability are the same as those who may be furnished quarters under subsection (a).

AMENDMENTS

1966—Subsec. (a)(3). Pub. L. 89-718 substituted "Environmental Science Services Administration" for "Coast and Geodetic Survey".

TRANSFER OF FUNCTIONS

The Environmental Science Services Administration in the Department of Commerce, including the offices of Administrator and Deputy Administrator thereof, were abolished by Reorg. Plan No. 4 of 1970, eff. Oct. 30, 1970, 35 F.R. 15627, 84 Stat. ------, set out in the Appendix to Title 5, Government Organization and Employees, which created the National Oceanic and Atmospheric Administration in the Department of Commerce and transferred the personnel, property, records, and unexpended balances of funds of the Environmental Science Services Administration to such newly created National Oceanic and Atmospheric Administration. The components of the Environmental Science Services Administration thus transferred included the Weather Bureau, the Coast and Geodetic Survey, the Environmental Data Service, the National Environmental Satellite Center, and the ESSA Research Laboratories.

§ 7572. Quarters: accommodations in place of for members on sea duty.

(a) If public quarters are not available, the Secretary of the Navy may provide lodging accommodations for any—

(1) member of the naval service;

(2) member of the Coast Guard when it is operating as a service in the Navy; or

(3) member of the Environmental Science Services Administration serving with the Navy;

on sea duty who is deprived of his quarters on board ship because of repairs or because of other conditions that make his quarters uninhabitable. Lodging accommodations so provided may not be occupied by the member's dependents.

(b) Under such regulations as the Secretary prescribes, any officer of the naval service on sea duty who is deprived of his quarters on board ship because of repairs or because of other conditions that make his quarters uninhabitable, and who is not entitled to basic allowance for quarters, may be reimbursed for expenses incurred in obtaining quarters, in an amount not more than the basic allowance for quarters of an officer of his grade, if it is impracticable to furnish accommodations under subsection (a).

(c) The Secretary, to the extent he considers proper, may delegate the authority conferred by subsection (a) to any person in the Department of the Navy, with or without the authority to make successive redelegations. (Aug. 10, 1956, ch. 1041, 70A Stat.; Nov. 2, 1966, Pub. L. 89-718, § 8(a), 80 Stat. 1117.)

In subsection (a) the word "public" is substituted for the words "possessed by the United States" and the subsection is phrased in terms of availability, as it is so interpreted. The itemization of personnel categories for whom quarters may be furnished is inserted to execute the definition of "naval personnel", made applicable to this section by 5 U. S. C. 421g. The requirement in that definition that personnel be on active duty is omitted since this subsection applies only to personnel on sea duty.

In subsection (b) the words "and who is not entitled to basic allowance for quarters" are inserted to make it clear that the entitlement under this subsection, as interpreted, is not in addition to basic allowance for quarters. The words "in obtaining quarters" are inserted for clarity. The words "basic allowance for quarters or an officer of his grade" are substituted for the words "his quarters allowance" because, under the Career Compensation Act of 1949, members without dependents are not entitled to a quarters allowance when on sea duty, and the limitation must be based upon the allowance of an officer of the same grade who is entitled thereto.

In subsection (c) the words "except the authority to prescribe regulations" are omitted, since subsection (a) does not contain such authority.

AMENDMENTS

1966—Subsec. (a)(3). Pub. L. 89-718 substituted "Environmental Science Services Administration" for "Coast and Geodetic Survey".

7573	None.	April 4, 1944, ch. 165 (3d proviso on p. 190), 58 Stat. 190.

The words "That effective December 13, 1943" are omitted as executed. The word "quarters" is substituted for the word "housing" for uniformity. The words "basic allowance for quarters" are substituted for the words "rental allowance or money allowance for quarters" to conform to the terminology of § 302 of the Career Compensation Act of 1949 (37 U. S. C. 252).

§ 7574. Quarters: limitations on size.

(a) In the construction of family quarters for members of the naval service, the following are the maximum limitations on net floor area for each unit:

(1) For flag officers in the Navy and general officers in the Marine Corps—2,100 square feet.

(2) For captains in the Navy and colonels in the Marine Corps—1,670 square feet.

(3) For commanders and lieutenant commanders in the Navy and lieutenant colonels and majors in the Marine Corps—1,400 square feet.

(4) For officers of the naval service below the grade of lieutenant commander or major—1,250 square feet.

(5) For enlisted members of the naval service—1,080 square feet.

In this section "net floor area" means all floor space inside the exterior walls, excluding basement, service space instead of basement, attic, garage, and porches.

(b) The maximum limitations prescribed by subsection (a) are increased 10 percent for quarters of the commanding officer of any station, air base, or other installation, based on the grade authorized for that position.

(c) The maximum limitations for family quarters for civilians are the same as those for members of the naval service of comparable responsibility, grade, and pay, as determined by the Secretary of the Navy.

(d) If the Secretary of Defense, or his designee, determines on the basis of a survey of the family housing needs at any installation where the construction of family housing is authorized, that the construction of four-bedroom units for enlisted men is required, such units may be constructed with a net floor area of one thousand two hundred and fifty square feet or less.

(e) If the Secretary of Defense, or his designee, determines, on the basis of a survey of the family housing needs at an installation where the construction of family housing is authorized, that the construction of four-bedroom units for officers holding grades below lieutenant commander or equivalent is required, such units may be constructed with a net floor area of one thousand four hundred square feet or less.

(f) The maximum limitations prescribed by subsections (a), (d), and (e) may be increased up to 15 per centum if the Secretary of Defense, or his designee, determines that such increase is in the best interest of the Government to permit award of a turnkey construction contract for family housing to the contractor offering the most satisfactory proposal. In subsection (a) the introductory clause is substituted for the introductory clause in 34 U. S. C. 911b. The reference to the effective date of the source law, June 16, 1948, and the words "whether heretofore, herein, or hereafter authorized" are omitted as surplusage. The words "members of the naval service" are substituted for the words "personnel of the Navy" to expressly include members of the Marine Corps. The construction of Marine Corps family quarters is undertaken out of the same appropriations as Navy quarters, and certain Marine Corps quarters were authorized by the act of June 16, 1948 (supra). It is clear, from the administration of this provision, that it is considered applicable to the Marine Corps. The Marine Corps grades corresponding to the named Navy grades are therefore inserted throughout the section. In clause (4) the words "officers of the naval service below the grade of lieutenant commander or major" are substituted for the words "warrant officers, commissioned warrant officers, and commissioned officers through the rank of lieutenant". The provisos are omitted as executed.

In subsection (b) (1) the word "continental" is omitted, since "United States" is defined in this title to mean the States and the District of Columbia. In subsection (b) (2) the words "based on the grade authorized for that position" are substituted for the words "over and above that to which his rank would entitle him" for clarity.

In subsection (c) the words "are the same as those" are substituted for the words "shall be limited to conform to the allowances", and the words "responsibility, grade, and pay" are substituted for the words "status according to responsibility, rating, and pay". The words "to be appropriate" are omitted as surplusage.

AMENDMENTS

1969—Subsec. (f). Pub. L. 91–142 added subsec. (f).

Subsec. (e). Pub. L. 87–554, § 504(d), removed the limitation on four-bedroom units for officers holding grades below lieutenant commander to 10 percent of family homes constructed from appropriated funds for officers.

1957—Subsec. (d). Pub. L. 85–241 added subsec. (d).

(1) the furnishing of electricity, gas, water, and sewage disposal;

In subsection (a) the words "enlisted members of the naval service and enlisted members of the Coast Guard when it is operating as a service in the Navy" are substituted for the words "enlisted naval personnel" to execute the definition of "naval personnel" made applicable to this section by 5 U. S. C. 421g. The definition in that section also covers personnel of the Coast and Geodetic Survey, but since that service has no enlisted members reference to it is unnecessary. In executing this definition the words "while on active duty" are omitted as unnecessary, since members not on active duty would not be subject to assignment by the Secretary of the Navy.

In subsection (b) the word "transferred" before the words "member of the Fleet Reserve" is omitted as unnecessary, since the categories of such members other than "transferred" have not been administratively used, and authority for them is omitted in this title. The words "and the Fleet Marine Corps Reserve" are added, as the words "Fleet Reserve" are used in a generic sense to cover such members. The words "when not on active duty" are added. When the personnel concerned are on active duty, they are treated in the same manner as others on active duty.

The word "separated" is substituted for the word "discharged". The words "under honorable conditions" are added since this provision is interpreted as benefiting personnel discharged under honorable conditions. The words "Air Force" are supplied under the authority of § 305 (a) of the National Security Act of 1947, as amended (5 U. S. C. 171*l*). The words "Veterans' Administration" are added under the authority of the act of August 9, 1921, ch. 57, 42 Stat. 148, which transferred care of veterans to the Veterans' Bureau, the act of June 7, 1924, ch. 320, 43 Stat 610, which transferred all hospitals under the jurisdiction of the Public Health Service to the Veterans' Bureau, and the act of July 3, 1930, ch. 863, § 1, 46 Stat. 1016, under which the President by Executive Order No. 5398, July 21, 1930, transferred the Veterans' Bureau to the Veterans' Administration. The words "while undergoing such care and treatment" are omitted as surplusage.

§ 7604. Profit: ships' stores.

(a) A profit of not more than 15 percent may be charged on sales from ships' stores. Under regulations prescribed by the Secretary of the Navy, the profit shall be used for the purposes stated in subsection (b) and shall be accounted for to the office or agency in the Department of the Navy designated by the Secretary.

(b) On vessels of the Navy and at naval activities outside the United States, other than an activity designated by the Secretary as a permanent shore establishment, ships' stores profits shall be used equitably for the welfare of officers and enlisted members of the naval service. At other naval activities, the profits shall be used for the amusement, comfort, and contentment of enlisted members only. (Aug. 10, 1956, ch. 1041, 70A Stat. 471; Nov. 2, 1966, Pub. The words "the continental limits of" are omitted, since "United States" is defined in this title as meaning the States and the District of Columbia.

AMENDMENTS

1966—Subsec. (a). Pub. L. 89–718 substituted "office or agency in the Department of the Navy designated by the Secretary" for "Bureau of Supplies and Accounts".

§ 7605. Acceptance of Government checks outside the United States.

Notwithstanding sections 521 and 543 of title 31, the Secretary of the Navy may authorize the officer in charge of any commissary store or ship's store ashore located outside the United States to—

(1) accept any Government check tendered by a retired member of the Navy or the Marine Corps, a member of the Naval Reserve or the Marine Corps Reserve, or a member of the Fleet Reserve or the Fleet Marine Corps Reserve, if the member is the payee of the check and the check is tendered in payment of amounts due from the member to the store; and

(2) refund in cash any difference between the amount due and the amount of the tendered check.

The Fleet Reserve and the Fleet Marine Corps Reserve were parts of the Naval Reserve and the Marine Corps Reserve, respectively, when the source statute was enacted but were removed therefrom by the Armed Forces Reserve Act of 1952. The words "or a member of the Fleet Reserve or the Fleet Marine Corps Reserve" are inserted in clause (1) to give this section the same applicability as the source.

7621	46 U. S. C. 793.	July 3, 1944, ch. 399, § 3, 58 Stat. 724.

In subsection (a) the words "vessel in the naval service" are substituted for the words "vessels of the Navy or in the naval service". The defined term is used throughout the chapter, and by definition includes vessels of the Navy. The words "when the Coast Guard is operating as a service in the Navy" are substituted for the words "the Coast Guard when operating as a part of the Navy" to conform to the terminology of 14 U. S. C. 3.

Subsection (b) is inserted for clarity, and is based on the source laws for this revised chapter.

§ 7622. Admiralty claims against the United States.

(a) The Secretary of the Navy may settle, or compromise, and pay in an amount not more than $1,000,000, a claim against the United States for—

(1) damage caused by a vessel in the naval service; or

(2) compensation for towage and salvage service, including contract salvage, rendered to a vessel in the naval service.

(b) If a claim under this section is settled or compromised for more than $1,000,000, the Secretary shall certify it to Congress.

(c) In any case where the amount to be paid is not more than $10,000, the Secretary may delegate his authority under this section to any person designated by him.

(d) Upon acceptance of payment by the claimant, the settlement or compromise of a claim under this section is final and conclusive notwithstanding any other provision of law. (Aug. 10, 1956, ch. 1041, 70A Stat. 472; July 7, 1965, Pub. L. 89-67, 79 Stat. 212.)

In subsection (a) the words "consider, ascertain, adjust, determine" are omitted as covered by the word "settle", as defined in § 7621 (b) of this title. The words "vessel in the naval service" are substituted for the words "vessels of the Navy or in the naval service", in view of the definition in § 7621 (a) of this title. The words "pay in an amount not more than $1,000,000, a claim" are substituted for the words "pay the amount of any claim so determined, compromised, or settled" and for the words "the payment of any claim on which a net amount exceeding $1,000,000 is determined to be due from the United States, or which is compromised or settled at a net amount exceeding $1,000,000 payable by the United States, shall not be authorized by this section".

In subsection (c) the words "In any case where the amount to be paid is not more than" are substituted for the words "When the net amount paid in settlement does not exceed" for clarity, since the delegation necessarily precedes payment. The words "the Secretary may delegate his authority" are substituted for the words "the authority of the Secretary of the Navy * * * may be exercised by" for clarity.

In subsection (d) the words "but not until then", "for all purposes", and "to the contrary" are omitted as surplusage.

The first proviso in 46 U. S. C. 797, stating that this section is supplementary to, and not in lieu of, other laws authorizing the settlement of claims, is omitted as unnecessary, since the other applicable claims laws are restated in this title. The second proviso, forbidding consideration of claims for more than $3,000 if they accrued before Sept. 8, 1939, is omitted as obsolete. It was designed to avoid reviving stale claims upon enactment of the source law on July 3, 1944. However, as a matter of practice, no claims are settled under this authority which are more than two years old, in line with the two-year statute of limitations contained in the Suits in Admiralty Act and the Public Vessels Act. This limitation has been officially publicized in the Federal Register for May 22, 1947, p. 3296, and in 32 CFR 752. The third proviso in 46 U. S. C. 797 is omitted as unnecessary, since the appropriation named therein no longer exists, and the payments are now made from appropriations for the Department of Defense.

1965—Subsec. (c). Pub. L. 89-67 substituted "$10,000" for "$1,000."

(1) enemy property; or

(2) neutral property used or transported in violation of the obligations of neutrals under international law.

(b) As used in this chapter—

(1) "vessel" includes aircraft; and

(2) "master" includes the pilot or other person in command of an aircraft.

(c) Property seized or taken upon the inland waters of the United States by its naval forces is not maritime prize. All such property shall be delivered promptly to the proper officers of the courts.

(d) Nothing in this chapter may be construed as contravening any treaty of the United States. (Aug. 10, 1956, ch. 1041, 70A Stat. 474.)

7651 (d)	34 U. S. C. 1158 (last sentence).	R. S. 4652 (last sentence).

In subsection (a) the words "including aircraft" are omitted as covered by subsection (b). The section is written to make the words "during war" applicable to the entire chapter. These words appear in 34 U. S. C. 1159, but not in 34 U. S. C. 1131. Prize is historically and uniformly treated as a war-time matter, so no substantive change results from the extension. The words "this chapter does not affect" are substituted for the words "nothing herein contained shall be construed as affecting, or in any way impairing". The words "Air Force" are added under authority of § 305 (a) of the National Security Act of 1947, as amended (5 U. S. C. 171*l*), to provide the same applicability as formerly provided by the word "Army". The word "legal" is omitted as surplusage.

In subsection (b) the definition of the term "ship" is omitted as covered by the term "vessel". All of 34 U. S. C. 1132 except that part which includes "aircraft" within the term "vessels" is omitted as unnecessary since the defined term "vessels of the Navy" does not appear in the provisions to which the definition is made applicable. The last sentence of 34 U. S. C. 1158 applies only to Title LIV (Prize) of the Revised Statutes. In subsection (d) it is broadened to cover the entire body of statutory prize law. Additions to the prize law made by the act of August 18, 1942, ch. 553, 56 Stat. 746, as amended, operated only to extend the jurisdiction of courts of the United States to certain cases in which the prizes are not brought into the territorial waters of the United States. Relations of this country with other countries are not affected by the 1942 act except when jurisdiction is exercised by American courts over prizes brought into cobelligerent ports. As that act provides that the consent of the cobelligerent is necessary to the exercise of such jurisdiction, the rule against contravention of treaties is properly applied to it.

§ 7652. Jurisdiction.

(a) The United States district courts have original jurisdiction, exclusive of the courts of the States, of each prize and each proceeding for the condemnation of property taken as prize, if the prize is—

(1) brought into the United States, or the Territories, Commonwealths, or possessions;

(2) brought into the territorial waters of a cobelligerent;

(3) brought into a locality in the temporary or permanent possession of, or occupied by, the armed forces of the United States; or

(4) appropriated for the use of the United States.

(b) The United States district courts, exclusive of the courts of the States, also have original jurisdiction of a prize cause in which the prize property—

(1) is lost or entirely destroyed; or

(2) cannot be brought in for adjudication because of its condition.

(c) The jurisdiction conferred by this section of prizes brought into the territorial waters of a cobelligerent may not be exercised, nor may prizes be appropriated for the use of the United States within those territorial waters, unless the government having jurisdiction over those waters consents to the exercise of the jurisdiction or to the appropriation. (Aug. 10, 1956, ch. 1041, 70A Stat. 474.)

Subsection (a) reflects 28 U. S. C. 1333 by restating the basic prize jurisdiction of that section over prizes brought into the United States, and by providing that the extension of prize jurisdiction conferred by 34 U. S. C. 1159 on the United States district courts is exclusive of the courts of the States. 34 U. S. C. 1166 and the second sentence of 34 U. S. C. 1164 are executed in the single jurisdictional statement of this section and the consolidation of the act of August 18, 1942, ch. 553, 56 Stat. 746 (34 U. S. C. 1159—1166) with the earlier prize provisions. The words "during war" in 34 U. S. C. 1159 are omitted as covered in § 7651 of this title. In clause (1) the words "or the Territories, Commonwealths, or possessions" are added, since "United States" in this title is geographically limited to the 48 States and the District of Columbia, whereas the term here is intended to include all places within the jurisdiction of the district courts.

In clause (4) the words "taken or" preceding the words "appropriated for the use of the United States" are omitted as surplusage and in order to avoid confusion between the two meanings of the word "taken" in prize law. In both the Revised Statutes and the 1942 act the phrase "taken or appropriated" means no more than "appropriated" alone, whereas "taken", in the phrase "taken as prize" means "captured".

Subsection (b) is included to make the statement of jurisdiction complete. It is derived by implication from the first sentence of R. S. 4625 (34 U. S. C. 1141) which is the source of subsection (c) of § 7653 of this title.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 7681 of this title.

§ 7653. Court in which proceedings brought.

(a) If a prize is brought into a port of the United States, or the Territories, Commonwealths, or possessions, proceedings for the adjudication of the prize cause shall be brought in the district in which the port is located.

(b) If a prize is brought into the territorial waters of a cobelligerent, or is brought into a locality in the temporary or permanent possession of, or occupied by, the armed forces of the United States, or is appropriated for the use of the United States before proceedings are started, the venue of the proceedings for adjudication of the cause shall be in the judicial district selected by the Attorney General, or his designee, for the convenience of the United States.

(c) If the prize property is lost or entirely destroyed or if, because of its condition, no part of it has been or can be sent in for adjudication, proceedings for adjudication of the cause may be brought in any district designated by the Secretary of the Navy. In such cases the proceeds of anything sold shall be deposited with the Treasurer of the United States or public depositary in or nearest the district designated by the Secretary, subject to the orders of the court for that district. (Aug. 10, 1956, ch. 1041, 70A Stat. 474.)

7653 (c)	34 U. S. C. 1141 (less last sentence).	R. S. 4625 (less last sentence).

Subsection (a) is inserted in order to present a complete statement of the subject matter of the section. Its substance is not specifically set out in the Revised Statutes but is strongly implied in 34 U. S. C. 1135 which requires the United States attorney for the district in which the port is located to file a libel.

In subsection (b) the requisites for jurisdiction conferred under the 1942 act are substituted for the words "brought under the jurisdiction conferred by this Act". The substituted words are the same as those used in clauses (2), (3), and (4) of the preceding section except that the words "before proceedings are started" are added following the words "appropriated for the use of the United States" for clarity. An appropriation can take place before or after proceedings are commenced, but in the latter case there is no occasion for the Attorney General to determine venue.

In subsection (c) the words "or if because the whole has been appropriated to the use of the United States" and the words "or the value of anything taken or appropriated for the use of the United States" are omitted. The provision in the 1942 act which empowers the Attorney General to decide the venue of proceedings when the prize property has been appropriated is incompatible with the provision in R. S. 4625 which authorizes the Secretary of the Navy to select the judicial district in such cases. Hence the 1942 act superseded R. S. 4625 with respect to cases of this type. Deposit of the value of prize property appropriated by the United States is adequately covered in § 7663 of this title and is not mentioned here. The second sentence of 34 U. S. C. 1141 (R. S. 4625), relating to proceedings by captors, is omitted because it was rendered inoperative by the act of March 3, 1899, ch. 413, § 13, 30 Stat. 1007, which repealed all laws authorizing the distribution of prize money to captors.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 7655 of this title.

§ 7654. Effect of failure to start proceedings.

If a vessel is captured as prize and no proceedings for adjudication are started within a reasonable time, any party claiming the captured property may, in any district court as a court of prize—

(1) move for a monition to show cause why such proceedings shall not be started; or

(2) bring an original suit for restitution.

The monition issued in either case shall be served on the United States Attorney for the district, on the Secretary of the Navy, and on such other persons as are designated by order of the court. (Aug. 10, 1956, ch. 1041, 70A Stat. 475.)

§ 7655. Appointment of prize commissioners and special prize commissioners.

(a) In each judicial district there may be not more than three prize commissioners, one of whom is the naval prize commissioner. They shall be appointed by the district court for service in connection with any prize cause in which proceedings are brought under section 7653 (a) or (c) of this title. The naval prize commissioner must be an officer of the Navy whose appointment is approved by the Secretary of the Navy. The naval prize commissioner shall protect the interests of the Department of the Navy in the prize property. At least one of the other commissioners must be a member of the bar of the court, of not less than three years' standing, who is experienced in taking depositions.

(b) A district court may appoint special prize commissioners to perform abroad, in connection with any prize cause in which proceedings are brought under section 7653 (b) of this title, the duties prescribed for prize commissioners, and, in connection with those causes, to exercise anywhere such additional powers and perform such additional duties as the court considers proper, including the duties prescribed by this chapter for United States marshals. The court may determine the number and qualifications of the special prize commissioners it appoints, except that for each cause there shall be at least one naval special prize commissioner. The naval special prize commissioner must be an officer of the Navy whose appointment is approved by the Secretary. The naval special prize commissioner shall protect the interests of the Department of the Navy in the prize property. (Aug. 10, 1956, ch. 1041, 70A Stat. 475.)

7655 (a)	34 U. S. C. 1137 (less applicability to compensation of the naval prize commissioner).	R. S. 4621 (less applicability to compensation of the naval prize commissioner); Nov. 14, 1945, ch. 472, § 2, 59 Stat. 581.
7655 (b)	34 U. S. C. 1163 (less applicability to compensation of the naval special prize commissioner).	Aug. 18, 1942, ch. 553, § 5 (less applicability to compensation of the naval special prize commissioner), 56 Stat. 746.

The first sentence of subsection (a) is reworded to make it clear that the limitation as to number applies to the number of prize commissioners who may serve in each judicial district at any one time and that the court is not precluded from making additional appointments to fill vacancies. The words "for service in connection with any prize cause in which proceedings are brought under section 7653 (a) or (c) of this title" are added to distinguish the prize commissioners from the special prize commissioners mentioned in subsection (b). The words "officer of the Navy" in subsections (a) and (b) are substituted for the words "naval officer, active or retired" because an officer of the Navy does not lose his status as such upon retirement, and to retain these words would open to question the many other provisions in this subtitle treating retired officers as officers.

In subsection (b) the words "in connection with any prize cause in which proceedings are brought under section 7653 (b) of this title" are substituted for the words "in cases arising under this Act" for accuracy of reference. The words "including the duties prescribed by this chapter for United States marshals" are added for clarity. Section 7662 of this title prescribes the duties of marshals. Most of these duties could not be performed by the marshals if the prize was not brought into a United States port. In such cases occurring during World War II the courts, under the authority of the 1942 act, required the special prize commissioners to perform the duties ordinarily performed by the marshals. The words "without regard for the requirements of section 7367 of this title" are omitted as unnecessary, since that section is codified in subsection (a), and language distinguishing the prize commissioners from the special prize commissions is included in each subsection.

§ 7656. Duties of United States Attorney.

(a) The interests of the United States in a prize cause shall be represented by the United States attorney for the judicial district in which the prize cause is adjudicated. The United States attorney shall protect the interests of the United States and shall examine all fees, costs, and expenses sought to be charged against the prize fund.

(b) In a judicial district where one or more prize causes are pending the United States attorney shall send to the Secretary of the Navy, at least once every three months, a statement of all such causes in the form and covering the particulars required by the Secretary. § 7657. Duties of commanding officer of capturing vessel.

(a) The commanding officer of a vessel making a capture shall—

(1) secure the documents of the captured vessel, including the log, and the documents of cargo, together with all other documents and papers, including letters, found on board;

(2) inventory and seal all the documents and papers;

(3) send the inventory and documents and papers to the court in which proceedings are to be had, with a written statement—

(A) that the documents and papers sent are all the papers found, or explaining the reasons why any are missing; and

(B) that the documents and papers sent are in the same condition as found, or explaining the reasons why any are in different condition;

(4) send as witnesses to the prize court the master, one or more of the other officers, the supercargo, purser, or agent of the prize, and any other person found on board whom he believes to be interested in or to know the title, national character, or destination of the prize, and if any of the usual witnesses cannot be sent, send the reasons therefor to the court; and

(5) place a competent prize master and a prize crew on board the prize and send the prize, the witnesses, and all documents and papers, under charge of the prize master, into port for adjudication.

(b) In the absence of instructions from higher authority as to the port to which the prize shall be sent for adjudication, the commanding officer of the capturing vessel shall select the port that he considers most convenient in view of the interests of probable claimants.

(c) If the captured vessel, or any part of the captured property, is not in condition to be sent in for adjudication, the commanding officer of the capturing vessel shall have a survey and an appraisal made by competent and impartial persons. The reports of the survey and the appraisal shall be sent to the court in which proceedings are to be had. Property so surveyed and appraised, unless appropriated for the use of the United States, shall be sold under authority of the commanding officer present. Proceeds of the sale shall be deposited with the Treasurer of the United States or in the public depositary most accessible to the court in which proceedings are to be had and subject to its order in the cause. § 7662. Duties of marshal.

(2) keep safely in his custody all prize property under warrant from the court;

In clause (2) the words "in his custody" are inserted to make clear the fact that the marshal has custody of the prize property.

In clause (5) the words "and be responsible for" are inserted for clarity, since 34 U. S. C. 1144 provides that the sale and deposit of the proceeds shall be made by the auctioneer and his agent rather than by the marshal, although the marshal supervises them. The words "Treasurer of the United States or public depositary" are substituted for "assistant treasurer" to reflect the act of May 29, 1920, ch. 214, 41 Stat. 654.

§ 7663. Prize property appropriated for the use of the United States.

(a) Any officer or agency designated by the President may appropriate for the use of the United States any captured vessel, arms, munitions, or other material taken as prize. The department or agency for whose use the prize property is appropriated shall deposit the value of the property with the Treasurer of the United States or with the public depositary nearest to the court in which the proceedings are to be had, subject to the orders of the court.

(b) Whenever any captured vessel, arms, munitions, or other material taken as prize is appropriated for the use of the United States before that property comes into the custody of the prize court, it shall be surveyed, appraised, and inventoried by persons as competent and impartial as can be obtained, and the survey, appraisal, and inventory sent to the court in which the proceedings are to be had. If the property is appropriated after it comes into the custody of the court, sufficient notice shall be given to enable the court to have the property appraised for the protection of the rights of the claimants.

(c) Notwithstanding subsections (a) and (b), in any case where prize property is appropriated for the use of the United States, a prize court may adjudicate the cause on the basis of an inventory and survey and an appropriate undertaking by the United States to respond for the value of the property, without either an appraisal or a deposit of the value of the prize with the Treasurer of the United States or a public depositary. 7663	34 U. S. C. 1140.	R. S. 4624; Nov. 14, 1945, ch. 472, § 3, 59 Stat. 581.

In subsection (a) the words "may appropriate" are substituted for the words "the power to take or appropriate * * * may be exercised", in 34 U. S. C. 1162, for clarity and uniformity of statement. Under the Revised Statutes it was implied and understood that the Navy could appropriate prizes on behalf of the United States for use by the Navy. Use by other government agencies was not contemplated. The 1942 act enabled the Navy to turn prize vessels over to the War Shipping Administration without bringing them back to United States ports. Reference to that Administration in subsection (a) is omitted since the Administration has been abolished and these functions have not been specifically vested in its successors. It is surplusage as well, because the authority to appropriate is given to any officer or agency designated by the President.

The proviso added to R. S. 4624 (34 U. S. C. 1140) by the 1945 amendment is identical with the proviso added to the 1942 act (34 U. S. C. 1162) by the 1944 amendment. The 1945 act completed the process of making the procedure under the Revised Statutes the same as that in effect for causes over which the courts were given jurisdiction by the World War II legislation, and its single statement in subsection (c) is therefore justified.

34 U. S. C. 1140 and the revised section reflect the act of March 3, 1899, ch 413, § 13, 30 Stat. 1007, which repealed laws authorizing distribution of prize proceeds to captors, and the act of May 29, 1920, ch. 2145, 41 Stat. 654, which requires substitution of "Treasurer of the United States or public depositary" for "assistant treasurer".

§ 7664. Delivery of property on stipulation.

(a) Prize property may be delivered to a claimant on stipulation, deposit, or other security, if—

(1) the claimant satisfies the court that the property has a peculiar and intrinsic value to him, independent of its market value;

(2) the court is satisfied that the rights and interests of the United States or of other claimants will not be prejudiced;

(3) an opportunity is given to the United States attorney and the naval prize commissioner or the naval special prize commissioner to be heard as to the appointment of appraisers; and

(4) a satisfactory appraisal is made.

(b) Money collected on a stipulation, or deposited instead of it, that does not represent costs shall be deposited with the Treasurer of the United States or a public depositary in the same manner as proceeds of a sale. (Aug. 10, 1956, ch. 1041, 70A Stat. 479.)

§ 7665. Sale of prize.

(a) The court shall order a sale of prize property if—

(1) the property has been condemned;

(2) the court finds, at any stage of the proceedings, that the property is perishable, liable to deteriorate, or liable to depreciate in value; or

(3) the cost of keeping the property is disproportionate to its value.

§ 7666. Mode of making sale.

(a) If a sale of prize property is ordered by the court, the marshal shall—

(2) advertise the sale fully and conspicuously by posters and in newspapers ordered by the court;

(3) give notice to the naval prize commissioner at least five days before the sale; and

(4) keep the goods open for inspection for at least three days before the sale.

(b) An auctioneer of known skill in the business to which the sale pertains shall be employed by the Secretary of the Navy to make the sale. The auctioneer, or his agent, shall collect and deposit the gross proceeds of the sale. The auctioneer and his agent are responsible to the marshal for the conduct of the sale and the collection and deposit of the gross proceeds. (Aug. 10, 1956, ch. 1041, 70A Stat. 479.)

The statement in subsection (b) of the responsibility of the auctioneer and agent to the marshal in the collection and deposit of proceeds is inserted to clarify the marshal's functions. It is derived from 34 U. S. C. 1139, and appears in § 7662 of this title.

§ 7667. Transfer of prize property to another district for sale.

(a) In the case of any prize property ordered to be sold, if the court believes that it will be in the interest of all parties to have the property sold in a judicial district other than the one in which the proceedings are pending, the court may direct the marshal to transfer the property to the district selected by the court for the sale, and to insure it. In such a case the court shall give the marshal proper orders as to the time and manner of conducting the sale.

(b) When so ordered the marshal shall transfer the property and keep it safely. He is responsible for its sale in the same manner as if the property were in his own district and for the deposit of the gross proceeds with the Treasurer of the United States or public depositary nearest to the place of sale, subject to the order of the court for the district where the adjudication is pending.

(c) The necessary expenses of insuring, transferring, receiving, keeping, and selling the property are a charge upon it and upon the proceeds. Whenever any such expense is paid in advance by the marshal, any amount not repaid to him from the proceeds shall be allowed to him as in the case of expenses incurred in suits in which the United States is a party.

(d) If the Secretary of the Navy believes that it will be in the interest of all parties to have the property sold in a judicial district other than the one in which the proceedings are pending, he may, either by a general regulation or by a special direction in the cause, require the marshal to transfer the property from the district in which the judicial proceedings are pending to any other district for sale. In such a case proceedings shall be had as if the transfer had been made by order of the court. (Aug. 10, 1956, ch. 1041, 70A Stat. 479.)

In subsection (b) the words "He is responsible for its sale" are substituted for the words "It shall be the duty of the marshal to * * * sell the same", because, as shown in § 7666 of this title, the marshal does not sell the property himself but supervises the auctioneer who conducts the sale.

§ 7668. Disposition of prize money.

The net proceeds of all property condemned as prize shall be decreed to the United States and shall be ordered by the court to be paid into the Treasury. (Aug. 10, 1956, ch. 1041, 70A Stat. 480.)

Revised section	Source (U. S. Code)	Source (Statutes at Large)
7668	34 U. S. C. 1151.	R. S. 4630; R. S. 4641.

R. S. 4630 provided that in some circumstances the captors were to receive the net proceeds of prize property and in other circumstances they were to receive half and the United States was to receive the other half. The act of March 3, 1899, ch. 413, § 13, 30 Stat. 1007, repealed "all provisions of law authorizing the distribution among captors of the whole or any portion of the proceeds of vessels,

or any property hereafter captured, condemned as prize". Thus the only part of R. S. 4630 that remains in effect, as is indicated in 34 U. S. C. 1151, is that part which provides that proceeds shall be decreed to the United States. The section is so worded. R. S. 4641 stated how proceeds decreed to captors should be divided among them. These provisions were eliminated by the act of March 3, 1899, supra. All that remains of R. S. 4641, as is indicated in 34 U. S. C. 1151, is the provision that proceeds decreed to the United States shall be paid into the Treasury, and the section is worded accordingly.

(b) When the cause is finally disposed of, the court shall order the Treasurer or public depositary to pay the costs and charges allowed and unpaid. If the final decree is for restitution, or if there is no money subject to the order of the court in the cause, costs or charges allowed by the court and not paid by the claimants shall be paid out of the fund for paying the expenses of suits in which the United States is a party or is interested. § 7672. Recaptures: award of salvage, costs, and expenses.

(a) If a vessel or other property that has been captured by a force hostile to the United States is recaptured, and the court believes that the property had not been condemned as prize by competent authority before its recapture, the court shall award an appropriate sum as salvage.

(b) If the recaptured property belonged to the United States, it shall be restored to the United States, and costs and expenses ordered to be paid by the court shall be paid from the Treasury.

(c) If the recaptured property belonged to any person residing within or under the protection of the United States, the court shall restore the property to its owner upon his claim and on payment of such sum as the court may award as salvage, costs, and expenses.

(d) If the recaptured property belonged to any person permanently residing within the territory and under the protection of any foreign government in amity with the United States, and, by the law or usage of that government, the property of a citizen of the United States would be restored under like circumstances of recapture, the court shall, upon the owner's claim, restore the property to him under such terms as the law or usage of that government would require of a citizen of the United States under like circumstances. If no such law or usage is known, the property shall be restored upon the payment of such salvage, costs, and expenses as the court orders.

(e) Amounts awarded as salvage under this section shall be paid to the United States. (Aug. 10, 1956, ch. 1041, 70A Stat. 481.)

HISTORICAL AND REVISION NOTES

Revised section	Source (U. S. Code)	Source (Statutes at Large)
7672	34 U. S. C. 1158 (less last sentence).	R. S. 4652 (less last sentence).

In subsection (c) the words "restore the property" are substituted for the words "adjudge to be restored." A similar substitution is made in subsection (d).

In subsection (d) the words "foreign government" are substituted for the words "foreign prince, government, or state".

Subsection (e) is derived from the next to the last sentence of R. S. 4652 which, when enacted, read:

"The whole amount awarded as salvage shall be decreed to the captors and no part to the United States, and shall be distributed as in the case of proceeds of property condemned as prize."

The act of March 3, 1899, ch. 413, § 13, 30 Stat. 1007, repealed all laws authorizing the distribution of prize money to captors. Accordingly, 34 U. S. C. 1158 states:

"The whole amount awarded as salvage shall be disposed of as in the case of proceeds of property condemned as prize."

As shown in § 7668 of this title, the net proceeds of property condemned as prize must be decreed to the United States. Subsection (e) is phrased so as to state directly, instead of by reference, the fact that the amount awarded as salvage is paid to the government. While this is apparently inconsistent with R. S. 4652 as originally enacted, it is consistent with the intent expressed by Congress in the provision of the act of March 3, 1899 (supra), which repealed provisions relating to the distribution of prize money and bounty to crews. This act, it is true, did not mention salvage; and salvage money is still occasionally awarded to crews of naval vessels. However, such occasions are rare, and it is the general

policy of the Department of the Navy not to claim salvage on behalf of its personnel. No case appears in which salvage derived from prize has been claimed for such personnel. Prize salvage is more closely related to prize money than it is to other salvage. The determination by Congress that captors should not share in the proceeds of prizes is, therefore, as in 34 U. S. C. 1158, carried through the revised section to salvage derived from prize. The word "amounts" is substituted for the words "the whole amount".

§ 7673. Allowance of expenses to marshals.

The marshal shall be allowed his actual and necessary expenses for the custody, care, preservation, insurance, and sale or other disposal of the prize property, and for executing any order of the court in the prize cause. Charges of the marshal for expenses or disbursements shall be allowed only upon his oath that they have been necessarily incurred for the purpose stated. (Aug. 10, 1956, ch. 1041, 70A Stat. 481.)

§ 7674. Payment of witness fees.

If the court allows fees to any witness in a prize cause, or fees for taking evidence out of the district in which the court sits, and there is no money subject to its order in the cause, the marshal shall pay the fees. He shall be repaid from any money deposited to the order of the court in the cause. (1) ½ of 1 percent on any amount exceeding $10,000 on the sale of a vessel; and

(2) 1 percent of any amount exceeding $10,000 on the sale of other prize property.

(b) If no such scale is established, auctioneers in prize causes shall be paid such compensation as the court considers just under the circumstances of each case. (Aug. 10, 1956, ch. 1041, 70A Stat. 481.)

(a) Naval prize commissioners and naval special prize commissioners may not receive compensation for their services in prize causes other than that to which they are entitled as officers of the Navy.

(b) Prize commissioners and special prize commissioners, except naval prize commissioners and naval special prize commissioners, are entitled to just and suitable compensation for their services in prize causes. The amount of compensation in each cause shall be determined by the court and allowed as costs.

(c) Annually, on the anniversary of his appointment, each prize commissioner and special prize commissioner, except a naval prize commissioner or a naval special prize commissioner, shall submit to the Attorney General an account of all amounts received for his services in prize causes within the previous year. Of the amounts reported, each such commissioner may retain not more than $3,000, which is in full satisfaction for all his services in prize causes for that year. He shall pay any excess over that amount into the Treasury. (Aug. 10, 1956, ch. 1041, 70A Stat. 482.)

In subsection (c) the words "on the anniversary of his appointment" are inserted for clarity, as "year" in the context of this section means a year of service as prize commissioner. The words "and shall be credited to the fund for paying naval pensions" are omitted because the act of June 26, 1934, ch. 756, § 9, 48 Stat. 1229, abolished the naval pension fund and provided that moneys previously required to be paid into it should be deposited in the Treasury as miscellaneous receipts. The words "as miscellaneous receipts" are omitted as surplusage. The word "amounts" is substituted for the word "sums".

34 U. S. C. 1154 and 1155 and this section reflect the act of May 28, 1896, ch. 252, § 6, 29 Stat. 179, 180, which provided that United States attorneys should receive fixed annual salaries in lieu of the fees and emoluments previously authorized.

§ 7677. Accounts of clerks of district courts.

(a) The clerk of each district court, for the purpose of the final decree in each prize cause, shall keep account of—

(1) the amount deposited with the Treasurer or public depositary, subject to the order of the court in the cause; and

(2) the amounts ordered to be paid therefrom as costs and charges.

(b) The clerk shall draw the orders of the court for the payment of costs and allowances and for the disposition of the residue of the prize fund in each cause.

(c) The clerk shall send to the Secretary of the Treasury and the Secretary of the Navy—

(1) copies of final decrees in prize causes; and

(2) a semi-annual statement of the amounts allowed by the court, and ordered to be paid, within the preceding six months to the prize commissioners and special prize commissioners for their services.

"For a period of six years after the effective date of this Act [Sept. 26, 1966], the authorized strengths [including the temporary increases, in the case of lieutenant colonels, through June 30, 1972, authorized by section 1 of Pub. L. 89–606] prescribed by section 8202 of title 10, United States Code [this section], may be exceeded (1) by 1,000 for the grade of lieutenant colonel; and (2) by the following numbers for the grade of major:

Fifth	3,168
Sixth	1,585

However, the authority to exceed the authorized strengths by 1,000 for the grade of lieutenant colonel, and 1,500 for the grade of major authorized by this section may be used only in the event that drastic reductions or increases in the authorized strength of the commissioned officers on active duty in the Air Force occur within a short period of time and that such changes seriously impede promotions to the grade of major and lieutenant colonel as determined by the Secretary of the Air Force, who shall notify the Committees on Armed Services of the Senate and of the House of Representatives not later than 60 days following the utilization of any of the numbers covered in this sentence."

Pub. L. 89–157, Aug. 31, 1965, 79 Stat. 611, provided: "That, for the period July 1, 1965, through June 30, 1966, the table in section 8202(a) of title 10, United States Code [subsec. SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 8210 of this title.

§ 8203. Regular Air Force: members on active duty.

The authorized strength of the Regular Air Force in members on active duty, exclusive of officer candidates and aviation cadets, is 502,000 less the number of members of the Air Force on active duty who are neither members of the Regular Air Force nor members of the Air Force in the categories listed in section 8201 (a) (1)—(6) of this title. (Aug. 10, 1956, ch. 1041, 70A Stat. 498; Sept. 2, 1958, Pub. L. 85-861, § 1 (159), 72 Stat. 1514.)

HISTORICAL AND REVISION NOTES

Revised section	Source (U. S. Code)	Source (Statutes at Large)
8203	No source.	No source.

The revised section is inserted to make explicit in the law the authorized strength of the Regular Air Force, which has heretofore been implied from provisions relating to the strength of the Air Force in members on active duty. The implication is based on an opinion of the Judge Advocate General of the Army construing the same laws as they affect the Army. That opinion (JAGA 1951/1549, 14 Feb. 1951) concludes that the authorized strength of the Regular Army is the same as the authorized strength of the Army in members on active duty, exclusive of the categories named in section 8201 (a) (1)—(4) of this title, less the number of nonregulars on active duty. In stating those members excluded, reference is made only to officer candidates and aviation cadets, since there are no regulars in the other categories listed in section 8201 (a) of this title. An express statement in the law of the authorized strength of the Regular Air Force is desirable, since other sections, for example section 8207 of this title, expressly refer to that authorized strength.

AMENDMENTS

1958—Pub. L. 85-861 substituted "section 8201(a) (1)—(6)" for "section 8201(a)(1)—(5)".

§ 8204. Regular Air Force: commissioned officers on active list.

The authorized strength of the Regular Air Force in commissioned officers on the active list is the sum of—

(1) the numbers authorized by section 8205 of this title;

(2) the number of permanent professors of the United States Air Force Academy authorized by section 9331 of this title and the registrar thereof; and

(3) the numbers in designated categories specifically authorized by law as additional numbers.

(Aug. 10, 1956, ch. 1041, 70A Stat. 499; Aug. 6, 1958, Pub. L. 85-600, § 1 (14), 72 Stat. 523.)

HISTORICAL AND REVISION NOTES

Revised section	Source (U. S. Code)	Source (Statutes at Large)

The revised section is inserted to make it clear that the total authorized strength of the Regular Air Force in commissioned officers on the active list includes the additional numbers authorized for the permanent professors of the Air Force Academy and any numbers in designated categories specially authorized by law as additional numbers, excluded from the strength of 27,500 specified in section 8205 of this title.

AMENDMENTS

1958—Pub. L. 85-600 included the registrar of the Air Force Academy.

§ 8205. Regular Air Force: commissioned officers on active list, exclusive of certain categories.

(a) The authorized strength of the Regular Air Force in commissioned officers on the active list, exclusive of permanent professors and the registrar of the United States Air Force Academy and members in designated categories specifically authorized by law as additional numbers, is 69,425.

(b) Subject to subsection (a), the Secretary of Defense, with the approval of the President, shall estimate each year, for each of the five years following that year, the strength of the Regular Air Force in commissioned officers on the active list exclusive of officers specifically authorized by law as additional numbers. (Aug. 10, 1956, ch. 1041, 70A Stat. 499; Aug. 6, 1958, Pub. L. 85-600, § 1 (15), 72 Stat. 523; Sept. 2, 1958, Pub. L. 85-861, § 1 (160), 72 Stat. 1514.)

The reference to professors of the Air Force Academy is inserted, since professors of the United States Military Academy are, under section 3205 of this title, excluded from the authorized strength of the Regular Army.

AMENDMENTS

1958—Subsec. (a). Pub. L. 85-861, § 1 (160) (A), designated existing provisions as subsec. (a), and § 1 (160) (B), substituted "69,425" for "27,500".

In subsection (a), the figure "549" results from the allocation of the original figure 2,558 heretofore made between the Army and the Air Force under section 208 (e) of the National Security Act of 1947 (5 U. S. C. 626c (e)). (See Joint Army and Air Force Adjustment Regulation No. 1–11–62, May 16, 1949.) This allocation has had the force of law since July 26, 1950, when the period for transfers, including the administrative authority to change the allocation, expired. 10: 166 (a) (1st 20 words of 1st sentence) is omitted as inapplicable to the Air Force. 10: 166 (a) (1st sentence, less 1st 20 words) is omitted as superseded by section 8012 (e) of this title. 10: 166 (a) (words of last sentence before proviso) is omitted as inapplicable to the Air Force because of section 8296 of this title.

In subsection (b), the last sentence is inserted, since a different grade structure is prescribed by section 8211 of this title for categories for which promotion lists are authorized.

AMENDMENTS

1967—Subsec. (b). Pub. L. 90–130 struck out subsec. (b) which provided that, of the authorized strength of the Air Force in Air Force nurses on the active list of the Regular Air Force, not more than five could be in the regular grade of colonel and not more than one hundred and seven could be in the regular grade of lieutenant colonel.

1957—Pub. L. 85–155 substituted "Commissioned" for "commissioned" in the catchline.

Subsec. (a). Pub. L. 85–155 substituted "is as prescribed by the Secretary of the Air Force within the authorized strength of the Regular Air Force in commissioned officers on the active list" for "is 549, or 6/1,000 of the authorized strength prescribed by section 8203 of this title, whichever is greater".

Subsec. (b). Pub. L. 85–155 permitted not more than 5 officers in the regular grade of colonel, and not more than 107 in the regular grade of lieutenant colonel, and eliminated provisions which restricted officers in the grades of lieutenant colonel and major to not more than 7/1,000 and 16/1,000, respectively, of the authorized strength, and which empowered the Secretary of the Air Force to prescribe the authorized strength of the Air Force nurses on the active list in the regular grade of captain.

§ 8207. Regular Air Force: Commissioned officers on active list; medical specialists.

Apr. 16, 1947, ch. 38, § 107 (b) (less 2d and last sentences, and less 1st 22 words of 1st sentence); restated May 16, 1950, ch. 186, § 3 (c) (b) (less 2d and last sentences, and less 1st 22 words of 1st sentence), 64 Stat. 161.

In subsection (a), the figure "53" results from the allocation of the original figure 409, heretofore made between the Army and the Air Force under section 208 (e) of the National Security Act of 1947 (5 U. S. C. 626c (e)). This allocation has had the force of law since July 26, 1950, when the period for transfers, including the administrative authority to change the allocation, expired. Although section 3 of the act of May 16, 1950, ch. 186, 64 Stat. 161, restated the 409 figure, it is clear from the Congressional committee reports on the act of May 16, 1950, that the figure 409 was intended to be a total applicable to both the Army and the Air Force. 10: 166a (a) (1st sentence, less last 16 words) is omitted as inapplicable to the Air Force. 10: 166a (a) (last 16 words of 1st sentence) is omitted as superseded by section 8012 (e) of this title.

In subsection (b), the words "and the remainder of such authorized commissioned strength shall be in permanent commissioned grades of captain to second lieutenant inclusive" are omitted as covered by section 8291 of this title, which authorizes original designation only in the grades of first lieutenant and second lieutenant, and by section 8304 of this title, which authorizes promotions of women medical specialists only to grades below lieutenant colonel. The last sentence is inserted since a different grade structure is prescribed by section 8211 of this title for categories for which promotion lists are authorized. The words "on the active list" are inserted to conform to section 8206 (b) of this title. 10: 166a (a) (last sentence, less applicability to strength) is omitted as inapplicable to the Air Force because of section 8296 of this title. The word "regular" is substituted for the word "permanent".

AMENDMENTS

1967—Subsec. (b). Pub. L. 90–130 struck out subsec. (b), which provided that of the authorized strength in medical specialists on the active list of the Regular Air

Force, not more than one could be in the regular grade of colonel and not more than twenty could be in the regular grade of lieutenant colonel.

1957—Pub. L. 85–155 substituted "Commissioned" for "commissioned" and "medical specialists" for "women medical specialists" in the catchline.

Subsec. (a). Pub. L. 85–155 substituted "Air Force medical specialists" for "women medical specialists", and "is as prescribed by the Secretary of the Air Force within the authorized strength of the Regular Air Force in commissioned officers on the active list" for "is 53, or 9/10,000 of the authorized strength prescribed in section 8203 of this title, whichever is greater".

Subsec. (b). Pub. L. 85–155 substituted provisions relating to the authorized strength in medical specialists in the regular grade of colonel and lieutenant colonel for provisions which related to the authorized strength in women medical specialists in the regular grades of major and captain.

§ 8208. Regular Air Force: commissioned officers on active list; female commissioned officers, other than those designated under section 8067 of this title to perform professional functions.

(a) The authorized strength in female commissioned officers on the active list of the Regular Air Force, other than those designated under section 8067 of this title to perform professional functions, is as prescribed by the Secretary of the Air Force.

(b) Repealed. Pub. L. 90–130, § 1(26)(C), Nov. 8, 1967, 81 Stat. 382.

(Aug. 10, 1956, ch. 1041, 70A Stat. 499; Nov. 8, 1967, Pub. L. 90–130, § 1(26)(C), 81 Stat. 382.)

In subsection (a), 5: 627a (proviso) is omitted as executed. The words "is as prescribed" are substituted for the words "shall be determined".

In subsections (a) and (b), the words "other than those designated under section 8067 of this title to perform professional functions" are inserted, since the source statute applied only to women appointed under Title III of that statute. The words "on the active list" are inserted for clarity. The words "from time to time" are omitted as surplusage.

AMENDMENTS

1967—Subsec. (a). Pub. L. 90–130 struck out provision that the authorized strength in female commissioned officers on the active list of the Regular Air Force could not be more than 2 percent of the authorized strength of the Regular Air Force in commissioned officers on the active list.

Subsec. (b). Pub. L. 90–130 struck out subsec. (b) which provided that the authorized strength of female commissioned officers on the active list in the regular grade of lieutenant colonel, other than those designated under section 8067 of this title to perform professional functions, could not exceed 10 percent of the authorized strength of female commissioned officers on the active list other than those designated under section 8067 of this title to perform professional functions.

AMENDMENTS

1967—Pub. L. 90–130 removed provision which had excepted Air Force nurses and medical specialists from the commissioned officers in the Regular Air Force whose authorized strength the Secretary of the Air Force has authority to prescribe.

1958—Pub. L. 85–861 eliminated the word "women" which preceded "medical specialists".

§ 8210. Regular Air Force: strength in grade; general officers.

(a) Subject to section 8202 (a) of this title, the authorized strength of the Regular Air Force in general offices on the active list is 75/10,000 of the authorized strength of the Regular Air Force in commissioned officers on the active list. Of this authorized strength, not more than one-half may be in a regular grade above brigadier general.

(b) When the application of subsection (a) results in a fraction, a fraction of one-half or more is counted as one, and a fraction of less than one-half is disregarded.

(c) General officers on the active list of the Regular Air Force who are specifically authorized by law to hold a civil office under the United States, or an instrumentality thereof, are not counted in determining authorized strength under this section. (Aug. 10, 1056, ch. 1041, 70A Stat. 1514; Sept. 2, 1958, Pub. L. 85–861, § 1 (161), 72 Stat. 1514.)

HISTORICAL AND REVISION NOTES

Revised section	Source (U. S. Code)	Source (Statutes at Large)
8210 (a)	10: 506a (a) (words before 1st semicolon).	Aug. 7, 1947, ch. 512, § 503 (a) 61 Stat. 885.
8210 (b)	10: 506a (a) (less words before 1st semicolon, and less provisos).	
8210 (c)	10: 506a (a) (1st, 2d, and 3d provisos).	
8210 (d)	10: 506a (a) (4th proviso).	
8210 (e)	10: 506a (a) (last proviso).	

As enacted, section 503 (a) of the Officer Personnel Act of 1947 (10: 506a (a)) provided, subject to certain percentage limitations, for the following authorized strength of the Regular Army in general officers on the active list:

Medical Corps	16
Dental Corps	4
Veterinary Corps	1
The Chaplains	2
Army, exclusive of the above	334
Total	357

Under section 208 (e) of the National Security Act of 1947 (5 U. S. C. 626c (e)), allocations of those authorized

strengths were made between the Army and the Air Force as follows:

	Army	Air Force
Medical Corps	12	4
Dental Corps	3	1
Veterinary Corps	1	0
The Chaplains	1	1
Army and Air Force, exclusive of the above	184	150
Total	201	156

After the enactment of the Officer Personnel Act of 1947, section 308 of the Army Organization Act of 1950 (10: 61–1) provided for an Assistant Judge Advocate General and three brigadier generals in the Judge Advocate General's Corps of the Army. The creation of these four general officer spaces served to increase the mentioned authorized strength figure from 357 to 361, and the figure 201 to 205. The opinion of the Judge Advocate General of the Army (JAGA 1948/5806, 2 Sept. 1948) is in accord with that conclusion.

The revised section reflects the authorized strength of the Regular Air Force in general officers on the active list resulting from the mentioned allocation to the Air Force.

That allocation, and those mentioned in the explanation of subsection (c) below, have had the force of law since July 26, 1950, when the period for transfers, including the administrative authority to change these allocations, expired.

The word "regular" is substituted for the word "permanent" throughout the revised subsection.

In subsection (c), 10: 506a (a) (1st proviso) is omitted, since there is no authority to appoint to a regular grade above major general. 10: 506a (a) (last 65 words of 2d proviso) is omitted as executed by the declaration of a national emergency on December 16, 1950.

In subsection (c) (1), the figures "4" and "2" result from the allocation of the original figures "16" and "8".

In subsection (c) (2), the figure "1" results from the allocation of the original figures "4" and "2".

In subsection (c) (3), the figure "1" results from the allocation of the original figures "2" and "1". (The major general was allocated to the Army, the brigadier general to the Air Force.)

In subsection (c) (4), the figures "150" and "75" result from the allocation of the original figures "334" and "167". That allocation corresponds to the allotment made by the Secretary of War between the Air Corps and the Army exclusive of the Air Corps, the Medical Department, and the Chaplains, under 10: 506a (a) (3d proviso). That proviso is omitted as executed.

In subsection (e), the words "by law to hold any civil office under the United States" are substituted for the words "by Acts of Congress to hold appointments in the Diplomatic or Consular Service of the Government or to hold any civil office under the Government".

AMENDMENTS

1958—Subsec. (a). Pub. L. 85–861 inserted "Subject to section 8202 (a) of this title," preceding "the", and eliminated provisions which excluded the number of commissioned officers on the active list authorized by former subsec. (b) of this section and medical service officers.

Subsec. (b). Pub. L. 85–861 redesignated former subsec. (d) as (b), and eliminated former subsec. (b) which prescribed the authorized strength of general officers as medical, dental, and veterinary officers, and as chaplains.

Subsec. (c). Pub. L. 85–861 redesignated former subsec. (e) as (c), and eliminated former subsec. (c), which prescribed the maximum number of general officers for the active list of the Regular Air Force.

§ 8211. Regular Air Force: strength in grade; promotion-list officers.

(a) Subject to subsection (b), the authorized strength of the Regular Air Force in officers in each regular grade on each of the promotion lists authorized by section 8296 of this title shall be as prescribed by the Secretary of the Air Force. A vacancy in any grade on a promotion list may be filled by an authorized appointment in any lower grade.

(b) Each strength prescribed by the Secretary under subsection (a) shall be stated as a percentage of the strength authorized for the particular list, and the schedule of percentages may be different for each list. No schedule for a list may authorize, with respect to a grade, a percentage that is higher than the sum of (1) the figure fixed for the grade according to the following table, and (2) the amounts, if any, by which the percentages fixed by the Secretary for higher grades are less than the figures fixed according to that table:

Grade	Column 1 Medical, dental, and veterinary officers, chaplains, and judge advocates	Column 2 All other promotion lists
	Percent	*Percent*
Colonel	[1] 8	[1] 8
Lieutenant colonel	14	14
Major	19	19
Captain	23	23
First lieutenant	36	18
Second lieutenant	[2] —	18

[1] Colonels whose retirement is deferred under section 8921 (b) of this title are not included within this percentage.
[2] None may be authorized by the Secretary for this category.

(Aug. 10, 1956, ch. 1041, 70A Stat. 501; Sept. 2, 1958, Pub. L. 85–861, § 1 (162), 72 Stat. 1514.)

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 280 of this title.

§ 8212. Regular Air Force; Air Force Reserve; Air National Guard of United States: strength in grade; temporary increases.

The authorized strength in any regular or reserve grade, as prescribed by or under this chapter, is

automatically increased to the minimum extent necessary to give effect to each appointment made in that grade under section 541, 1211(a), 8298, 8299, 8365 (a) and (c), 8366 (a) and (d), 8375, 8376, 8380, 8381, or 9353, of this title. An authorized strength so increased is increased for no other purpose, and while he holds that grade the officer whose appointment caused the increase is counted for the purpose of determining when other appointments, not under those sections, may be made in that grade. (Aug. 10, 1956, ch. 1041, 70A Stat. 501; Aug. 21, 1957, Pub. L. 85-155, title III, § 301(3), 71 Stat. 386; Sept. 2, 1958, Pub. L. 85-861, § 1(163), 72 Stat. 1515; June 30, 1960, Pub. AMENDMENTS

1960—Pub. L. 86-559 substituted "8370 (a) or (c), 8372(b) (except for the grade of colonel), 8374 (except for the grade of colonel), 8375, 8376 (except for general officer grades), 8380, 8381, or 9353, of this title to the extent necessary to allow the appointment of reserve officers, in grades not above lieutenant colonel, to fill prescribed mobilization or active duty requirements" for "8375, 8376, 8380, 8381, or 9353, of this title", and inserted "or not to fill one of those requirements" after "not under those sections."

1958—Pub. L. 85-861 inserted "Air Force Reserve; Air National Guard of United States" in the catchline, and included authorized strength in reserve grades, and appointments made under sections 541, 8365 (a), (c), 8366 (a), (d), 8375, 8376, 8380 and 8381 of this title.

1957—Pub. L. 85-155 eliminated reference to appointments made under section 8304 of this title.

An authorized strength so increased is increased for no other purpose, and while he holds that grade the officer whose appointment caused the increase is counted for the purpose of determining when other appointments, not under this section [section 14 of Pub. In subsection (b), 10: 591 (last sentence, less proviso), is omitted as superseded by 10: 20s (b) (last sentence). The words "of the Regular Army on the active list" are substituted for the words "permanent * * * in active service". The word "regular" is inserted for clarity.

SUSPENSION OF RESTRICTIONS ON PERSONNEL STRENGTH

Suspension until July 1, 1971, see note set out under section 3201 of this title.

§ 8214. Regular Air Force: enlisted members on active duty.

The authorized strength of the Regular Air Force in enlisted members on active duty, exclusive of officer candidates and aviation cadets, is 502,000 less the number of members of the Air Force on active duty who are neither enlisted members of the Regular Air Force nor members of the Air Force in the categories listed in section 8201 (a) (1)—(6) of this title. (Aug. 10, 1956, ch. 1041, 70A Stat. 501; Sept. 2, 1958, Pub. L. 85-861, § 1 (159), 72 Stat. 1514.)

HISTORICAL AND REVISION NOTES

Revised section	Source (U. S. Code)	Source (Statutes at Large)
8214	No source.	No source.

The revised section is inserted to make explicit in the law the authorized strength of the Regular Air Force in enlisted members on active duty, which has heretofore been implied from provisions relating to the strength

of the Air Force in members on active duty. The implication is based on an opinion of the Judge Advocate General of the Army (JAGA 1951/1549, 14 Feb. 1951), construing the same laws as applicable to the Army, that the authorized strength of the Regular Army in enlisted members on active duty is the authorized strength of the Regular Army in members on active duty, less the number of commissioned and warrant officers of the Regular Army on active duty. In stating those members excluded, reference is made only to officer candidates and aviation cadets, since there are no Regulars in the other categories listed in section 8201 (a) of this title. An express statement in the law of the authorized strength of the Regular Air Force in enlisted members on active duty is desirable, since section 8215 (b) of this title expressly refers to that authorized strength.

AMENDMENTS

1958—Pub. L. 85-861 substituted "section 8201 (a) (1)—(6)" for "section 8201 (a) (1)—(5)".

§ 8215. Regular Air Force: female warrant officers on active list.

(a) The authorized strength of the Regular Air Force in female warrant officers on the active list is as prescribed by the Secretary of the Air Force.

(b) Repealed. Pub. L. 90-130, § 1(26)(E), Nov. 8, 1967, 81 Stat. 382.

(Aug. 10, 1956, ch. 1041, 70A Stat. 502; Nov. 8, 1967, Pub. L. 90-130, § (26) (E), (F), 81 Stat. 382.)

The last sentence is substituted for 10: 622 (proviso). The words "by regulations or otherwise" are omitted, since the Secretary has inherent authority to issue regulations appropriate to exercising his statutory functions. Since the authority to enlist deserters "in meritorious cases", granted to the Secretary by 10: 622 is equivalent to or broader than his authority to do so under 10: 624, the applicability of 10: 624 to 10: 622 is omitted as surplusage.

In subsections (b) and (c), the first 15 words and the proviso of section 2 of the act of August 1, 1894, ch. 179, 28 Stat. 216, are not contained in 10: 623 or 625. They are also omitted from the revised section, since the first 15 words are superseded by section 8256 (a) of this title, and the proviso is executed.

In subsection (c), the words "(except an Indian)", in section 2 of the act of August 1, 1894, ch. 179, 28 Stat. 216, are not contained in 10: 625. They are also omitted from the revised section, since section 201 (b) of the

act of October 14, 1940, ch. 876, 54 Stat. 1138 (8 U. S. C. 601), provides that Indians are citizens and nationals of the United States. The words "may be accepted for original" are substituted for the words "shall be enlisted for the first".

§ 8258. Regular Air Force: reenlistment after service as an officer.

Any former enlisted member of the Regular Air Force who has served on active duty as a reserve officer of the Air Force, or who was discharged as an enlisted member to accept a temporary appointment as an officer of the Air Force, is entitled to be reenlisted in the Regular Air Force in the enlisted grade that he held before his service as an officer, without loss of seniority or credit for service, regardless of the existence of a vacancy in his grade or of a physical disability incurred or having its inception in line of duty, if (1) his service as an officer is terminated by an honorable discharge or he is relieved from active duty for a purpose other than to await appellate review of a sentence that includes dismissal or dishonorable discharge, and (2) he applies for reenlistment within six months (or such other period as the Secretary of the Air Force prescribes for exceptional circumstances) after termination of that service. However, if his service as an officer terminated by a general discharge, he may, under regulations to be prescribed by the Secretary of the Air Force, be so reenlisted. (Aug. 10, 1956, ch. 1041, 70A Stat. 505; Aug. 8, 1958, Pub. L. 85–603, § 1 (3), 72 Stat. 526.)

SERVICE CREDIT ADJUSTMENT FOR AIR FORCE NURSES OR MEDICAL SPECIALISTS

Section 302 of Pub. L. 85-155 provided that: "The Secretary of the Air Force may convene boards of officers to review the records and compute the service of each Air Force nurse or medical specialist who is on the active list of the Regular Air Force on the effective date of this Act [August 21, 1957], in order to adjust the service credited to each of them to reflect the service authorized to be credited under section 8287 (b) of Title 10, United States Code [this section]. When that adjustment is made, the officers whose credit is so adjusted shall be given precedence for promotion purposes in accordance with their adjusted dates of rank. If, as a result of readjustment of service credit under this section, an officer becomes eligible for promotion, she shall be considered for promotion by the next selection board considering officers of her grade and category. If she is promoted on the recommendation of that board, her date of regular grade and her position on the applicable promotion list shall be adjusted to reflect her increased service."

§ 8288. Commissioned officers: original appointment; determination of grade.

(a) Except for a person appointed with a view to designation as a medical or dental officer or as an Air Force nurse or medical specialist, the commissioned grade in which a person is originally appointed in the Regular Air Force, based on the service credited under section 8287 (a) of this title, is:

(1) For persons with less than three years of service—second lieutenant.

(2) For persons with at least three, but less than seven, years of service—first lieutenant.

(3) For persons with at least seven, but less than 14, years of service—captain.

(4) For persons with at least 14, but less than 21, years of service—major.

(5) For persons with at least 21 years of service—lieutenant colonel.

(b) Based on the service credited under section 8287 (b) of this title, the commissioned grade in which an Air Force nurse or medical specialist is originally appointed in the Regular Air Force is:

(1) For persons with less than three years of service who on the date of nomination have not passed their twenty-seventh birthday and who are not qualified under clause (2)—second lieutenant.

(2) For persons with less than seven years of service who are qualified under regulations prescribed by the Secretary of the Air Force and who on the date of nomination have not passed their thirtieth birthday—first lieutenant.

(3) For persons with at least seven years of service who on the date of nomination have not passed their thirty-ninth birthday—captain.

The maximum ages specified in clauses (1) and (2) of this subsection are increased by the period of active commissioned service which the member performed in the armed forces after December 6, 1941, but not by more than five years. (Aug. 10, 1956, ch. 1041, 70A Stat. 508; Aug. 21, 1957, Pub. L. 85-155, title III, § 301 (7), 71 Stat. 387; Sept. 2, 1958, Pub. L. 85-861, § 1 (170), 72 Stat. 1518.)

The exception as to section 8294 of this title is inserted, since the grade in which persons are appointed under that section are not limited by this revised section. The tenth through twentieth words are substituted for 10: 506c (d) (1st 14 words). The words "at least" are substituted for the word "more". The words "who have no service credit and those who are credited", "shall be appointed in the grade of", and "who are credited" are omitted as surplusage.

AMENDMENTS

1958—Subsec. (a). Pub. L. 85-861 inserted provisions relating to grade of persons with at least 14 but less than 21 years of service, and of persons with at least 21 years of service.

Subsec. (a). Pub. L. 85-155, § 301(7)(A)(C), designated existing provisions as subsec. (a), and substituted "subsection (b) of this section and section 8294" for "section 8294", and "section 8287(a), (c), (d), or (e)" for "section 8287".

Subsec. (b). Pub. L. 85-155, § 301(7)(D), added subsec. (b).

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 8287 of this title.

§ 8289. Commissioned officers; medical officers: original appointment; professional examination.

No person may be originally appointed as a first lieutenant in the Regular Air Force with a view to designation as a medical officer, until he passes an examination of his professional fitness before an examining board composed of at least three medical officers designated by the Secretary of the Air Force. (Aug. 10, 1956, ch. 1041, 70A Stat. 509.)

The words "may be originally appointed" are substituted for the words "shall receive an appointment". The words "in the Regular Air Force" are inserted, since the source statute when enacted applied only to members of that component. The words "until he passes an

examination" are substituted for the words "unless he shall have been examined and approved". The words "of his professional fitness" are inserted to distinguish the examination required by the revised section from the required physical examination.

§ 8293. Commissioned officers; chaplains: original appointment; examination.

No person in civil life may be originally appointed in the Regular Air Force with a view to designation as a chaplain unless he has passed an examination prescribed by the President as to his moral, mental, and physical qualifications. (Aug. 10, 1956, ch. 1041, 70A Stat. 509.)

8293	10: 232	Mar. 2, 1899, ch. 352, § 7, 30 Stat. 979.

The words "in the Regular Air Force" are inserted, since the source statute historically applied only to the regular component. The word "originally" is inserted for clarity. The word "satisfactorily" is omitted as surplusage. Only so much of the third proviso of section 7 of the act of March 2, 1899, ch. 352, 30 Stat. 979, as relates to chaplains is contained in 10: 232. The applicability of the third proviso to judge advocates is also omitted from the revised section as covered by sections 8285 and 8286 of this title. The applicability of the third proviso to paymasters is similarly omitted, since the Finance Corps is not a continuation of the Pay Department (see opinion of the Judge Advocate General of the Army (SPJAG 168, 27 Mar. 1942)). The second proviso of section 7 of that act is omitted as superseded by section 8504 of this title; the last proviso as executed; and the remainder as inapplicable to the Air Force, since it does not have organic corps created by statute.

DELEGATION OF FUNCTIONS

Functions of the President under this section delegated to the Secretary of Defense, see section 1(2) of Ex. Ord. No. 11390, Jan. 22, 1968, 33 F.R. 841, set out as a note under section 301 of Title 3, The President.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 8067 of this title.

§ 8294. Commissioned officers; medical and dental officers; original appointment.

(a) Original appointments in the Regular Air Force may be made in the grades of first lieutenant through colonel with a view to designation as medical or dental officers, as the needs of the Air Force require. These appointments may be made only from qualified doctors of medicine, osteopathy, or dentistry, as the case may be, who are citizens of the United States and who have such other qualifications as the Secretary of the Air Force may prescribe. In addition, to be eligible for appointment under this section with a view to designation as a medical officer, a doctor of osteopathy must—

(1) be a graduate of a college of osteopathy whose graduates are eligible to be licensed to practice medicine or surgery in a majority of the States;

(2) be licensed to practice medicine, surgery, or osteopathy in a State or Territory or in the District of Columbia;

(3) under regulations to be prescribed by the Secretary of Defense, have completed a number of years of osteopathic and preosteopathic education equal to the number of years of medical and premedical education prescribed for persons entering recognized schools of medicine who become doctors of medicine and who would be qualified for appointment under this section in the grade for which that person is applying; and

(4) have such other qualifications as the Secretary of the Air Force prescribes after considering the recommendation, if any, of the Surgeon General.

(b) For the purposes of determining grade, position on a promotion list, seniority in his grade in the Regular Air Force, and eligibility for promotion, an officer appointed under subsection (a) shall be credited with the amount of service prescribed by the Secretary, but not less than four years. However, a doctor of medicine or osteopathy who has completed an internship of one year, or the equivalent may not be credited with less than five years. (Aug. 10, 1956, ch. 1041, 70A Stat. 509; Sept. 2, 1958. Pub. L. 85-861, § 1 (173), 72 Stat. 1518.)

8294 (b)	10: 91a (less 1st and 2d sentences); 10: 121a (less 1st and 2d sentences).	

In subsection (a), the words "Notwithstanding sections 8285, 8286, and 8287 of this title" are inserted, since this section is an exception to those sections. (See opinion of the Judge Advocate General of the Army (1948/2124, 1 Mar. 1948). The words "Subject to any limitation of the commissioned strength of the Army prescribed by law", in 10: 91a and 121a, are omitted, since unless otherwise specified all appointments must be within the authorized strength. The words "the President, by and with the advice and consent of the Senate", in 10: 91a and 121a, are omitted as covered by section 8284 of this title. The words "in the Regular Air Force" are substituted for the word "permanent", in 10: 91a and 121a, since historically the source statute applied only to the Regular component. The words "in grades of captain through colonel" are substituted for the words "with rank not above that of colonel", in 10: 91a and 121a, since appointments in the grade of first lieutenant must be made under sections 8285, 8286, and 8287 of this title. (See JAGA 1948/2124, cited above.) The words "as the needs of the Air Force require" are substituted for the words "in such numbers as the needs of the service may require", in 10: 91a and 121a.

In subsection (b), the words "An officer appointed under subsection (a)" are substituted for the words "The doctors of medicine [dentists] so appointed", in 10: 91a and 121a.

AMENDMENTS

1958—Pub. L. 85-861 eliminated words "additional method authorized as exception to general procedure" from the catchline.

Subsec. (a). Pub. L. 85-861 authorized appointments in the grade of first lieutenant, permitted appointment of certain osteopaths, and prescribed the qualifications for osteopaths.

Subsec. (b). Pub. L. 85-861 substituted provisions relating to crediting of service for persons appointed

under subsection (a) for purposes of determining grade, position on a promotion list, seniority in grade, and eligibility for promotion, and requiring doctors of medicine or osteopathy who have completed an internship of one year, or the equivalent, to be credited with at least five years of service, for provisions which required officers appointed under subsection (a) to be credited for promotion with the minimum number of years of service required for promotion of officers of the corps to the grade in which they are appointed.

ADJUSTMENT OF SERVICE CREDIT FOR MEDICAL AND DENTAL OFFICERS APPOINTED BEFORE MAY 1, 1956

Authorization to convene boards of officers to review the records and compute the service of medical and dental officers appointed before May 1, 1956, see section 19 of Pub. L. 85-861, Sept. 2, 1958, 72 Stat. 1559, set out as a note under section 3294 of this title.

(a) Promotion-list officers shall be promoted to the regular grades of captain, major, and lieutenant colonel, under subsections (b) and (c), or eliminated from the active list under section 8303 of this title.

(b) Without regard to vacancies, each promotion-list officer whose regular grade is first lieutenant, captain, or major shall be considered by a selection board for promotion to the next higher regular grade, far enough in advance of the date on which he will complete 7, 14, or 21 years of service with which he is entitled to be credited for promotion, as the case may be, that if recommended, he may be promoted on the date on which he will complete that service.

(c) Having in view the number of actual and anticipated vacancies on a promotion list in the regular grade of captain, major, or lieutenant colonel, the Secretary of the Air Force may direct a selection board to consider and recommend officers on that list for promotion to the next higher regular grade without regard to length of service. However, no officer may be considered for promotion under this section more than two years before the date on which it is anticipated that he will be promoted if recommended, and unless the same board considers all officers above him on that list who are not on a recommended list.

(d) The names of promotion-list officers recommended for promotion under this section and section 8301 of this title shall be carried on permanent recommended lists of their grade and promotion list in the same order among themselves as on the applicable promotion list, and they shall be promoted in that order. A promotion may be made whenever there is a vacancy, but it is not mandatory that the authorized numbers be maintained in any grade on any promotion list.

(e) Whenever an officer is promoted under subsection (b), all officers in the same grade and on the same promotion list whose names are on the recommended list above that of the officer who must be promoted because of length of service shall be promoted at the same time and shall retain among themselves their existing seniority.

(f), (g) Repealed. Pub. L. 90–130, § 1(27)(A), Nov. 8, 1967, 81 Stat. 382.

(h) A promotion-list officer who has been twice considered and not recommended for promotion to any one regular grade may not again be considered for promotion under this section. SERVICE CREDIT FOR CERTAIN OFFICERS ON ACTIVE LIST OF REGULAR AIR FORCE ON JULY 20, 1956

Section 26 of Pub. L. 85–861 provided that:

"(a) Each officer who, as a result of being credited with service under section 207 (a) or (b) of the Armed Forces Regular Officer Augmentation Act of 1956 (70 Stat. 586), becomes eligible for mandatory consideration for promotion under section 8299 or 8300 of title 10, United States Code, shall be considered by a selection board convened for that purpose in the manner prescribed in section 8297 of that title. If he is recommended for promotion by that board, his name shall be placed on the applicable promotion list immediately below that of the junior officer on that list having the same or next longer service for promotion purposes, and a date of rank shall be given him accordingly. If he is not recommended for promotion by that board, he is a deferred officer. However, such an officer may not, because of this failure of recommendation, have his years of service reduced under section 8303 of title 10, United States Code, and he shall be considered by the next regularly convened selection board considering officers of his grade and category. If he is recommended for promotion by that board, his years of service for promotion purposes shall be reduced so that he will be junior by at least one day to the junior officer who was considered and recommended for promotion by the selection board that failed to recommend him for promotion, and who has the same or next longer period of service. If he is not recommended by that selection board, he shall be treated as provided in section 8303(d) of title 10, United States Code.

"(b) An officer whose service is adjusted under this section may have his date of rank in regular grade and his position on the applicable promotion list adjusted to reflect his increased service."

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 8299 of this title.

§ 8302. Commissioned officers; medical, dental, and veterinary officers: promotion to captain, major, or lieutenant colonel; professional examination.

(a) No commissioned officer designated as a medical officer or veterinary officer whose regular grade is below lieutenant colonel may be promoted in the Regular Air Force until he passes an examination of his professional fitness before an examining board composed of three or more medical officers of the Regular Air Force selected by the Secretary of the Air Force. No commissioned officer designated as a dental officer whose regular grade is below lieutenant colonel may be promoted in the Regular Air Force

until he passes an examination of his professional fitness before an examining board composed of one medical officer and two dental officers of the Regular Air Force, selected by the Secretary. The examination shall be prescribed by the Secretary and shall be held at such time before the right to promotion accrues as may be in the best interest of the Air Force.

(b) If an officer designated as a medical, dental, or veterinary officer in the regular grade of first lieutenant or captain is found disqualified for promotion by the examining board, the Secretary shall detail a board of review to consider the findings of the examining board.

(c) A board of review shall be composed in the same manner as an examining board, except that its members must be senior in rank to the officer examined, and must not have served on the examining board that examined him.

(d) If the board of review concurs in the findings of the examining board, the officer shall be honorably discharged with one year's pay. If it does not concur in the findings, the officer shall be considered qualified and shall be promoted.

(e) An officer designated as a medical, dental, or veterinary officer in the regular grade of major who fails his first examination for promotion shall be suspended from promotion and re-examined as soon as practicable after one year from the date of his first examination. While he is so suspended from promotion, his name shall be removed from the recommended list and the years of service with which he is entitled to be credited for promotion purposes shall be reduced, if necessary, as provided in section 8303 (b) of this title.

(f) If on reexamination such a major is found qualified, his name shall be restored to the recommended list and he is eligible for promotion. If he is found disqualified for promotion, he shall be treated in the manner provided for deferred officers under section 8303 (d) of this title.

(g) While an officer is suspended from promotion under subsection (e), his right to promotion passes successively to the officers below him who are in the same grade and on the same promotion list, and who are or may become eligible for promotion.

(h) If the needs of the Air Force require that an officer entitled to promotion upon examination under subsection (a) be absent from a place where an examining board can be convened, the officer may be promoted, subject to examination as soon as practicable. However, if he is thereafter examined and found disqualified for that promotion, and if the proceedings are approved by the Secretary, he shall be treated as if he had been examined before promotion and had failed.

(i) If an officer who is found qualified for promotion under this section dies in line of duty after the occurrence of a vacancy that would entitle him to that promotion because of his seniority and before promotion, the President may issue, or have issued, an appropriate commission in the name of that officer. A commission issued under this subsection shall issue as of the date of the vacancy, and the officer's name shall be carried on the records of the Department of the Air Force as if he had served in the grade in which posthumously commissioned, from the date of the vacancy to the date of his death. No person is entitled to any bonus, gratuity, pay, or allowance because of this subsection. (Aug. 10, 1956, ch. 1041, 70A Stat. 513.)

In subsection (a), the words "at least" are substituted for the words "not less than", in 10: 101. The words "before * * * accrues" are substituted for the words "anterior to the accruing of", in 10: 101. The second sentence is substituted for 10: 125. The act of October 6, 1917, ch. 101 (less 1st proviso), 40 Stat. 397, is not contained in 10: 125. It is also omitted from the revised section either as executed or as covered by chapter 835 and sections 8067, 8209, and 8211 of this title; and by the Career Compensation Act of 1949, 63 Stat. 802 (37 U. S. C. 231 et seq.). 10: 555a (less 1st 34 words) is executed in the revised section by references to officers designated as dental and veterinary officers.

In subsection (b), the first 30 words are substituted for the words "but if he shall be found disqualified for promotion for any other reason, a second examination shall not be allowed, but". The words "to consider the findings of the examining board" are inserted for clarity.

In subsections (b) and (f), so much of 10: 102 and 103, respectively, as relate to retirement for physical disability, are omitted as superseded by chapter 61 of this title.

In subsection (c), the first 22 words are substituted for the words "to consist of three officers of the Medical Corps superior".

In subsection (d), the words "If it does not concur in the findings" are substituted for the words "If the action of the examining board is disapproved by the board of review". The words "reported disqualified for promotion" and "from the service" are omitted as surplusage.

In subsection (e), the words "fails his first examination" are substituted for the words "at his first examination * * * has been or shall hereafter be found disqualified". The words "his first examination" are substituted for the words "the completion of the examination that resulted in his suspension". The words "to the grade of lieutenant colonel" and "the expiration of" are omitted as surplusage.

The last sentence of subsection (e) is inserted, and the last sentence of subsection (f) is substituted for 10: 103 (last 61 words). 10: 555a preserved only the requirement of a professional examination for the promotion of officers of the Medical, Dental, and Veterinary Corps, and not the consequences of failure of such an examination, since the Officer Personnel Act of 1947 was intended to provide the exclusive means for the removal of officers for failure of promotion.

In subsection (f), the words "such a major" are substituted for the word "he". The words "is eligible for promotion" are substituted for the words "shall again become eligible thereto". The words "and is eligible for retirement" are inserted for clarity, since the officer might not qualify for retirement under this title. The last sentence is inserted for clarity to cover situations in which an officer is not qualified for retirement. The words "and if he is not found disqualified by reason of

such physical disability" and "for any other reason" are omitted as surplusage.

Subsection (g) is substituted for 10: 103 (59th through 93d words).

In subsection (h), the words "If the needs of the Air Force" are substituted for the words "When the exigencies of the service". The words "the officer may be promoted" are substituted for the words "the President is hereby authorized to promote such officer". The words "and had failed" are inserted for clarity. The words "who would be", "remain", and "in the same manner" are omitted as surplusage.

Subsection (i) is limited to officers designated as medical, dental, or veterinary officers, since they are the only officers required by law to be "examined" for promotion in the sense of the source statute. The words "before promotion" are substituted for the words "before the issue or acceptance of a commission therefor". The words "in which posthumously commissioned" are substituted for the words "shown in such commission". The words "after having been examined" and "with rank", in 10: 490, are omitted as surplusage. The last sentence is substituted for 10: 491.

SUSPENSION OF EXAMINATIONS FOR PROMOTION

Professional examinations for promotion of medical, dental, and veterinary officers were suspended for duration of national emergency proclaimed by Proc. No. 2914, December 16, 1950, by Ex. Ord. No. 10262, June 28, 1951, 16 F.R. 6333.

§ 8303. Commissioned officers: effect of failure of promotion to captain, major, or lieutenant colonel.

(a) In this subtitle, "deferred officer" means a promotion-list officer considered for promotion to the grade of captain, major, or lieutenant colonel under section 8299 of this title, but not recommended for promotion.

(b) The years of service with which a deferred officer is entitled to be credited for promotion purposes shall be reduced so that one year after the date on which he would have been promoted had he been recommended by a selection board he will not have more than 7, 14, or 21 years of service, if in the grade of first lieutenant, captain, or major, as the case may be.

(c) A deferred officer shall be considered again by the next selection board considering officers of his grade and promotion list. If recommended by this board, his name shall be placed on the applicable recommended list with the other officers recommended by the board, in the same order among themselves as on the promotion list, but below officers placed on that list by an earlier board. If a deferred officer is promoted upon the recommendation of the next board considering officers of his grade, his first failure does not count as a failure of selection when he is thereafter considered for promotion to another regular grade.

(d) A deferred officer who is not recommended by the next selection board considering officers of his grade and promotion list shall—

(1) if he is eligible, be retired under section 8913 of this title;

(2) if he is not eligible for retirement under section 8913 of this title, but is eligible for retirement under any other provision of law, be retired under that law on the date when he would have been retired under section 8913 of this title if he were eligible; or

(3) if he is not eligible for retirement under section 8913 of this title or any other provision of law, be honorably discharged on such date as may be requested by him and approved under regulations to be prescribed by the Secretary of the Air Force, but not later than the first day of the seventh calendar month after the Secretary approves the report of that board, with severance pay computed by multiplying his years of service, but not more than 12, computed under section 8927 (a) of this title, by two months' basic pay of the grade in which he is serving on the date of his discharge.

However, no person is entitled to severance pay under this section in an amount that is more than $15,000.

(e) For the purposes of subsection (d) (3), a part of a year that is six months or more is counted as a whole year, and a part of a year that is less than six months is disregarded. (Aug. 10, 1956, ch. 1041, 70A Stat. 514; Aug. 21, 1957, Pub. L. 85–155, title III, § 301(13), 71 Stat 388; July 12, 1960, Pub. L. 86–616, § 6(3), 74 Stat. 391; June 28, 1962, Pub. § 8308. Commissioned officers: effect of removal from recommended list by President or failure of confirmation by Senate.

The President may remove from a recommended list for promotion to any grade the name of any promotion-list officer or brigadier general of the Regular Air Force who in his opinion is not qualified for promotion. If an officer's name is so removed, or if the Senate does not consent to his appointment, he continues to be eligible as if he had not been considered for promotion and may be recommended by the next selection board considering officers of his grade. If he is promoted on the recommendation of that board, he has the same date of rank and place on the promotion list that he would have had if he had been promoted as a result of his original selection. If the second board considers but does not recommend an officer who would be subject to elimination for second failure of selection for promotion to the grade concerned, or if he again fails of promotion because his name is removed from the recommended list by the President or because the Senate does not consent to his appointment, he shall be eliminated from the active list under section 8303 of this title. This chapter is referred to in sections 133, 1005, 1006, 1007 of this title.

§ 8351. Officers: Air National Guard of United States.

(a) Upon being federally recognized, an officer of the Air National Guard shall be appointed as a Reserve for service as a member of the Air National Guard of the United States in the grade that he holds in the Air National Guard. However, an officer of the Air Force Reserve who is federally recognized as an officer of the Air National Guard becomes an officer of the Air National Guard of the United States and ceases to be an officer of the Air Force Reserve. The acceptance of an appointment as a Reserve for service as a member of the Air National Guard of the United States by an officer of the Air National Guard does not vacate his office in the Air National Guard.

(b) When an officer of the Air National Guard to whom temporary Federal recognition has been extended is appointed as a Reserve for service as a member of the Air National Guard of the United States, his appointment shall bear the date of the temporary recognition and shall be considered to have been accepted and effective on that date.

(c) When the Air National Guard of the United States is ordered to active duty, any officer of the Air National Guard who is not a Reserve of the Air Force may be appointed by the President as a Reserve for service as a member of the Air National Guard of the United States in the grade that he holds in the Air National Guard. SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 123 of this title.

§ 8363. Commissioned officers: selection boards; general procedure.

(a) An officer in a reserve grade above second lieutenant may not be considered for promotion, or examined for Federal recognition in the next higher grade, until he completes the following number of years of service, computed under section 8360 (e) of this title, in his current reserve grade:

(1) First lieutenant—two years.
(2) Captain—four years.
(3) Major—four years.
(4) Lieutenant colonel—three years.
(5) Colonel—one year.
(6) Brigadier general—one year.

This subsection does not apply to an adjutant general or assistant adjutant general of a State or Territory, Puerto Rico, the Canal Zone, or the District of Columbia who holds his reserve grade solely because of his position as adjutant general or assistant adjutant general.

(b) An officer may not be considered by a selection board for promotion under this chapter more than two years, if in a reserve grade below colonel, or more than one year, if in a reserve grade above lieutenant colonel, before the date on which it is anticipated that he will be promoted if recommended by the selection board.

(c) Except for officers being considered under section 8366, 8372, or 8373 of this title, and except for deferred officers who may not be considered at that time, an officer may not be considered by a selection board for promotion unless the board considers all officers who are senior to him in his reserve grade and who are not on a recommended list.

(d) The names of officers recommended by a selection board for promotion shall be placed on a recommended list of their grade below the names of those recommended by earlier selection boards and in the same order among themselves as existed when they were considered by the selection board. A name so placed on a list shall be carried thereon until the

officer is promoted to the grade for which he is recommended or until his name is removed under another provision of this chapter.

(e) Except as provided in section 8366(c), 8372, 8374, or 8379 of this title or subsection (f) or (g) of this section, a reserve officer whose name is on a recommended list may not be promoted ahead of any officer whose name precedes his on that recommended list.

(f) A promotion under this chapter may be made effective before, on, or after the date on which it is made. Unless expressly provided otherwise in this chapter, the officer concerned is entitled to the pay, allowances, and any other benefits authorized by law for the grade to which he is promoted from the effective date of the promotion.

(g) The promotion of a reserve commissioned officer who is under investigation or against whom proceedings of a court-martial or a board of officers are pending may be delayed until the investigation or proceedings are completed. However, a promotion may not be delayed under this subsection for more than one year after the date he is selected for promotion unless the Secretary of the Air Force determines that a further delay is necessary in the public interest. (Added Pub. L. 85–861, § 1(178)(c), Sept. 2, 1958, 72 Stat. 1522, and amended Pub. L. 86–559, § 1(52), June 30, 1960, 74 Stat. 275.)

§ 8366. Commissioned officers: promotion to captain, major, or lieutenant colonel.

(a) Without regard to vacancies, each officer whose reserve grade is first lieutenant, captain, or major shall be considered for promotion to the next higher reserve grade, far enough in advance of the date on which he will complete the years of service prescribed in columns 2 and 3 of the following table that, if recommended, he may be promoted effective on the date on which he will complete that service.

Column 1 Current reserve grade	Column 2 Service computed under sec. 8360 (e) of this title	Column 3 Service computed under subsec. (e)
First lieutenant	4	7
Captain	7	14
Major	7	21

(b) Having in view the number of actual and anticipated vacancies in the Air Force Reserve in the reserve grade of captain, major, or lieutenant colonel, the Secretary of the Air Force may direct a selection board to consider and recommend officers for promotion to those grades. The names of the officers to be considered shall include—

(1) the name of the senior officer of the Air Force Reserve in the reserve grade of first lieutenant, captain, or major, as the case may be, whose name is not on a recommended list;

If he is not so appointed in the next higher grade in the Air National Guard, he shall, effective as of the date on which he must be promoted under subsection (d), have his Federal recognition terminated, be transferred to the Air Force Reserve, and be promoted.

(d) An officer whose reserve grade is first lieutenant, captain, or major and whose name is on a recommended list may be promoted at any time to fill a vacancy, and shall be promoted, without regard to the existence of a vacancy, on the date on which he completes the service prescribed in subsection (a).

(e) For the purpose of column 3 of subsection (a), an officer's years of service are computed by adding—

(1) all service as a commissioned officer of any armed force;

(2) all service before June 15, 1933, as a commissioned officer in the federally recognized National Guard or in a federally recognized commissioned status in the National Guard, and in the National Guard after June 14, 1933, if his service therein was continuous from the date of his Federal recognition as an officer therein to the date of his appointment in the National Guard of the United States; and

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 123, 8372 of this title.

§ 8368. Commissioned officers: effect of failure of promotion to captain, major, or lieutenant colonel.

(a) In this chapter, "deferred officer" means any of the following officers who has been considered, for the first time under this chapter, by a selection board for promotion to the next grade higher than his current reserve grade but not recommended for that promotion, who has been examined for the first time for Federal recognition in the next grade higher than his current reserve grade, but found not qualified for that recognition, or who has been recommended or found qualified and declined that promotion:

(1) An officer in the reserve grade of first lieutenant or captain.

(2) An officer in the reserve grade of major.

(b) The years of service computed under sections 8360 (e) and 8366 (e) of this title, with which a deferred officer is credited shall be reduced, if necessary, so that one year after the date on which he would have been promoted if he had been recommended by a selection board he will not have more than four years of service computed under section 8360 (e) of this title if he is in the reserve grade of first lieutenant, or seven years of that service if he is in the reserve grade of captain or major. For the purpose of this subsection, the date on which a deferred officer would have been promoted had he been recommended is the earlier of the following dates—

(1) the earliest date of appointment in the next higher reserve grade of any officer who, before the deferred officer's loss of seniority, was junior to him; or

(2) the date on which he would have completed the amount of service prescribed in columns 2 and 3 of section 8366 (a) of this title, if his years of service had not been reduced under this section.

(c) Unless he is sooner recommended for promotion under section 8372 of this title or examined for Federal recognition in the next higher grade—

(1) an officer who is deferred because he was considered but not recommended by a selection board shall be considered for promotion by the next selection board considering officers of his grade and category under section 8366 of this title; and

(2) an officer who is deferred because he was found not qualified for Federal recognition shall be considered for promotion by the next appropriate selection board convened under section 8366 of this title when the officer next junior to him is also considered, but not before one year after the date on which he was found not qualified for Federal recognition.

(d) An officer who is deferred because he was considered but not recommended by a selection board may, if he is appointed to the next higher grade in the Air National Guard, be examined for Federal recognition in that grade at any time before the date on which he must be considered for promotion under subsection (c) (1).

(e) An officer who is deferred because he was found not qualified for Federal recognition in the

next higher grade may be again examined for Federal recognition in that grade at any time before the date on which he must be considered for promotion under subsection (c) (2), but not before one year after the date on which he was first found not qualified for Federal recognition in that grade.

(f) A deferred officer who is again considered for promotion under subsection (c) (1) and is not recommended for promotion, or is recommended and declines the promotion, may not thereafter be considered for promotion or examined for Federal recognition, and shall be treated as provided in section 8846(a) of this title and section 323(e) of title 32.

(g) A deferred officer who is again considered for promotion or examined for Federal recognition in the next higher grade under subsection (c) (2), (d), or (e), and is not recommended for promotion or found qualified for Federal recognition, or is recommended or found qualified and declines the promotion, may not thereafter be considered for promotion or examined for Federal recognition, and shall be treated as provided in section 8846(b) of this title and section 323(e) of title 32. (Added Pub. L. 85-861, § 1(178) (C), Sept. 2, 1958, 72 Stat. 1525, and amended Pub. L. 86-559, § 1(55), June 30, 1960. 74 Stat. 276; Pub. L. 90-130, § 1(28) (B), Nov. 8, 1967, 81 Stat. 382.)

In subsection (a), the words "than his current reserve grade" are inserted for clarity. In clauses (2) and (3), the word "female" is inserted before the words "Air Force nurse or medical specialist", since the source text applied only to women. (See opinion of The Judge Advocate General of the Air Force dated February 1, 1956 (4th par. on page 3).) In clause (3), the words "or a female officer who is not designated under section 8067 of this title or appointed in the Air Force with a view to designation under that section" are substituted for the words "female Reserve officers appointed under section 310 of the Women's Armed Services Integration Act of 1948", since that section was repealed by section 803 of the Armed Forces Reserve Act of 1952 (66 Stat. 506). The quoted words were intended to refer to those female officers who were appointed with a view to performing general duties and were not intended to refer to those appointed with a view to performing professional duties.

In subsection (b), 50: 1352 (a) (1) (A) is omitted, since officers who are recommended by a previous promotion board must be promoted, under section 8363 of this title, before officers recommended by a later board. Clause (2) is substituted for 50: 1352 (a) (2) (B).

In subsection (d), the words "or promoted to" are omitted as covered by the words "appointed to".

In subsection (f), the words "by that selection board" are omitted as surplusage.

AMENDMENTS

1967—Subsec. (a) (2). Pub. 1960—Subsec. (a). Pub. L. 86-559, § 1(55)(A), included within the definition of "deferred officer" any officer who has been recommended or found qualified and declined that promotion, and Air Force nurses and medical specialists in the grade of captain.

Subsec. (f). Pub. L. 86-559, § 1(55) (B), included deferred officers who are recommended and decline the promotion.

Subsec. (g). Pub. L. 86-559, § 1(55) (C), included officers who are recommended or found qualified and decline the promotion.

8571 (a)	10: 511 (1st sentence).	June 3, 1916, ch. 134, § 127a (8th par.); added June 4, 1920, ch. 227, subch. I, § 51 (8th par.); restated Feb. 28, 1925, ch. 371, § 5, 43 Stat 1078; Dec. 14, 1942, ch. 732, 56 Stat. 1050.
8571 (b)	10: 511 (2d sentence).	
8571 (c)	10: 511 (less 1st and 2d sentences).	

In subsection (a), the words "Unless special assignment is made by the President under the provisions of the One hundred and nineteenth Article of War", are omitted as surplusage, since they relate to command and not to rank. The substance of the omitted words is covered by section 8578 of this title.

In subsection (a) (1), the words "serving in his regular grade" are inserted, since clause (2) covers all officers serving in a temporary grade.

Subsection (a) (2) is inserted as a necessary implication of the words "is that stated in his commission or letter of appointment".

In subsection (a) (3), the words "Federal service" are substituted for the words "service of the United States". The words "his date of rank precedes the date of his entry" are substituted for the words "shall precede that on which he is placed". The words "of his active duty" are substituted for the words "equal to the total length of active Federal service". The words "placed on active duty" are substituted for the word "called", since the clause applies to Reserves who are "ordered" as well as officers of the Air National Guard who are "called". The words "is his date of entry on active duty" are inserted to make explicit that which is implicit in the statement of the rule applicable to officers with prior service in the same or a higher grade.

In subsection (b), the words "which shall include all time served on active duty as a commissioned officer in the Federal service" are omitted as surplusage. The reference to sections 144—146 of title 32 is omitted, since those sections relate to pay and allowances only.

In subsection (c), the introductory clause is substituted for the words "When length of such service is the same" to reflect revised subsections (a) and (b). The words "shall take rank among themselves according to their places on the promotion list" are omitted, since rank among regular officers is covered by sections 8573 and 8574 of this title. Clause (2) is inserted for clarity to reflect those sections. The words "rank before" are substituted for the word "preceding". The words "of the same date of rank and length of service" are omitted as covered by the introductory clause.

AMENDMENTS

1960—Subsec. (a) (3). Pub. L. 86–559 added cl. (B), redesignated former cl. (B)—(D) as (C)—(E), and substituted "June 30, 1955" for "July 1, 1955", "current reserve grade" for "current grade", and "higher reserve grade" for "higher grade" wherever appearing.

1958—Subsec. (a). Pub. L. 85–861, § 1 (183), eliminated references to officers of the Air National Guard called into Federal service, permitted reserve officers to credit the years of service after July 1, 1955 that are credited to them under section 1332 (a) of this title, and the periods of service performed under section 502 of Title 32, and authorized reserve officers to add one day for each point for drill or equivalent instruction after July 1, 1955, that is credited under section 1332 (a) (2) (B) of this title.

Subsec. (b). Pub. L. 85–861, § 1 (183), substituted "rank is determined by adding all active commissioned service in the Air Force and the Army, all commissioned service under section 502, 503, 504, or 505 of title 32, and all service credited for points under section 1332 (a)(2) (B) of this title" for "rank is determined by length of all active commissioned service in the Air Force and the Army and commissioned service under sections 503, 504, and 505 of title 32".

Subsec. (c). Pub. L. 85–861, §§ 1 (183), 33 (a) (41), substituted "and service computed" for "and length of active commissioned service computed" in opening provisions, and "sections 8573 and 8574" for "sections 8273 and 8274" in cl. (2), and eliminated officers of the Air National Guard from clauses (1) and (3).

EFFECTIVE DATE OF 1958 AMENDMENT

Amendment of subsec. (c) (2) of this section by section 33 (a) (41) of Pub. L. 85–861 effective Aug. 10, 1956, see section 33 (g) of Pub. L. 85–861, set out as a note under section 101 of this title.

The words "active service" are substituted for the words "active Federal military service" and "active military service" for uniformity. In clauses (1) and (2), the words "as it existed at any time before April 16, 1947" are inserted for clarity, since the legislative history of 10: 166i shows that the reference is intended to apply to the corps established by law before April 16, 1947. Service as an Air Force nurse would now be included as "other service that may be credited". In clause (4), the word "Army" is substituted for the words "War Department", appearing in section 110 of the Army-Navy Nurses Act of 1948, as amended by section 3 (f) of the act of May 16, 1950, ch. 186, 64 Stat. 161, and the words "Department of the Army", in 10: 166i, since the Medical Department was in the Army and not in the War Department. The words "Army Medical Service", inserted by the editors of the United States Code, are omitted, since the Army Medical Service was not in existence during the time covered by the service described. The words "if the service was performed after" are substituted for the words "rendered subsequent to".

In clause (2), the word "receive", in 50: 1124 (b), is omitted as surplusage. The reference to sections 144—146 of title 32 is omitted, since those sections related to pay and allowances, not to the performance of duties, and were superseded by the Career Compensation Act of 1949, 63 Stat. 802 (37 U. The references in 32: 160a, to 10: 22—23, 24—26, and 30—36, are omitted as repealed by section 401 of the Army Organization Act of 1950, 64 Stat. 271. The words "shall be deemed to have been in the active military service during such period and", in 10: 456; and "in all respects" and "now or may hereafter", in 10: 456 and 32: 160a; are omitted as surplusage.

In clause (1), the words "to active duty" are substituted for the words "into the active military service by the Federal Government", in 10: 456, and "if engaged", in 32: 160a. (a) Under such regulations as the President may prescribe, the following persons are entitled to the benefits of subsection (b):

(2) Each member of the Air Force Reserve who is injured in line of duty while not on active duty and while voluntarily participating in an aerial flight in a Government-owned aircraft under proper authority and as an incident of training.

(3) Each person attending a Citizens' Air Training Camp, who is injured, or contracts a disease in line of duty while traveling to or from, or while attending, a training camp under section 9411 of this title.

(2) the basic pay and allowances, whether in money or in kind, to which he was entitled at the time when the injury was incurred or the disease contracted, during the period of his hospitalization or rehospitalization, but not for more than a total of six months after the end of his prescribed tour of duty or training;

8722 (b)	10: 455a (less 1st 73 words); 10: 455b (less 1st 55 words); 10: 455c (less 1st 63 words).	

In subsection (a), the words "the following persons * * * to the benefits of subsection (b)" are inserted for clarity. 10: 455a (words between 1st and 2d semicolons) is omitted as executed.

In subsection (a) (1), the words "Each Reserve of the Air Force" are substituted for the words "Members of the Army Reserve and members of the National Guard of the United States", in 10: 455a. The words "each officer of the Air Force who has no regular or reserve appointment" are inserted, since, under section 8491 of this title, officers without component who are on active duty are entitled to the benefits provided for reserve officers of the same grade and length of service. The words "under proper orders", in 10: 455a, are omitted as surplusage.

The words "under such regulations as he may prescribe", in 10: 455e and 32: 164d, are omitted, since the Secretary has inherent authority to issue regulations appropriate to exercising his statutory functions. The references to 10: 455a—455d and 32: 164a—164c, and the words "nor any other law of the United States shall be construed as limiting the power and authority", are omitted, since the revised section makes explicit the authority of the Secretary to require the prescribed hospitalization and care. The words "or in training, under the provision of section 62—" are omitted as covered by the words "active duty". The words "so long as any or all are necessary" and "in the active military service" are omitted as surplusage. 8814	10: 484a.	June 3, 1916, ch. 134, § 23; restated June 4, 1920, ch. 227, subch. I, § 23; restated July 25, 1939, ch. 338, 53 Stat. 1074.

The words "under such regulations as he may prescribe" are omitted, since the Secretary has inherent authority to issue regulations appropriate to exercising his statutory functions. The words "until July 1, 1942, the marriage of an officer shall not be a cause for revocation of commission" are omitted as executed. The word "appointment" is substituted for the word "commission", since the intent is to rescind the authority of a person to be an officer and not merely to revoke the written indicia of that authority. The word "regular" is inserted for clarity, since only regular officers are on the "active list". The word "discharge" is substituted for the words "revoke the commission", since the discharge of the officer would terminate his appointment. The words "hereafter", "on the active list", "at the date of said revocation", "initially commissioned after the date of this section", and "and each officer whose commission is so revoked shall be discharged from the Army" are omitted as surplusage.

The words "the circumstances and in accordance with", in 5: 627f (b), 10: 81-2 (last proviso), and 10: 166j, are omitted as surplusage. The word "appointment" is substituted for the word "commission", in 5: 627f (b), 10: 81-2, and 10: 166j, and for the word "warrant", in 5:627f (b), since the intent is to rescind the authority of a person to be an officer, and not merely to revoke the written indicia of authority. The applicability of 10: 81-2 (last proviso) and 166j to the separation of reserve officers is omitted as superseded by section 1162 of this title. The words "any female member" are substituted for the words "of any female person", in 5: 627f (b); "any officer appointed pursuant hereto", in 10: 81-2; and "any officer commissioned in any of the corps established by sections 166—166*l* and 374—377 of this title", in 10: 166j; since these words, collectively, describe all of the female members of the Regular Air Force. The last sentence is inserted because of section 1161 of this title. 10: 81-2 (less provisos) is omitted from this title as executed, since distinctions between the applicability of laws to men and women are omitted except where the context requires otherwise.

SEPARATION FROM SERVICE

1966—Subsec. (a). Pub. L. 89–718 substituted "8301" for "47a".

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 8927 of this title.

§ 8923. Thirty-five years or five years in grade: regular major generals.

Unless retired or separated at an earlier date, each officer in the regular grade of major general shall be retired, except as provided by section 8301 of title 5, on the fifth anniversary of the date of his appointment in that regular grade, or on the thirtieth day after he completes 35 years of service computed under section 8927(a) of this title, whichever is later. However, the Secretary of the Air Force may defer the retirement under this section of—

(1) any such major general, but not later than the date on which he becomes 60 years of age; and

(2) any such major general who is serving in a temporary grade above major general, or who is serving in a position that carries a grade above major general, but not later than the date on which he becomes 64 years of age; and not more than five deferments under this clause may be in effect at any one time.

(Aug. 10, 1956, ch. 1041, 70A Stat. 552; Nov. 2, 1966, Pub. L. 89–718, § 3, 80 Stat. 1115.)

8923	10: 941a (d) (1st sentence and clause (1)).	Aug. 7, 1947, ch. 512, § 514 (d) (1st sentence and clause (1)), 61 Stat. 903, 904.

10: 941a (d) (1st sentence) is omitted as surplusage, since it is merely a statement of the general coverage of 10: 941a (d) and (e). The words "After that date which is six months after August 7, 1947" are omitted as executed. The words "unless provided otherwise by some provision of law", "heretofore or hereafter appointed", "under other provisions of law", "eliminated from the active list and", and "unless he is permanently appointed in a grade above that of major general before the later of such two dates" are omitted as surplusage. The words "the thirtieth day after" are substituted for the words "that date which is thirty days after the date upon which". The words "but not later than the date on which he becomes 60 years of age" are substituted for the words "until age sixty is reached", to make it clear that the Secretary can retire the officer between the time he is deferred and the time he reaches that age. For the same reason, the words "but not later than the date on which he becomes 64 years of age" are substituted for the words "until age sixty-four is reached". The words "computed under section 8927 (a) of this title" are inserted for clarity. The words "may defer the retirement under this section" are substituted for the words "may, in the discretion of * * * be retained on the active list". The words "except as provided by section 47a of title 5" are inserted, since that section controls the effective date of retirement under this title. The word "five" is substituted for the word "ten" to reflect the allocation of spaces covered by this section, between the Army and the Air Force under section 208 (e) of the National Security Act of 1947 (5 U. S. C. 626c (e)). (See revision note for section 8922 of this title.)

§ 8924. Forty years or more: Air Force officers.

(a) Except as provided in section 8786 of this title, a commissioned officer of the Air Force who has at least 40 years of service computed under section 8926 of this title shall be retired upon his request.

8924 (a)	10: 942 (as applicable to commissioned officers).	June 30, 1882, ch. 254 (last 21 words of 3d proviso under "Pay Department"), 22 Stat. 118.
8924 (b)	10: 942 (less applicability to commissioned officers).	

In subsection (a), the words "Except as provided in section 8786 of this title" are inserted, since, under that revised section, when board proceedings are pending against a commissioned officer, his right to retire under this revised section, which is otherwise absolute, is discretionary with the Secretary under that revised section.

In subsections (a) and (b), the words "or volunteer service, or both" are omitted as obsolete in accordance with an opinion of the Attorney General, 22 Ops. Atty. Gen. 199, Aug. 30, 1898, holding that such words refer to volunteer service in the Civil War. The words "upon

his request" are substituted for the words "if he make application therefor to the President".

In subsection (b), the applicability of 10: 942 to warrant officers is based on an opinion of the Judge Advocate General of the Army (JAGA 1950/6951, 4 Jan. 1951), which holds that 10: 594 (less provisos) makes 10: 942 applicable to warrant officers.

SECTION REFERRED TO IN OTHER SECTIONS

§ 8925. Computation of years of service: voluntary retirement; regular enlisted members.

(a) For the purpose of determining whether a regular enlisted member of the Air Force may be retired under section 8914 or 8917 of this title, and of computing his retired pay under section 8991 of this title, his years of service are computed by adding all active service in the armed forces and service computed under section 8683 of this title.

(b) Time required to be made up under section 972 of this title may not be counted in computing years of service under subsection (a). (Aug. 10, 1956, ch. 1041, 70A Stat. 552; Sept. 2, 1958, Pub. L. 85–861, § 1 (195), 72 Stat. 1540.)

8925 (b)	No source.	Aug. 10, 1946, ch. 952, § 6 (b), 60 Stat. 996.

In subsection (a), the words "active service" are substituted for the word "service", in 10: 947, and "active Federal service performed", in 10: 958, for uniformity. The words "service computed under section 8683 of this title" are inserted, since a person entitled to count service under that revised section might cease to be a nurse or woman medical specialist and thereafter become entitled to retire under one of the revised sections referred to in subsection (a) of this revised section.

Subsection (b) is inserted because of section 8638 of this title and in accordance with long standing interpretation of the effect of 10: 629 upon the computation of years of service for retirement.

§ 8926. Computation of years of service: voluntary retirement; regular and reserve commissioned officers.

(a) For the purpose of determining whether an officer of the Air Force may be retired under section 8911, 8918, or 8924 of this title, his years of service are computed by adding—

(1) all active service performed as a member of the Army or the Air Force;

(2) all service in the Navy or Marine Corps that may be included in determining the eligibility of an officer of the Navy or Marine Corps for retirement;

(3) all service computed under section 8683 of this title; and

(4) if an officer of the Regular Air Force, all active service performed as an officer of the Philippine Constabulary.

(b) For the purpose of determining whether a medical officer of the Regular Air Force may be retired under section 8911, 8918, or 8924 of this title, his years of service are computed by adding to his service under subsection (a) all service performed as a contract surgeon, acting assistant surgeon, or contract physician, under a contract to serve full time and to take and change station as ordered.

(c) For the purpose of determining whether a dental officer of the Regular Air Force may be retired under section 8911, 8918, or 8924 of this title, his years of service are computed by adding to his service under subsection (a) all service as a contract dental surgeon or acting dental surgeon.

(d) For the purpose of determining whether an Air Force nurse or medical specialist may be retired under section 8911 of this title, all service computed under section 8683 of this title shall be treated as if it was service as a commissioned officer. Subsection (a) consolidates the various service computation provisions applicable to voluntary retirement of commissioned officers. Clause (1) is substituted for 10: 951. Clause (2) is substituted for 10: 951b. The words "pay period and", in 10: 951a, are omitted as superseded by section 202 of the Career Compensation Act of 1949, 63 Stat. 807 (37 U. S. C. 233). The words "longevity pay and", in section 7 of the act of June 18, 1878, ch. 263, 20 Stat. 150, are omitted for the same reason. The last sentence of section 7 of that act is omitted, since the distinction between limited and unlimited retired lists was abolished by section 201 of the act of June 29, 1948, ch. 708, 62 Stat. 1084. Clause (3) is inserted, since a person entitled to count service under section 8683 of this title might cease to be a nurse or woman medical specialist and thereafter become entitled to retire under one of the revised sections referred to in subsection (a) of this revised section.

In subsection (b), the words "as a member of the Medical Reserve Corps", in 10: 953a, are omitted as covered by subsection (a) (1). The words "are computed by adding to his service under subsection (a)" are substituted for the words "shall be credited to the same extent as service under a Regular Army commission".

Subsection (c) is substituted for 10: 953a (less 1st sentence).

The applicability of the rule stated in the revised section to situations not expressly covered by the laws named in the source credits above is necessarily implied from laws providing for retirement in higher grade in those situations.

§ 8962. Higher grade for service in special positions: regular commissioned officers.

(a) Upon retirement, a commissioned officer of the Regular Air Force who has served (1) as Chief of Staff to the President, (2) as Chief of Staff of the Air Force, (3) as a senior member of the Military Staff Committee of the United Nations, (4) in a position of importance and responsibility designated by the President to carry the grade of general or lieutenant general under section 8066 of this title, or (5) as Surgeon General of the Air Force in the grade of lieutenant general may, in the discretion of the President, be retired, by and with the advice and consent of the Senate, in the highest grade held by him at any time on the active list.

(b) Upon retirement, any permanent professor of the United States Air Force Academy whose grade is below brigadier general, and whose service as such a professor has been long and distinguished, may, in the discretion of the President, be retired in the grade of brigadier general. (Aug. 10, 1956, ch. 1041, 70A Stat. 554; Sept. 2, 1958, Pub. L. 85–861, § 1 (197), 72 Stat. 1541; Oct. 22, 1965, Pub. L. 89–288, § 6, 79 Stat. 1050.)

In subsection (a), the words "who has served (1) as Chief of Staff to the President, (2) as Chief of Staff of the Air Force, (3) as a senior member of the Military Staff Committee of the United Nations, or (4) in a position of importance and responsibility designated by the President to carry the grade of general or lieutenant general under section 8066 of this title" are substituted for the words "while serving in accordance with the provisions of subsection (b) or (c) of this section".

In subsection (b), the words "in that grade" are substituted for the words "in such higher temporary grade". The words "under section 8071 of this title" are inserted for clarity.

In subsection (c), the words "Upon retirement" are substituted for the words "When * * * is retired". The word "allowances" is omitted, since retired officers are not entitled to allowances. The words "grade is below brigadier general" are inserted, since any permanent professor who has the grade of brigadier general retires in that grade under section 9335 of this title.

AMENDMENTS

1965—Subsec. (a). Pub. L. 89–288 added the Surgeon General of the Air Force to the list of commissioned officers who may, in the discretion of the President, be retired, by and with the advice and consent of the Senate, in the highest grade held by him at any time on the active list.

1958—Subsec. (b). Pub. L. 85–861 redesignated former subsec. (c) as (b), and repealed former subsec. (b) which related to retirement grade of a woman Air Force officer who served at least two and one-half years on active duty in the temporary grade of colonel in the Air Force under section 8071 of this title.

(a) A regular commissioned officer who is retired, or a reserve commissioned officer who is retired or to whom retired pay is granted, is entitled to a retired grade equal to the highest temporary grade in which he served on active duty satisfactorily, as determined by the Secretary of the Air Force, for not less than six months.

8963 (b)	10: 1003 (less last 40 words).	

In subsection (a), the words "is entitled to a retired grade equal to" are substituted for the words "shall be advanced on the applicable officers' retired list to". The words "after * * * and before" are substituted for the words "during the period * * * to". The words "under any provision of law" are omitted as surplusage.

In subsections (a) and (b), the provisions of 10: 1002 and 1003, applicable to members retired before the enactment of this title, are omitted as executed. Members retired after enactment of this title are entitled to the higher retired grade upon retirement, and are not advanced on the retired list to that grade.

In subsection (b), the provisions of 10: 1003 are limited to nurses and women medical specialists of the Regular

Air Force, since, under section 113 of the Army-Navy Nurses Act of 1947 (10: 166*l*), no further appointments may be made under the acts of July 9, 1918, ch. 143, 40 Stat. 879, December 22, 1942, ch. 805, 56 Stat. 1073, and June 22, 1944, ch. 272, 58 Stat. 324, and appointments previously made thereunder ceased to exist on October 17, 1947, except as to certain retirement and other rights which are now executed. The words "is entitled to a retired grade equal to the highest grade or relative rank" are substituted for the words "shall be advanced on the retired list to a grade with relative rank equal to the highest grade * * * or to the highest relative or commissioned rank".

AMENDMENTS

1958—Subsec. (a). Pub. L. 85–861, § 1 (198), eliminated words "in the Army" following "highest temporary grade", and ", after September 8, 1940, and before July 1, 1946" following "six months".

Subsec. (b). Pub. L. 85–861, § 1 (156), eliminated the word "woman" which preceded "medical specialist", and "female" which preceded "dietitian" and "officer appointed in the Army".

§ 8964. Higher grade after 30 years of service: Air Force warrant officers; regular enlisted members.

Each warrant officer of the Air Force, and each enlisted member of the Regular Air Force, who is retired before or after this title is enacted is entitled, when his active service plus his service on the retired list totals 30 years, to be advanced on the retired list to the grade that is equal to the highest temporary grade in which he served on active duty satisfactorily, as determined by the Secretary of the Air Force. (Aug. 10, 1956, ch. 1041, 70A Stat. 555; Sept. 2, 1958, Pub. L. 85–861, § 1 (198A), 72 Stat. 1541.)

The words "when his active service plus his service on the retired list totals 30 years" are substituted for the words "upon the completion of thirty years' [years of] service, to include the sum of his active service and his service on the retired list", in 10: 594 and 1004. The words "under any provision of law", in 10: 594 and 1004; "officer, flight officer, or warrant officer", in 10: 594; and "commissioned, warrant, or enlisted", in 10: 1004; are omitted as surplusage. 10: 594 (last proviso) and 1004 (proviso) are omitted as superseded by section 1372 of this title.

In subsections (a), (b), and (d), the word "maintain" is substituted for the word "establish", and in subsection (c) the word "maintain" is substituted for the word "established", since the lists have been established and are published annually.

In subsection (a), the words "Effective upon June 29, 1948" are omitted as executed. 10: 1001 (last 12 words of 1st sentence, and last sentence) is omitted as no longer required, since, upon enactment of this title, laws referring to the limited or unlimited retired list will be expressly repealed.

In subsection (b), the word "shall" is substituted for the word "may", since 10: 1036 further requires that such a list be published annually in the Register. The requirement as to publication necessarily implies that the list must be maintained.

Subsection (b) (1) is substituted for the words "all commissioned officers and former commissioned officers * * * or the Air Force of the United States, as the case may be * * * or the Regular Air Force, heretofore or hereafter granted retirement pay under sections 456, 456a, and 1036a of this title, or any law hereafter enacted to provide retirement pay for commissioned officers * * * or the Regular Air Force".

In subsection (b) (2), the words "who is advanced to a commissioned grade" are substituted for the words "heretofore or hereafter retired under any provision of law who, by reason of service in temporary commisioned grades * * * or the Air Force of the United States, or in any of the respective components thereof, are entitled to be retired with commissioned rank or grade".

Subsections (c) and (d) are inserted, since sections 8964 and 8965 of this title refer to service on the retired list as a warrant officer or enlisted member.

AMENDMENTS

1958—Pub. L. 85–861 eliminated provisions in subsecs. (a) and (b) which required annual publication in the official Air Force Register of the retired list.

8991. Computation of retired pay.

§ 8991. Computation of retired pay.

The monthly retired pay of a person entitled thereto under this subtitle is computed according to the following table. For each case covered by a section of this title named in the column headed "For sections", retired pay is computed by taking, in order, the steps prescribed opposite it in columns 1, 2, 3, and 4, as modified by the applicable footnotes. However, if a person would otherwise be entitled to retired pay computed under more than one pay formula of this table or the table in section 1401 of this title, he is entitled to be paid under the applicable formula that is most favorable to him. Section references below are to sections of this title.

Formula	For sections	Column 1 Take	Column 2 Multiply by	Column 3 Add	Column 4 Subtract
A	8883 8884 8885 8886 8913 8915 8916 8919 8921 8922 8923	Monthly basic pay [2] of member's retired grade.[1]	2½% of years of service credited to him under section 8888 or 8927(b), whichever is applicable.[4]	Amount necessary to increase product of colums 1 and 2 to 50% of pay upon which computation is based.	Excess over 75% of pay upon which computation is based.
B	8911 8918 8920 8924	Monthly basic pay [2] of member's retired grade.[1]	2½% of years of service credited to him under section 1405 of this title.[4]		Excess over 75% of pay upon which computation is based.
C	8914	Monthly basic pay [3] to which member was entitled on day before he retired.	2½% of years of service credited to him under section 8925.[4]	10% of product of columns 1 and 2 for extraordinary heroism in line of duty.[5]	Excess over 75% of pay upon which computation is based.
D	8917	Monthly basic pay [3] to which member was entitled on day before he retired.	2½% of years of service credited to him under section 8925.[4]		Excess over 75% of pay upon which computation is based.

[1] For the purposes of this section, determine member's retired grade as if section 8962(b) did not apply and, for an officer who has served as Chief of Staff, compute at the highest rates of basic pay applicable to him while he served in that office.
[2] Compute at rates applicable on date of retirement.
[3] Compute at rates applicable on date of retirement, or if the member has served as chief master sergeant of the Air Force, compute at the highest basic pay applicable to him while he so served, if such basic pay is greater.
[4] Before applying percentage factor, credit a part of a year that is six months or more as a whole year, and disregard a part of a year that is less than six months.
[5] The Secretary of the Air Force's determination as to extraordinary heroism is conclusive for all purposes.

8991 footnote 5.	10: 948 (1st proviso of last sentence).	

In the introductory paragraph, the applicability of the rule stated in the third sentence to situations not expressly covered by the laws named in the source

statutes above is a practical construction that the rule must be reciprocally applied in all cases.

In formula B, the words "basic pay" are substituted for the words "base and longevity pay" to conform to the terminology of the Career Compensation Act of 1949, 63 Stat. 802 (37 U. S. C. 231 et seq.). The words "his retired grade" are substituted for the words "permanent grade held at time of retirement" to reflect the right to higher retired grade when qualified under other provisions of law. 10: 941a (e) (last proviso of clause (1)), is omitted, since, under section 202 of the Career Compensation Act of 1949, 63 Stat. 807 (37 U. S. C. 233), the active duty pay of all members of the Air Force is based upon years of service.

In formula C, the computation is based on monthly pay instead of annual pay to conform to the other formulas of the revised section. The words "basic pay" are substituted for the words "active duty base and longevity pay", and the words "in determining his basic pay" are substituted for the words "for longevity pay purposes", to conform to the terminology of the Career Compensation Act of 1949, 63 Stat. 802 (37 U. S. C. 231 et seq.). The words "Monthly basic pay of member's retired grade" are substituted for the words "the rank upon which they are retired", in 10: 971, and "rank with which retired", in 10: 971b, to reflect their right to advancement on the retired list, 10: 971 now applies only when the retiring officer has 30 or more years of service which may be credited in computing his retired pay. 10: 971b (2d proviso) is omitted, since, under section 202 of the Career Compensation Act of 1949, 63 Stat. 807 (37 U. S. C. 233), the pay of all members is based upon cumulative years of service. 10: 971b (4th proviso) is omitted as executed. 10: 971b (last proviso) is omitted, since the distinction between limited and unlimited retired lists was abolished by section 201 of the act of June 29, 1948, ch. 708, 62 Stat. 1084. Sections 8918, 8920, and 8924 are included under this formula, since it achieves the same result as is reached on a basis of 30 years multiplied by 2½ percent, and simplifies the table.

In formulas D and E the words "credited under section 8925" are substituted for the words "active Federal service", since that revised section makes explicit the service covered. The act of August 10, 1946, ch. 952, § 6 (c), 60 Stat. 996, is not contained in 10: 948. It is also omitted from the revised section as executed. 10: 980 now applies only when the retiring enlisted member has at least 30 years of service which may be credited in computing his retired pay. However, as noted above, 10: 980 is the only provision of law applicable to cases in which the retiring member has at least 30 years of service. The act of June 16, 1942, ch. 413, § 19 (63d through 75th words of 2d par.), 56 Stat. 369, repealed so much of the act of March 2, 1907, ch. 2513, 34 Stat. 1217, as provided allowances for enlisted men on the retired list. The repeal of section 19 of the act of June 16, 1942, by section 531 (b) (34) of the Career Compensation Act of 1949, 63 Stat. 839, did not revive that portion of the Act of March 2, 1907, which had been repealed by the Act of June 16, 1942. Accordingly, the act of March 2, 1907, as thus modified by the act of June 16, 1942, is used as the basis for formula E.

Footnote 2 reflects the long-standing construction of those provisions dealing with computation of retired pay which do not specifically provide that the member is entitled to compute his retired pay on the basis of the monthly basic pay to which he would be entitled if he were on active duty in his retired grade. Except in cases covered by formula C, the pertinent basic computation provisions for such retirement either provide for computation of retired pay on the same basis as the provisions dealing with higher retired grade, or the basic retirement provisions were themselves enacted after the provisions authorizing higher retired grade. The provisos of 10: 1002 and 1005 are omitted as surplusage, since no formula for the computation of retired pay includes inactive service on the retired list as a credit.

The words "at rates applicable on date of retirement and adjust to reflect later changes in permanent rates", in footnote 2; and all of footnote 4; are based on the source statutes incorporated in the formulas to which footnotes 2 and 4 apply.

In footnote 4, the words "and disregard a part of a year that is less than six months" are made applicable to formulas A—E, although this part of the rule is expressed only as to formula B, in 10: 941a (4) (1). The legislative history of the Career Compensation Act of 1949 (Hearings before the Committee on Armed Services of the Senate on H. R. 5007, 81st Congress, first session, p. 313, July 6, 1949) indicates that the provisions, upon which formulas A and C—E are based, should be construed to require that a part of a year that is less than six months be disregarded.

Amendments

1967—Pub. L. 90-207 inserted ", or if the member has served as chief master sergeant of the Air Force, compute at the highest basic pay applicable to him while he so served, if such basic pay is greater" following "retirement" in footnote 3 of the table.

1963—Pub. L. 88-132 substituted in column 1 of Formula A in the table "Monthly basic pay[2] of member's retired grade[1]" for "Monthly basic pay to which member would be entitled if he were on active duty in his retired grade[1]" and eliminated from footnote 2 to such table "and adjust to reflect later changes in applicable permanent rates. However, if member's retired grade is determined under section 3963(a) or 3963(b), use pay to which member would be entitled if he were on active duty in his retired grade" following "date of retirement."

1962—Pub. L. 87-651 substituted "section 8962(b)" for "section 8962(c)" in footnote 1.

1958—Formula B. Pub. L. 85-422, § 11 (a) (9), substituted "credited to him under section 1405 of this title" for "credited to him in determining basic pay" in Column 2.

Formula C. Pub. L. 85-422, § 6 (8), substituted "Monthly basic pay to which member was entitled on day before he retired" for "Monthly basic pay to which member was entitled on date when he applied for retirement" in Column 1.

Formula D. Pub. L. 85-422, § 6 (8), substituted "Monthly basic pay to which member was entitled on day before he retired" for "Monthly basic pay of member's retired grade" in Column 1.

Footnote 1. Pub. L. 85-422, § 6 (6), permitted in the case of an officer who has served as Chief of Staff, computation at the highest rates of basic pay applicable to him while he served in that office.

Footnote 2. Pub. L. 85-861 eliminated a reference to section 8962 (b).

1957—Pub. L. 85-155 redesignated formulas "B"—"E" of the table as formulas "A"—"D". Former formula "A", which related to computation of retirement pay for persons retired under former sections 8881, 8882, and 8912 of this title, was repealed by such Pub. L. 85-155.

(h) The Secretary may, by regulation, provide for the procurement and sale of stores designated by him to such civilian officers and employees of the United States, and such other persons, as he considers proper—

(1) at military installations outside the United States; and

(2) at military installations inside the United States where he determines that it is impracticable for those civilian officers, employees, and persons to obtain those stores from private agencies without impairing the efficient operation of military activities.

However, sales to those officers and employees inside the United States may be made only to those residing within military installations.

(i) Appropriations for subsistence of the Air Force may be applied to the purchase of subsistence supplies for sale to members of the Air Force on active duty for the use of themselves and their families. In subsection (a), the word "members" is substituted for the words "officers and enlisted men", in 10: 1237. Clause (2) is substituted for 10: 904. Reference to the Secretary of the Air Force is substituted for reference to branch, office, or officers of the Army, in 10: 1237, since

the functions which, for the Army are assigned to subordinate officers, are, for the Air Force assigned to the Secretary of the Air Force. 32: 156 is omitted as covered by 10: 904, since the words "officers of the Air Force" necessarily cover all persons named in 32: 156. The words "Except for articles and items acquired through the use of working capital funds under sections 172—172j of title 5" are inserted to reflect title IV of the National Security Act of 1947, as amended (63 Stat. 585), which authorized the Secretary of Defense to prescribe regulations governing the use and sale of certain inventories at cost, including applicable administrative expenses. (See opinion of the Assistant General Counsel (Fiscal Matters) of the Office of the Secretary of Defense, January 4, 1955.)

In subsection (b), the first sentence states expressly the rule which is implicit in 10: 1238. The word "members" is substituted for the words "officers and enlisted men". The words "shall be understood, in all cases of such sales" are omitted as surplusage. The last sentence is inserted to reflect title IV of the National Security Act of 1947, as amended (63 Stat. 585), which authorized the Secretary of Defense to prescribe regulations governing the use and sale of certain inventories at cost, including applicable administrative expenses. (See opinion of the Deputy General Counsel of the Office of the Secretary of Defense, March 28, 1956.)

In subsection (c), the word "members" is substituted for the words "officers and enlisted men". The words "prices at which like property is sold to" are substituted for the words "same price as is charged the".

In subsections (c) and (d), the words "other armed forces" are substituted for the words "Navy and Marine Corps", since such sales are authorized to members of the Coast Guard by section 144 (b) of Title 14.

In subsection (d), the words "other than subsistence supplies" are inserted, since the sale of subsistence supplies is covered by subsection (c).

In subsection (e), the words "a person who has been discharged" are substituted for the words "discharged officers and enlisted men". The words "Navy * * * or Marine Corps", omitted from the 1952 edition of the United States Code, are inserted to conform to the source statute. The words "may buy" are substituted for the words "shall * * * be permitted to purchase". The words "at the prices at which like property is sold" are substituted for the words "at the same price as charged". The word "member" is substituted for the words "officers and enlisted men". The words "while undergoing such care and treatment" are omitted as surplusage.

In subsection (f), the words "person who has been discharged" are substituted for the words "former members * * * who have been separated therefrom". The words "at the prices at which like articles are sold to members" are inserted to conform to the last sentence of subsection (a) and subsection (e).

In subsection (g), the words "regulations to be prescribed by the Secretary" are substituted for the words "Army Regulations". The words "of the Government" are omitted as surplusage. 10: 1253 (last 22 words of 1st sentence) is omitted as surplusage. The words "or to another executive department of the Government" are omitted as superseded by section 7 of the act of May 21, 1920, ch. 194, as amended (31 U. S. C. 686). The provisions of 10: 1253 relating to the computation of cost are omitted to reflect title IV of the National Security Act of 1947, as amended (63 Stat. 585), which authorized the Secretary of Defense to prescribe regulations governing the use and sale of certain inventories at cost, including applicable administrative expenses. (See opinion of the Assistant General Counsel (Fiscal Matters) of the Office of the Secretary of Defense, January 4, 1955.)

In subsection (h), the word "outside" is substituted for the words "beyond the continental limitations". The words "or in Alaska" are omitted, since, under section 101 (1) of this title, the words "United States" are defined to include only the States and the District of Columbia. The word "continental", after the words "within the", is omitted for the same reason. The last sentence is substituted for 10: 1241 (proviso).

In subsection (i), 10: 1196 (last 30 words) is omitted as superseded by the act of April 27, 1914, ch. 72 (last proviso under "Subsistence of the Army"), 38 Stat. 361. The words "So much of the" and "as may be necessary" are omitted as surplusage. The words "members * * * on active duty, for the use of themselves and their families" are substituted for the words "officers for the use of themselves and their families, and to commanders of companies or other organizations, for the use of the enlisted men of their companies or organizations", to conform to 10: 1237 and 1238. Those sections provide the basic authority for procurement and sale of subsistence supplies to all members. This interpretation conforms to established administrative practice under those sections. The word "supplies" is substituted for the word "stores".

The words "subject to such regulations as he may prescribe" are omitted, since the Secretary has inherent authority to issue regulations appropriate to exercising his statutory functions. The words "to any of the 'National Homes for Disabled Volunteer Soldiers' already established or hereafter established and", in the act of February 8, 1889, ch. 116, 25 Stat. 657, are not contained in 50: 66 (2d sentence). They are also omitted from the revised section, since the National Homes for Disabled Volunteer Soldiers were dissolved by the Act of July 3, 1930, ch. 863, 46 Stat. 1016. The acts of March 3, 1899, ch. 643 (1st proviso under "Ordnance Department"), 30 Stat. 1073; and May 26, 1900, ch. 586 (1st proviso under "Ordnance Department"), 31 Stat. 216, as amended, relating to disposal of ordnance to "Homes for Disabled Volunteer Soldiers" by the Chief of Ordnance of the Army, became inoperative when the Homes were dissolved. Although section 402 (e) of the Army Organization Act of 1950, ch. 383, 64 Stat. 273, amended the act of May 26, 1900, it did not have the effect of reviving that act. The word "give" is substituted for the word "deliver" to express more clearly the intent of the section. The words "serviceable" and "as may be on hand undisposed of" are omitted as surplusage. The word "may" is substituted for the words "is authorized and directed", since section 9684 of this title provides an alternative method for the disposal of obsolete cannon.

(c) After five years from the date of death, the Home shall dispose of effects that are not sold under subsection (b) and to which a right has not been established by the heirs or legal representative of the deceased, including decorations, medals, and citations, in the manner that it considers most appropriate in the public interest. It may retain them; deliver them to the Veterans' Administration, a State or other military home, a museum, or other appropriate institution, or destroy them if the Board of Commissioners of the Home determines that they are valueless.

(d) The net proceeds received by the Home from the sale of the deceased's effects shall be covered into the Treasury to the credit of the fund called the "Soldiers' Home permanent fund (trust fund)", and the principal of the fund so increased shall draw interest at 3 percent a year, payable quarterly to the treasurer of the Home.

HISTORICAL AND REVISION NOTES

Revised section	Source (U.S. Code)	Source (Statutes at Large)
9746	10: 1371a.	Nov. 21, 1941, ch. 483; restated July 25, 1947, ch. 321, 61 Stat. 423.

Before the enactment of the National Security Act of 1947, the transport functions covered by this section were performed only by the Army. Under Transfer Order 26, 15 Oct. 1948, JAAF Bull. 42, 1948; JAAFAR 4-55-1, par. 2a (1) (f), 29 Oct. 1948; AR 96-15, AFR 76-7, 5 June 1951; AR 96-20, AFR 76-6, 11 June 1953, these transport functions also became the responsibility of the Secretary of the Air Force.

Under section 2 (a) (3) of the National Security Act (as it existed before August 10, 1949), the sea transportation functions of the Army and Navy, and the air transportation functions of the Army, Navy, and Air Force were respectively consolidated into the "Military Sea Transportation Service", under the Department of the Navy, and the "Military Air Transport Service", under the Department of the Air Force. Instead of having space on transport vessels and airplanes operated by it for its sole use, the Air Force is allotted bulk space on vessels and airplanes operated by military transport agencies operating for the benefit of the Department of Defense as a whole. The words "or, within bulk space allocations made to the Department of the Air Force, on vessels or airplanes operated by any military transport agency of the Department of Defense" are inserted, in accordance with an opinion of the Judge Advocate General of the Army (JAGA 1953/5885, 22 July 1953), concurred in by the Judge Advocate General of the Air Force, to make clear that the rule applicable to vessels and airplanes applies to the bulk space allocated to the Air Force. Since the authority to perform transportation functions could again be transferred as between the military departments, the references to airplanes of Air Force transport agencies (as distinct from bulk space allocations thereon) is retained.

The word "considers" is substituted for the words "in the opinion of". The words "Persons residing in Alaska who are and have been employed there by the United States", are substituted for the words "employees of the United States, residing in Alaska, who have been in such employment". The word "commercial" is substituted for the word "civil" for clarity. The words "from and after November 21, 1941", "and the carriage of all such air traffic shall be terminated", "dire", "the privilege herein granted", and "as to each eligible individual" are omitted as surplusage. The words "the continental" are omitted, since section 101 (1) of this title defines the United States as "the States and the District of Columbia".

Section, act Aug. 10, 1956, ch. 1041, 70A Stat. 588, related to transportation of motor vehicles for members on permanent change of station, and is now covered by section 2634 of this title.

(a) The Secretary of the Air Force shall determine the sites of such additional permanent air bases and depots in all strategic areas of the United States and the Territories, Commonwealths, possessions, and holdings as he considers necessary. He shall determine when the enlargement of existing air bases and depots is necessary for the effective peacetime training of the Air Force.

(b) In determining the sites of new air bases and depots, the Secretary shall consider the following regions for the purposes indicated—

(1) the Atlantic northeast, for training in cold weather and in fog;

(2) the Atlantic southeast and Caribbean areas, for training in long-range operations, especially those incident to reinforcing the defenses of the Panama Canal;

(3) the southeastern United States, to provide a depot necessary to maintain the Air Force;

(4) the Pacific northwest, to establish and maintain air communication with Alaska;

(5) Alaska, for training under conditions of extreme cold;

(c) In selecting sites for air bases and depots covered by this section and in determining the alteration or enlargement of existing air bases or depots, the Secretary shall consider the need—

(1) to form the nucleus for concentration of Air Force units in time of war;

(2) to permit, in time of peace, training and effective planning in each strategic area for the use and expansion of commercial, municipal, and private flying installations in time of war;

(3) to locate, in each strategic area in which it is considered necessary, adequate storage facilities for munitions and other articles necessary to facilitate the movement, concentration, maintenance, and operation of the Air Force; and

(4) to afford the maximum warning against surprise attack by enemy aircraft upon aviation of the United States and its necessary installations consistent with maintaining, in connection with existing or contemplated landing fields, the full power of the Air Force for operations necessary in the defense of the United States, and in the defense and reinforcement of the Territories, Commonwealths, possessions, and holdings.

(d) In carrying out this section, the Secretary, on behalf of the United States, may acquire title, in fee simple and free of encumbrance, to any land that he considers necessary—

(1) by accepting title without cost to the United States;

(2) by exchanging military reservations or parts thereof for that land, upon the written approval of the President; or

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 9774 of this title.

§ 9774. Construction of quarters: limitations on space and cost.

(a) In the construction of family quarters from appropriated funds for members of the Air Force, the following are the maximum limitations on net floor area for each unit:

Grade	*Square feet*
General officer	2,100
Colonel	1,670
Major or lieutenant colonel	1,400
Officer below major	1,250
Enlisted member	1,080

In this section, "net floor area" means the space inside the exterior walls, excluding basement, service space instead of basement, attic, garage, and porches.

(b) The maximum limitations prescribed by subsection (a) are increased 10 percent for quarters of the commanding officer of any station, air base, or other installation, based on the grade authorized for that position.

(c) The maximum limitations for family quarters constructed from appropriated funds for civilians are the same as those for members of the Air Force of comparable responsibility, grade, and pay, as determined by the Secretary of the Air Force.

(d) Except when built by members of the Air Force, no permanent barrack, quarters, building, or other permanent structure may be built unless a detailed estimate of its cost has been submitted to Congress and a specific appropriation has been made therefor. No one may build such a structure without specific authority of Congress if the cost is more than $100,000.

(e) A limitation upon the cost of quarters built for members of the Air Force does not apply to expenditures for work and equipment outside those quarters, including expenditures for—

(1) the furnishing of electricity, gas, water, and sewage disposal;

(2) roads and walks;

(3) grading and drainage; and

(4) the construction of air bases or depots under section 9773 of this title.

(f) If the Secretary of Defense, or his designee, determines, on the basis of a survey of the family housing needs at any installations where the construction of family housing is authorized, that the construction of four-bedroom units for enlisted men is required, such units may be constructed with a net floor area of one thousand two hundred and fifty square feet or less.

(g) If the Secretary of Defense, or his designee, determines, on the basis of a survey of the family housing needs at an installation where the construction of family housing is authorized, that the construction of four-bedroom units for officers holding grades below major is required, such units may be constructed with a net floor area of one thousand four hundred square feet or less.

(h) The maximum limitations prescribed by subsections (a), (f), and (g) may be increased up to 15 per centum if the Secretary of Defense, or his designee, determines that such increase is in the best interest of the Government to permit award of a turnkey construction contract for family housing to the contractor offering the most satisfactory pro-

posal. (Aug. 10, 1956, ch. 1041, 70A Stat. 590; Aug. 30, 1957, Pub. L. 85–241, title IV, § 404(c), 71 Stat. 556; Aug. 10, 1959, Pub. L. 86–149, title IV, § 410(c), 73 Stat. 322; July 27, 1962, Pub.
